FOR SOAP MAKING,

Use the old Reliable

Saponifier

Or Concentrated LYE.

Directions for using it accompany each
package. Ask for it at Z. C. M. I. and all
branch stores. w15

Local and Other Matters.

FROM WEDNESDAY'S DAILY, MARCH 7.

Stormy.—A fierce, gusty storm
last night, with rain and snow;
also rain and hail this morning.

How are Drugs?—A New York
price list gives the state of the drug
market in this way—Opium weak,
mercurials weaker, salts show no
change, squills dull, ipecacuanha
dull, ergot weak, gambier weak,
asafoetida weak, castor oil slightly
weaker, sal soda has stiffened up.

Stormy.—A stormy spell set in
last night, which has continued
more or less since then. Some snow
in the valley and probably a good
deal in the mountains. This should
make the grangers rejoice, and
everybody else for the matter of
that, increasing as it does the pros-
pects for a sufficient water supply.

Runaway.—This afternoon an
untied team with wagon attached
started eastward from the front of
the Post Office, on a runaway, and
came near playing smash with sev-
eral wagons on the way. It turned
down the State Road and was
brought to a stand, without dam-
age, by colliding with a shade tree.
The teamster was arrested and will
answer before Justice Pyper.

Accident.—Yesterday Julius Fly-
gare, son of Mr. I. N. Flygare, of
this city, while playing on the
steps ascending from the Court
House, was shoved down by an-
other boy, falling to the ground be-
low, cutting a severe gash above
the left eye, extending down upon
the upper portion of the nose. The
sufferer was taken to the residence
of Dr. P. L. Anderson, who sewed
up the wound, and the patient is
now doing well.—Ogden Junction,
March 6.

Mining Machinery.—Mr. W. J.
Silver has just finished putting
up in the Yosemite mine, at the
head of Butterfield Cañon, Bing-
ham District, a couple of Blake
pumps, the larger of which has a
ten-inch cylinder and five-inch
plunger, and has a throwing cap-
acity of 120 gallons a minute, a
distance of 300 feet. The water is
now all out of the lower works of
the mine, and there is a splendid
show for ore.

Mormon Settlers.—The Arizona
Miner of March 23 says—

"Eighty Mormons from the vi-
cinity of Salt Lake City are en-
camped at Tonto Springs. These
people are going to settle in the
southeastern part of the Territory,
probably for all time to come. They
have twenty-two wagons, and are
provided with all kinds of farming
implements, seeds, fruit trees, etc.
Their party consists of a great many
young people—just the right kind
of people to make a colony. D.
W. Jones is leading the party, and
knows just where he is going to set-
tle, having visited the Territory a
year ago and made the selection
which they are now going to occu-
py."

Surgical Operation.

SALT LAKE CITY,

March 7th, 1877.

Editor Deseret News:

Allow me to correct some state-
ments in relation to the operation
for ovariectomy published in last
evening's NEWS.

The operation was performed on
the 31st of January, instead of the
13th. The tumor removed was not
a fungus growth, but an ovarian
multilocular cyst. The atomizer
was that of Dr. Hanks of New
York, though Prof. Lister has the
honor of originating this method
of procedure in surgical cases. My
confederates, Drs. Smart, Benedict,
Hamilton and Fowler, were not
only present, but afforded highly
valuable assistance in the removal
of the cyst.

Please make the above correction,
and oblige yours very truly,
W. F. ANDERSON.

City Council.—The Council met
last evening, Mayor Little presid-
ing.

A communication was received
from Prof. O. H. Riggs, relating to
the establishment of a special
school system in this City. It was

read and referred to the committee
on improvements.

Petition of the Continental Oil
and Transportation Company, for
the privilege of laying a railroad
switch from the depot grounds to
an adjacent lot, where they purpose
establishing an oil depot; referred
to the committee on streets and al-
leys.

The committee on municipal
laws presented a bill for an ordi-
nance in relation to crimes and
punishments. The bill was read
and referred back to the committee
for further consideration.

Alderman Pyper presented his
police court report for the month of
February. It showed that eighty-
nine cases had been tried, \$394.50
collected in cash fines, and \$870 in
labor.

Bill of expenditures by the Mar-
shal, for February, \$269.72; allowed.
The following bills for the month
of February were allowed and a-
mounts appropriated.

Chief engineer, \$155.95, expenses
of fire department; Gas Company,
\$1,126.60; Dr. Young, board and
care of two insane patients, \$64;
police salaries, \$784; W. E. Hyde,
guarding water tanks and lighting
oil street lamps, \$60; J. W. Burt,
janitor at City Hall, \$48; W. Go-
forth, collecting dog tax, \$37; W.
R. Adkins, labor on Union Square,
\$34; A. S. Patterson, reporting the
evidence in the case of Cora Con-
way vs. Jeter Clinton et al., \$226.

