LADIES, we have just received by express a large line of Slippers for ladies' and misses' and children's wear. At DUNFORD'S.

BUY your Coal Oil of Reid & Kinney, opposite Walker House, reduced to 50c. per gallon.

WEIGHTY.—The reasons for adding marble dust, alum, starch, flour, etc., to baking powders, are to make them weighty, and thus add to profit. It would be well for housekeepers to know that Dr. Price's Cream Baking Powder is free from these adulterants, hence the purest and most economical.

As a teaspoonful goes as far as three teaspoonfuls of the heavy kind, and as baking powders are used by teaspoonfuls and not by weight, the saving in this direction is so small it need not be mentioned.

Dr. Price's Baking Powder and his True Flavoring Extracts are beyond all question the best and most perfect of anything in the market. To obtain certainty, buy Dr. Price's Powder only in cans.

ALL kinds of fancy and mixed drinks at the Old City Liquor Store. Sangio does the mixing. d11

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more routes leading to the same point, decide which is the safest and most pleasant to travel.

We take pleasure in stating, that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and even miles the shortest, route between Omaha and Chicago. Within the past two years the road has been put in admirable condition, and almost the entire line has been re-laid with steel rails.

The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in ad-

vance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Pittsburg Fort Wayne & Chicago, Kankakee Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best Smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, or to J. H. Mount, Western Traveling Agent, Omaha, Neb., or to W. H. Stennett, General Passenger Agent, Chicago. d54

PRICE OF GOLD. Corrected daily by Deseret National Bank. SALT LAKE CITY, June 1, 1878. Buying at \$1.14; selling at \$1.16.

EVENING NEWS.

Tuesday, June 1, 1878.

Local and Other Matters.

TEMPERATURE. 53 degrees F in the shade at 1 p.m. to-day. Clouds and sunshine mixed.

Another Fight.—There was another disgraceful fight at Wagner's brewery last Sunday.

Tabernacle Services.—Elder Orson Pratt preached in the New Tabernacle on Sunday afternoon.

There are messages at the Western Union Telegraph office for James Comer, O. P. Meyers, and Phileas E. Ray.

Enlarged.—The retail store of Z. C. M. I. has been enlarged, as business in that department keeps increasing.

Health of President Smith.—The health of President George A. Smith, we regret to have to say, is much the same as it was.

Cold and Stormy.—The atmosphere last night was freezing cold, and June introduced itself this morning by a light fall of hail and snow.

Paid Her Fine.—Kate Flint paid the fine part of her sentence, and we understand the imprisonment part was remitted, so the case will not go to the District Court on appeal.

Distinguished Visitor.—Yesterday Hon. J. W. Killinger, Member of Congress from Pennsylvania, was in this city. He left for the East this morning.

Theatre.—There was a fair audience at the Theatre and a creditable performance on Saturday evening on the occasion of the benefit of Miss Delle Clawson.

Stopped for Repairs.—The City Hall clock has been stopped for repair, and it will probably be a week or more before it will be in going order again.

The Emigrants.—The company of emigrating Saints, the names of the persons composing, which appear in to-day's News, is expected to arrive here to-morrow.

Missionary Appointments for Sunday, June 8th, 1878.—Farmington.—Elders G. G. Bywater and C. W. Stayer. Bountiful.—Elders S. A. Woolley and W. A. McMeister.

Offices Removed.—As the building now standing on the Hooper corner will soon be taken down to give place to the proposed Deseret National Bank building, the Salt Lake Herald has removed to premises adjoining the post office.

Decorations.—The ceremony of decorating the graves of the deceased soldiers of the rebellion was observed at Camp Douglas on Sunday. The procession from this city was very large, many citizens of different classes joining in it.

Child Drowned.—We learn that Evan John, son of Phebe Jones and R. J. Davis, aged one year and nine months, was accidentally drowned in Devil Creek, Malad Valley, May 11, he having apparently wandered from the house to the creek.

Mountain Alligator.—A fine specimen of the mountain alligator has been presented to the Deseret Museum by Mr. Joseph E. Johnson of St. George. The little fellow is about nineteen inches long, is orange and black in color, and in form strongly resembles the ordinary alligator.

Two Days' Meetings at Mill Creek.—We are requested to announce that Two Days' Meetings will be held at Mill Creek Ward, on Saturday and Sunday, June 8th and 9th, and that the Home Missionaries of Salt Lake County and Saints from adjoining Wards and settlements are cordially invited to attend.

Accident.—The Ogden Junction, of Saturday, says that on that day as Mr. Richard Richards, an employee on the U. P. R. R., was coupling cars his left hand was caught between the buffers, the first and second fingers being so badly crushed that they had to be amputated. Dr. Waughman and Condon performed the operation.

