"While there is Life there is Soap."

THE COUNTRY HAS FOR YEARS BEEN deluged with what are called 'cheap soaps.' No more misleading title could be applied, as the soaps so-called are heavily adulterated with all sorts of mineral substances, cheap lyes, etc. The wants of good housekeepers, both as regards economy, labor-saving, and the saving of valuable clothing, are not for a cheap soap, but for a GOOD Soap for laundry use.

The undersigned offer to careful housekeepers and to those who consult true economy, their now celebrated brand

'WHITE STAR'

Soap. This article is in every respect strictly First-class, and actual use will prove it all the manufacturer claims for it. Namely: A Good, Honest Soap, suitable for laundry, bath-room, etc. It will not injure clothing washed with it, it is easy on the hands and of great lasting quality. This brand is for sale by all grocers thoghout the United States. Try a cake of it and be convinced that it is all we claim for it. Besides the above, we have to offer the

'LAKESIDE,' 'OLD GERMAN,'
'STANDARD,' 'BRILLIANT,'

And shall be glad to send Samples of any of the above, wherever they may be desired.

Yours truly,

N. K. FAIRBANK & Co.

L. M. RUMSEY M'F'G CO.,

Manufacturers and Jobbers of

PUMPS AND FIRE ENGINES,

XLVIII CONGRESS.

HOUSE.

WASHINGTON, 19.—Cox, of North Carolina, of the committee on foreign affairs, reported back the resolution calling on the Secretary of State for a copy of the list of certificates issued by the late Venezuelan mixed commission, and for information as to the award. Adopted.

The Speaker laid before the House the following message from the President, which was appropriately referred Transmitting a report of the Secretary of State in regard to the final awards made by the late French and American claims commission against the United States for $285,520 for the payment of the claims of French citizens against the United States, the President recommends the appropriation of that amount to enable the government to fulfil its obligations of the treaty of January 15th, 1880; transmitting the communication from the Secretary of State relative to the approaching visit of the special Embassy from Siam, the President recommends the appropriation of $25,000 to defray the expenses of the Embassy while in this country. Transmitting a communication from the Secretary of State respecting the approaching international conference at Washington, for the purpose of fixing a meridian proper to be employed as a common zero of longitude and a standard of reckoning throughout the globe, the President recommends the appropriation of $10,000 to defray the expense of the same.

The House then went into committee of the whole, Wilson of Virginia in the chair, on the bills reported from the committee on labor.

The first bill considered was that establishing and maintaining a department of labor and statistics.

Hopkins, chairman of the committee on labor, briefly called attention to the provisions of the bill and the advantages to be drawn from its passage.

After a dessultory discussion, Weller withdrew his substitute, and Bland's amendment was lost.

On motion of Bayne, an amendment was adopted requiring the Bureau to remit full statistics relating to immigration and the importation of labor.

On motion of Cutcheon, an amendment was adopted, requiring the Bureau to inquire into the effect on production of shortening the hours of labor.

On motion of Warner, the salary of the Commissioner of Labor Statistics was reduced to $3,500.

Numerous amendments were offered and severally voted down. Although no debate was allowed on them, the committee was subject to general confusion. Finally the bill was reported to the House, yeas 182, nays 19.

It provides for the establishment of a bureau of labor statistics in charge of a commissioner at a salary of $5,000, who shall acquire all useful information upon the subject of labor, its relation to capital and the means of promoting the material, social, intellectual and moral prosperity of laboring men and women. He is authorized to employ such employees as he may deem necessary for the successful working of the bureau providing the total expenses shall not exceed $25,000 per annum.

Young proposed to give the pending bill his most earnest support, but hoped it would be amended so as to establish a bureau of labor statistics as an adjunct to the Agricultural Department.

Wolford said if the object of the bill was alone to show the men engaged in labor where they could get better compensation for their work, it would commend itself to every man who loved his country; but as he was not thoroughly satified that alone was the object, he had some hesitation in giving his unqualified support to it.

