GRAIN CROP SAVED.

On Sunday evening, during the sesof Mutual Inprovement meeting the fire alarm was sounded. Many men and boys responded to the call and hastly drove, rode or run to the scene which proved to be at the Gillespie ranch at the mouth of Middle can-yon, a little more than a mile east of town. A brush fire had become up nanageable and had it not been for the timely aid of the 60 fire fighters many miles of grain in the dry farming re gion would undoubtedly have swept away, as the wind was blowing a gale from the south. The danger was not over until after midnight when the last exhausted workers returned home.
