## NEW YORK.

Died of heart disease—A useful contrivance.

New York.—Brigadier General William Zebeach, commander in chief of the subsistence, on Governor Hoffman's staff, died yesterday, at his residence in this city, of heart disease.

A contrivance for filling locomotive tenders with water, while at full speed, was applied successfully yesterday on the Hudson River railroad. A tank, sunk between the tracks, was filled with water, from which, by the aid of a pipe, dropped at the proper time, the water is forced into the tender. 1,600 gallons were in this wise forced into the tender yesterday, while the engine was going at the rate of thirty-five miles an hour.

## WASHINGTON.

Salaries of Chief Justices and Associates in the Territories—Red Cloud and the Treaty of '87.

The resolution granting the right of way to the Memphis and El Paso Pacific railroad was indefinitely postponed. Bills were passed, making uniform the salaries of the Chief Justices and associates in the Territories, extending, for six months, the passage of the act for the presentation of claims for additional bounties.

Red Cloud denies all knowledge of the treaty of 1867 and says it's all a lie. Copies of it have been given to the Indians for interpretation, and another council will be held to-morrow.

Crawford moved that a provision be made in the bill, passed on the 12th of April, for the reduction of the sugar duties for a drawback on stock in store or refinery; passed.

The corporation of London has addressed an invitation to the Canadian volunteers to join the English volunteers in a shooting match for a silver cup.

The *Shipping Gazette* says that wheat prospects are favorable, and promise a fair for an average crop; other crops are discouraging.

The death of Dickens causes profound sorrow throughout the land. He was apparently in good health on Wednesday when he wrote several pages of "Edwin Drood." The suddenness of the blow intensifies the affliction of his friends, and has given rise to unusual demonstrations of public grief in London and other cities.

Toole, the comedian, is about to visit the United States. LONDON, 11.—Queen Victoria, immediately after the intelligence of Dickens' death was communicated at court, sent a special message of condolence to the sorrowing members of the family of the deceased author. Public institutions in the city suspended business immediately after the spread of the melancholy intelligence.

A commission, acting under a provision of the coercion act, has tried Geadly and Brady, for an attempt to murder Radcliff; both were committed and have been sentenced; Geadly, to penal servitude for life, and Brady for ten years. Two juries had previously failed to agree on the verdict.

A friend of Ashbury gave a dinner in his honor. Ashbury made a speech, in the course of which he informed his friends that he had purchased six of the finest cups he could procure for a contest in American waters. He hoped to bring them all back, and also to pass the Sandy Hook light ship ahead of the *Dauntless*. Great applause.

## Correspondence.

PROVO CITY.

June 8, 1870.

Editor *Deseret News*—As you suggested, when I saw you at Conference time, I wrote a letter, about ten days ago, on the management of the honey-bee, noting items of my experience, and forwarded to your address, for your inspection, and if agreeable, for publication. I have not seen any notice of it, or heard from you, and suspect that it has not reached you.

I have felt interested in this subject, and wrote you that we proposed to have a meeting of the bee-keepers of Utah county on Tuesday, July 12th, at 10 o'clock, a.m., to exchange ideas and observations on bee culture. We expect Mr. Mitchell, of Indiana, to be present, as he proposes to visit the Territory, and he will likely bring a number of Italian and Egyptian queens; and from him we expect to gather many items of information. If you think proper to notice the meeting in the *News*, the brethren could attend it, and in the afternoon attend the School of the Prophets here.

On the 28th of May President A. O. Smoot laid the cornerstone of the Provo Woolen Factory, and dedicated the ground, materials, &c., to the Lord, asking His blessing thereon, and upon all who would seek to aid in its erection. Speeches were made by Bishops Sheets, Tanner, Scott and Allman, and toasts and sentiments of satisfaction expressed, closing with three cheers for the success and prosperity of the work.

The prospects for considerable grain being raised here are encouraging, although much has been destroyed by the hoppers.

