# TRADING ON 'CHANGE TODAY.

fined to Cheaper Stocks.

Ajax Was Stronger Than at the Close on Saturday-The Business Transacted-Stock Transfers.

The week opened quietly on the exchange this morning and the trading with the exception of Lower Mammoth was confined mostly to the cheaper stocks, Ajax, which opened the call and the trading, was stronger by several points than at the close on Saturday, sold as high as 98% cents, the last sale being effected at 97%, being three cents above Satur-

Daly again entered the field and was dealt in at figures around \$1.78. Daly-West jumped to \$30.19, twenty shares changing hands at that price, but the stock fell at the close and only \$29.77

was bid. Lower Mammoth, which was again a favorite in trading, fluctuated during the call, but on the whole ruled higher than at the close of last week. The sale of this stock was opened by 100 shares changing hands at \$4.62½. From this figure the decline was gradual and the last sale was recorded at \$4.40½, nearly 3,000 shares having participated in the trading at figures, between the two trading at figures between the two

May Day was about stationary and sold at around 40 cents, while Sliver Shield handed out 500 shares at 24½. Star Con, was dealt in at figures around 95 cents. The remaining trad-ers were with the smaller stocks and about the figures which closed the week The non-traders were about stationary, and at the close the market ruled

# GOOD REPORT FROM R. C. W.

Call Opened Quietly and Was Con- Samples Encountered Off the 600 Leval Brought In.

LOWER MAMMOTH IN FAVOR NEARING THE MAIN LEDGE.

Belief of Mr. Wilson Who Came in from the District This Morning Other Properties.

R. G. Wilson of the Rio Grande Western mine at Tintic returned this morning from the property. Mr. Wilson rought with him a sample of ledge matter, which was encountered Saturday in a drift off from the 600 foot evel. Mr. Wilson says that every indication shows that they are nearing the main ledge and expects that a strike will be made within the next two or three days. Besides the drift on the 600 foot, a drift is being run west on the 400 foot level. In this drift the character of the ground is changing and they hope to cut the ledge within the next few feet.

Speaking of other properties in the district he said that the work on the Ridge and Valley near the Gemini was peing pushed and that the shaft has attained a depth of 700 feet. The obot of sinking this shaft is to get be-w the ore zone, which has been disclosed in the Gemini and then drift to locate the ore. This depth has not beeth reached as yet, but work will continue until this end is accom-

The Little Chief is looking up well, and though the strike recently recorded in this propery was not a great one, everything goes to prove that when depth is attained the mine will become steady producer.

#### UTAH MEN IN THE NORTH. What They Are Doing in Search o Fame and Fortune.

It would seem that the Utah people who have gone to Alaska have been very successful as a whole compared with those from other States. Mr. George E. Wilcox reached his home in this city Saturday fresh from Dawson George E. Whicox reached his home in this city Saturday fresh from Dawson City, While Mr. Wilcox has not be-come a millionaire, yet he has gathered in a goodly share of wealth and has some properties up there that are yet, he says, destined to enrich him furthe He intends to return in the spring. He reports the Utah contingent in and about Dawson as prosperous. Jack Denovan is proprietor of a first-class hotel and owns some valuable property on Deminion Creek. Tom Lloyd is manager of the Eldorado for Joe Putrow. Harry Edwards is still mana-ger of the Chisholm interests. Johny Bechtol is managing a hotel, and John Dormer is setting type on the Dawson News, but intends going to Tanana basin, about 450 miles northwest of Dawson, where copper discoveries are attracting considerable attention. The ernment is constructing road to open up that part of the coun-

Mr. Wilcox says that the mining in dustry in this northland is still in its infancy netwithstanding the great minefal output of the past. The Canadian government has reformed in a number of its measures one of which the ten per cent royalty exacted on incomes over \$5,000 has been amended, so com-plaints cannot now be justly made. and as a whole the people are law-Mr. Wilcox Is looking and abiding. feeling well.

#### MINING IN BLACK HILLS. New Districts Being Opened Up -

New Minerals Discovered. The Black Hills district has gained

about \$800,000 in the yearly output of gold, the yield for the past year being about \$10,000,000, says the Deadwood, S. D., correspondent of the Denver Post. The output of other valuable metals and minerals amounts to nearly half a The past year has seen a great many

