

LIST OF PREMIUMS

TO BE AWARDED BY THE DESERET AGRICULTURAL AND MANUFACTURING SOCIETY, AT THE SEVENTH ANNUAL EXHIBITION, IN GREAT SALT LAKE CITY, OCTOBER, 1862.

The Seventh Annual Exhibition of the Deseret Agricultural and Manufacturing Society will be held in Great Salt Lake City on the 21, 3d and 4th of October next.

All articles intended for competition must positively be brought to the Clerk of the Fair during Sep. 30th and Oct. 1st, except vegetables, fruits and flowers which may be forthcoming on or before 8 a.m., Oct. 21.

The respective Committees will make their awards on the morning of October the 21, and the public be admitted at noon.

None but members will be eligible to draw premiums.

The standard of premiums will, in all cases, be according to that best adapted to our climate and soil.

Each branch Society has the privilege of appointing one member to each class of the Awarding Committees and should report the appointment to the Secretary of this association immediately.

Should there be any article exhibited not advertised to draw premiums, the respective committees may, should they deem them worthy of a prize, recommend the same to the Board of Directors for their consideration.

Where articles are exhibited in any class below the premium standard, no prize will be awarded.

Matured animals, having taken the first-class premium at any previous State Fair, are not eligible for future competition.

No prize will be awarded to any manufactured article having drawn a premium at any previous State Exhibition, and no one article is eligible for two prizes.

The chairman or a delegate from each committee are respectfully requested to attend the meeting of the Board of Directors at the Historian's Office, at 6 o'clock p.m., October 1st, 1862.

Articles which take premiums, as the result of improved culture or individual discovery, will receive the award only on condition of the process being represented to the Board if required.

A committee will be in attendance to receive stock at 8 a.m., October 3d, second day of the fair, premiums awarded at 12 noon.

We take this opportunity to invite the citizens to bring forward to the State Fair their articles of Home Manufacture, their native silk, cotton and woolen fabrics of every description; together with the productions of the soil, from the staple grains to the choicest luxuries the gardens, orchards and vineyards afford.

We call on the stock-raisers to bring forward their finest improved stock, that in this laudable and important branch there may be an exhibition calculated to awaken and inspire a taste for improvement.

The premiums offered below, though smaller than heretofore, are more liberal than our present funds warrant; but we hope to pay the same promptly, in such funds as the Society may collect, or meet the same from our individual resources.

The strawberry and other choice plants and vines offered in the premium list have been gratuitously proffered to the Society by T. W. Ellerbeck, Esq., from whose garden they will be obtained, and who will warrant the same true to their kind. The Wilson's Albany, Victoria, Vicomtesse, Hooker and Scarlet Magnet varieties are offered in such proportion as the receiver may choose; and, if preferred, strawberry plants will be awarded in lieu of other premiums, at the option of the receiver.

CLASS A—FIELD CROPS.

Awarding Committee—Albert P. Rockwood, Reuben Miller, Jacob Weiler.

Best fenced and cultivated farm, not less than 50 acres, (Book) "The American Farm Book," second do Lawton Blackberry plant, and fifty assorted strawberry plants.
Best acre of Flax, (Book) "Lecture on Flax," and one Blackberry plant.
