

BLOODY BATTLES OVER POLITICS.

Colorado, Indiana and Illinois Contribute to the List of Killed—
Big Fight Between Sheriffs and Police in Denver—
Troops Held in Readiness.

Denver, Colo., Nov. 6.—John G. Brannford, colored, special deputy sheriff, dead.

Charles F. Carpenter, policeman, shot in the leg and arm, dangerously hurt. Hampson Jackson, colored, special deputy sheriff, skull fractured and arm broken; may die.

Charles Green, special policeman, shot in the back, seriously hurt. Stewart Harvey, colored, deputy sheriff, shot in the shoulder. Richard Hardman, colored, deputy sheriff, shot in the left arm.

HOW THE FIGHT BEGAN.

Before a ballot was cast in Denver today the trouble between the police department and the sheriff's office, which had been predicted, had begun, and one man dead and five seriously wounded was the result. Fifteen hundred special policemen had been sworn in for the day and about 1,600 deputy sheriffs.

At 7 o'clock Special Policemen Charles F. Carpenter and Green were sent to 22nd and Larimer streets to supervise the opening of the polls in district H. The opening of the polls in district H. was a very large number of deputy sheriff commissions to men named by the league.

Yesterday the board of county commissioners, in disregard of an order of Judge Butler, of the district court, revoked the commission given by Sheriff Jones and though the court promptly took action against the commissioners for contempt, the fire and police board, acting on the advice of leading attorneys, decided to disregard the authority of the deputies.

TROOPS IN READINESS.

Gov. Thomas has ordered troop C, Colorado cavalry, to be in readiness to be called out and they are now at the armory.

FATAL RIOT IN INDIANA.

Brazil, Ind., Nov. 6.—A riot was precipitated in a saloon at Caseyville today this morning over politics. About fifty men engaged and over 200 shots were fired. Wallace Graves was instantly killed. Over 20 bullet-holes were found in his body. William Hustin and seven others, Austrians and Italians were more or less seriously injured.

The buildings near where the riot occurred were riddled with bullets. The local officers secured a number of deputies as quickly as possible and started to arrest the leaders.

ILLINOIS' ELECTION KILLING.

Jonesboro, Ill., Nov. 6.—As the result of a quarrel over politics John Kirby, Democrat, was shot and killed by Jack Thornton, Republican, at Lick Creek. Both were young men of prominent families.

A LAWSUIT IS DECIDED UPON.

The May Day Company Will Sue the Yankee Con.

AN INJUNCTION ASKED FOR.

Strike in the Aurora Mine—T. W. Jennings Returns from Mammoth—Discusses Condition of Mine.

After a couple of weeks of uncertainty the directors of the May Day Mining company have decided to sue the Yankee Con. for the value of the ore extracted and also enjoin it from using that part of the tunnel which has entered the May Day ground. This decision was reached by the directors today and the papers were being prepared this afternoon. It is alleged that the value of the ore extracted is between \$5,000 and \$6,000. Some feeling has been caused between the two companies because of the Yankee Con. management desiring to deduct from the above amount the wages of the manager and secretaries.

The May Day company holds that this sum does not enter into the cost of extracting the ore. The May Day directors are especially determined to institute a lawsuit because of what is said to be the inclination of the Yankee Con. to dictate the terms of settlement. This is said to be the more provoking because Mr. Brown's map shows that the vein body is well within the May Day lines. Not only is all of the stopes from which the ore was taken within the May Day lines, but the tunnel from about 150 feet back from the stope is also in May Day ground. It will be remembered that the manager of the Yankee Con. stated when the trouble began that at least half of the stope was in the Yankee Con. ground. This, however, is not borne out by Mr. Brown's map, which was seen today. This shows the same condition. Quite a little feeling is manifested against the Yankee Con. management. It was even said today that the treasurer was wild. Engineer J. T. Brecken's survey, when the ore was first struck, is identical with the Brown and Strange surveys later. If this is true it certainly presents the light, because the point at which the ore was first struck is shown by the present map to be some distance over the line. If Mr. Brecken's survey was identical with the Brown's it must have shown the same condition. Consequently, it is argued, the management knew when the strike was made, and ever since that the ore did not belong to the Yankee Con. It is the alleging of these things in connection with the Brecken survey that has caused so much feeling in the matter. It is to be regretted that a disagreement has been caused up but it is more regrettable that absolute knowledge of what it was doing should be attributed to the Yankee Con. management.

VISITS THE MAMMOTH.

Thomas W. Jennings Says the Mammoth Has the Apex of the Ore Body.