improvements in mine development and in the methods of ore treatment. There has been a tendency to sink deeper than has been the custom in pastyears. the results having been very satisfac tory. A number of entirely new min-ing districts have been opened up and several new and ware minerals have een discovered. Decided advancement has been made in the treatment of the low-grade ores of the Hills, owing to the successful experiments that have been made with the cyanide process. New methods have been used for the mining of placer gold, and electricity, as used with the chlorination process, \$4.43½; 100 @ \$4.47; 400 @ \$4.41; 200 @ has been successfully employed in the \$4.43; 100 @ \$4.40½; 200 @ \$4.41; 100 @ separation of gold values. Greater \$4.41½; 100 @ \$4.40½; 100 @ \$4. Hills. Large ore bodies, in the vertical formations, have been found, which are, it is believed, destined to result in the making of great mines. There has been no trouble in selling good mining properties, and the new mining com-panies, with stock to sell, have kept a full treasury. It is believed that cop-per, tin and mica will be mined in commercial quantities to a large extent in the coming year. Six companies are at present working on copper bearing properties, five on mica and one company was recently organized to develop a tin property in the Bear Guich district. There is reason to expect the output from the Hills to be increased

#### three millions this year. Better Freight Rates.

Since the consolidation of the American and Guggenheim smelting in-terests it is predicted that some very radical changes in railway rates will likely occur. If the men who ship the ore do not receive as much benefit as be profited to a considerable handling, but pe aps the greatest part of the beneat will go to the smelters. Heretofore it seems there grades of Utah ores by outside smelt-ers, and these have insisted that the only such callers as have urgent busi-ness with him. Mrs. McKiniey's health able to compete with the home conerns. The local smelting men have strike reported in that property. An

demanded a lower tariff that the home product may be kept here, and with the consolidation of the smelling interests above mentioned, better facilities for liandling ores have been created, and with a lower tariff most all of the Utah ores can and doubtless will be taken care of at home,

#### The Joe Bowers.

It is strongly runnored that the Joe Bowers mine at Diamond, in the Tintic district, will close down, which will be followed by an assessment necessitated by indebtedness which has piled up, amounting to a large sum. Ever since the Burnham estate claimed a portion of this mine it has been waning, and while its stock sales on the market were selling on a basis of \$180,000, the curbstone prices would reduce it to about \$7,000. The mine has produced some rich ores in small amounts, but it needs a plant to bandle its milling

#### At Stateline.

The manager of the Ophir company's Stateline property, F. M. Lathrop, came in from that camp Saturday and Ophir has reached a depth of 200 feet, where sulphides have been encountered, but it will be sunk 200 feet further before cross-cutting. Mr. Lathrop did not care to say what the composition of the sulphides were, but stated they were sulphides to the sulphides were but stated they

#### An Ajax Fake.

The Denver Times published the following, which bristles with inaccura-

"Word was received in this city yes-terday that Samuel Newhouse, just prior to his departure for Europe, parted with his stock in the Ajax mine of Tintic, of which he and Thomas Weir have held the control for more than two years. When Mr. Newhouse purchased the control, h. was supposed that the mine would provet to be as important a property as the Mercur Consolidated. A great deal of development work has been deal of development work has been done by Mr. Weir during the past two years, but results have not been satisfactory, and Mr. Newhouse therefore decided to let it go. The ore taken out in development has about paid ex-penses, but what was left was of too little consequence to count for much in the future of the property. There seems to have been enough Utah men who still have faith in the mine, for while Mr. Newhouse did not carry off a profit, his stock brought very nearly

the price pald for it."

It has evidently ben stuffed from some unreliable source, because the Ajax is not an undesirable property as the article would infer. Mr. Newhouse certainly would not cast reflections on a property which had produced over \$1,-600,000. The stock beginning with 62c has climbed up till it has since sold for as high as \$1,12½ per share.

#### Tintic Shipments.

The Tintic Miner reports the follow-log shipments out of that camp for the

Cars of Ore-Centennial Eurea ...........23 Incle Sam ..... Humburg ...... .... Grand Central Ajax Lower Mammoth Morning Glory .....

Cars of Concentrates-Eurea Hill ..... .... , ....

According to the Miner, in the Blue Self mine, high grade shipping one has seen spotted in the 200 foot ore chute,

he same ore continuation appears or the 399 foot level, the ore carrying \$5 in gold and 16 ounces of silver. A winze is being sun down from the 300 foot

# MINING NOTES.

Ophir Hill was in today with sixteen

The Carlsa had four cars of ore on the market today, One car of United States ore was reported this morning.

Two car loads of Silver Shield conentrates was reported on the market

trates were reported at the Taylor and Brunton sampler this morning. The West Mountain Placer Mining

company has levied an assessment of cents per share on the capital stock of the company. The assessment beomes delinquent on February 23rd. The latest reports from the Utah mine at Fish Springs show that the property has improved both in ore bod-es and the value of the ore exposed. A

ported at the smelter this morning. Joe Dederichs announced on Saturday night that the new mill of the Butterfield Mining company, at Bingham, would be started this morning. The plant commences with five stamps with room to double the capacity. A very prosperous run is predicted on the thirty tons of ore now on hand.