Belford spoke in support of the proposed amendment prohibiting corporations from importing foreign labor to compete with American citizens. He reiterated the statement made by him some days ago, that the riot in Cincinnati had been but the beginning of communism in this country.

Anderson urged that protection did not protect the American laborer.

Belford stated that at the meeting of operatives at Pittsburg a series of resolutions passed declaring that while the protective system protected the manufacturer, the wages of the laborer were constantly diminishing.

Blount said there was not a single thing in the bill to justify the creation of this department.

Hopkins replied to the criticisms made against the bill and maintained the people who would be vastly benefitted by the compilation of this information, did not want to see the bureau buried in the Agricultural or Treasury Departments.

Bayne, while heartily supporting the general purpose, thought the section providing for the investigation of the religious views of the laboring classes was in plain violation of the spirit of the Constitution.

The bill then being open to amendment, Kasson moved to change the word "department," wherever it occurred, to "bureau," so as to read "bureau of labor statistics." Adopted.

On motion of Kasson, an amendment was also adopted, changing the word "religious" to "moral" wherever it occurred.

Bland offered an amendment providing that the bureau shall be under the charge of the president of the the Knights of Labor.

Weller offered as a substitute for this amendment a proposition that the commissioner of the bureau shall be appointed by the President from a list of names presented by the legislative committee of the federation of labor. Adjourned.

AMERICAN.

Floods, Fires and Disasters.

BOSTON, 19.—The dispatches from Maine report that the dams are being carried away by the floods, and the railroad tracks are overflowed. At Montreal the river is receding rapidly. The ice in other places thereabouts gives much concern.

Macon, Miss., 19.—The most severe rainstorm ever known here occurred to-day, accompanied by lightning and hail. Great damage was done the crops by the washing of the lands. Stock was drowned, and also killed by the lightning.

Truckee, 19.—Three hundred feet of snow sheds fell half a mile west of summit, and covered the working train and a number of Chinese. Six dead Chinese have been taken out and five others seriously wounded. The wrecking train and medical aid has gone to the scene of the disaster.

New York, 19.—In the Brooklyn Theatre, to-night, the mandin remark of a drunken man was taken up as a cry of fire, and a panic followed. Several women fainted, but before serious results occurred, the managers and actors quieted the people. The theatre is built on the site of the one destroyed by fire years ago, when over 200 lives were lost.

Insanity and Crime.

YANKTON, D. T., 19.—The United States grand jury closed its work to-night for the present, though it is understood it will not be discharged. Over 20 indictments have been brought in, the nature of which are not made public, except in unimportant cases. Two indictments have been found against Governor Ordway, charging corruption in county organizations.

Charleston, 19.—In the United States court to-day two additional indictments were found against ex-United States Marshal Bleythe.

Philadelphia, 19.—The Countess de Racouaks has been released on bail. Being annoyed in the boarding house, she shot one of the members of the family and opened a fusilade upon the household. She was arrested and convicted of deadly assault. In jail she took poison. Being resuscitated, she was released on account of the sympathy excited by her wretched experience.

New York, 19.—James Ritchie, a lunatic herding cows on Ward's Island, was shot dead to-day by New York thieves, who landed to steal some junk. John Riley, aged 16, and Thos. Brown, not much older, are arrested as the murderers.

Political Points.

CHARLESTON, W. Va., 18.—The republican county convention met to-day to send delegates to the republican State convention at Martinsburg. Influential delegates from the county say they are for Blaine and Lincoln first, last and all the time. From what the press correspondent can learn from prominent politicians, the delegates will be instructed for Blaine and Lincoln.

Minneapolis, Minn., 19.—The Minneapolis *Tribune* to-morrow will publish a tabulated statement of the answers to a circular sent out through the State, regarding the preference for President. The following is the result: First choice, Blaine, 973; Edmunds 199; Arthur 182; Lincoln 80; Logan 47; scattering 54; Edmunds second choice, 981. These represent a partial canvass of 71 counties. The Democrats to a man are for Tilden.

