#### INCREASED ADMISSION PRICE.

Encouraged by the immediate and eminent success of the Salt Palace Vaudeville theater, the directors at a meeting held last evening decided to present higher class and more elaborate performances. To accomplish this, the country will be scoured for the best obnow on the vaudeville stage, no matter how high priced, that will not be sought after. In view of the small seat-ing capacity of the theater, the present ing capacity of the theater, the present low admission charges will not justify the greatly increased expenses of more elaborate performances and it has accordingly been decided to make a small increase in these prices. Commencing next Monday evening the new regime goes into effect and the general admission will be 15 cents instead of 10 cents, while the reserved seats will cost 15 cents extra instead of 10 cents as now. Since the opening of the theater, considerable surprise has been occasioned among the patrons, that such high peramong the patrons, that such high pe formances could be produced at such amall charges as those now prevailing, and in view of the fact that the future shows will be better than those of the past, the increase in price appears to be amply justified,

A New York dispatch this morning says: Dennis Horgan, the Irish shot putter and holder of the world's record of 48 feet 2 inches for the 16-pound shot, will leave Ireland for America on the 15th. At the last English cham-plonship held at Stamford Bridge, Lon-don, Horgan was heaten by Richard Sheldon of the New York Athletic club, but the Irishway was not in and conbut the Irishman was not in good condition on account of having had to travel to London from Ireland the night previous. He got seasick crossing the Channel, and the effects had not dis-appared when he met Sheldon. It was

Horgan's eighth appearance for the defeat so much that in order to retrieve his laurels he is coming to America to again meet Sheldon. It is probable that his debut before the American public will be at the Labor Day carni-val of the Knickerbocker Athletic club

Though of a heavy build, Horgan is exceptionally active and has a record for high lumping of five feet eleven inches. He is 5 feet 1014 inches in height and weighs 219 pounds in con-dition. #### OPPOSE VERTICAL SYSTEM. Present Style of Penmanship Not Favored by Business Men.

The vertical system of handwriting which recently came in vogue is loosing favor in the East, especially among business men, who hold that it is necessarily slow and that it eliminates individuality from the writing. When every one's writing looks slike it is impossible to trace an error to its source, such is another objection raised by the business men. In this city, however, there has been no movement against it, moreover it is high in favor with Superintendent Cooper, who thinks that legiblity is the prime factor in writing, and the vertical system is the most legible hand now in use. President Wilson of the school board is also satisfied with the system, and it is quite probable that it will remain "the thing" in Salt Lake City,