One thousand dollars was appro-
priated to be subject to the order of
the supervisor of streets.

It was expressed to be the sense
of the Council that the assessor
and collector base the assessments
made by him upon property as
heretofore, on a fair cash valuation
as required by law.

The Council adjourned till next
Tuesday evening, at 7 o'clock.

Good.—The new cobble crossing
over First South Street, near the
City Hall, appears to answer ad-
mirably, and is suggestive of a far
greater improvement that might
be made sometime in the future—
the paving of some of the most fre-
quented streets with the same ma-
terial.

As a matter of course such an im-
provement would involve a consid-
erable outlay of means, but we be-
lieve it would really be a saving
after all, for the reason that the
streets in the central part of the
city are constantly in need of and
receiving repairs, and it is a question
whether the aggregate expenditures
of a few years in this way would
not almost cover the expense of
cobble causeway or pavement. An
advantage of this improvement
would be that cobbles are easily ob-
tainable, being in great abundance
around and even in some portions
of the city, and when the streets
were thus laid they could be kept
in repair very easily, and at com-
paratively small expense. The
work could be done gradually, and
even the length of a block in a
year would be an encouraging sight,
giving a prospect of the streets
being some time comparatively
freed from the accumulations of
mud at some seasons and of dust at
others. We believe that the length
of a block could be paved in this
way at a cost of not more than \$3,-
000, when the road bed is in toler-
ably fair condition.

FROM THURSDAY'S DAILY, MARCH 8.

On and Off.—The storm still con-
tinues, on and off. Off mostly, but
on slightly now and then.

A Pocket Book.—The owner of a
purse, picked up somewhere in the
Twentieth Ward, has not yet called
for it.

Re-building.—The blacksmith's
shop at the Temple quarry, in Cot-
tonwood Cañon, recently destroyed
by fire, is to be re-built next week.

Work on the Temple.—There are
now ninety-one stonecutters at
work on the Temple block, besides
laborers. The number of hands at
the quarry is, we understand, some-
what limited at present.

Bad Roads.—The present inclem-
ent weather is causing the roads to
be in anything but a satisfactory
condition for traveling, and is caus-
ing some who intended going to

St. George, to Conference, to give
up the idea. Notwithstanding,
however, a goodly number will
probably go.

Not Recovered.—The body of the
late Mr. Thoms Heath has not yet
been recovered from the Jordan,
although the efforts to find it have
been kept up daily since he was
drowned. Unless it has caught
somewhere in the bed of the river
it is probable the body will rise to
the surface on Saturday, which is
the ninth day from the time of
submersion.

New Residence.—Mr. Lewis S.
Hills is about to have erected in
the Fourteenth Ward, a substantial
residence, of goodly proportions.
We understand the contract for
the mason work has been awarded
to Messrs. Morris and Evans.

It is about time for the building
season to commence. There are
plenty of workmen, ready and wil-
ling, waiting to be employed.

Execution of Lee.—The follow-
ing came over the wires last
night—

Beaver, Utah, 7.—In the Second
District Court, at 4 p.m. to-day,
Judge Boreman passed sentence of
death upon John D. Lee, to be ex-
ecuted on Friday, March 23rd,
between 10 a.m. and 3 p.m. Lee
seemed unmoved, but he is quite
feeble and weak. He arrived here
from Salt Lake to-day at 2 p.m., in
charge of Marshal Nelson and
United States Prosecuting Attorney
Howard.

Little's Living Age.—The num-
bers of *The Living Age* for the
weeks ending February 24th and
March 3d contain *The Life of the
Prince Consort*, by Rt. Hon. W. E.
Gladstone, *Forel on the Ants of
Switzerland*, *Magazine Literature*,
Goethe in his Old Age, *Mediterranean
Deltas*, *Weimer under Schiller*
and *Goethe*. The "Dreadful Peo-
ple" who go to Court, *Wit in
Court*, *The Eastern Polar Basin*, by
Augustus Petermann, *How it Happ-
ened*, by Narissa, *The Marquis
of Lossie*, by George MacDonald,
and *William Black's new serial*, to-
gether with choice poetry and mis-
cellany.

Sericulture.—The Deseret Silk
Association met in the Fireman's
Hall yesterday, the 7th instant,
Mrs. Zina D. Young presiding.

Mrs. Young reported that the in-
structions on silk raising were ready
for the press and would be printed
by the time of holding our next
meeting. She advised the mem-
bers to plant out trees and cuttings,
and to use their influence to have
others do so; expected to have all
the society silk reeled by the time
of next meeting.