Topeka, 19.—Reports from nearly all the republican county conventions, Held to-day to choose delegates to the congressional district and State conventions to be held next week to elect delegates to the national convention at Chicago, show, whenever Presidential preferences were expressed, they were generally for Blaine and Lincoln, although Logan has many friends.

Cleveland, 19.—The republicans of the Twenty-first Cleveland district to-day elected four delegates to Chicago, A. C. Hard and Edwin Cowles; for alternates, G. T. Chaplain and D. A. Dangler; all are for Blaine, but are uninstructed.

New York, 19.—The republicans of the congressional districts to-night elected delegates to the Chicago National Convention as follows: Sixth district, John J. O'Brien, John H. Brady; Seventh district, John D. Lawson, Charles N. Taintor; Eighth district, Robert G. McCord, John Collins; Ninth district, Geo. Hilliard, Jacob M. Patterson; Tenth district, Michael Cregan, Bernard Biglin; Eleventh district, Anson G. McCook; Twelfth district, Edmund Stephenson, Wm. Dowd; Thirteenth district, Frank Raymond, J. A. Eagleson. The ninth assembly district bolted the sixth congressional district convention and nominated to the Chicago convention George B. Deane and F. S. Gibbs. These last named and McCook, in the eleventh district, are alone claimed as anti-Arthur. All the rest are Arthur men.

Cincinnati, 19.—Primary elections were held in Hamilton County to-night to select delegates to the republican State convention to nominate State officers and also delegates to the Chicago convention.

The *Commercial Gazette* last night has reports from 36 delegates classified as follows: For Arthur, 10; Sherman, with Blaine as second choice, 10; Blaine, with Sherman as second, 4; unknown, 4. The nine county conventions held in the State for a similar purpose show so far seven counties for Blaine, two for Sherman.

SUNDAY NIGHT'S DISPACTHES.

Fifteen Horses Beaten by two Bicyclers.

SAN FRANCISCO, 20.—The six days' horse versus bicycle tournament, riding 12 hours a day, terminated at one o'clock this morning. Anderson had charge of 15 horses and John S. Prince and Miss Armaindo alternated on bicycles. The two latter made 1,073 miles, the best on record, beating the 15 horses by a mile and a quarter.

Bank President Arrested.

CLEVELAND, 20.—A special to the *Herald* states that Frank BeWalt, alleged defaulting president of the First National bank of Leadville, Col., was arrested early this morning at his mother's house in Canton, and that he will be taken back to Leadville where a reward of $5,000 is offered for his arrest. Three months ago the bank failed for a quarter of a million and DeWalt disappeared. Investigation indicated that he took $50,000 with him.

FOREIGN.

SUNDAY NIGHT'S DISPATCHES.

Threatening Kassala and Suakim.

LONDON, 20.—Kassala is surrounded by 6,000 rebels who fire into the town nightly. It is reported that Osman Digma, with 2,000 followers, again threatens Suakim and if he attacks the town many of the neutrals will join him against the hated Egyptians.

Horrible Massacre near El Boala, on the Nile—General Uprising Apprehended.

CAIRO, 20.—A large number of refugees, owing to shortness of provisions, left Shendi a few days ago in a steamer for Berber. The steamer ran aground near El Boala and was soon surrounded by swarms of rebels, who attacked the steamer on all sides and massacred everybody on board. The fugitives numbered 450, including a portion of the Shendi garrison and many women and children. Nubar Pasha, prime minister, fears before long that the spirit of the rebellion will reach Assouan. He has received a desponding telegram from Hussein Pasha, Governor of Berber, who states that the attitude of the population generally is threatening. He expects that Berber will shortly be surrounded and captured by the rebels, who are constantly increasing in numbers around the town, and threatening all the avenues of communication. Hussen Pasha says he will resign, unless troops are sent to assist in the defense of the town.

