

A. G. VANDERBILT MADE DEFENDANT

Ellen French Vanderbilt Files a
Suit and Asks for a De-
gree of Divorce.

THE CAUSE IS NOT GIVEN OUT

Neither Party Will Discuss Reports
That Gained Currency After
She Left Newport.

New York, April 1.—Within an hour after he had sailed for Europe today, Alfred Geyne Vanderbilt was made the defendant in a suit filed with the supreme court by his wife, Ellen French Vanderbilt. The nature of the action was not immediately disclosed, and counsel for the plaintiff refused tonight to say whether Mrs. Vanderbilt seeks a divorce or legal separation from her husband, Justice O'Gorman, before whom the proceedings were instituted, appointed David Macdure, a local attorney, as referee to hear testimony and to report findings and recommendations to the court.

Had secrecy for the time been wished, the action of counsel could not have been better timed. The offices of the county clerk are closed at 4 o'clock in the afternoon. Only a few moments before that hour the competing clerk received the papers. By the time he was through with them it was too late for the papers to be officially recorded today. They were placed in a safe and will be formally entered tomorrow morning.

Mrs. Vanderbilt was Ellen French, daughter of the late Francis Ormond French, president of the Manhattan Trust company and director of many railroads. Her mother has been married for several years, but is regarded for the wedding of her grand-daughter for Miss Pauline Leroy French, and Samuel Wagstaff, to take place at Newport on May 6. Ellen, or as she was more generally known, Eileen, was married to Alfred Vanderbilt on Jan. 11, 1901. A year later their only child, William Henry, was born.

Mr. Vanderbilt, as the second son of the late Cornelius Vanderbilt, inherited something like \$50,000,000. He has been regarded as the head of the family since the estrangement which followed the marriage of Cornelius, the eldest son, to Mrs. Grace Wilson. During the past year or so Mr. Vanderbilt has spent much of his time abroad. But recently he returned from London, where he plans to drive the coach of the Great Northern Steamship company, the Nippon Yusen Kaisha Steamship company, Bodwell & Co., and Frank Waterhouse & Co., operating the Boston towboat and the Andromeda liners, have adopted a schedule of rates on wheat and flour to the Orient, which is a reduction of \$1 a ton over the former schedule. A preferential rate was also given on flour in 3,000 ton shipments, where the shipment is on one boat and to one port. The latter action was taken on the protest of the millers that flour should have a lower rate than the raw products and the reduction is 50 cents a ton.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get its beneficial effects, always buy the genuine

Vanderbilt's attorney appeared before Justice O'Gorman.

The domestic affairs of Mr. and Mrs. Vanderbilt have engaged public attention since March 24, when Mrs. Vanderbilt, accompanied by their son and maid, left Oakland farm, near Newport, R. I., and went to the home of her brother, Amos Tuck French, at Tuxedo Park, N. Y.

At Tuxedo Park, which is known as "Tucks Eden," has been put into shape, it is said, for continued occupancy.

Mr. Vanderbilt while here has had apartments at the Plaza hotel. Neither he nor his wife would discuss the reports which gained circulation after her removal from Newport.

At Tuxedo tonight it was said that Mrs. Vanderbilt had left New York and that she might go on to Newport. It was reported that she spent some time with her attorneys here today, but whether she remained in the city for the night is not known. At the Plaza hotel it was said that communications sent to the Vanderbilt apartments there remained unanswered.

It was learned late tonight from an official in the county court house who saw the papers in the case, that Mrs. Vanderbilt's action is one for absolute divorce.

Chandler P. Anderson, Mr. Vanderbilt's personal counsel, who was seen tonight in regard to the suit, said: "You see, I am in no position to talk on the affairs of my client."

When Mr. Anderson was informed that it had been learned that the action was one for absolute divorce, he said: "I cannot talk."

FLOUR RATES TO ORIENT.

Seattle, Wash., April 2.—Representatives of the Great Northern Steamship company, the Nippon Yusen Kaisha Steamship company, Bodwell & Co., and Frank Waterhouse & Co., operating the Boston towboat and the Andromeda liners, have adopted a schedule of rates on wheat and flour to the Orient, which is a reduction of \$1 a ton over the former schedule. A preferential rate was also given on flour in 3,000 ton shipments, where the shipment is on one boat and to one port.

The latter action was taken on the protest of the millers that flour should have a lower rate than the raw products and the reduction is 50 cents a ton.

MUCH UNREST IN PORT AU PRINCE

Abortive Attempt at Uprising
Gives Government Excuse
For Searching the City.

REFUGEES CAUSE A PROBLEM.

French Minister Said to Have Advised
Them to Procure Arms and Am-
munition.

Port au Prince, April 1.—The spirit of uncertainty and of unrest still prevails in Port au Prince. The recent abortive attempt at a second uprising here, in which Gen. Larraque, chief of the cavalry, and several other army officers, are alleged to have been implicated, has given the government a cause for searching all quarters of the city in the hope of finding others it suspects of being involved in the plot.

The French minister to Hayti, M. Carteron, has recently shown considerable alarm concerning the action, the Haytian government may take against the refugees now in the French legation. Some of the refugees, themselves, say that the minister has advised them to procure pistols, and as much ammunition as possible, so that they may be prepared to defend their lives.

According to the refugees, M. Carteron told them that he was unable to guarantee protection in the event of an attack upon the legation by government troops.

