THE CREAT SALT LAKE

PRESENT AND PAST.

By James E. Talmage, PH. D. F. R. S. E., F. G. S., professor of geology, University of Utah, a book of 116 pages, beautifully illustrated. The first complete and authentic work on the renowned saline sea. Price 25 cents, poetage prepaid. For sale by the Deserci News and all news dealers.

Autobiography of Capt. James S. Brown, 520 pages, bound in cloth. Price \$2.00; for sale at the Deserct News. Special terms to agents.

## FINE LEAD ORE IN CYCLONE CROUP

Sales Were Made as Low as \$1.34 | Three Feet of Ore Which Assays As High as 70 Per Cent.

Ore Being Mined Assays Close to 40 Onnces on Average - Anent the Decline in Mining Stocks.

Advices from Stockton report the acvelopment of three feet of excellent lead ore in the Cyclone company's property at Stockton. The "News" inwhile Uncle Sam reached the lowest formant says the ore carries as high point in many weeks. Sales were as 70 per cent lead with some values in

> The ground consists of two claims joining the Honorine. It is said that the Galena King vein enters the claims. The company was recently organized with 400,000 shares, of which about 200,-000 shares were placed in the treasury to provide working capital. A deal was consummated a short time ago, by which 100,000 shares changed hands at 8 cents a share. The heaviest purchasers were A. J. Bettles and Frank Work, who held an option on the stock. They were joined, however, by F. W.

Muhlenbruck, John A. Hunt and others who, in view of the latest developments, feel very much pleased with their investment in Stockton property.

The strike was made in a tunnel which has been run a distance of 300 feet. It is the intention of the directors to sink a shaft and J. A. Grosse and others of the directorate are at the mine today for the purpose of locating the today for the purpose of locating "the site for the new shaft.

The two claims were bonded last April for \$5,000 and through the sale of the treasury stock the company was enabled on Wednesday to pay off the bond, which gives the company a good

ONTARIO SHIPMENTS.

The Ore Being Marketed at Present

Carries Nearly Forty Ounces. From authoritative sources it was learned today that no special change has yet taken place on the 1,700 level of the Ontario at Park City. The company is mining a great lot of ore from different levels above the 1,500. If it were all high grade the old bonanza would rival its flowery days. The shipments are heavy, but is must not be supposed that the ore is first class. It is really second class ore which was formerly milled. On a contract closed veral months ago the company is now enabled to forward this ore direct to, the smelter, thus making a fair profit. The ore has thus far averaged less than 40 ounces and while the company is making its monthly dividend of \$15,000 it is at present doing no more. A slight improvement is expected howbefore the year is out. much better than the company did last year, when some 23,000 tons of ore was sold which netted less than \$80,000.

DECLINE IN STOCKS. A Well Known Mining Man Dis-

cusses the Situation. The decline in the price of mining stocks on the mining exhange during the past few weeks has been a source of wonder and surprise to a great many people, while others see reasons for the slump in local conditions, to say nothsiump in local conditions, to say nothing of the eastern situation. A prominent mining and business man said today that the purchase of Uncle Sam and Carlsa mines by local people withdrew from the banks a large amount of money and fied up more or less, a number of men who invest in mining stocks. Said this recollement today. "The affect of this gentlemen today: 'The effect of the purchase of these big properties was noticed in stocks almost immediately after the Carisa deal went through. Then again there have been very rich discoveries at Tonapah, Nevada, which have attracted a number of monied men from Salt Lake. The O'Mearas, Judge Dickson with the Bambergers and Jesse Knight, David Evans and others are either spending more there or investigating with that object. The at-tention of these men is therefore directed, remporarily, away from the stocks on the mining exchange. Then again, an unusual amount of money is being spent by local people in Park Valley, Park City, Tintic, Bingham and other Park City, Tinde, Bingham and other places, on properties which are not list-ed on the exchange. Then, again, there has been a big slump in copper stocks in the East, which has effected local stocks comewhat on account of certain talk that copper may be selling at 12 or 13 cents in the near future on account f the production in the United States which has had its effect on the

DISCUSSES COPPER MARKET. A New York Periodical Says it is Completely Upset.

local market.

