### AMERICAN.

WIRED FROM WASHINGTON.

WASHINGTON, 27.—Bigelow, president of the National College of Pharmacy, and 38 students, left the institution in consequence of the admission of a colored man.

Secretary Frelinghuysen has received a telegram from the United States minister at Paris, stating that the *Official Journal* will to-morrow publish a decree cancelling the prohibition of the importation of American pork into France.

The cabinet meeting was protracted. It is understood the Franco-Chinese troubles were under discussion.

Recently the Commissioner of Pensions suggested that Secretary Teller formulate rules to prevent any but reputable members of the legal profession practising before the interior department as claim agents. To-day the Secretary sent a long letter to General Dudley, declining to take the action proposed, for the reason that he considers the present rules of the department sufficiently explicit concerning the exclusion of "disreputable" persons, and the law does not compel a claim agent to be a practising attorney at all.

**Depravity and Disaster.**

PITTSBURG, 27.—All is quiet at Murrayville to-night. There have been no further disturbances, and the leaders of the aggressive party being in jail, none are apprehended for the present. Excitement kept t fever heat all day by unfounded reports that bodies of armed men were on the way to the scene. The inquest was concluded this evening. The testimony elicited proved that the attack on the Haymaker party was most brutal and unprovoked. It was shown that Browser killed Haymaker, and also gave the order to fire, and that the Haymaker party was unarmed and acted entirely on the defensive. The verdict rendered charges Browser with murder, and the others felonous assault with intent to kill. A preliminary hearing was given the fifteen prisoners at Greensburg, after which they were lodged in jail to await trial in court. Weston, of Chicago, Wm. Meechling, of Greensburg, James F. Johnson, of Pittsburg, Dr. Crawford, of Greensburg, all prominent men and charged with murder, will not be admitted to bail. The wounded are doing well, except Heifner, who will probably die. A post mortem examination of Haymaker's remains developed eleven bayonet and two bullet wounds; any one of the four bayonet wounds would have been fatal.

Kansas City, 27.—*Journal's* Coffeyville, Kansas: At the village of Jonesburg, on Sunday night, C. B. Hendricks and wife went to the house of a young man, Thomas Maguire, and accused him of maligning the latter's character, and shot him dead. Evidence indicates that the woman did the shooting. Both were arrested and confined. Shortly afterward an unknown person fired through the window, wounding Hendricks in the head; he will probably die.

Laconia, N. H., 27.—The funeral of Ruddy and child, victims of the Sunday murder, was largely attended in the Catholic Church this forenoon. Mrs. Ford's funeral occured this afternoon at the Court House. The body was viewed by throngs of people. Salomon's hearing will probably take place Sunday at the jail, and will be private. He still thinks that the house and dead bodies were destroyed by fire. Mrs. Ruddy is in a dangerous condition, and it is feared she will not recover.

Pittsburg, 27.—Milton Weston, interviewed this evening, said that as soon as he could obtain his release from jail, he proposed to organize a company and take possession of the well in spite of the sheriff or any one else in Westmoreland County To-night the telephone wires were cut between Murrayaville and Pittsburg, and communication is suspended.

DECATUR, Ills., 27.—Black Bart, the notorious stage robber who has been operating mysteriously and alone on the Pacific slope, turns out to be Charles E. Boles, who lived here previous to the war and was sergeant in the 116th Illinois Infantry, serving with great bravery for three years.

**Arbitration League of London.**

PHILADELPHIA, 27.—The International Arbitration League met to-day. The object of the league is to promote the adoption by nations of the principle of international arbitration in the settlement of disputes. A letter of regret at inability to be present was read from Gen. Grant. He said: "My views on the subject of arbitration have not changed, but my hopes of its speedy accomplishment have diminished It is only by keeping the subject alive; it can be accomplished eventually." A number of letters and telegrams were read, incuding a dispatch from D. Appleton, representing the arbitration league of London. It reads: "Protest against the Franco-Chinese war; you have our cordial sympathy.