The French minister, when asked today with regard to this statement, declined to deny or affirm it, but he did say that he had made a representation of the case to M. Borno, the minister of state, pointing out to him the French contention that giving sanctuary to the refugees was an absolutely legitimate proceeding.

It is generally believed here that the alarm of the French minister is unfounded. Up to the present the government's attitude has been a conciliatory one, and it seems to be its intention not to offer the slightest excuse for foreign intervention.

There are rumors here that summary executions continue in nearby country districts. For a long time past the government has had a large number of so-called political prisoners in hand, and it is reported that almost nightly some of these are taken from the prisons, transported to the country districts not very remote from the city, and shot. This the government vehemently denies.

The French cruiser D'Estrees has not returned here from the island of St. Thomas, where she took the refugees from the German liner, the Bremen. Bremen returned yesterday from Kingston, and the United States cruiser Des Moines and the gunboat Sigsbee are still here. The gunboat Eagle has left two days ago, and the gunboat Paducah having sailed for Guantanamo today, where she will coal, to return later to Port au Prince.

ANARCHY PREVAILS.

Paris, April 1.—A special dispatch received here today from Port au Prince, Hayti, says that the situation there is extremely grave, and that complete anarchy prevails. The dispatch further declares that American warships are preparing to land troops.

ORGANIST COMMITS SUICIDE.

Chicago, April 2.—Henry J. Wey, for many years organist in prominent Chicago churches, committed suicide yesterday at the Northern Illinois insane hospital at Elgin, after having been committed to the institution a month ago suffering from acute melancholia brought on by the discovery that he was afflicted with cancer of the stomach.

Mr. Wey, who was 59 years old, ended his life by hanging himself with a towel.

HERMAN SCHROEDER DEAD.

Said to Have Been First Refiner of
Sugar in the United States.

New York, April 2.—Said to have been the first refiner of sugar in the United States, Herman Schroeder, a native of Germany 50 years after a successful business career in this city, is dead at his home here, aged 88 years. When a young man he came from Germany and in company with several youthful countrymen, opened a small shop where the partners began to refine sugar at which trade they worked in Germany. This was the beginning of the sugar refining industry in America. Mr. Schroeder was one of the founders of the Harlem Lutheran church, which became known all over the country when so many of its members perished in the disaster of the steamboat General Slocum.

JURYMEN IN FIGHT.

Chairs and Furniture Smashed and
Several Men Are Injured.

Chicago, April 2.—A fight between jury men in which a heavy oak chair was demolished, tables and other furniture destroyed, and several men slightly injured, marked the jury's deliberations in the "Barney" Coffey Sunday saloon closing case in the municipal court.

After hours of this kind of argument, the jury was called before Judge Foster and reported a disagreement yesterday. The jury stood 10 for acquittal and two for conviction. Sixteen ballots were taken, and on the ninth ballot, one man swung for conviction, but reversed on the following ballot.

HE GOT WHAT HE NEEDED.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one faint in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at Z. C. M. I. Drug Dept. drug store, 500 112-114 South Main Street.

CONGREGATIONS FORMED
IN THE CANAL ZONE

New York, April 2.—Archdeacon Henry B. Bryan of the Panama canal zone, in charge of the work of the Protestant Episcopal church on the isthmus, is at his home in Garden City, Long Island, for a brief visit. Dr. Bryan reports the formation of 10 congregations of West Indians and three congregations of North Americans and Europeans in the canal zone. Aside from the regularly ordained clergymen assisting Mr. Bryan, 12 lay readers have taken up work in the various churches.

In the American hospitals, where once there were nearly 1,000 patients, Dr. Bryan says there are now only 500

and not one of the cases is contagious. Dr. Bryan will return to the isthmus April 7. His family will shortly follow him to take up their residence in Colon.

Y. M. C. A. GIFT.

Chicago, April 2.—The fourth lift toward the million dollar mark was given the semi-centennial gift to the Young Men's Christian association yesterday by a donation of \$50,000, which raises the total already subscribed to \$205,000.

The latest contribution was made by Mrs. Nettie F. McCormick, Harold F. McCormick and Cyrus H. McCormick. The subscriptions previously received

to the fund were as follows: John G. Shedd, \$100,000; W. A. Wisboldt, \$30,000; Mrs. T. B. Blackstone, \$25,000.

The New Back.

Notwithstanding much spurious comment concerning the oft-changing "figure" and garb of women, we believe that man wise who said: "The only consistency is that of constant change."

Do you know what the world deprecates say is the present "gown beautiful"? Just this. That it MUST HAVE long, slender, sinuous, sweeping lines, lines which give to the woman a witchery never before attained by her. Do you know that all their skill in cutting, all their finesse in the art of elaboration are employed in the fashioning of the BACK of the new gown? It is so.

But, to wear this gown a woman must possess a beautifully moulded back. It must be narrow from hip to hip with a decided curve in at the waistline, gently rounding below this, in the center; and the hips, themselves, must be unpronounced, the less obtrusive, the better; and from the waist line up, to the arms, the slowly widening line must be almost sharply defined. The shoulders should be held well back, but the figure so moulded that no unsightly "hollow" will appear between the neck and the bust.

In short, this back is the one which Mother Nature is SUPPOSED to LOAN to her daughters, for some twenty-five years or so, but, alas! to recall it when it is most truly needed is most arduous and painful. A woman has attained her mental POISE and SUPREMACY, and wishes a figure to go with them!