Discussing the recent fluctuations in the copper market a New York dis-patch quotes the Iron Age as saying: The copper trade is completely upset and with it all its collateral branches. The question is whether the leading interests will maintain price and pro-duction to keep it within the bounds of consumption or whether we are to see a 12-cent copper market. Utterances on the part of some of the mag-nates point to the former course, in which case consumers will regard the stocks of copper with feelings akin to those who carry dynamite.

The Copper Situation.

Copper production, as reported by Mr. for the producing companies, was as follows for August and the eight follows for August and the eight months ending August 31st, stated in long tons (2,240 lbs.) of fine copper:

August. U. S., reporting mines ....17,767 19.267 U. S., outside sources ...... 3,490 3,400 Total, U. S...... 21,167 22,667 Foreign reporting mines... 7,535 8,186

Totals ... ... ... ... ... ... 28,702 20,847 Exports, U. S... ... ... ... 13,861 6,840 Copper prodetion for the month in the United States was larger than for several months past; it was 1,500 tons greater than in August, 1900. For the eight months, however, there was a decrease of 710 tons, or 0.4 per cent, as compared with last year. The United States exports for the eight months show a decrease of 54,035 tons, or 48,5

per cent from those for the correspond-ing period of last year.

Mining Deed Recorded.

Provo, Sept. 27.-A mining deed from Otto Hudson and M. J. Hudson, of American Fork, and C. F. Johnson, of Lehi, to the Tintic Consolidated Mining company has been filed with the county recorder. The deed conveys for a consideration of \$1 the following mining laims. Tower, Copper and Bluestone claims Tower, Copper and Bluestone mining claims, situated at the mouth of Burnt canyon about three and a half miles from the mouth of American

Fork canyon.

J. C. Jensen has filed notice of location of the Black Quartz Extension No. 2 lode mining claim, situated in North Tintic mining district.

Cripple Creek Dividends.

The August dividend record of Crip-Gold Coin. ... ... ... Granite ... ... ... .... . New Zealand. 

Total......\$144,050 The record is much lower than for July, due to the fact that most of the companies have changed from monthly to quarterly disbursements. With its property, all the companies distrib-uted profits from production. The 1901 dividends to date, \$3.231.065.50, exceed the total for the first eight months of 1900. The grand dividend total to date is \$23,699,651.57.

#### MINING NOTES.

A few inches of ore is still in sight in the Petro of Bingham.

The Old Bullion of Stockton had a car of ore on the market today. The Phoenix of Bingham reached the

market today with a car of ore.

Supt. J. H. Bone of the Albion at Alta eports the new tunnel in some 70 to 80

Two cars of ore from the Neptune and Erie properties at Bingham were marketed today.

Five cars of ore were on the market today from the Commercial lease at Bingham. Two cars of concentrates were on the

market today from the Tiewaukee of Bingham. E. W. Clark of Ophir, superintendent

of Senator Clark's Ophir Hill mine, is a guest of the Kenyon. Power drills will be started tomorrow in the north drift from the 150 level of the Boss Tweed.

President Washington of the Horn Silver left last night for Frisco, accom-panied by John and James Sharp. The Taylor-Brunton sampler reported

8 cars of ore from Bingham, 2 from Frisco, 1 from Stockton and 2 lots from Cottonwood tday. An extension of 10 days has been granted in which the Ben Butler may file an answer to the Liberal restrain-

ing order. James Chipman pruchased Jerse Knight's holdings in the Uncle Sam some ten days ago. The price is said to be about \$1.80 per share.

Thirteen stamps are now dropping on ore at the new Century mill.

President Samuel McIntyre of the Mammoth, went out to the mine last

Baker City Herald: At the South Cougar the management are ex-pecting to strike their lode at any time. The crosscut is now in over foul hundred feet and much water is being encountered, and many other things in-dicate they are in the vicinity of a

Articles of incorporation of the Hanover Gold Mining company have been filed in the secretary of state's office. It is capitalized for \$75,000, divided into 300,000 shares, and owns the Gold Hill mining claims Nos. 1 to 4, inclusive, situated in Boxelder county. Its officers are George W. E. Dorsey, president; John W. Burton, vice president; Wil-

liam W. Brown, secretary and treas-urer. These, with G. W. Bartch and J. A. White, constitute the directorate.

ZOLA NOW A ROMANTICIST The Noted Realist Proposes to Join the

School of Victor Hugo.

