

EUGENE V. DEBS FOR PRESIDENT.

Socialists Name Him for the Place and Benjamin as Running Mate.

ANTI-CAPITALIST PLATFORM.

Policies of the Old Parties Denounced—Plank Favoring Labor Unions Adopted.

Chicago, May 5.—Eugene V. Debs was this afternoon nominated as the Socialist candidate for president of the United States.

Benjamin Hanford of New York City was nominated for vice president. Neither of the candidates had any opposition.

After condemning the policies of the Democratic and Republican parties, the platform, as adopted, appeals to the American people for support on the ground that the Socialist party is the only political organization standing for the principles by which the liberty of the individual may become a fact; as the only political organization that is democratic and has for its purpose the conversion of all society to the principles of true democracy.

Capitalism and private ownership of the means of employment, it is declared, "ground society in an economic slavery which renders intellectual and political tyranny inevitable." The fidelity of the American Socialist party is pledged in the platform to the principles of international socialism as embodied in the united thought and action of Socialists of all nations.

The question of inserting a plank in the platform favoring labor unions, which caused several heated discussions during the convention, was adopted by a vote of 167 to 53.

The convention will meet again tomorrow morning to listen to reports of committees on state and municipal programs.

STRIKERS MUSTN'T TALK.

Injunction Forbids Them to Converse With Non-Union Men.

Auburn, N. M., May 6.—In the district court Judge Baker has refused to modify the injunction against the striking Santa Fe machinists. Attorneys for the strikers sought to have the clause forbidding the strikers talking to non-union men stricken out. The court held that the granting of this request might lead to the intimidation of new men and also to their being driven from the service of the road against their will. The court held that the injunction injured no law-abiding citizen, and therefore continued it in force until June 1.

A referee was appointed to take testimony on the merits of the case to be used at the "trial hearing." During the course of the proceedings the company's attorneys introduced affidavits charging that the strikers had attempted to disable locomotives by placing every dust in the driving journals. They also charge that one engine was rendered useless by placing a heavy iron bar in the running gear. Attorneys for the strikers asked for a continuance to enable them to introduce affidavits refuting these charges. This the court denied.

Efforts have been made by the shop officials to induce some of the more expert among the striking workmen to return to work on the same terms as before the trouble occurred. So far as can be learned these offers have been declined. Several of the new men have been discharged and three of them, who were penniless, were taken into custody by the police as vagrants.

CURTIS JETT.

Prefers Life Imprisonment to a New Trial.

Chicago, May 6.—A dispatch to the Tribune from Louisville, Ky., says: Curtis Jett, who murdered J. B. Marcan in the courthouse of Breathitt county, has accepted a life sentence rather than face a new trial.

A BRAVE WOMAN.

Surprises a Burglar and With a Pistol Secures His Capture.

New York, May 6.—A courageous woman with a revolver has brought about the capture of a thief in the Bronx, upon whose person jewelry was found valued at \$3,000. Her heroism was rewarded by a \$2,000. The heroine was Mrs. Daly, sister-in-law of a New York merchant. The latter and his wife were absent when Mrs. Daly visited one of the bedrooms, where her sister's child lay asleep. She was surprised to find a stranger rummaging the family jewel casket, and catching up a pistol, chased him into the street. A dozen patrolmen joined the chase and, under Mrs. Daly's lead, they surrounded the thief in a vacant lot. After considerable parley he surrendered under threats of being shot to death. Every pocket in his clothing was filled with fine jewelry, evidently the proceeds of several burglaries.

"BRIDE AND BRIDEGROOM."

Arthur Laws' New Play Received With a Storm of "Boos."

London, May 5.—The fall of the curtain on Arthur Laws' new comedy, "The Bride and Bridgroom," at the new theater tonight was the signal for the noisiest scene witnessed in a London theater for many years. A storm of "boos" and hostile remarks from the gallery brought Sir Charles Wyndham to the footlights, prepared, he said, after several ineffectual attempts to gain a hearing, "to face the music." There were cheers from the boxes, stalls and dress circle, followed by renewed "boos" elsewhere, and shouts of "We all know you hate the gallery!" etc. Finally Sir Charles pointed his finger angrily at the gallery and called upon the police to remove the offenders. Some of the noisiest were ejected, but this did not abate the demonstration, and Sir Charles remained on the stage, pale but undaunted. After repeatedly calling for fair play, he announced his determination to, in the future, protect his audiences from such organized disturbances.

ONE CONVICT CAPTURED.

Not Found, Both Escaping From Idaho Penitentiary.

Boise, Idaho, May 5.—Harry Miller and Charles Smith, convicts, escaped from the custody of the guards between 3 and 4 o'clock this afternoon. Miller was later retaken, being captured on his island in the river back of the natatorium. It is thought Smith went into the river with him and was drowned, but Miller has so far refused to talk.

THOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases.

Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of man.

The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with its sticky feet, collects the germs of disease, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease. Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is so doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousands."

Many popular patent medicines and pills are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alternative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an alternative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedroom, wherever we go, people congregate, or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Neglected constipation means headache, heartburn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. One for mild cases, otherwise two.

WATCHING CHINESE.

Russian Comprehensive of Effect of Yalu Fight Upon Them.

St. Petersburg, May 5.—The effect of the disaster upon the Chinese is being watched with considerable apprehension. The Russian government appears to be satisfied with the situation for the moment, and Paul Lessar, the Russian minister at Peking, is making daily reports to the foreign office. The report received from the minister today contained nothing disquieting. The Peking government, according to Russian reports, seems to be acting in perfect good faith, and insists that it is intent upon preserving neutrality. It is turning a deaf ear to the appeals of anti-Russian leaders who want China to throw in her lot with Japan, and is doing all possible to suppress anti-foreign agitation among the people. Nevertheless the Russian authorities regard China as a powder magazine. They realize the danger and necessity for constant pressure on the Russian government. The danger of an anti-foreign movement throughout the Chinese empire exists not only for Russia, but for all the powers, and Russia has at least three times since the outbreak of the war addressed the powers on the subject, the last time being less than 10 days ago. The answers received uniformly show a full appreciation of the need of exercising a restraining influence on Peking, and all the powers are co-operating to this end.

SAM PARK'S FUNERAL.

Plans Being Made for Attendance Of Thousands of Workmen.

New York, May 6.—Plans are being made for the attendance of thousands of workmen at the funeral of Sam Parks, former business agent of the Housecarp and Bridgemen's union, who died Wednesday in Sing Sing prison hospital. The health department refused a permit for the funeral on Sunday so the time was changed to Saturday afternoon. This will allow members of the building trades organization to attend and fully 10,000 of them are expected to turn out, forming practically a labor parade. All will wear the costume in which they appeared in parade last Labor day when they marched down Fifth avenue with Parks at the head of the line. Parks' widow lives in a small flat in East Eighty-fourth street, where the funeral services will be held. As the crowds of unionists desirous of seeing their former comrade before interment could not gain entrance to the small quarters, a special "asket has been made opening on the side so the body may be viewed by them in the street before the procession starts.

EVIDENCE OF CRIME.

It Looks as Though Three Men Had Been Murdered.

Rutland, Vt., May 6.—Attaches of the sheriff's office have unearthed evidence which they believe will prove that three men who were supposed to have been killed by trains on the Rutland railroad were robbed and murdered in a roadhouse on the outskirts of this city and their bodies placed on the railroad tracks by the murderers. In some respects the case resembles that of the notorious Bender family years ago in Kansas. Since the finding of the body of Joseph Murray on the railroad tracks near the house last June, the sheriff's department has been working on a murder theory. A note found near the body caused them to put aside the idea of a suicide. The inquiry proved that they never made much progress on the case until within a few days. It is now thought certain that Murray was killed for a few dollars and that his murderers will shortly be placed under arrest. Stories of wild orgies which have taken place in the roadhouse and which were followed by the disappearance of men who are now being investigated, but the police say they will only be able to charge one murder—that of Murray—against the persons they suspect.

Italian Deputy a Thief.

Rome, May 5.—There was a great sensation in the chamber of deputies today, at the conclusion of the parliamentary inquiry into the administration of Signor Nasi, former minister of public instruction. The inquiry proved Nasi guilty of the misappropriation of large sums of money, the falsification of documents, the suppression of evidence and continuous speculation.

The law courts proceed to the chamber a demand that they be allowed to proceed against Nasi and arrest him, but under the rules of the chamber the discussion of this demand was postponed until Saturday next. Meanwhile the news that Nasi had been declared guilty of the charges against him spread, and the former minister, believing all to be lost, fled. Nasi was a strong politician and it was believed he was destined to become premier. The result of the parliamentary inquiry into his conduct has caused great excitement.

No Reform Progress in Macedonia

London, May 5.—In the house of lords today Earl Spencer, the Liberal leader, raised the question of the situation in Macedonia.

Lord Newton (Conservative) said the civil agents of the powers had up to the present time made no progress in the application of the reforms decided upon for Macedonia, and he suggested calling an international conference on the subject. Foreign Secy, Lansdowne said he had only too much reason to be disappointed over the progress achieved and that if the rate of progress was not accelerated the powers might be confronted by a situation which would cause grave anxiety. Lord Lansdowne, however, did not approve of the suggestion to call a conference, but if it should fail to find a solution of the difficult situation would be worse than before.

