IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles the shortest, route between Omaha and Chicago. Within the last two years the road bed has been put in admirable condition, and almost the entire line has been relaid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making East bound connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg, Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets on the Old Pioneer Route—

The Chicago and North-Western.

You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Adrons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb. or to W. H. Stennett, General Passenger Agent, Chicago. d54

PRICE OF GOLD.

SALT LAKE CITY, October 12, 1875.

Buying at $1.14½; selling at $1.16½.

EVENING NEWS.

Tuesday, - October 12, 1875.

Local and Other Matters.

THERMOMETER 80 degrees F in the shade at 1 p.m. to-day. Fine.

An Old Offender.—A man named Macdonald, well acquainted with police quarters, was before Justice Pyper this morning, on a charge of drunkenness and obtaining beer and refusing to pay for it, for which he was fined $25.

New Bank Building.—The iron portion of the front of the new bank building is nearly all in position, and has a fine, massive appearance. The front, above the first story, will be brick, and somewhat similar in construction and design to the south side of the building.

The Turf.—Budd Doble, in charge of the celebrated trotters "Goldsmith Maid," "Occident," "St. James" and "Clementine," arrived in this City, last evening, with those animals, which will be shown in Agricultural Park this week, when Goldsmith Maid will run against time.

A Bad Case.—This morning a man, named Dummer, appeared before Justice Pyper, and made affidavit against a person named Waddell, charging him with committing a rape upon the person of his daughter, Elizabeth Waddell, aged between fifteen and sixteen years. In accordance with the affidavit a warrant was issued and Waddell was arrested and placed in jail, where he now lies, awaiting preliminary examination, or an investigation of the grand jury.

The crime charged is alleged to have been committed on Sunday, October 10th.

Fruit Canning.—Messrs. B. F. Johnson & Son, of Spring Lake Villa, Utah county, have entered upon the business of fruit canning, at that place. They use the cans manufactured by Messrs. Mitchell & James, of this City, which they label similarly to those used for the imported article. The kinds of fruit put up by Johnson & Son are peaches, apricots and plums, and they make it a point only to can those of superior quality. They have a very extensive orchard at the "Villa," in which they do not cultivate any of the "scrub" varieties. They have already made shipments of their goods to an eastern market, and if they meet with warrantable encouragement they will greatly extend their operations in the business another season. Anyhow they have made a very fair start. They have also commenced the manufacture of brooms, the machinery used being of their own invention and construction.

District Court.—The Third District Court opened at 10 o'clock this morning, Associate Justice Boreman presiding. After the disposal of some *ex parte* business, the names of the grand jurors who were examined as to fitness, to serve yesterday, were called, as follows, all answering to their names—

Lorenzo Pettit,
Augustus Podlech,
Stephen Hunter,
D. W. Rench,
Jacob Engler,
Joseph Kimer,
Horace Bliss,
Jacob Moritz,
E. Morgan,
George E. Reid,
Alfred Lemon,
W. R. Jones,

James Godfrey and Joseph Smith were examined by the prosecutor and passed, and, one more being required to fill the panel the name of Andrew Kloppenstein was drawn from the box by deputy Marshal Smith. The jurors were then dismissed till to-morrow morning at 10 o'clock.

In Tennessee.—Elder Henry G. Boyle writes to President Brigham Young, from Shady Grove, Heckman County, Tenn., Sept. 29th, concerning the death of Elder Haden W. Church, at that place, Sept. 27th, as previously published in the NEWS.

Elder Boyle says—

"He was interred by the side of his father and mother, near the house where he was born and raised. I was with him to the last.

"There are five brothers and three sisters of the deceased, all living near here, all members of the Church, and who did all in their power to bestow upon him all the care and attention that his case required.

"His disease was typhoid fever. Bro. Church had not been really well since our arrival here. But as far as his health permitted, he was faithful in the discharge of every duty, and died in the harness and at his post. I have written to his family at St. George, giving them all the particulars of his sickness and death.

"We arrived in this part of Tennessee on the 10th of May last, and have been laboring here and around about here since then, having preached in nine or ten different towns and settlements. Some of these places have never been visited by one of our Elders before. We have baptized four persons, but have a prospect of more coming into the Church, and of some gathering to Utah.

"A part of our time here we have been able to hold four or five meetings per week. But the greater part of the summer the people have been so busy with their crops that we could only have attendance on the Sabbath day. The people are not so humble as directly after the close of the war, and, as a natural consequence, are not as ready to listen to and receive the truth. However, I feel that we have done the best we could. One thing I do know, I have enjoyed much of the Spirit of the Lord when talking to the people, and have been able to talk with more satisfaction to myself than when on any former mission, for which I feel very thankful."

The Missionaries.—The following missionaries have been called and set apart to labor in Australia and New Zealand, a special mission going to the Maoris, the natives of New Zealand. Two of the brethren, Elders Fred Hurst and C. C. Hurst, born in that country, are conversant with the language and customs of the natives.