**Manitoban Manifesto.**

Winnipeg, Man., 27.—The Manitoba and Northwest Farmers' Union was organized at Brandon yesterday by a large and influential representative gathering. Universal unanimity prevailed concerning action to secure redress of the grievances under which the settlers are being crushed. The following extract from one of the speeches contains the substance of the discussion and represents the feeling of the meeting: "We meet together to make a solemn, united and vigorous protest against the high-handed policy of the Dominion government toward this province. When Manitoba entered the Confederation it was upon conditions that she should enjoy quasi rights and privileges with every other member of the Dominion. Have we enjoyed, are we enjoying those rights and privileges to-day? I answer, "No;" every province except Manitoba has control of its lands, timbers, minerals, solely for the benefit of those provinces. This right is denied Manitoba alone. All she receives is a paltry subsidy which is barely sufficient to pay the 20th part of the cost of administering the affairs of the Province. Again, a most grievous burden has been imposed upon us in the shape of increased duty on agricultural implements. If agricultural machinery is wanted in any part of the world it is wanted here. Our paternal government has taken advantage of our necessity to oppress us with an iniquitous imposition. What is the result? The struggling pioneers of this country are already on the verge of bankruptcy if not utter ruin. Another form of torture that has been inflicted upon us is a hideous railway monopoly which is to bind us hand and foot for 20 years. The vetoing of the local railway charter was one of the most shameful instances of tyranny ever imposed upon a free people. What is the remedy for this state of things? We must have control of our trade relations with foreign powers. No monopoly must have control of Manitoba. It is all very well to talk loyalty to the Dominion; but we must be loyal to ourselves and families, and I fail to see how we can be loyal to ourselves and them, if we any longer submit to the arbitrary, despotic government by which we are at present controlled. I should be sorry that Britain should be despoiled of any part of her provinces, but if the oppressive rule of Ottawa is continued, I fear that the secession of this province from the Dominion of Canada will be inevitable. Resolutions were passed, and a similar platform adopted by the Manitoba Rights League of this city. A committee is appointed to visit meetings throughout the Northwest, and it is probable that all organizations will be affiliated with the Winnipeg League, which will lead to a grand convention and the Dominion government be forced to recognize and respect the rights of Manitoba and the Northwest by the force of public opinion.

**Some of the First Settlers.**

PLYMOUTH, Mass., 27.—In making improvements on Col. Hill's grave, that of the Pilgrims who came over in the *Mayflower*, and were buried during the first winter, have been discovered. One was opened. It contained the skeleton of a middle-aged man, five feet nine inches in height. In another grave the skeleton of a middle aged man was discovered. These are the only graves of the first settlers positively identified Tablets will be placed to mark the exact location.

### FOREIGN.

**British Briefs.**

LONDON, 27.—There is nothing here to confirm the report in America that Khartoum had fallen into the hands of El Mahdi. On the contrary, last advices indicate that the siege was liable to be stubbornly opposed, as the garrison was being reinforced and provisioned.

The Dutch bark *Judith*, from Lovise for Purmerenda, was lost off the coast of Norway with 156 persons on board. The captain is the only survivor.

Justice Denman, of the Court of the Queen's Bench, presides over O'Donnell's trial, which begins on Friday.

It is expected the trial will be concluded on Saturday, as only nine witnesses for the prosecution and four for the defense will be called.

Lord Rossmere's commission as justice of the peace in County Monaghan, has been suspended owing to his action on the occasion of the Orange and League meetings at Roslea, County Armagh, Oct. 16th. The Lords Commissioners of the Great Seal in a letter to Lord Rossmore, charged him with endangering the public peace by leading a procession of Orangemen in close proximity to a League meeting. The letter concludes, demanding an explanation from Lord Rossmore.

Lord Rossmore replied that he was unable to control the Orange procession, which he says insisted upon marching straight to the place of the League meeting. He says he is convinced that his action at Roslea was the most practical answer to Gladstone's appeal to the wealthier portion of Ireland to help themselves.

The Marquis of Huntington, Secretary of State for War, referring in a speech in Manchester to the proposed inclusion of Ireland in the scheme for Parliamentary reform, said it was useless to ignore the fact that many people outside the ranks of Conservatives would view with dislike any measure likely to increase the power of the irreconcilables in Parliament.

Newry, 27.—At a meeting of Orangemen, arrangements were made to hold a demonstration to counteract the demonstration of Nationalists held Sunday afternoon; 2,500 Orangemen have promised to attend. Railway officials have made arrangements to run special trains from Belfast. The magistrates have applied for a large force of police and dragoons to preserve order. Orangemen have arranged to place a thousand men on the principal roads to prevent Nationalists entering town.

**General Items.**

Paris, 27—Excited crowds thronged the boulevards until a late hour to-night, eagerly discussing the rumors of the French defeat in Tonquin. The reticence of the government is much commented on Several members of the committee on Tonquin credits urged Prime Minister Ferry to abandon his reserve and inform the Chambers of the position of affairs. In view of the state of things, the following semi-official communication was sent to the papers: "We are authorized to declare that up to the moment of going to press, the government has received no dispatch from Tonquin unfavorable to the French. Alarmist reports may therefore be regarded as false."