Negro Preachers Must be Educated

Chicago, May 6.—Better education of negro ministers has been declared imperative by Bishop James A. Handy of Baltimore, addressing the African Methodist Episcopal conference when he said:

"An important ministry cannot preach in an educated pew, and unless the ministers of today keep ahead of the army of colored boys who are swarming out of the schools, they will soon be out of their jobs." The annual report showed a church membership of \$28,258, with 7,577 preachers and 5,018 exhorters.

New Mexico Drouth Broken.

Las Vegas, N. M., May 6.—The drouth which has been exceedingly severe in New Mexico, is broken. Several copious showers have just occurred and the clouds are still heavy. Cattle Inspector O'Brien has returned from a trip through the northern part of the country. He says the stock situation is saved. Reports from Clayton tell of heavy rains there also.

Prior to these showers less than a half inch of rain or snow has fallen during the last 11 months.

Lucern for Park Elk.

Livingston, Mont., May 5.—It is the intention of the government to sow a large tract of land in the Yellowstone park near Gardiner in alfalfa for the purpose of feeding the park elk and other wild animals in that neighborhood during the winter months because of the scarcity of feed in the park.

A large irrigating canal for the irrigation of the tract will be taken out of the Gardiner river.

Kaiser Becoming a Prohibitionist

Berlin, May 6.—Col. Von Der Esch,

director of the Ems baths, who accompanied Emperor William on his Mediterranean trip is quoted as saying that the emperor during the entire journey did not touch alcoholic stimulants except a little wine when dining with King Alfonso at Vigo, Spain, and at the luncheon with the king on board the Spanish royal yacht Gloria on his departure from Vigo. When entertaining his guests on the imperial yacht Hohenzollern at Naples the emperor drank orange juice and mineral water.

Railroad Taxes in Montana.

Butte, Mont., May 5.—A miner special from Helena says that in statistics made public today the railways paid \$707,287.40 in taxes to the state of Montana last year. The Northern Pacific paid more than half of the total, \$373,839.01. The Great Northern and Pacific extension paid \$205,979.86. One cent duty, Fergus, received no taxes, no railroad lines entering it.

To Determine Legality of Boycott

San Francisco, May 5.—A suit to determine the legality of the boycott was filed today in the superior court.

The plaintiff is Charles L. Pyal, an electrical engineer, and the defendants are the San Francisco labor council, several unions and various union officials, who are alleged to have entered into a conspiracy to injure Pyal's business because of his employment of non-union men. Several instances in which the boycott was used against him were specified in the complaint, and \$25,000 damages are demanded.

KING IN DANGER.

Utah Ex-Convict Receives Threatening Letters in Colorado.

R. L. King, of rather, Orestes Paglia, who escaped the gallows by the dismissal of the Prove murder case against him, has been advising the Colorado miners to go back to work. The result is a series of threatening letters, written in Italian and signed "Destroying Angel." One of them contains this cheering sentence: "You are warned that our committee has come to Pueblo to kill you if you don't quit advising the miners to go back to work. So beware!" The postal authorities are endeavoring to find the sender of these missives.

HAS ANOTHER WIFE.

For This Reason Fannie Zane is Suing Her Husband for Divorce.

Mrs. Fannie Zane is suing at Los Angeles for a divorce from Oliver W. Zane, a son of Judge C. S. Zane, now a resident of that city. Her ground is that young Zane has another wife living. She discovered this by finding in her husband's pocket a letter written by his first wife, who is supposed to be in this city. A correspondence followed and Mrs. Zane No. 2 determined immediately to ask the court to annul the supposed marriage. Zane has some defense, however. His first wife filed divorce proceedings against him and as he did not oppose the action, he was under the impression that she had divorced him, and that he had the right to marry a second time. Mrs. Zane asks for the restoration of the name of McCann, which is that of her first husband, whom she divorced.

WILL AID COLORADO.

State Union, Federation of Miners, Pledges Its Support to Strikers.

Utah State Union No. 1, Western Federation of Miners, now three days old, has promised to aid the Colorado union in its fight against the Citizens' alliance and mine owners. After the convention adjourned last evening, the following dispatch was sent to the head office of the Colorado federation:

"The Utah State Union No. 1, Western Federation of Miners, and delegates in convention assembled, by its officers pledges the moral and financial support of the state union and all affiliated locals to the Federation in its fight against the Citizens' alliance and mine owners. (Signed) 'LANGFORD,' 'Secretary-Treasurer.'

The convention passed on the reports of committees, and appointed the following as a committee to arrange for Miners' Union day excursion to Salt Lake on June 13: E. F. Boyle, Frank Erickson, D. J. Russell, Louis Robert, Joseph P. Langford.

"They make me so good."

Cascarets

CANDY CATHARTIC