A few years ago an English critic maintained the seeming paradox that Zola was not a realist, but at heart a romanticist. His recent action in the "Affaire," and books like "Fecondite" and "Travail" have shown him an idealist of a high order. And these books, in fact, have been anything but the "human documents" which he once declared to be the only thing worth declared to be the only thing worth writing. How completely he has given himself no humanitarian ideals appears in recent interview given to a Naples journalist, M. Zola began by denying that "Travail" was written in further-

ance of any socialistic theory or with any political bias. He continued: "I do not believe in absolute felicity, which is not attainable; but I believe that all social injustices might be attenuated, and therefore I trust clence to create a sentiment of truth I have a great veneration for Tolstoi, but I do not agree with him on one important ; out. He rests on the gospel. Now, the gospel is also to me very beautiful, but I believe that future n-orality must be founded on scientific

psychology."
This interest in social reform has brought about a curious reconciliation. Zolo, by his own admission, sits at the feet of Hugo, and the paradox of the English critic is justified.

The 'Affaire' has taught me that it s necessary to reconstruct the moral question from its very base, and my next romance, 'Verite, will tend to that In it I shall study primary and second-ary instruction in France. I shall be ary instruction in France. I shall be active between pupils and masters, and shall explain my ideas on the education problem. In the first part I shall describe the sad effects of present-day education; in the second, education as it ought to be. My next work will be 'Justice.' It will treat of a judicial error, but I shall try not to make any allusion to the 'Affaire.' The action will not take place in military circles. It not take place in military circles. It will give me a motive to show my supreme ideal—the end of war, the vic-tory of the spirit of justice over mili-tarism, the United States of Europe, the dream of Victor Hugo. You will be

mantle than you thought,"-New York Evening Post. MUSIC LOVERS.

### MOST STOCKS ADVANCED.

Amalgamated Copper and Anaconda Were Conspicuous Exceptions.

Rise in Vanderbilts Reached as High as 5%-Coppers Quiet and Irregular - Bonds Not Regular.

New York, Sept. 27.-Prices of most stocks advanced at the opening, some 5, Vanderbilts rising from 1 to 2 points Amalgamated Copper and Anaconda were conspicuous exceptions. The latter sagged from the opening and the former, after feeble fluctuations, com-menced to decline on light dealings. menced to decline on light dealings. Active stocks declined despite the increasing strength of the Vanderbilt group. Sugar lost a point, and railroad stocks generally fell below yesterday's close, Missouri Pacific losing. %. Near II o'clock heavy short covering carried the Western Pacifics and Southwestern railroads and the U. S. steel stocks above last night's prices. The extreme gain in the Vanderblits reached 5½ in Lake Erie and Western preferred; 4% in Peoria and Eastern; 4 in Canada Southern and Lake Erie and Western; 21 in Canada Southern and Lake Erie and Western; 3¼ in New York, Chicago & St. Louis second preferred; 2% in do. common and New York Central, and 1% in C. C. C. & St. Louis, and 3 in Delaware & Hudson. The copper stocks were quiet and irregular. Amalgamated lost % and rallied feebly, while Anaconda gave way 1¼ and came up strongly. strongly

Room traders took profits on the rise and Manhattan and some of the railroads reacted a point or more, including the Vanderbilts. Amalgamated Cop-per was depressed to 90 ex dividend, and Anaconda lost 1½. Trading then became dull.

New York Central rose again to 160% and Pennsylvania advanced 2 points. Manhattan crossed 124. There were advances of 1 to 2% in a number of obscure stocks, including St. Paul preferred, Great Northern preferred, Buffalo, Rochester & Pittsburg, Iowa Central common and preferred, Evansville & Terre Haute and Mineapolis, St. Paul and Sault Ste Marie common and pre-ferred. The recovery was general. Room trades joined in the buying of various usually dormant stocks and they were advanced in many cases from 3 to 7 points, principally those selling under 50. In the active list prices rose steadily but very slowly. Amaigamated reaching 92% and Ana-conda more than recovering its early

Slight profit taking caused a momen-tary hesitation, but the advance was resumed with confidence. The grang-ers Pacifics, Manhattan and other prominent stocks made the best prices of the day. Amalgamated Copper re-covered its dividend and an additional fraction. The closing was quiet and about steady at only slight conces-
