New York, Dec. 31 .- A special to the Anna A 17 the Herald from Washington says: 177 China is anxious that foreign occupation of her territory ceases promptly as possible, as it is causing disorder and MAR AND is an obstacle to peaceful adjustment AND MARKS of affairs. - 17 In view of the prospect that each 94.475 F nation will hereafter maintain a legation guard in Pekln, China is anxious that it shall be reduced to as small a number as the powers can be induced to designate. China regards the American force constituting the American legation guard as altogether too large. It numbers 1,800 men but Chinese diplomats here point out that if each na-tion maintains a guard of this strength, pekin will be under the control of a force of 14,409 foreign troops. There are now in China about 100,000 allied troops. Officials of the administration insist that it is absolutely necessary to maintain in Pekin the force now there declaring that the interests of ere, declaring that the interests of United States could not be protectstry ed with a smaller number. Gen. Chaf-fee is in control of a section of Pekin and a few days ago sent out an expedi-tion to a point south of the city. Ad-jutant General Corbin denied today most emphatically that this column was in any sense punitive. There are to be no executions nor is there to be any interference with Chinese officials; the duty of the column is to rescue Alfred C. Harmsworth some missionaries and return with them to Pakin. In a recent article Mr. Harmsworth predicts for the twentieth century a great newspaper thust which will print simultaneous issues in all the great cities.

There is no doubt that the administration is anxious to terminate the oc-cupation of China by foreign troops, and it is stated positively that as soon as it can be done, Gen. Chaffee's command will be withdrawn, the United States merely reserving the right to maintain a legation guard in Pekin, the privilege to be taken advantage of in case the American legation should again be endangered. All the other again be endangered. All the other powers are retaining in Pekin and the province of Chi Li an exceedingly strong force, both to impress each oth-er and repress China. The withdrawal of all the American troops at this juncture would, administration officials fear, cause loss of prestige by this gov-ernment and prevent Minister Conger maintaining the commanding position

China feels able at this functure, it is said, to protect all foreigners, and it seems to be the belief here that the reports of danger to American mission-

tion of the Chinese question. In view of China's preservation of order outside of Pakin, and of her will-ingness to protect foreigners, and the fact that the imperial court, whose presence in Pekin is so destrable, will not return to the capital until the for-eign troops leave, well informed pub-lic men here are advocating the imme-diate withdrawsl of Gen. Chaffee's com-mand to the Philippines, where recu-

he now occupies. As explained by an administration official, the situation in the Philippines requires that all American troops available shall be stationed in the archipelago. There are less than 60,000 effect-ives in the islands. Major General Mac-Arthur thinks the situation demands that there should be at least this number of effectives.