The Egyptian Muddle.

LONDON, 20.—Gordon has notified the British Government that owing to the difficulty and delay experienced in sending and receiving communications, he will henceforth act on his own judgment and responsibility. After several conferences the French government has assented to a modification of the Egyptian law of liquidation, and agrees to support English proposals for a financial reform. An Egypto-European conference on the question is now needless. No further opposition is expected from and power.

BRIEF TELEGRAMS.

MEXICO will send a band and a battalion of troops with her exhibit at New Orleans.

It is feared a return of the Emperor William's illness will prove fatal.

The fire at Rangoon raged for two days and destroyed 41 buildings, involving a loss of $120,000.

The Yale College has accepted a gift of $50,000 from the Marquand fund for a building for the Yale Young Men's Christian Association.

In a glove fight in New York last night between Mike Cleary and Wm. Sheriff, the latter was knocked out in one round of 30 seconds.

A. D. Edgar, general agent of the Northern Pacific at Chicago, has been appointed assistant general freight agent of the Pacific division of the road, with headquarters at Portland.

The North Atlantic steamship lines have reduced the steerage passage from New York to Liverpool to $18, and will make a still further reduction to meet any competition.

Ottawa, 19.—The Governor General has prorogued Parliament, and made a speech approving the legislative enactment of the session.

Chicago, 19.—The Queen of Tahiti, Pomare V, arrived here this morning over the Grand Trunk line and left quietly for San Francisco at noon.

New York, 19.—The Sons of the Revolution met to-day in Washington's headquarters and organized by electing John Austin Stevens president and Gen. John Cochrane vice president.

The American Yacht Club elected the officers of the Greely relief expedition honorary members, and presented them with flags to be restored on their return from the Arctic.

Boston, 19.—The *Traveller* says: The relations of the Union Pacific and Chicago, Burlington & Quincy stand about as follows: The Burlington has consented to waive its claim to 20 per cent. of the Union Pacific business delivered at Omaha for eastern points. The question to be decided next week is territorial rights.

Chicago, 19.—The Western Trunk Line Association to-day announced a reduction of forty cents per hundred pounds on sash, doors and blinds to Colorado points, making the rate thirty-seven cents, or the same as that charged for lumber since the recent cut. The Burlington, and Atchison, Topeka & Santa Fe roads met the cut promptly.

The sub-committee of the House committee on commerce to-day decided to report favorably Representative Mutchler's bill, providing for the appointment of a scientific commission to attend the international electrical exhibition to be held at Philadelphia next fall under the auspices of the Franklin Institute of Pennsylvania, for the promotion of the mechanical arts. The bill appropriates $25,000 and requires the work of the commission to be completed within three years after the passage of the act.

St. Paul, 19.—The Secretary of the American National Agricultural Association having addressed a letter to General James S. Brisbin, commandant at Fort Keogh, Mont., requesting his views regarding the holding of a great national cattle show, the General replies urging that the show take place and suggesting that at the same time a national convention of cattle breeders and stock growers.

New Orleans, 19.—G. A. Burke, director general, states that though the main building of the World's Exposition is the largest ever erected in this country, it is necessary to construct another immense building, 1,000 feet by 100 for the Government, State and agricultural exhibits.

At a meeting of the House committee on public lands, to-day, Henley, Oates and Strait were appointed a sub-committee to prepare a bill to repeal the pre-emption and timber culture acts, and to so amend the homestead laws as to prevent fraudulent entries.

Representative Rosecrans has prepared an amendment to the pension appropriation bill, providing that paymasters in the army be detailed to act as pension agents.

Neosha Falls, Ks., 19.—Dr. Law, of Cornell University, who has been here the past week investigating the cattle disease, leaves for Topeka Monday. He is not very communicative concerning the results, preferring to give them to the public in the shape of a formal report. He does say emphatically, however, that the trouble is not European foot and mouth disease, nor any other contagious affection.
