

# MINING, BUSINESS AND STOCKS.

## THE WEEK ON THE EXCHANGE.

Sales Record a High Average Value Per Share.

### GRAND CENTRAL STRONGER.

Daily-West Advancing Again—Mammoth Is Much Stronger—Sunbeam Falling Off—May Day Strong.

### TODAY'S METALS:

SILVER 59 3/4  
LEAD \$4.87 1/2  
CASTING COPPER 15 1/4

An improvement is noticeable in the stock market this week. Altogether \$2,942 shares of stock were sold on the exchange which brought \$51,925.48, or almost an average of 60 cents a share. The feature of the week has been the phenomenal advance in Daily-West, which advanced from around \$12.25 to \$17.25 a share, and afterwards declined to \$15.25, from which figure it has strengthened to today's quotations of \$15.62 1/2 and 1/4 asked.

Yankee Con. also made some startling advances a day or two ago. After selling around 8 cents for some time past it suddenly jumped forward to 13, apparently without any reason for the advance. It closes much weaker today, however.

Reports from the Grand Central that the vein has been entered on the 300 level and that the ore chute as developed by the wing will be tapped within ten days caused the stock to advance to \$5.80 today, after falling around \$5.75 for some time past.

Bullion-Beck closes the week a little softer, while Mercur continues to gain strength.

Lower Mammoth recorded an advance to \$2 during the week. It has declined to around \$4 1/2, which is stronger than it was at the beginning of the week.

Mammoth, after hanging around \$2 and \$2.03 for some time past, today advanced to \$2.12, while May Day, which could have been bought for \$7 on Monday, sold up to \$12 today on the curb. Sunbeam is much weaker today. Ontario is hardly as firm as it was a few days ago, but Golden Eagle has gained strength owing to the probability that the erection of a mill will be decided upon at the meeting of the stockholders next week.

Joe Bowers, with a few men working on the 450 level shows itself a little weaker. Northern Light has gained a little during the week, as has Petro, but Daily shows a falling off now that the cyanide shipment has arrived. Geyser-Marion also shows a slight decline.

### LONDON WOOL AUCTION.

London, March 9.—Sixty-five thousand sheep skins sold at auction in London Lane today. The attendance was small and competition very slow. The home trade was the principal buyer. Long wools declined 1/4d. Short wools 1/4d. and lambs and damaged parcels 1/4d. The offerings at the wool auction sales today amounted to 10,250 bales. Merinos were well supported by Indian and German traders and American representatives secured a large quantity of Queensland Grease. The home trade secured the most of the crossbred offered. Prices were against buyers.

## PRICES TAKE A RELAPSE.

Yet the Day's Trading in Wall Street Shows a Net Gain.

Bank Reserve Falling Off—Live Stock Slow—Wheat Drops Down Again.

New York, March 10.—Wall street: Trading was on a small scale at the opening and changes were mixed. A fairly good demand arose for the railroads and specialties. Sugar, People's gas, Consolidated gas, Third Avenue and Metropolitan Street railway sold up 1/4 to 1/2 from the lowest. Some of the western and southwestern railroads were firm, particularly St. Paul and Missouri Pacific, the latter rising 1/4. Prices reacted before the appearance of the bank statement, the relapse amounting to 1/4 to 1/2 in Third Avenue and Sugar. The metals stiffened in prices again to the best. The closing was active and strong at net gains throughout the list.

### SUGAR.

Sugar—Raw, steady. Refined, dull but steady.

### MONEY AND BONDS.

Money on call steady at 2 1/2 per cent. Prime mercantile paper 4 3/4 to 5 per cent.

Sterling exchange steady with actual business in bankers' bills at 4.86 for demand and at 4.82 1/2 for 60 days; posted rates 4.83 1/2 to 4.84 and 4.87 1/2; commercial bills 4.81 1/2 to 4.82 1/4. Silver certificates, 50 1/2 to 61 1/4. Bar silver, 59 3/4. Mexican dollars, 47 1/2. State bonds, steady; railroad bonds, firm; government bonds, strong; 2s reg. 102 1/2; 3s reg. 111 1/2; do coupon, 111 1/2; new 4s reg. 134 1/2; do coupon, 136 1/2; old 4s reg. 117 1/2; do coupon, 119 1/2; 5s reg. 116 1/2; do coupon, 116 1/2.