Indian Pottery.—We have seen a specimen of Indian pottery, found at Paria, Utah, in the collection presented to the Deseret Museum by Brother Elias S. Smith. It is in almost perfect preservation, and is the finest in form of any we have

yet seen, besides being of good manufacture, and is evidently very old.

Kanab-Lawrence Mariger writes from Kanab, Kane county, Utah, May 20—

"The health of the people in this locality is generally good, as we have a most excellent climate. Crops probably were never better in this part of the country. Bishop Stewart is going ahead with the United Order, as fast as wisdom directs. The Order, of late, has purchased a steam saw mill, which is intended to be placed at Buckskin Mountain, which will be a great benefit to this city and adjoining settlements, in supplying them with lumber.

Mortality.—Sexton's report for May. Males 19; females 14. Of these, adults 23; children 10. Causes of death as reported: Lung disease 6; killed by snow slide 3; old age 3; cholera infantum 2; convulsions 2; heart disease 2; chronic asthma 1; puerperal peritonitis 1; diphtheria 1; fatality 1; aneurism of abdomen 1; peritonitis 1; alcoholism 1; still born 1; brain disease 1; fever 1; apoplexy 1; drowned 1; suicide 1; shot 1; not reported 1. Total interments 33.

JOSEPH E. TAYLOR, Sexton.

At Lindsay's.—Yesterday many hundreds of people spent the day, or a portion of it, at Lindsay's gardens. Things were lively up there, the grounds being fairly alive with people. The younger pleasure-seekers enjoyed themselves on the swings, whirligigs, giant strides, etc., while the more sedate and aged rambled through the gardens or quietly sipped their ice cream, and other summer luxuries. The pole climbing for prizes afforded great amusement to the youngsters.

The Housebreaking in the Fourth Ward.—The notice in the NEWS of Friday evening of an attempt of a night prowler to enter the house of Mr. Harrison Sperry, 4th Ward, on Thursday night, was not exactly correct. The lady in the house heard the burglar at work trying to open the window, and she went to it with a shot-gun and stood there. By and by, from some cause, the fellow outside went away, the lady remaining at her post until he was gone. After he was gone she proceeded to let down the hammer of the gun, when it slipped and snapped the cap, but did not discharge the gun, which was still pointed at the window.

The Lamentation.—The Indians keep coming in to be baptized. Twelve were baptized on Sunday and eleven yesterday. One of them, a tall, rather fine-looking Shoshone chief, named Alma, predicted to Brother Huntington, after he came out of the water, that the baptizing would soon not be occasional, as now, but that it would progress all the time, from morning till night, that the various tribes would come by hundreds and thousands, instead of a few at a time, and that it would take years to baptize all who would come, for all the Indians would eventually be included in the movement. Alma's home is in the Salmon River country.

Anniversary of President Young's Birthday.—This first day of June, 1878, is the seventy-fourth anniversary of the birthday of President B. Young, one of the greatest and most remarkable men that has lived in any age. He has already done a life-work that will compare favorably in many respects with that of any of earth's sons who have preceded him, and we are pleased to be able to state, on this his natal day, that although he is now four years past the allotted time of score and ten, his mental and physical health is good. The occasion has been honored at American Fork by a children's grand jubilee, the exercises of which have been participated in by many thousands of children.

In connection with tens of thousands of his friends we wish President Young continued long life and prosperity.

New Branch of Home Industry.—Mr. John Reading, nurseryman, of the 13th Ward, has just received from Providence, Cache County, a number of cut stone flower vases, made by Brother Henry Brown of that place. They are of very neat design, are of white sandstone, are, we believe, the first article of the kind ever made in Utah, and are a very elegant and excellent article, being, in our opinion, an improvement on the iron vase, not only on account of the porousness of the rock being advantageous to flower health and growth, but, for that purpose, they have a more suitable appearance.

Although Mr. Reading has been doing a very large floral trade this season, he still has a splendid stock of plants, embracing so wide a variety that it would take too much time and space, besides being a great puzzle, to enumerate them. It is a source of pleasure to the lovers of flowers to take a stroll through his greenhouses.

Sudden Death.—About two o'clock yesterday afternoon Sister E. A. Moffat, resident of the 20th Ward, was proceeding to the house of Dr. Anderson, with her daughter, who is afflicted with some malady, and when at the corner of South Temple and Sixth East St. she fell to the ground and expired in a moment.

Just previous to the occurrence she appeared to be in her usual health, and a person whom she passed on the way said she heard her saying to herself "I know that my Redeemer lives."

Sister Moffat was in her forty-ninth year, and bore an excellent character.

An Inquest was held over the body last evening, by Coroner Geo. J. Taylor, and a jury, the verdict being that deceased came to her death by heart disease.

Funeral services to-morrow at 10 a.m. at the 20th Ward Schoolhouse.

Excursion to Lake Umbagog.—Loads of people went out Utah We-

tern Railway on the excursion to Lake Point yesterday morning.