Yours truly,

A. F. MACDONALD.

[The letter referred to by our correspondent did not reach us, or we should have gladly published it.—ED. D. E. N.]

BRIGHAM CITY, June 9, 1870.

Editor *Deseret News*—Dear Sir,—Though the ravages of the voracious locusts have been more extensive this year than usual, we have every reason to anticipate that there will be plenty of grain, vegetables and fruit raised in this county to sustain its inhabitants. Since the completion of the tannery, our woolen factory receives due attention; four masons are at work on it already, and its massive foundation can now be seen. Union, brotherly love and a desire to improve the country is prevalent here. The visit of President

Young and the brethren has been of a most pleasing and impressive nature, and the instructions given by them were highly appreciated by the people. Our delight was heightened by a few degrees by the appearance of the excursion party from your city; we only regretted they could not remain here a little longer and extend their acquaintance with us. The county authorities here have been apprised of the fact that many horses and mules, stolen from your city and other places south of here, have been passing this point. Deputy Sheriff Alexander Baird has recovered quite a number of the same, lately, which had been sold; and by a proper process their rightful owners have got the re-possession of them, though bills of sale could be shown by those who bought them, in many instances. While it would be unjust and unreasonable to harbor suspicion against everybody who has thus unfortunately been deceived in buying animals, it is very evident that a few persons can be found on the other side of Bear river, in various directions, who make their special business to buy horses and mules at fabulously low rates, say \$40 for a splendid horse—forward them to the northern mines and other places as quickly as practicable.

CURTIN MODELS—PRICES REDUCED TO MEET THE TIMES!—The merits of this system for Cutting all kinds of garments worn by Ladies, Gentlemen and Children are known by scores of ladies in this City and Territory; but the sure way is to prove it for one's self which may be done without charge. This system removes all anxiety regarding the FIT of garments, as all its directions are absolutely positive. There will be no altering—no taking up or letting out, which not only injures the material but destroys the proportions and often ruins the garment. The system is very simple and can be learned in a few hours.

## PATENT DUST EXCLUDER,

So constructed as to enclose the works, and form a protection against dust, enabling the movement to remain in order without cleaning double the time that a watch will ordinarily run without this protection.

The company feel confident, after having had their watches three years in market, and selling many thousands of them in all parts of the country, that the Elgin Watches are the best time keepers now offered to the American public.

OVER FIVE HUNDRED DEALERS

In various parts of the land have unreservedly endorsed them. They are in use upon numerous lines of Railway, including the Union Pacific and the Pennsylvania Central, and officers of these roads, with other prominent R.R. officials, endorse them as the best watches for the use of R.R. employes and travelers yet introduced.

The following are presented as specimens of these testimonials:

TESTIMONIAL.

UNION PACIFIC R.R., OFFICE OF GEN'L Supt., OMAHA, Dec. 18, 1869.

Hon. T. M. Avery, President National Watch Co., Chicago, Ill.

Dear Sir—During the month that I have carried one of your "B. W. Raymond" Watches it has not failed to keep the time with so much accuracy as to leave nothing to desire in the record. For accuracy in time, neatness of movement and finish, your Watches challenge my admiration, and arouse my pride as an American, and I am confident that in all respects they will compare successfully in the markets of the world, with similar manufactures of other nations. They need only to be known to be appreciated.

Yours most respectfully,

C. G. HAMMOND, Gen'l Supt.

OFFICE OF THE HUDSON RIVER RAILROAD, Gen'l Supt., New York, Jan. 17, 1870.

T. M. AVERY, Esq., President National Watch Co.

Dear Sir—The Watch made by your company when I have carried the past two months, has kept excellent time. I have carried it frequently on engines, and have been on the road with it almost daily. During this time it has run uniformly with our standard clock.

Truly yours

J. M. TOUCEY, Gen'l Supt.

The following dealers also, in various parts of the country, have certified that they consider the Elgin Watches to be all that the company have advertised them, as better finished, more correct and durable, than any in market of similar price, and that they have great confidence in recommending them to the public, on account of their general merit.