### WEEKLY BANK STATEMENT.

New York, March 10.—The bank statement for the week shows the following changes: Surplus reserve, decrease, \$7,965,175. Loans, increase, \$1,270,000. Deposits, decrease, \$5,448,300. Legal tenders, decrease, \$2,635,709. Circulation, increase, \$37,500. The banks now hold \$5,676,375 in excess of legal requirement.

### CHICAGO MARKETS.

#### LIVE STOCK.

Chicago, March 10.—Cattle—Receipts, 200, nominally steady. Good to prime steers, 5.15 to 6.00; poor to medium, 4.00 to 4.80; stockers and feeders, 3.50 to 4.00; cows, 3.00 to 4.35; heifers, 3.10 to 4.50; calves, 2.40 to 3.00; bulls, 3.00 to 4.40; calves, 4.70 to 7.75; Texas fed steers, 3.00 to 4.30; Texas bulls, 2.50 to 3.75. Hogs—Receipts, today, 21,000; Monday, 35,000; left over, 3,301; active, 2 1/2 to 3 1/2; mixed and butchers, 4.70 to 4.97 1/2; good to choice heavy, 4.87 1/2 to 4.97 1/2; rough heavy, 4.70 to 4.85; light, 4.52 to 4.97 1/2; bulk of sales, 4.80 to 4.92 1/2. Lambs—March, 3.87 1/2; May, 3.97 1/2. Geyser Marion, 4.50. Steady. Good to choice wethers, 5.50 to 5.80; fair to choice mixed, 4.75 to 5.45; western sheep, 5.40 to 5.85; yearlings, 5.75 to 6.30; native lambs, 5.50 to 5.80; western lambs, 6.00 to 7.40.

#### PRODUCE.

May wheat opened at 66 1/4, advanced to 66 1/2, and receded to 66 1/4. Close: Wheat—March, 65 1/2; May, 65 1/2; July, 66 1/2; Sept., 67 1/4. Corn—March, 24 1/2; May, 26 1/2. Oats—March, 21 1/2; May, 22 1/2. Pork—March, 10 7/8; May, 10 7/8. Lard—March, 5 1/2; May, 5 1/2. Ribs—March, 5 1/2; May, 5 1/2. Cattle—Wheat—No. 2 red, 68 1/2; No. 3 red, 66 1/2; No. 2 hard winter, 61 1/2; No. 1 northern spring, 62 1/2; No. 2 northern spring, 60 1/2; No. 3 spring, 59 1/2. Oats—No. 2, 25 1/2; No. 3, 24 1/2. Rye—55 1/2. Barley—38 1/2 to 43. Timothy—2.50. Flax—1.50.

### KANSAS CITY LIVE STOCK.

Kansas City, Mo., March 10.—Cattle—Receipts, 200. Market unchanged. Native steers, 3.75 to 5.25; Texas steers, 2.75 to 4.50; Texas cows, 2.75 to 3.50; native cows and heifers, 1.50 to 4.50; stockers and feeders, 3.00 to 5.00; bulls, 3.00 to 4.10. Hogs—Receipts, 5,000. Market steady. Bulk of sales, 4.70 to 4.85; heavy and packers, 4.70 to 4.85; mixed, 4.57 to 4.82 1/2; light, 4.50 to 4.82 1/2; yorkers, 4.70 to 4.82 1/2; pigs, 4.00 to 4.45. Sheep—No market.

### OMAHA LIVE STOCK.

Omaha, March 10.—Cattle—Receipts 500. Market steady. Native beef steers 4.00 to 5.00; cows and heifers 3.50 to 4.25; canners 2.50 to 3.00; stockers and feeders 3.00 to 4.00; calves 4.00 to 7.25; bulls, steers, etc. 2.50 to 3.50. Hogs—Receipts 4,000. Market steady. Heavy 4.75 to 4.85; mixed 4.75 to 4.85; light 4.65 to 4.75; pigs 4.00 to 4.70. Bulk of sales, 4.70 to 4.75. Sheep—Receipts 300. Market firm. Yearlings 4.75 to 5.25; western muttons 5.25 to 5.85; stock sheep 4.00 to 5.00; lambs 6.00 to 7.10.