It is probable that the Australian and New Zealand missionaries will take passage on the steamer *Colima*, which sails from San Francisco for Australia on the 8th of November.

The Teachings.—The teachings given by the Elders at the late Conference were of the most strikingly plain and pointed character, foreshadowing the near approach of a change among the people professing to be Latter-day Saints. The great work of the latter times is advancing, and it must be plain to the most obtuse member of the Church that it is required of each and all that they shall show a consistency between their profession and practice; a prompt readiness to keep the commandments of the God of all the earth, who has said, "I shall have a willing people in the day of my power," and the indications appear unmistakable that the day of his power is at the doors, and the wise will be prepared for it, while the foolish and disobedient will be left far behind in the progressive march of the work of the Lord.

Pleasant Grove Cider.—Mr. J. G. Wheeler brought into this office, this morning, several bottles of cider, manufactured and presented by Mr. Joseph Wadley, of Pleasant Grove, Utah County. Mr. Wadley imported a cider mill from England for his especial use, with which this cider was made. It is the pure juice of the apple, no grubs, is of fine flavor and rich body, yet mild, and is pronounced a very excellent article by those who have tasted of it.

Wheeler & Co., of the Washington House, Third South Street, are Mr. Wadley's agents in this city for the sale of his cider.

Our Country Contemporaries.

Beaver *Enterprise*, Oct. 7—

Our quiet town is again made the temporary abiding place of the pestiferous Navajoes. We understand that the Chief got sick and the party had to make a halt here while on the return.

Yesterday Mr. C. M. Slaughter arrived from "Dixie," bringing the first sweet potatoes of the season and the finest we have ever seen in the Territory. He also had apples, grapes, &c., the former as large and choice as any Utah has ever produced.

Uncle Sam's mail service throughout Southern Utah is getting gradually worse. There is no "certainty" whatever; "celerity," if it is ever resorted to at all, is at very long intervals, and then by accident; the "safety" part of the programme is probably all right, as by all means it ought to be, under the circumstances.

The potatoe crop of Beaver County seems to have been unusually large; and even if the grain crops are cut short, and should run out before the next harvest, there is no such thing as starvation on hand, with "murphys straight" intervening. These are one of the agricultural products, which the jackass rabbit could not molest, and which the potatoe bug has let alone.

A Fatal Shooting Affray.

PINE VALLEY, Utah, Oct. 12th, 1875.

Editor Deseret News:

The shooting affair that took place in Pinto Cañon on the 10th was caused by R. W. Allphin seducing the daughter of S. J. Burgess, near two years ago. Allphin went to Pioche. Burgess concealed himself when Allphin was coming home, and shot him with a double barrel shot gun, loaded with navy balls, which took effect in the bowels. Allphin shot at Burgess with a revolver, and missed him; Burgess jumped into the road and presented his gun, but Allphin got the first shot, and shot Burgess through the heart, Burgess' gun going off at the same time, striking the end of the wagon box that Allphin was in. The verdict of the jury was that Samuel J. Burgess came to his death by a pistol shot held in the hand of R. W. Allphin, in self-defense. Allphin is alive, but is not expected to live.

DIED.

In the 20th Ward of this city, Oct. 11th, JOSEPH, son of Isaac and Sarah Rands, of Suffolk, England.

Deceased was born at Hampstead, near London, Aug., 1867, and was consequently aged a little over 48 years. He leaves a wife and seven children.

THE FAMILY!

Twenty-five years in successful use and still the popular Family Machine! The beauty of its work and wide range of application on all kinds of material, sewing with either cotton, silk or linen thread, and its never getting out of order, have made it the pride and joy of nearly
ONE MILLION HOMES!

Its claims for simplicity of construction, ease of operation and management, quietness of movement and durability, are beyond controversy. Give it a trial and you will buy no other. Thorough instructions given in its use.

The No. 7.

This machine is especially designed to fill a want long felt by manufacturers of Clothing, and is constructed upon the same principle as the No. 6. It is capable of higher rate of speed than shuttle machines, is lighter running and can be regulated for work quicker than any machine heretofore used by
TAILORS.

By a simple change of the presser foot it can be used for all kinds of Family Sewing or Dressmaking. Like the No. 6, it will speak its own language, and we solicit from the TAILORS of Salt Lake an examination of its merits.

WHEELER & WILSON SEWING MACHINES!

The No. 6.

The attention of Shoemakers, Harness Makers, Glove and Trunk and Traveling-Bag Manufactures, and others requiring a machine for leather work of any description, is respectfully called to this
NEW
production of our company. After experimenting for fifteen years to construct a machine upon the rotary hook principle, we offer to mechanics representing the above industries, this recent and improved invention, confident that it possesses qualities long sought for by them. The machine will speak for itself. An examination and trial are all that we ask.