Plymouth, 27.—A woman, said to be Patrick O'Donnell's wife, on board the steamer *Melrose* when Carey was shot, has arrived from Cape of Good Hope. he traveled under the name of McGarvey, and has been taken to London to testify in behalf of O'Donnell.

A rumor is current this afternoon in the lobbies of the Chamber of Deputies that Admiral Courbet, with his forces, has been defeated at Tonquin by the Black Flags, and his communications cut off. The rumors are given the more credence because no official information is forthcoming. There is considerable uneasiness felt at the absence of news from Admiral Courbet's expedition.

Berlin, 27.—The Lower House of the Prussian Diet has concluded the debate upon the budget.

St. Petersburg, 27.—Three young ladies attached to the Court are arrested on the charge of being connected with a Nihilist conspiracy.

Madrid, 27.—The *Imparcial* states that the Crown Prince of Germany will not visit Andalusia.

A royal decree has been issued pardoning all fugitive corporals implicated in the recent military revolt at Badalos. Upon their presenting themselves within two months to Spanish Consuls abroad, they will be allowed to retain their ranks.

It is believed the Prince of Wales will visit King Alfonso at Madrid early in 1884, and numbers of other royal families in Europe will subsequently visit the King.

Cairo, 27.—The government has sent a note to the consuls of the Powers declaring that no changes can be legally made in the status of the Suez canal without fresh concessions from Egypt

Six hundred gen d'armes have started for Suakim. It is rumored the province of Dongola has risen against the Egyptian government.

The telegraph between Berber and Kassala is cut. A correspondent telegraphs: No news has been received yet from Khartoun. This is regarded as giving grounds for the hope that the report of the recent fight between Hicks Pasha and El Mehdi was exaggerated. The opinion is that if the worst reports are confirmed, it will be best to send indian troops to Soudan in order to prevent the necessity for landing Turkish troops in Egypt.

Pesth, 27.—Burglars entered the Selavonian Church in this city last night, polluted and shattered the altar, and burned the sacred archives.

Sydney, N.S. W., 27.—Delegates from the Australian legislatures have all arrived to attend a conference to consider the annexation of New Guinea and a Federation of English Australian colonies.

Hong Kong, 27.—The governor of Hong Kong has just returned from a trip to Pekin, where he saw the principal minister, of the Chinese empire. He is of the opinion that China is resolved to fight if forced much further by France in the Tonquin matter. China, he says, has 100,000 trained men available for operations against the French.

### BRIEF TELEGRAMS.

The steamer *Eclipse* is lost on Lake Huron with several lives.

A large portion of the town of Rat Portage, Manitoba, is burned.

The Indianapolis police will suppress the sale of all flash papers.

Thomas A. Doyle is elected mayor of Providente, R.I., for the fifteenth time, after an interval of three years.

A fire at Leadville yesterday, destroyed Londoner's grocery store, Hosnyder's dry goods store, and several small concerns. Loss, $27,000; insurance, half.

Two Canadian Pacific surveying parties have started out to work between Cornwall and Ottawa. It is intended to complete 200 miles west from Ottawa next year.

### CITY COUNCIL.

Proceedings at the City Council Tuesday evening, Nov. 27th, 1883, Mayor Jennings presiding:

L. E. Hall and four others petitioned that the water ditch in the Eighteenth Ward, at the intersection of First North and First East Streets, be flumed and covered, as in its present condition it was liable at any time to break through its banks and damage their property and it now rendered said streets dangerous for vehicles and pedestrians.

Referred to the committee on irrigation.

John A. Fitchette asked permission to erect a lamp post in front of his place of business, No. 39 East Temple Street, the lamp post and lamp to be after the style of a cut which he submitted for inspection, and to be erected near the curb, in a line with other street lamps. It was to be illuminated with gas for light and advertising.

Referred to the committee on improvements.

Louis E. Bamberger applied for a license to carry on business as auctioneer throughout the city for the term of six months Granted.

Application for license to do business as retail liquor dealers at their respective houses, for a period of three months, were presented from A. Livingston and Russell & Hilton. Granted.

The committee on enrollment reported that an ordinance passed November 20th, 1883, entitled "An Ordinance Extending the Fire Limits" had been enrolled, signed by the Mayor and published as provided by law. Filed.

A bill of $43 from R. B. Williams, for collecting dog taxes during the months of September and October, 1883, was allowed.

The sums of $1,000 and $500 were appropriated to the contingent funds of the supervisor of streets and the superintendent of water-works respectively.

Councilor Taylor in behalf of Mr. Henry McEwan stated, that he formerly had an entrance to his premises, situated on First South Street, between Third and Fourth East Streets, but had lately disposed of a portion of his land, and the only entrance to his place, was now obstructed by a lamp post; that Mr. McEwan was at a loss to know how to effect the removal of the lamp to permit ingress to his premises.