### DENVER LIVE STOCK.

Denver, Colo., March 10.—Cattle—Receipts 400. Market steady. Beef steers 4.10 to 4.60; cows and heifers 3.00 to 3.75; feeders, freight paid to river, 3.00 to 4.75; stockers, freight paid, 3.75 to 4.80; bulls, steers, etc. 2.50 to 3.50. Hogs—Receipts 300. Market firm. Light packers 4.60 to 4.75; mixed and heavy 4.67 to 4.75. Sheep—Receipts 900. Market firm.

### SAN FRANCISCO MARKET.

San Francisco, March 10.—Wheat steady; May 87; Dec. 1.04; cash 95. Barley—No sales; cash 75. New York, March 10.—After violent fluctuations incident to the reduction of the sugar dividend and raids upon industrial specialties, the market fell into greater and greater dullness at times approaching stagnation. No response was made to the favorable exhibits of earnings by the great railroad systems of the country nor to any other factors favoring higher prices. The drastic absorption of funds by the New York treasury for customs payments, and the rapid inroads thus made upon the surplus cash reserves of the banks, occasion growing uneasiness lest the money market should be severely pinched before the relief is available which the currency law is expected to afford. With buying demand almost suspended, prices of stocks have gravitated to a lower level.

## PREPARING FOR ACTIVE CAMPAIGN.

Number of Parties Will Prospect on Antelope Island This Year.

### WEEK'S CYANIDE RECEIPTS.

Valco Reported to be Looking First Class—Paying Expenses—Jesse Knight's Refusal.

After a stay of two months on Antelope Island, Great Salt Lake, George Frary returned last evening and reports an early summer climate prevailing on the island. Preparations are being made for a very active development on the various mining claims on the island during the present season. Now that the dispute between Albert Richter et al and the Island Improvement company is reported to be practically settled, an effort will be made to determine the copper values in the claims secured to the former parties. Mr. Fred, the furniture man, is only waiting for spring to get here in good shape when he will start operations on the 424 acres he owns on the west side of the island. About 400 feet of work was done last year, consisting of a 100-foot shaft and several drifts. Mr. Fred says that the results of last year's work were perfectly satisfactory and he intends to sink a new incline shaft during the present season and explore what he believes to be a big copper deposit. Several other parties who are employed at the Golden Gate mine at Mercur also expect to co-operate in the development of other claims this summer, and altogether it is expected that some interesting disclosures will be made before snow flies in the fall. At present the extent and value of the mineral deposits of the island are not known, but for a while a little development near the surface nothing has yet been done.

Mr. Frary says that the Island Improvement company's rush is rapidly improving. About seven miles of fencing has been done and the ground is being ploughed up for spring crops. About 450 head of fine Hereford stock are now on the island. The company is being benefited by the big figures for reported sales between Phil Armour of Chicago and Mr. Sparks of Nevada, and is said to be making a good thing out of the business of raising bloodstock. Besides the above, the company owns 90 head of fine horses, and the buffalo herd which now numbers 22, was increased last season by four calves.

### CYANIDE SHIPMENTS.

Total for Week Amounts to 1025 Pounds—Daily's Condition.

The week's receipts at the sampling rooms of the Consolidated Kansas City Smelter and Refinery company amount to 1,025 pounds. Of this amount 75 pounds were received from Twin Bridges, Mont., 400 from the Geyser Marion of Mercur and 150 came from the Lucky Boy mine at Custer City, Idaho. The week closes with the receipt of 150 pounds of gold dust today from the Dexter of Tuscarora, Nevada, and 100 pounds from the Daisy of West Dip.