The Alamo at Bingham is reported to be in a body of copper, gold and silver sulphides, with indications of a good ore body being encountered. The wes resemble very much those taken from the larger mines of the camp. Before ing the Alamo ought to become a prof hose desiring good property.

A meeting of the directors of the Dewey Mining company will be held this evening to ratify the letting of a contract for the driving of their tunnel to feet further in the mountain. The tunnel is now in 50 feet and it is expected that when the new contract is competed that they will cut the vein which was exposed in the shaft at a lepth of about 150 feet. Some very fine onate ore was exposed in the shaft which is down about 50 feet.

The manager of the Yankee Con., of Tintic, Mr. Richard Guenther, was in jown Saturday. He reports that the vein will soon be cut again by cross cuts in this property. The rock en-countered now is very hard and progress accordingly slow. Mr. Guenther thinks prospects, however, are very good, and that a "big little proposition"

will soon develop out of this mine. Joe Oberndorfer, secretary of the Little Chief, went to Eureka Saturday night, and before returning will make a thorough examination of the new ore

ief until I took

BYED, Olney, Ill.

assay was obtained on some of this which showed as much as 30 per cent lead, with silver and gold besides. A good deal of interest is manifested the new developments.

Peter L. Kimberly, who invested \$300,000 in the Gold Mountain. Plute county, reached this city from his home in Shiron, Pa., and yesterday went south to visit his mine. A new mill has been erected on his property, which will soon start up, and doubtless Mr. Kimberly will soon begin to draw dividends. The mining fraternity here wish him success as he has fearlessly gone. I to the enterprise, and should be

Hon, Apullia Nebeker, manager of the Conconino mine down in Arizona came in from his northern home Saturday, to continue his fourney on south in a few days. He reports that the smelter continues to be closed because of fuel complications arising some time ago, and it has been decided to erect a leaching plant to treat the cres. Until this process is tested it is quite likely the smelter will not be started. In the meantime the opening up of new

# MARKET AS BEARS LIKE IT

Reckless Unloading of Stocks for Half an Hour or More After Opening.

Flood of Selling Orders Breaks Prices -Rally in Various Stocks Stopped Decline Excitement Subsided.

New York, Jan, 21.- The bear party in the stock market found things very much to their liking this morning and there was a reckless unloading of stocks for something over half an hour after the opening. The desire to save profits or to prevent losses on largely extended long accounts was the princlpal element of the weakness, but the critical condition of the queen of Eng-land had a very marked sentimental effect. Thus, while the selling of stocks for London account was a small ment in the break in prices, last week's persistent decline here in the process of speculative liquidation was directly ac ountable for the action of the market The impairment of margins had the effect of very general demands from brokers for additional securities from their customers. The inevitable effect of such a condition of affairs is the placing of large orders to sell stocks. The bear party on the exchange, aware of the fact that there were very large selling orders to be executed, were alert to take the market away from those looking to liquidate and afterwards to offer prices down with the purpose of uncovering stop-loss orders. With the flood of selling orders for both accounts which were thrown upon the market, the prices of stocks broke in a somewhat alarming manner. There were such declines from Saturday's prices as 3% in St. Paul, 3 in Pennsylvania, 3 in Northern Pacific, 2% in Colorado Fuel, 3 in Pressed Steel Car, and 3% in Amalgamated Copper and 4 in Republic Steel preferred. A large number of the most

prominent stocks on the list suffered to the extent of between 1 and 2 points. The unwieldy proportions of the short interest in the market again proved a powerful supporting influence and the bears showed themselves eager to cover. The lowest prices of the very weak stocks were momentary dips with immediate railies. Thus there was but a single sale of St. Paul at 14216 and

with a few succeeding transactions the There was notable strength on Missouri Pacific throughout the flurry. After a small fractional decline it rose rapidly 3 points above Saturday and had a large influence in checking the weakness elsewhere. Amalgamated Copper recovered 34; St. Paul 24; Pennsylvania, 1%; Kansas & Texas preferred, 2, and a large number of stocks from 1 to 1½, bringing prices in many

This substantial rally in prices caused the excitement to subside, and dealings fell awey to a comparatively small vol The undertone of the market ontinued rather nervous but the heavy

After midday the Wabash securities ecame buoyant, the common rising %, the preferred 3, and the debenture

ids 4 points. When, later, the speculative demand for the Wabash issues abated, sharp

osses followed, which affected the gen-ral market. St. Paul, Baltimore & eral market. Northern Pacific, Brooklyn Transit, Manhattan, Metropolitan and Erie first preferred were offered freely and lost over a point. The steel stocks were nclined to yield. was steady but continued dull, In the final dealings the upward

movement took on renewed vigor under the impetus of enormous buying of Missouri Pacific That stock rose to near 91 and the earlier losses were comletely wiped out and net gains established varying from a fraction to over a point. Even St. Paul and Amalgamated 'opper rose buoyantly over Saturday's The closing was active and firm, near top prices. Bonds were easier in tone.