On motion, Mr. McEwan was granted the privilege of moving the lamp post under the direction of the supervisor of streets.

On motion the Mayor was authorized to negotiate with the Union Pacific Railway company for the purchase of lands in City Creek and Dry canyons. A certificate from the watermaster was submitted naming the sections upon which springs occupied by the city are located and which it was deemed expedient to purchase in order to obtain undisputed control of the waters of both canyons from source to mouth, and to effectually prevent befouling the waters by herds of sheep, cattle and other animals.

The city attorney suggested that steps be taken to acquire a new city charter from the coming Legislature, conferring additional powers and strengthening and consolidating the powers already held by the city. He thought the charter passed by the Legislature of 1882, but not signed by the Governor on account of lack of time to properly peruse it, should be obtained and made applicable to the present wants of the city for presentation to the Legislature of 1884.

Referred to the committee on municipal laws, with the city attorney associated.

Alderman Raleigh moved that the Mayor be instructed to require the gas company to extend their gas mains northward, so as to conform to the report of the committee on improvement, heretofore adopted. Carried.

The unfinished business of former meetings was taken up and action taken as follows:

Applications of George M. Scott & Co., Hardy Brothers & Burton, Evans & Spencer and Thomas Carter, for permits to sell black powder according to the provisions of an ordinance made and provided, were granted.

Petition to sprinkle West Temple between South Temple and First South, petition of Henry Allsworth and others and E. A. Ireland in relation to oil warehouses; petition of A. L. Williams and others for extension of water mains, and petition of John Reese in relation to fruit stand, were laid on the table indefinitely.

Adjourned for one week.

### A CURIOUS EXPERIMENT.

THE BEST WAY TO WOO THE DROWSY GOD.

I had often noticed that when engaged in deep thought, particularly at night, there seemed to be something like a compression of the eyelids, the upper ones especially, and the eyes themselves were apparently turned upward, as if looking in that direction. This invariably occurred, and the moment that by an effort I arrested the course of thought and freed the mind from the subject with which it was engaged, the eyes resumed their normal position and the compression of the lids ceased. Now it occurred to me one night that I would not allow the eyes to turn upward, but keep them determinedly in the opposite position, as if looking down, and having done so for a short time I found that the mind did not revert to the thoughts with which it had been occupied, and I soon fell asleep. I tried the plan again with the same result, and after an experience of two years I can truly say that, unless something specially annoying or worrying occurred, I have always been able to go to sleep very shortly after retiring to rest. There may occasionally be some difficulty in keeping the eyes in the position I have described, but a determined effort to do so is all that is required, and I am certain that if kept in the down-looking position it will be found that composure and sleep will be the result.

It may be said that as the continued effort to keep the eyeballs in a certain position so diverts the attention as to see the mind from the disagreeable subject with which it had been engaged, sleep will follow as a natural consequence. It is not improbable that this is to some extent correct; and if so, it is well that by means so simple and so easily adopted such a desirable result can be secured. But I think this is not the only nor the principle reason. The position in which the eye should be kept is the natural one; they are at ease in it; and when there is no compression of the lids or knitting of the brows the muscles connected with and surrounding the eyes are relaxed. This condition is much more favorable for sleep than for mental activity or deep thought.—*Chambers' Journal.*

IT DID THE WORK.

AN OLD SISTER IN THE 20th Ward, was for nine months unable to undress herself, owing to the effects of Rheumatism, but lately she took a few doses of the Brittannia remedy advertised in our columns, and was at once relieved of her infirmity. She is now perfectly free from pain and stiffness, and feels comparatively like a young woman. It is a marvelous remedy. All should try it who are afflicted with this painful malady. It is also a splendid tonic.

Brittannia!

IN THIS AGE OF GREAT DISCOVERIES, probably the most useful one is that which has lately been attracting the attention of persons in this Territory, who were immediately cured of Rheumatism on testing its virtues. Doctor Hill, of England, an eminent physician of fifty years' experience, and who has about five thousand patients, has made the discovery, and places this valuable remedy in the reach of afflicted persons in the New as well as the Old World. Testimonials of influential persons living in Salt Lake City can be furnished on application. One bottle cures by removing the causes from the blood. It also builds up the system and makes the aged as lithe and active as those of younger years. All pain removed in a few hours. Ask for Dr. Hill's Celebrated Anti-Rheumatic Elixir. For sale at Z. C. M. I. Drug Department, Sole Agent for Utah. Price, $2,50 per bottle. It has never been known to fail, and is noted throughout Great Britain as a marvelous and most useful discovery. d 1f
