CHICAGO, 1.—Heavy storms prevailed throughout the northwest yesterday morning, and reports are beginning to come in of considerable damage to crops in Illinois and Wisconsin. Rock River rose at Janesville three feet in three hours, and the storm is believed to be the heaviest in this section for 25 years.

An Oregon, Ill., special says: There was a storm of unequalled severity here yesterday. The water rose on the flats driving a dozen families from their homes; fifteen buildings were struck by lightning, one man, Mr. Spooner, killed, and many barns and outbuildings carried away by the wind and flood. A score of bridges floated off, and hundreds of acres of grain entirely ruined. Horses and cattle were killed by the lightning in nearly every pasture. \$50,000 damage to the city and vicinity. Miles of the track of the Chicago and Iowa road are impassable.

A Cedar Rapids, Iowa, special says: There was a furious storm in central Iowa on Thursday night, but though a regular tornado, was for the greater part of its course in the air, not striking the ground except in a few places, where it demolished everything.

NEW YORK, 1.—A Pittsburg Chronicle's Greenville, Pa., special says: A cyclone struck Coleville, Butler Co., last night at seven o'clock, blowing the windows out and half the houses down and nearly all the stores. Two persons were killed and 25 injured.

ST. LOUIS, 30.—A very heavy rain at Hannibal, Mo., on Wednesday night caused Bear Creek to rise higher than ever known before. The flood swept through several lumber yards on its banks, and carried into the Mississippi River over half a million feet of lumber; two or three small houses were also swept away, their inmates being rescued with great difficulty. It is reported six persons were drowned, but this is probably a mistake as no bodies have been found. Reports from the country say the wheat is laid flat with the ground and a good deal will be lost.

HAMBURG, Iowa, 30.—The loss of bridges in Fremont County will exceed \$15,000. The rivers are greatly swollen, and crops are badly submerged hereabouts.

BOSTON, 30.—The Boston, Lowell & Concord R. R. increased the pay of freight handlers to \$1.50 a day, and work will be resumed. The officers of the Eastern railroad have agreed to the same terms.

MANDAN, Da., 1.—Last night 12 or 14 laborers were capsized in a skiff, and shrieking loudly were borne down the swift current of the Missouri. Most of them tried to cling to the boat; three tried to swim ashore, of whom two sank in quicksand and one was saved. Four others are believed lost. Full list of drowned not obtained.

Reports from Minnesota say that there is quite an epidemic small pox in various parts of that State. Advances from the Concharley Indians say twenty cases of small pox there have proven fatal, and the pest still rages. The country is destitute and alarmed and confusion reigns.

WASHINGTON, 1.—A close examination of the body showed Guiteau's neck was broken and that the rope had cut a deep gash in the flesh. The coffin was placed upon a bench in the chapel and the body removed and afterwards stripped and laid upon a table. Scales and other appliances to determine weight and other phenomena of different parts of the body were placed about on tables during the operation. The three surgeons engaged in the autopsy were watched with great interest by the other medical gentlemen who crowded about the table. After an examination of the eyes, the brain was removed and inspected. Dr. A. B. Loring found the left eye completely suffused with blood and both eyes so indistinct that no opinion could be formed of their condition or expression. The body was then cut open and a thorough examination made with a view to determining all the physiological facts that could be of interest in connection with the case. The brain was found to be in a normal condition and weighed forty-nine ounces. The heart weighs a little over 9 ounces, and was apparently in a healthy condition, as were other internal organs. Dr. MacWilliams was the first physician to leave the room where the autopsy was held,

said there was nothing so far as he could see, about the brain that was normal. The weight according to Dr. MacWilliams was 49½ ounces. The general viscera in perfect condition. At 3.15 the autopsy adjourned until evening. The physicians are disinclined to enter into details in regard to results.

Forty-nine ounces and a half is a little more than the weight of the average human brain. It was well formed, and presented no external evidence of disease or lesion. The lungs and heart were in a normal condition, except a slight ruffling of the aorta in the vicinity of the heart. The neck was not dislocated as at first supposed, but there was a rupture of the sterno cleido mastoid muscle, on both sides, as well as of the ptyoid membrane. It follows therefore that death resulted from suffocation, not dislocation of the spinal vertebrae. There was a partial examination made of the abdominal viscera, but it had not been completed at the time the autopsy was suspended. The spleen was found to be considerably enlarged, its weight being 15 ounces, more than twice that of the normal spleen. The other abdominal organs so far as examined, presented no unusual features. The full report of the surgeons making the autopsy will probably not be ready for publication before Wednesday.