# AMUSEMENTS.

At the Theater tonight the widely advertised play of "The Christian" is to be seen for the first time in Salt Lake. The company is headed by Miss Julia Stunrt and comes direct from New

The third work of the ummingo Stock company is to be seen at the Grand tonight. It is "Peaceful Valley." a play in which Sol Smith Russell starred for several seasons.

Louis James and Kathryn Kidder Saturday night to a brilliant audience, rendering "Richard III." Mr. James rendering impersonation was strong and master-ful, and while it lacks the craftiness imparted to the role by Keene, it is more powerful. Miss Kidder did some beautiful reading in the part of Lady Anne, and Mr. Hackett was applauded for his rendition of Richmond. Aside from this there was not much in the presentation to commend. Indeed there ere many marks evident that the play ad been more or less pitchforked upon e stage. The most affecting scene in namely that in the tower, where the princes are torn from their mother, was omlitted allogether. Richard and Rich-mond evidently had had but little time o rehearse their combat scene, and the fight was more like that between Vinplans, than one between two enraged Then too, the scenes where the armies are supposed to be apdiculously close together, and by the arrangement, Richard rather seemed to be trailing after Richmond's heels. The night was one of personal success for Mr. James and Miss Kidder but not for much of anything else.

The announcement of the coming engagement of Collamarini, Russo and Alessandroni in conjunction with the Boston Lyric Opera Co., at the Theater next week is attracting considerable attention, on account of the very favorable notices which this contralto has re ceived this season, especially for her work in "Carmen," Collamarini is comparatively a new comer, as she has only been away from Italy three years and one year of that time was spent in the City of Mexico, at the head of a com-pany subsidized by the government to produce grand opera at the National theater in the Mexican capital. Both Messrs, Goddard and McClellan

speak in high terms of praise of the work of the Tabernacle choir at Provo nder the direction of Prof. J. R. Boshard. The choir alded them in their successful recital at Provo last Saturday night. Tor appear in Nephi. Tonight both gentlemen

# JUDGE TIMMONY'S COURT.

grammannamannamannaman An amusing incident occurred in the police court this afternoon. William Mortimer, a "Sunday drunk," was fined \$5 for his indiscretion, and he pleaded with the court to let him go. "I've got a job," said he, "and if I go to jail

"I can't help that," replied Judge mmony. "Sunday drunks are \$5 and discount." Timmony.

Mortimer returned to the mourners' bench, but when nobody was looking, he mingled with the spectators and escaped. His absence was not discovered until the prisoners were removed, and then Officer Lincoln went in hot but Mr. Mortimore could not

It was suggested that he went out to

# HOWELL ON CACHE COUNTY

Enterprising Senator from the Sent Thinks Cache is Al. Right,

When it comes to a country that it. fords every advantage that the hear g man can desire, Senator Joseph Ho would beg leave to commend ( county in general and Wellsville in pr ticular. Senator Howell, as is known, is one of the most prospe merchants in Cache county and home is in Wellsville, which he si "the town of that county." Seat Howell, however, is interested in my branches of industry in the north, is as capable as any of speaking of business conditions of Utah's non

"We are not immunes from every advantage, however," remarked senator, "for our part of the Stale suffered from dryness as well as of portions, but Cache county is at able to flourish without water county I know of. But natu her cold storage department result is that every farmer in ley anticipates big crops, rand the grand old valley wil to its normal condition, which mea

Senator Howell deplores the rain facilities that are handleapping the shippers in that county, and express the hope that the day is not far dista when the conditions will be changed Speaking of the schools and colleges Logan, he says they were never crowded as they are now, and the fa of Logan as an educational center a spreading abroad. 'Yes," concluded the senator, "Care

county is a good place to live would be celebrated if Wellsvill the only city in the county, but ins of one there is a string of towns fertile lands, ha pure water. some women, and intelligent men, a some of the elements that go to ma Senator Howell went home on Satus day and returned this morning with he tamily. He has been living at the Kniusford, but will now keep house in-

til the end of the legislature. 33 MILES IN 30 MINUTES. Occasion Was in Taking a Fire En-

gine from Peorla to Henry-Peoria, Ill., Jan. 21 .- The fire at Henry has been extinguished. A Rock Island engine hauled a steamer uni hose cart from this city to Henry a distance of 33 miles in 30 minutes, at very promptly. The loss is about \$5 000, nine buildings being destroyed. fire started on the second story of I ers' Fair Store, and spread north ward the city hall on Edwards so The insurance will amount, it is all mated, to about \$50,000.
