

discuss measures on the Speaker's table. Townshend who had charge of that measure says he will ask its further consideration at the earliest practicable moment. In the Senate the bills for the admission of Dakota and Washington Territories will undoubtedly be pressed by Senators who have them in charge.

NEW YORK, 30.—The managers of the Actor's Fund benefit met this afternoon at the Grand Opera House, and passed resolutions thanking Gov. Cleveland for his acceptance of an invitation to be present at the benefit on Thursday and for his kind words regarding the profession. The Governor and party will occupy three boxes on the occasion. The same committee that waited on the Governor started to-night for Washington to request President Arthur's presence at the performance.

A mad dog made the people scatter at the corner of Houston and Mulberry Streets this afternoon. In the midst of the excitement a well-dressed gentleman made a run for the rabid animal, picked him up by the nape of the neck and cut his throat with a pen-knife, saying as he did so—"That's the way we do it in Massachusetts."

SAN FRANCISCO, 30.—The balloon Eclipse, the largest ever constructed in California, which is intended to make a trip across the Rocky Mountains, made a trial ascension to-day, and suddenly descended in Raccoon Straits, ten miles from this city. The occupants and the balloon were picked up by boats from Angel Island. The owner intends taking it to the World's Fair, at New Orleans.

FOREIGN.

DUBLIN, 29.—Earl Spencer, Lord Lieutenant of Ireland, has abandoned his intention to prosecute the *United Ireland* newspaper for libel.

HONG KONG, 29.—Reports have reached here that the boiler of the French man-of-war *Rigault Genouilly*, off the coast of Formosa, burst, killing 13 persons.

LONDON, 29.—The government has prepared a bill to be presented at the next session of Parliament, to enable the Australian colonies to establish a federal council, which will be authorized to deal with subjects of common interest to the colonies, apart from questions involved in the colonial institutions.

Bernard Coleridge, son of Lord Chief Justice Coleridge, is endeavoring to arrange a compromise with F. M. Adams, barrister, to whom a jury lately accorded a verdict for \$15,000. Coleridge has offered to pay all costs of the prosecution and \$5,000 cash to Adams to finally settle the matter.

PARIS, 29.—Premier Ferry has abandoned all hope of a successful issue of the mediation of England, between China and France.

The *Telegraph* says: There will be no further diplomatic negotiations with China, nor any further military or naval operations in the East until a full force of 25,000 has arrived on the field of operations. In the early spring an attack will be made upon Canton by the French land and naval forces.

LONDON, 29.—The Government Redistribution bill differs very much from the original draft of the measure. It extends the principle of single membership to equal electoral districts; raises the population standard for constituencies with two members, and gives a great increase in the number of members from London and other populous centers. The Radicals consider the alteration satisfactory. Chaplin and Lawther, Conservatives, are forming a group to oppose the present arrangement.

LONDON, 29.—Carl Schurz has written a letter to Prof. Bryce upon double working chambers of legislation in America. Schurz says: "The popular judgment is right in regarding a double chamber as a necessary part of American political institutions. Any proposal to abolish one of these legislative bodies would find no consideration in the United States. Americans are justly proud of their Senate, which does not represent any privileged class or separate interests, but is extremely useful as a part of American legislative machinery." The letter from Schurz on this topic arose from a reference by Prof. Bryce, asking him if he considered it advisable for England to continue the House of Lords as a legislative body.

LONDON, 29.—The six-day pedestrian tournament, 12 hours a day, was concluded to-night at 10 o'clock. Score: Littlewood 405 miles, Mason 384, Cartwright 356, MacCarty 348, O'Connor 331, Frank 305, Wren 278, Pettit 261. An immense crowd witnessed the finish. Littlewood, the winner, appeared as fresh and full of go as when he began. The record would have been greater if Rowell had persevered. Littlewood, since Rowell left the track, has been taking matters quite easy, being content to hold the lead, and was never pushed. One of the features of the contest was the exhibition of pluck by O'Connor, 18 years of age. He was presented with a silver cup. It is generally considered wrong by the public that O'Connor was permitted by the management to enter the contest.

LONDON, 29.—The English Executive Department in Dublin continues to report the spread of disaffection among the people of that city and the general activity among the secret societies in recruiting their numbers. The Nationalists make open boasts of their great increase, and Young Ireland societies are multiplying rapidly. Nu-

merous public meetings are being held by Young Ireland societies in the provinces, at which considerable display is made of Irish-American friendship and Boer flags.

PARIS, 29.—Prime Minister Ferry has offered to Lord Lyons, British Ambassador at Paris, to conclude a supplementary extradition treaty with England which shall cover the escape of convicts from Caledonia to Australia. Ferry also promises to limit the class of convicts extradited to those who are able to follow a regular trade.

PARIS, 1.—Preliminary inquiry into the shooting on Thursday of Morin, by Madame Hugues, took place to-day. Madame Hugues, in a calm, matter-of-fact manner, narrated the incidents attending the shooting. She stated that "Morin passed me with an arrogant, defiant air. I was unable to contain myself and fired, killing him. He wheeled, describing a curve, and I pursued him. He was driven against the wall. I continued to fire. Morin turned towards the middle of the gallery, always seeking to escape my bullets. I won't conceal the fact that I wanted to kill the wretch who, for two years, troubled my peace and persisted in dishonoring me."

CRUSHED TO DEATH.

JOHN D. LLOYD KILLED BY AN UPSETTING LOAD OF WOOD NEAR LAKE-TOWN, RICH COUNTY.