From Clinton's, the excursionists went on board the City of Corinne, and ran out on the lake for three or four hours, toward Stansbury or Kimball Island, and near to it.

The Lake was rather rough, while caps being plentiful on the crests of the waves. Many of the party felt quite serious stomachically, and not a few became suddenly remarkably proficient in arithmetic, "casting up their accounts" with extraordinary facility, some continuing that exercise involuntarily most of the time they were on board. After the trip on the lake, dinner was dispatched, and dancing, billiards, croquet and other games and amusements were indulged in. The wind was very strong from the north and as cold as a blustery day in March. Daynes' Quadrille Band made abundance of music both on board and in the dancing room. The party arrived at the city, returning, at dark.

Bird's-Eye View of Salt Lake City.—Mr. Glover, whose minutely detailed bird's-eye sketches of Ogden and Salt Lake City we have already referred to, has just received his lithographic copies of the latter. The lithographing was done by Strobridge and Co., Cincinnati, Ohio, and does good justice to the artistic work of Mr. Glover. The sketch is midway between a bird's-eye view and a perspective, the latter quality relieving it from the appearance of flatness generally characteristic of such sketches.

It gives an excellent idea, at a single glance, of the general character and appearance of the city, and its surroundings, and makes an elegant picture withal. It is three feet by two feet, and is ready for delivery to subscribers.

Mr. Glover has made similar sketches of ten or a dozen other cities and towns of Utah, which will in due time be lithographed.

Photographs of the Salt Lake city sketch, eleven inches by fourteen inches, are on sale at Dryer's.

The Third Term Letter.

CHICAGO, 1.—The Times' Washington special says that the President's third term letter is the main topic in political circles, and there are very decided opinions on the subject. The friends of the administration say that the letter sets at naught the third term scare, while, on the other hand, it is regarded by a large number to mean that Grant is a candidate for the office. The letter is given rise to no end of discussion, and from the dissatisfaction expressed over it, it is clear that the President has not settled the question.

Forest Fire raging.

NEW YORK, 1.—Forest fires have again broken out in the mountains in Delaware and Sullivan counties, New York, and are doing much damage to the timber. The Sullivan Co. was surrounded by fire two days, and was only saved after a hard fight. W. Corbett, a wealthy farmer in Delaware Co., was surrounded by fire while fighting the flames, and was burned to death. Two other men narrowly escaped.

In Sullivan county thousands of acres of valuable timber, and a mill and three hundred thousand feet of lumber have been destroyed. The conflagration is so fierce the families have been obliged to leave their houses to save their lives, leaving everything to be destroyed.

FOREIGN.

GREAT BRITAIN.

An Immense Failure.

LONDON, 5.30 a.m., June 1.—The Aberdeen Iron Co. has failed, with liabilities of £750,000. Their nominal assets are put at £200,000. This is the worst failure since the collapse of the Plymouth Iron Co., which is one concern with the Aberdeen Co. The latter has liabilities of £24,000, and assets of £25,000. The Times comments on the failure of the iron companies, and of Sarsen & Co., as follows: "We regret very much to record a double failure, which will produce results similar to those which followed the collapse of Overend, Gurney & Co. It is said that the Sarsen & Co. are involved with the failure of Sarsen & Co., and that the aggregate liabilities will amount to several millions sterling."

Two Hundred Houses Burned, Etc.

Two hundred houses have been destroyed by fire, at Cabañal, Spain.

The Aberdeen Iron Co., whose failure was announced this morning, gave employment to 5,000 persons. Several mercantile failures of broken, in addition to those reported yesterday, were announced at the stock exchange to-day.

DIED.

ELLISON ARCHERD, wife of Robert Moffat, suddenly of heart disease, on May 31st.

Deceased was a native of Lankashire, Scotland, born on the 2nd day of January, 1821; baptized into the Church of Jesus Christ of Latter-day Saints, 1844; married to David H. Archerd, 1845; bore a faithful testimony to the truth of the gospel of Jesus Christ, and was a devoted wife in the last years of her life.

Funeral services at 10 a.m. on Wednesday, June 3rd, at residence, 20th Ward, 10th St. and 2nd E. Ave. d150

In this city, Mrs. JACOB B. KIMBALL, son of the late President Robert Kimball, born in this city, April 18th, 1863. The funeral services were held on Tuesday, June 1st, at the residence of the mother of deceased.

In the 16th Ward, Salt Lake City, May 20, 1878, of old age and general decline, WM. TROTTER, 25 years and one month and six days.

Deceased was born in Edinburgh, Scotland, April 1, 1853. Baptized into the Church of Jesus Christ of Latter-day Saints in 1868; came to Utah in 1870; he was a true and faithful Latter-day Saint until the day of his death.—O. M. Mott, Salt Lake City, please copy.