After spending three days in the workings of the Mammoth and Grand Central mines Thomas W. Jennings returned to town yesterday. Mr. Jennings has put in a great deal of the time underground in company with State Engineer R. C. Gemmell and Victor M. Clement, both of whom are now listed with the Mammoth forces in the coming conflict. Mr. Jennings considers that it right counts for anything in the coming trial the Mammoth will secure the ore body instantly killing the south end of the Grand Central property. The Apex, Mr. Jennings says, is on Mammoth ground and while away he says he followed the same ore body from the surface to the point in dispute between the two companies. At present both companies are taking ore from different places in an immense chute of ore lying on the lines of the two properties. Some fine copper ore is reported in an upraise from the 700 of the Grand Central. The Mammoth has sunk a vein about 25 feet below the 1900 level in a fine body of milling ore.

Park City Shipments.

Following are the shipments from the Mackintosh sampler for the past week as given by the Record:

	Pounds.
Silver King.....	1,301.00
Anchor West.....	1,164.00
Day concentrators.....	409.00
Ontario.....	277.00
Barnes Bros.....	37.00
St. Louis.....	26.00
Loring.....	9.00
California concentrators.....	7,900
Total.....	3,361.200

The Aurora Strike.

The latest strike in the Aurora of Marysville is very encouraging to the stockholders. Assays just received show \$10.80 in gold and about 2 ounces in silver per ton. Something like five years ago the management sunk a five-foot shaft and obtained very rich values in gold and silver. It was then decided to secure depth by tunneling. The result is that after five years of work the vein has been intercepted about 500 feet from the entrance of the tunnel. The ore is said to be identical with that of the Wedge mine, adjoining.

MINING NOTES.

A car of ore was reported today from the Galena of Fish Springs.

The Swansea of Tintic was on the market today with five cars of ore.

The Grand Central of Tintic had eighteen cars of ore on the market today.

The Taylor Brunton sampler reported twenty-three cars of ore from Tintic and one from Fish Springs today.

President Samuel McIntyre of the Mammoth came in from the camp today and immediately gave his attention to the lawsuit.

Supt. Horace Yerbe of the Cygnut at Stuckton came in from that property last evening and reports 60 tons of ore being marketed weekly.

The date of delinquency on the Lower Mammoth assessment has been postponed until Nov. 17th through the illness of the secretary.

The American Smelting and Refining company has awarded the contract for the construction of the steel building of the new \$1,000,000 smelter in which fully 500,000 pounds of material will be used. The large round chimney—20 feet in diameter—will be 300 feet high when completed and more than 1,000,000 brick will be used in its construction.

Messrs. H. M. Ryan and H. B. Barber came up from the Cocoonino company's property in Grand county, Arizona, last evening. Preparations are being made to start up the smelter. The management is also contemplating the installation of a leaching process to handle the immense quantity of oxidized copper ore.

Charles D. Rookledge has returned from Inyo county, California, where he secured a bond on the Defiance and Independence properties at Darwin in that county. The mines are owned by the heirs of Patrick Reddy the noted criminal lawyer. A vast quantity of silver-lead ore is said to be in sight. It is a milling proposition. Connected with the mine is a water system which cost about \$40,000 years ago.

LONDON TRADE ON ELECTION RESULT

Brokerage Houses Arrange to Keep Open All Night.

AMERICANS BETTING TOO.

Will Keep It Up Till the Final Result Is Known—Live Stock Markets Steady.

New York, Nov. 6.—A good many brokerage houses have arranged to have their staffs on duty all night tonight in their up-town branches or in temporary offices in that part of the city, for the accommodation of customers who may desire to trade in the London market on ascertaining the result of the election for President. The New York stock exchange does not open until 10 o'clock on Wednesday morning, while the London exchange opens at 11 o'clock or at 6 o'clock New York time, and trading on the "cable" by London brokers will begin as early as 2 o'clock New York time, by which hour the result of the presidential contest should be known.

Not a few brokerage houses, it is said, have already a considerable number of conditional buying and selling orders on hand to be executed in the early hours of tomorrow morning, according to the outcome of the election, and they expect to book many more orders from customers who will gather late this evening in their offices up town, where the progress of the count in the various States will be registered by "special wire" service.

CHICAGO BROKERS TOO.

Chicago, Nov. 6.—Chicago stock brokers will follow the example of New York speculators and keep their doors open all night, ready to take advantage of the result of the election by making orders at the opening of the London stock exchange at 4 a. m. Chicago time.

"The chances for a coup may not materialize," remarked a broker today, "for the Englishmen may take as close pains to secure early information as the Americans."

CHICAGO MARKETS.

LIVE STOCK.
