The complaint alleges that on May 2, 1899, while the plaintiff was traveling along a public thoroughfare in the city of Everett, Wyoming, and while crossing a railroad track belonging to the defendant company, their vehicle was struck by engine No. 101 traveling east of them, and the plaintiff was killed.

SCHOOL ELECTION.

The election for county superintendent of schools took place yesterday, resulting in Prof. W. B. Wilson being re-elected to succeed himself. Mr. Wilson was the only candidate, he being named by a non-partisan convention by a unanimous vote. The voting yesterday was very small, there being only the one candidate, no great interest was manifested by the public.

Superintendent Wilson is a young man, born and raised in this county, and during the past two years he has filled the position of superintendent with high honors, giving perfect satisfaction to nearly everybody. Through his diligent work the county school system has been brought up to the high standard which it now occupies.

In several of the school districts new school trustees were elected yesterday, but a majority of the old trustees were re-elected.

MOTOR-CYCLES WILL RACE AGAIN

Chapman Has Sent for a New Machine.

"TERRIBLE" WANTS TO RACE

He claims that Gust failed to put on Full Speed in the Recent Contest.

John Lawson is anxious to arrange another motorcycle race with John M. Chapman. Lawson says that in the recent race his young brother Gust failed to open wide the throttle in the last mile, which allowed Chapman and Iyer to sprint by them and win the race. The Swede's new motor will be 3 1/2 horse power, and he expects it here tomorrow.

Chapman has also sent for a new motor of the same horse power as that of Lawson's. He says he can make a mile in less than 1:20 and keep it up. When these two machines are pitted against each other with fearless men in control, patrons of the sport will witness something truly wonderful.

Another professional rider has arrived in Salt Lake to make the races more interesting. He is Oscar Julius, who dubs himself "The Horrible Swede." It is said that he is in much better form this year than heretofore and is even able to give Chapman something to do in a match race. Julius expects to be on the track in the near future.

Recently Julius raced in Pasadena against ten Mexican horses in a ten mile race and won out.

SPORTING NOTES.

Lap racing will be the event at the "Sugarbowl" tonight and will be something new and interesting for Salt Lakers.

Beside Charlie and Jim Morris, Jim Francis and Jack Ryan will tackle Hal Adair in the \$1 per minute proposition tomorrow night at the Salt Palace.

Roy Hodgett, who was injured at the races the other evening, is recovering rapidly and expects to appear on the track again this season.

Secretary Barnes of the League of American Wheelmen, received 112 new applications and 825 renewals of membership last week. The net increase in membership for the week was 10.

Next Saturday at Provo the Bankers of this city will play the Provo team a game of ball.

Chapman, the cyclist, scooped in a \$100 bet on the Rio Grande-Ogden game last Sunday. He planked his cartwheels on the home team.

Watch "Kid" Shierd do some fancy twirling here next Saturday for the Short Liners.

The sidepaths committee of the League of American Wheelmen is now organized and is getting into communication with districts desiring paths. Every assistance possible will be given them. The committee will give special attention to the level phases of path construction, particularly in passing laws for path building and their maintenance and protection afterward.

The new Road Book of the Pennsylvania division of the L. A. W. is the most complete book of its kind ever gotten out by any division in the league, and is of untold value to wheelmen. Among the newest features are the maps of routes pertaining to or relating to routes, distances or general items of special interest. Much of the completeness and accuracy of the Philadelphia city maps are due to the kindness of Chester Wilson H. Bunka, of the highway department of the city. He not only furnished valuable information but gave the committee access to records from which they obtained much information impossible to find elsewhere.