NEW YORK, 1.—Business in the general merchandise markets is very marked. It has been very marked during the past week, owing partially to the weather. It is always more or less dull at the close of the fiscal year, but it has been mainly caused by hindrance in the matter of transportation, caused by the strike of the freight handlers and other employees of the various railroads centering at this point.

Wheat has been active, but the fluctuations have been extremely violent in order to close up the June "corner." Cash wheat is dull, exporters refusing to enter the market. Refined sugars are in fair demand and steady; crushed, 10@10½.

Brandy is quoted 2.15@2.35, according to age, with demand fair for 2½ year old. Canned goods are quiet, and prospects are for a large pack in the East, and buyers of California goods are holding off.

Hides are quiet and prices firm. Turpentine is very dull and easier. Hardware is very slow, but there is a change in the list of nails; there is a moderate supply. Iron quiet.

Wool is dull, but prices are quite steady and there is no pressure to release. The sales of California include 4,000 lbs., of spring, 18@27; 1,000 lbs., of fall at 25.

PHILADELPHIA, 1.—The four cases of yellow fever on the brig Emma are reported convalescent. The national board of health service from Havana has information of about 225 cases that are in the city. There is a strong tendency towards its becoming an epidemic. On the 22d inst. the American brig John Welsh, Jr., the American bark Havana, and the British bark Paramatta, with cases of a suspicious nature on board, failed from Havana.

Wool is quieter and prices easier. Boston, 1.—Wool is more active. Manufacturers are purchasing more freely of fine grades. California has been very quiet and sales have been quite limited, and holders difficult to obtain cost.

ERIE, Pa., 3.—A strange crank passed through here to-day, who professed to be on a divine mission to Washington to execute the command of God by avenging Guiteau's murder, as he termed it. He resembles Guiteau in personal appearance, and professed to be a distant relative. He said he had never taken much stock in Guiteau until the night before he was hanged, when God appeared to him in a vision and commanded him to go to Washington to avenge Guiteau's murder. As to the manner in which this is to be effected he is in doubt, as God promised to reveal it to him upon his arrival in Washington.

WASHINGTON, 3.—Bills were introduced and referred by Berry to abolish the State of Nevada and attach it to the State of California.

COALVILLE, Pa., 3.—The following are the particulars of the cyclone here: A new frame store and dwelling house owned by Frank Baird, was completely wrecked in Stanley. Mr. Baird, his sister-in-law and clerk, Mr. Carman, were badly injured. Mr. Baird was blown a considerable distance, but miraculously escaped injury beyond a few bruises. Five hundred yards south of this store, a dwelling house occupied by

Thomas Johnson and family, was blown down, but all the inmates escaped injury. The residence of Mrs. Barnes was blown down and Mrs. Barnes blown fully 300 feet and lodged in a fence corner. She was so badly hurt that she died in 30 minutes. A child of Mr. Barnes was carried 500 feet, and received injuries from which it died this evening. The residence of Jonakon Kelly which contained nine people at the time the cyclone struck it, was completely demolished, and all the persons in the building were more or less injured. One inmate, Wm. Henley, has since died. Three barbers, next door to Mrs. and Mr. Quston were so seriously hurt that they were expected to die. The only hotel in the place, the Jersey House, was so damaged it will be necessary to rebuild it. Fifteen houses were wrecked and from 25 to 30 persons killed and injured. In the track of the storm there is scarcely a tree left standing. Great trunks of big trees were twisted off like pipe stems, and in some instances carried hundreds of yards. The loss will probably exceed \$75,000.

FOREIGN.

ALEXANDRIA, 29.—There are now thirty-two men-of-war in the harbor of Alexandria and four more expected.

There were symptoms of a rising here yesterday, directed particularly against the English. The soldiers cleared the square and the guard has been doubled.

LONDON, 28.—It is stated that a regiment of the Household guards and two battalions of infantry at Aldershot have been warned to be prepared to go to the Mediterranean.

ST. PETERSBURG, 1.—The following very important discoveries, with regard to the Nihilist conspiracy, have been made by the Russian police: The names of all the persons through whom the Nihilists were in the habit of receiving funds have now been ascertained. Among them are the wife of a provincial governor, three ladies who are lace-makers, the daughter of a general, a Jewish capitalist, a doctor, a well known author, and a St. Petersburg journalist. The funds were collected in Russia chiefly by a Georgian Nihilist, and were ostensibly for an insurrection in the Caucasus. The largest portion of foreign subscriptions were supplied by persons in London and Berlin.