Great interest attaches to the Daisy shipment, as upon its showing hinges the fate of the mine. The employees of the mine have charge of the present consignments, as they depend upon it, under the terms of the contract made of February, to furnish their wages. Superintendent Butler has confidence in the company and believes with economy it may be handled profitably. The condition of the mine is said to be improved, but that will be best determined, perhaps, when the value of the present consignments is announced.

### PARK CITY MINES.

Mr. Conway Talks of the Valco, Silver King and Daily-West Properties.

Porter J. Conway returned last evening from a round up of the Park City bonanzas, and although disinclined to discuss conditions as they really are, the prospect stage, is looking very well. The bin is full of ore, which will be marketed when the roads are in a better condition. Of the assay value of the ore, Mr. Conway does not care to speak beyond stating that the ore leaves a nice margin. The big deep tunnel is being continued towards the vein, and in spite of the fact that it is now in something over 1,000 feet there is still about 200 feet of work to be done before the downward course of the ore body will be determined. If the ore body is intercepted in the lower tunnel the Valco will turn out a mine. It is considered very probable that this will be the case.

### RUSH TO CAPE NOME.

Nineteen Expeditions Have Recently Left Dawson City for New District.

A Washington dispatch this afternoon says: Under date of Dawson City, January 14th, Vice Consul Morrison reports that nineteen expeditions have left Dawson for Cape Nome since December 6th, and as soon as the weather moderates many more will start. The population of Dawson is 5,000 less than last year. Late news from Nome confirms the reports of the richness of the district and announces new finds in the interior but lack of fuel prohibits these being worked in winter. Typhoid fever has appeared with increasing mortality. In Dawson the revenue from liquor permits for the year is placed at \$100,000. Salmon licenses are worth \$250 per annum. Prices are still up. The profits on drugs are placed at 300 per cent, groceries 200 per cent, hardware 400 per cent. Beer is worth \$100 a barrel and whiskey \$100 to \$200 per gallon. Owing to floodings of the mines the gold output may be kept down. It is estimated that between \$25,000,000 and \$30,000,000 will comprise the output for the Dawson district.

### CONSOLIDATION BLOCKED.

Jesse Knight Reported to Have Refused \$750,000 for Two Mines.

A deal which, had it succeeded, would have resulted in the consolidation of at

least three of the rich producers of Godiva hill, is said to have been blocked by the refusal by Jesse Knight of an offer of \$750,000 for two mines, the Tintic and the Tintic Sam mines, says the Tintic Miner. The scheme as disclosed by our informant, included the Godiva mine, for which a cool half-million dollars was offered. Exactly who was behind the deal is hard to ascertain, but Mr. Knight's emphatic refusal to part with the two bonanzas that have made him a millionaire is considered to have effectively stopped any further efforts in that direction.

The record of both the Humburg and Tintic Sam mines is one of phenomenal richness, and as yet neither of them has been worked to any great depth. Mr. Knight's disposition seems to be to buy rather than to sell. He is heavily interested in many promising properties in the district, among which may be mentioned the old Northern Spy in Spy Hollow, the Black Jack and Trail which show between the mouth of White Star Creek, and the Rising Sun and Bull Domingo, on the southeast slope of Rising Sun mountain, below Diamond. Besides these he is developing a number of less prominent prospects in this and North Tintic district, and shows no disposition to let go of any of his possessions.

### RICH PLACER DISCOVERIES.

Splendid Nuggets Found on White Bird Creek, near Salmon River.

In speaking of the placer finds made recently by two Idaho volunteers the Lewiston (Ida.) Tribune says: H. F. Smaus, who returned to the city a few days ago from the Salmon River country, reports that there has recently been fine placer discoveries made near the Salmon river, about twenty-three miles above the mouth of the White Star Creek, the discovery embracing the ancient channel of the river. The channel lies about thirty feet above the present river bed, and is about one mile in length and about twenty-five yards wide. Nuggets have been taken from the bedrock weighing from \$20 to \$25 each, and there is but little fine gold. Two Idaho volunteers shortly after their return from the Philippines, located the placer, and from a hole twelve feet square took out \$1,200.

