THE Omahu Herald has always been consistent in its position on the fidelity; seduction favored by mon-"Mormon" question. While strenuously opposed to onr marriage system, it has deprecated the fanatipolluting the channels of life and cism and folly of the pretended Puritans who want to stamp out the "peculiar institution" by vlolence, and has exposed the fallacy of the silly schemes which have been from time to time advanced for the solution of the so-called "Mormon" problem. A few days ago the Herald made some comments on the newly revived proposition for dividing Ut h among the surrounding States and Territories, and its remarks being misunderstood, came out next day with the following editorial:
