The singing was furnished by a choir specially trained by Rev. Mr. Shanks. Rev. Dr. Beach of Denver delivered the address of the evening, in which he demonstrated his skill as an orator. There was a brief song service before the regular meeting, after which Harry N. Tolles, State president of the union, introduced W. P. Haveron, who welcomed the visiting delegates in behalf of the local union. Rev. W. H. Bagby of the Christian church welcomed the visiting delegates in behalf of the churches of the city. DE COLVER HOUSE SALE IS SET ASIDE

Judge Hiles Renders a Decision Ordering Re-sale of Property.

DECREE CONTAINS PROVISION

Sale to Stand Good If Defendant Releases Plaintiff from Further Claims—Other Decisions.

Judge Hiles rendered a decision today in the case of Lillie G. De Goyer vs James Chipman finding the issues in favor of the plaintiff and ordering a resale of the property in dispute, unless the defendant releases plaintiff from the remainder of the debt, amounting to about \$400.

Action was brought to set aside the foreclosure sale of the De Goyer residence and grounds on the East drive, on the ground that the sale was not to the highest bidder and for the reason that Sheriff Lewis did not put up the land in two parcels, but sold it altogether, including the portion where the residence stands. The sale took place in October, 1898, and the property was bought in by Chipman for \$11,000. F. A. Druhl, offered \$11,400 but his bid was refused.

The decision sets aside the sale of lots 6 to 12, with the following proviso: "Unless defendant shall, within thirty days, release and forever discharge plaintiff from all debts, claims and demands whatsoever, whether in law or in equity respecting the said trust deed; but if such release be given the sales of said lots as well as the lots 1 to 5 inclusive and lots 13 and 14 shall stand as good and valid sales of said real estate and premises."

ILLINOIS MINING CASE.

Judge Hiles today also gave his decision in the case of the Illinois Mining Company vs Solomon Brieschke finding in favor of plaintiff. The decision quiet's plaintiff's title and confirms its adverse claim to the Syndicate mine. The defendant is awarded the two lodes called the Abe Lincoln and Yarn and his title is quieted to these properties.

ELLISON VS DAVIS.

In the three cases of Lillie Ellison vs Myron W. Davis, Judge Hiles today decided two of them in favor of defendant and the other in favor of the plaintiffs. The two first named actions were brought to quiet title to a portion of the Rustler lode mining claim, situated in the West Mountain district, and the one decided in favor of plaintiffs quiet's their title to a portion of the tunnel and dumping ground location embraced in the same application for a patent.

CITY GETS A LIEN.

Daniel Turgenen vs Salt Lake City and S. B. Milner is the title of another case decided by Judge Hiles today. The court found in favor of plaintiff quieting his title to certain real estate and premises in this city and declaring the tax certificates of said sale void. The defendant, Salt Lake City, is given a lien upon the property by virtue of the levy of the taxes thereon.

COMMERCIAL STOCKS.

The week has been a rather quiet one with brokers dealing in local commercial stocks, though there was inquiry this morning for Ogden Sugar at \$18 per share. The advance is due to the approach of the dividend, and to the fact that the widely distributed rains have had a very beneficial effect on the beet fields. Advances from Lehi this morning state that 80 per cent of the crop is now planted and that the conditions are much the same as in the spring of 1898, when the factory made so heavy a run. LOCAL BUSINESS.

Up and down the street, merchants report that April business on the whole hardly holds up as well as in March. Collections are somewhat slow, and the volume of business smaller. Agriculture, however, dealers generally agree that trade is lighter than last spring, though some of them say that they are purposing curtailing as there is such a thing as doing too much business on the credit system, which goods of this class have to be sold. Business men generally are very hopeful of the future, the rains which have visited all parts of the State and the fact that the biggest wool clip in the history of the country is on the eve of being realized on—combining to make the prospects for 1900 unusually bright.

BANK CLEARINGS.

The bank clearings of the country for the six days ending yesterday reached a total of \$1,742,446.48, a falling off of 44 per cent from the same week in the year previous. Salt Lake's totals were well up, amounting to over \$1,800,000, though the dispatches do not show the comparisons with last year. Our total however, is in advance of such cities as Springfield, Mass., Fort Worth, Portland, Ore., Portland, Me., Atlanta, New Haven and Peoria.

UTAH POLITICIANS

ON QUAY CASE.

(Continued from page one.)

governor's appointees as entitled to a seat, then I am of the opinion that the governor should have the power to appoint a senator in the event that the legislature fails to elect one.

Hon. Thomas Fitch—Section 3 of Article I of the Constitution of the United States giving the governor power to make a temporary appointment of Senator to fill a vacancy that may "happen by resignation or otherwise during the recess of the legislature."

gives to the governor, in my opinion, power to make such an appointment when the vacancy is the result of the failure of the legislature to elect. The Constitution does not, I think, contain any provision that any State shall for any cause be unrepresented in the Senate. But the question is one concerning which the authorities differ. Such constitutional questions are for the courts to decide.

On the other hand, lawyers of equal learning and renown such as Rawlins of Utah, take the opposite view. The question has been settled for the time by the Senate and it would seem probable to discuss it.

Fuel for Force

Your body must have force, nervous force, muscular force, digestive force. Fat is the fuel used to supply this force. If you are weak in any of these forces, use more fuel.

The cod-liver oil in Scott's Emulsion is the best fuel for this work. Your nerves grow stronger, your muscular power increases, and your digestion improves.