### BULLION-BECK MILL.

Operations Will Shortly be Resumed—Plenty of Low Grade Ore.

Special Correspondence. Eureka, March 9.—Arrangements are now in progress for the resumption of operations at the Bullion-Beck mill. The mill, which is a cyanide plant, has been idle since the first of the year, and as the mine is not yet opened up, it is a combination of a similar pattern to that of the Eureka Hill company. There are many hundreds of tons of low grade milling ore in the Beck mine, which will keep the mill running for an indefinite period.

### Applications for Patent.

Applications for patent were filed in the land office this week as follows: By the Congor Gold & Copper Mining company, R. E. McConaughy, agent, for the Buckeye lode claim in West Mountain district, 10,000 acres. By the Copper Glance M. & M. company, Barlow Ferguson, agent, for the Silver Dollar, Nabob, Congor Glance, Golden Eagle and Lucy Moore claims, in West Mountain district, containing 67,299 acres.

### Silver Queen and Primrose.

It is reported from Salt Lake, says the Tintic Miner, that the differences formerly existing between the Silver Queen and Primrose Mining companies have been amicably settled, and that the property of the former company will pass into the hands of the Primrose, in exchange for which the stockholders divide 100,000 shares of Primrose stock. The vein which was recently enclosed by the Silver Queen management, close to the Primrose line, contained some good shipping ore, and will be diligently prospected under the new arrangement.

### Tintic Shipments.

The shipments from the district for the past week are as follows, says the Tintic Miner:

	Cars of ore.
Centennial Eureka	22
Bullion Beck	10
May Day	11
Mammoth	7
Clarissa	1
Showers	1
Sunbeam	1
Swansea	1
Four Aces	2
Swansea	2
South Swansea	21
Total	83

### CONCENTRATES.

Mammoth mill

### BULLION.

Mammoth mill

### Bingham Notes.

In its weekly review of the Camp the Bulletin says:

The Tomboy Mining company will soon begin work on its promising group of claims in Dry Gulch. In what is known as the Wilson area of the Fortune mine a rich ore streak had on Wednesday yielded to three feet and was still growing. The ore is of the best quality, and to a 4 per cent copper, and is very handsome. The Dewey mill switched yesterday from Neptune ore to a 100-ton lot from the Montana. There are still several hundred tons of Neptune ore on hand, probably sufficient to keep the mill busy for a couple of weeks.

The Jersey Blue main tunnel, which has been driven over 750 feet, is going head by head with dry and mucking good progress. There is still between 200 and 400 feet to run to reach Jersey Blue vein, which will be cut at about 500 feet on the pitch. A survey party made will determine all approximate dimensions. With average ground ahead the tunnel should be completed before the end of June. That it will go into an important ore body there is every reason to believe. Thus far it has plenty of air without resort to shaft or mechanical device.

West Mountain placer will soon have in operation a part of its machinery to be operated by electricity. Two of the electric hoists have been delivered and will soon be housed. A pump of the variety known as the compound centrifugal electric slinker, capacity 75 gallons per minute, is due to arrive next week and will be installed in one of the working shafts.

### MINING NOTES.

The Bullion-Beck reported today with five cars of ore.

The Mammoth of Tintic had a car of ore on today's market.

The Conklin sampler reported 14 cars of ore from Tintic today.

Eight cars of ore were on the market today from the Swansea of Tintic.

A sale of 1,000 shares of May Day was reported on the curb this afternoon at \$1.13 a share.

W. H. Cunningham of Capt. De La Mar's local office is expected to reach the city on Monday after a brief stay in California.

J. H. Clive expects to leave for the Detroit district on Monday in company with William Orr, the cyanide expert, to advise in the construction of the new mill.

Checks were being made out today in payment of February payroll on the Mercur mine. In spite of the fact that all of the new tanks of the mill are in commission, the force at the

# SPECIAL BARGAINS!

Our Big Sale Week was a grand success. We have as much larger variety of Bargains to offer you this week. Ribbons, Laces, Embroideries, Notions, Glassware, Tinware, Crockery, Stationery, Brushes, Etc., Commencing Monday Morning.