Very interesting and encouraging
remarks were also made by Sisters
Horne and Barney and others pres-
ent.

Mr. P. A. Schettler said he felt
greatly interested in what had been
said, and felt encouraged in what
had already been done, which was
proof that all we needed was for
the people to take hold of this en-
terprize to make it a success; to
plant out trees and raise the co-
coons, and they could be worked
right here, and thus be giving em-
ployment to a great many people.
As soon as his trees could be remov-
ed he would advertise in the papers.
He wished those who wanted eggs
to let him know as soon as possi-
ble.

Mr. P. A. Schettler and Mr. A.
C. Pyper were appointed a commit-
tee to see to the publication of the
pamphlet on silk culture.

Motioned that we change our
meetings from Wednesday until
the first Friday in the month.

Meeting adjourned until the first
Friday in April at 3 p. m.

R. SIMPSON, Secy.

Our Country Contemporaries.

Ogden Junction, March 7—

Mr. Horatio Hancock's little son,
two and a half years old, has been
afflicted for some time with a can-
cer in one of his eyes, which is
spreading. Medical skill has failed
to arrest the progress of the terrible
affliction, and now the little fellow
will have to undergo an operation

for the extraction of the eye. He
is to be taken to Salt Lake, where
an optician will remove the cancer-
ous organ as the only alternative.

The people of Ogden were much
shocked to-day by the news that
Mr. A. J. Shupe, an old resident of
this city, had suddenly departed
this life. He had been suffering for
several days with a severe pain in
the head, and on rising a little after
6 o'clock this morning complained
of the pain. He went to make a
fire in the stove, when his wife
heard a fall and a groan.
He was found prostrate on the
floor, and after being lifted in his
bed groaned faintly and expired.
Mr. Shupe had twice previously
been attacked with apoplexy. His
family and friends are plunged into
great grief. Deceased was born in
Grayson County, Virginia, Novem-
ber 9th, 1815. He was married to
Elizabeth Creager, in Wythe County,
Virginia, October 12th, 1837. In
the spring of 1841 he was baptized
into the Church of Jesus Christ of
Latter-day Saints. On the 10th of
September, 1843, he left Virginia to
unite with the Saints at Nauvoo,
Illinois, which place he reached in
the fall of the same year, where he
spent the winter. In the following
spring he went to Brown County,
Illinois, and staid till the fall of 1845,
when he returned to Nauvoo and
was ordained one of the Seventies.
He shared in the expulsion of the
"Mormons" in 1846 and went with
the church to Council Bluffs, Iowa,
where he enlisted in the Mormon
Battalion, and leaving his family at
the Bluffs, marched with his com-
pany to Mexico. In 1847, being de-
tached with Sergeant Thomas
Williams, he marched from Santa Fe
and wintered in Pueblo. Traveling
eastward they met the
"Mormon" Pioneers on their way
to the mountains. He joined them
and came to Salt Lake, July 24th,
1847, returning with a company of
them to the States the same year.
He rejoined his family at Council
Bluffs and staid there until June
10th, 1852, when he started with
them for Utah, reaching Salt Lake
in October. Elder Shupe was an
old resident of Ogden, where he was
widely known and respected. He
was a member of the High Coun-
cil for several years and also a mem-
ber of the City Council, acting as
Alderman of the Third Ward for
some time.

Large stock of Fruit and Shade
Trees for sale by G. B. Wallace,
17th Ward, Salt Lake City. Pro-
duce and stock taken in exchange.
Cash not refused. w6

Mechanical Tinkering

Cannot arrest the decomposition of
the teeth. Nothing will do this
but that pure disinfectant and pre-
servative which, under the name
of SOZODONT, has become a staple
of the toilet throughout the world.
d88

Walters and Godfrey

Are in the city, cutting to actual
measurement, the unequalled COM-
MON SENSE SHIRT PATTERN.
We give printed instructions to
make up shirts; also printed recipe
for the celebrated SILVER GLOSS
STARCH. Call and see them, at
Pacific Hotel, opposite Walker
House. w91

YOUR LIFE IS AT STAKE.

There is no question about it.
Whoever neglects a cough or cold,
does so at risk of his or her life.
To-day it may be easily controlled;
next week the lungs may be full
of tubercles. Think of this. Do
not wilfully rush to a consump-
tive's grave. Remember that a
few doses of "Hale's Honey of
Horehound and Tar" will cure
any cold or cough, if taken early
enough. Remember also, that
there is a crisis when all medica-
tion is "too late! too late!" Sold
by all druggists at 50 cents and \$1.
The large size being much the
cheapest. Pike's Toothache Drops
cure in one minute. d88 w5