ALEXANDRIA, 1.—Arabi Pasha addressed the troops at the arsenal yesterday. He said the invasion that had been threatened by Europe had come to naught. Their eyes were opened and it was not England alone they were to be afraid of. Onlookers say that the tone of the army was hardly reassuring. Arabi says he would obey an order to go to Constantinople, if one should come, when he knew the reason for it, and denies that any explosives have been laid in the canal.

CONSTANTINOPLE, 1.—The Porte has signified its intention to be guided by the powers concerning Egypt, and that Turkish troops will be sent to re-establish order under the direction of the powers.

BERLIN, 1.—Bismarck expects no satisfactory results from the conference, but is on the side of England so far as the Suez canal is concerned.

LONDON, 3.—At Woolwich, harness equipments are being hastily prepared for a number of batteries such as are used in countries destitute of good roads. The men of war Ajax and Agamemnon now at Chatham, have been ordered to prepare for immediate service.

The state committee under General Garrish wisely met at the war office to-day. Before rising they will settle arrangements for the pay, clothing and victualing of the army reserve whose calling out is shortly expected.

SIMLA, 3.—The Bombay government received instructions to be prepared for shipping the contemplated military expedition to Egypt.

MORSEFORD'S ACID PHOSPHATE. Is useful in dyspepsia. It gives the stomach tone and imparts vigor to the whole system. deod&w

"BOUGH ON RATS."

Clears out rats, mice, roaches, flies, ants, bedbugs, skunks, chipmunks, gophers. 15c. Druggists.

NATIONAL PIANO SCHOOL.

Just issued by W. F. Sudds. Decidedly the best method ever published. D. O. Calder, agent.

A Judge's Experience.

Judge J. T. Bossier, of St. Tammany parish, La., and of the State Legislature, thus expressed his opinion to one of our representatives: "I have found St. Jacobs Oil to be very efficacious in sprains and bruises. In my opinion there is no oil or liniment equal to it."—New Orleans (La.) Times Democrat.

Among Beliefs founded on Fact is the faith which the public entertain in the efficacy of GLEN'S SULPHUR SOAP as a remedy for skin diseases and a beautifier of the complexion. It has widely superseded the greasy ointments, ointments and other oleaginous compounds used for cutaneous eruptions, and the ladies declare that it is far preferable to any cosmetic, as a means of whitening the skin and removing tan, pimples, freckles, moth patches and the like. Both the medical profession and the press have borne evidence to the salutary qualities of this standard external specific for all diseases affecting the cuticle.

Sold by Druggists. Price 25c. per cake. 1 Box (3 cakes) 75c., sent by mail, prepaid, on receipt of price. C. N. CRITTENTON, Prop'r, New York.

RENEFACTORS.

When a board of eminent physicians and chemists announced the discovery that by combining some well known valuable remedies, the most wonderful medicine was produced, which would cure such a wide range of diseases that most all other remedies could be dispensed with, many were sceptical; but proof of its merits by actual trial has dispelled all doubt, and to-day the discoverers of that great medicine, Hop Bitters, are honored and blessed by all as benefactors.

WANTED!

CONTRACTORS TO CUT CORD WOOD.

With Teams for Banking. Good and prompt pay. Apply immediately to UTAH, WYOMING IMPROVEMENT CO., Hillard, Wyoming Ter. June 12, 1892. w 221f

\$66 a week in your own home. Terms and full particulars. Address H. HALL, care of C. H. Portland, Maine.

The Most Successful Remedy ever discovered, as it is certain in its effects and does not blister. READ PROOF BELOW. Also excellent for human flesh.

FROM A PROMINENT PHYSICIAN.

Washingtonville, Ohio, June 17th, 1890. Dr. B. J. KENDALL & Co., Gentl.—Reading your advertisement in Turf, Field and Farm, of your Kendall's Spavin Cure, and having a valuable and speedy horse which had been lame from spavin for eighteen months, I sent you for a bottle by express, which in six weeks removed all lameness and enlargement and a large splint from another horse, and both horses are to-day as sound as colts. The one bottle was worth to me one hundred dollars. Respectfully yours, H. A. BERTOLLETT, M. D.

Send for illustrated circular giving positive proof. Price \$1. All Druggists have it or can get it for you. Dr. B. J. Kendall & Co., Proprietors, Enosburgh Falls, Vt. w 22