A terrible accident occurred at the mouth of Cottonwood Cañon, in Round Valley, Rich County, on Friday, the 21st inst. John D. Lloyd went to the cañon in the morning and got a load of wood. Alma Findlay and he came down the cañon together, until Alma turned on the road leading through the valley to town, while John took the road leading to the divide at the southwest corner of town.

Nothing was heard of him up to ten o'clock at night, when his mother and wife, who carried her child along, walked to the house of Peter Allen, at Round Valley, two and a half miles distant from their home. Mr. Allen got up in answer to their call, but could tell nothing of the whereabouts of the missing man. On inquiry, he ascertained that he was last seen with Mr. Findlay, and he immediately saddled up his horse and rode to Lake-town. Learning from Mr. Findlay of the probable direction taken by Mr. Lloyd, he returned to Round Valley and called upon Messrs. Isaac Price and Luther Reed, who, at his request, went with him in search of Lloyd.

To their indescribable horror, about half a mile above Mr. Allen's house, they found the load turned bottom side up and the horses with their heads in the creek, dead. They had considerable difficulty in getting the load off, and had to cuop the reach of the wagon in two to loosen the chain. On taking the load off they found Mr. Lloyd's body under it. According to their judgment he must have died instantaneously with the fall of the load. The place where the fatality occurred was not very steep, but quite sidling, and the opinion of those who examined the place is that the front wheels missed a boulder on the upper side of the road, but the hind wheels struck it and upset the wagon.

The men brought the dead body down to Mr. Allen's house, and thence to the residence of Mrs. Lloyd in Lake-town. It is needless to say the scene at Mr. Allen's when the corpse arrived was heartrending. The accident must have happened about 2 p.m.

An inquest was held over the body by Alma Findlay, Esq., J. P. for that precinct, and the jury returned a verdict in accordance with the testimony of the witnesses, in substance as above stated.

Deceased was a strong healthy young man, well built, of sober habits, and was 22 years of age. He leaves a wife and her young babe. His mother is a widow deriving most of her support from his labors, and much sympathy is felt by them in the terrible affliction they are called to endure. Our informant is Joseph Irwin, of Laketown.

MORGAN STAKE CONFERENCE.

The Quarterly Conference of the Morgan Stake convened in the Stake House, Nov. 15th and 16th, 1884.

Present on the stand of the Apostles, Geo. Teasdale; of the Stake Presidency, Willard G. Smith, Richard Fry and Samuel Francis; most of the High Council, presidents of quorums, and the Bishops and their Counselors.

Saturday, 10.30 a.m.
The choir sang. Opening prayer by Patriarch Alma Porter.

President Fry addressed the Saints briefly upon their duties. A number of Bishops reported their Wards.

Apostle Teasdale spoke of the necessary qualifications a person should have before going through the House of the Lord.

2 p.m.
The remaining Bishops reported their Wards, all showing that the most essential principles pertaining to the higher laws of the Gospel were as a rule neglected by the Saints.

President Smith spoke upon the temporal advantages and disadvantages of the Stake, showing the advantages other Stakes of lower altitude have that this Stake has not.

Prest. Francis spoke of the spiritual and the temporal advantages of the Saints of the Stake. He also touched

briefly upon the political situation of the nation and their conduct toward us as a people.

At 7 p.m. a Priesthood meeting was held. Most of the quorums were reported by their respective presidents.

Apostle Teasdale proceeded to instruct the Priesthood upon their various duties; also how to purify and to prepare themselves to be able to enter Temples to officiate for the dead, particularly enjoining upon them the necessity of saving themselves before they could become Saviors upon Mount Zion.

Sunday, 10 a.m.

The Clerk read the statistical report. The General and local authorities were unanimously sustained.

The Superintendent of Sabbath Schools reported those institutions in a favorable condition.

Apostle Teasdale read the revelation on the different degrees of glory and exaltation in the eternal worlds, and spoke upon the same showing that no degree of glory could be attained only by obeying the laws pertaining to that glory.

2 p.m.
The Sacrament was administered.

Elder John Seaman spoke briefly upon the persecutions of the Saints, past and present.

Apostle Teasdale occupied the remaining time upon the same subject as in the morning.

Conference was adjourned for three months.

Benediction by Alma Porter.

Some idea of the number of hungry office-seekers in the Democratic ranks may be gained from the fact that there are 130 aspirants for the postoffice at Bridgeport, Conn., and 44 for the Danbury office.

As this world grows older, some marvelous titles for secret societies are being produced. The Supreme Castle of the Ancient Order of Knights of the Mystic Chain, is now in session at Pittsburgh.

The Conservatives in both Houses of Parliament having agreed to pass the franchise bill upon the terms of the compromise proposed by Mr. Gladstone, that measure as a law becomes an assured fact.

Here and there we notice little hints in our exchanges which indicate the approaching winter to be one of great hardship for the poor in manufacturing towns and villages. Even now many cases of distress are reported.

A New York shoe clerk killed himself the other day because his occupation was a degrading one. The foolish fellow might have changed his occupation in preference to changing his sphere of existence.

Mr. Cleveland tells Government clerks and other office-holders who are fearful of losing their heads that he is not "much of a chopper." If they could bring themselves into a state of thorough confidence in this assurance from headquarters, all would be serene.

The total prohibition vote of the country will aggregate 200,000. Four years ago it was less than 11,000. Prohibition is being made a national issue and by the above figures it looks as though it were making rapid strides toward gaining its point.

A Quick Recovery.

It gives us great pleasure to state that the merchant who was reported being at the point of death from an attack of Pneumonia, has entirely recovered by the use of Dr. Wm.
