M. I. A. CONFERENCE.

THE POPULAR WOMAN The Kind That Men Admire.

Men admire a pretty face and a good figure, but sooner or later learn that the happy woman, -- that contented one is most of all to be admired.

Those troubled with fainting spells, irregularity, nervous irritability, backache, the blues and that dreadful bearing down feeling cannot hope to be happy, and advancement in either home or social life is impossible.

It is clearly shown in the young lady's letter which follows that Lydia E. Pinkham's Vegetable Compound will certainly cure the suffering of women; and when one considers that Miss Murphy's letter is only one of the countless hundreds which we are continually publishing in the newspapers of this country, the great virtue of Mrs. Pinkham's medicine must be admitted by all ; and for the absolute cure of all kinds of female ills no substitute can possibly take its place. Women should bear this important fact in mind when they go into a drug store, and be sure not to accept anything that is claimed to be " just as good " as Lydia E. Pinkham's Vegetable Compound, for na other medicine for female ills has made so many actual cures.

President "Lend-a-Hand Club," Seattle, Wash.

"DEAR MRS. PINKHAM:- For three years 1 suffered with bearing down pains, backache, became nervous and hysterical and could not enjoy life as other young women did. A lady friend who had suffered similarly and been cured, suggested that I try Lydia E. Pinkham's Vegetable Compound. I had little faith in it, but nevertheless I gave it a trial, and I am glad that I did. I kept getting better gradually and my pains left me and within four months I was a well woman. This is a year ago and I have never had any trouble since. I wish all suffering women knew of your valuable medicine. - Yours very truly, MARGAR-ETTA MURPHY, 2703 Sec. Ave., Seattle, Wash."

#### Two More Grateful Letters.

" DEAR MRS. PINEHAM :--- I feel it " DEAR MRS. PINKHAM : - I have been greatly benefited by the use of my duty to write you in regard to your valuable medicine. I have been your medicine. 1 was troubled with a pain in my side and any little untroubled with falling of the womb usual thing would almost prostrate and inflammation of the ovaries, and me I was so nervous ; I was so weak was so bad I could hardly walk across the floor. The doctors said it was I could not do my work ; menstruaimpossible for me to get well unless I tion was very scanty. I tried medicines for my nerves, also kidney and had an operation, but this I would liver medicine, but nothing did me not listen to. Having read so much about Lydia E. Pinkham's Vegetable Compound I made up my Lydia E. Pinkham's Vegetable mind to give it a trial, and it has Compound. I took three bottles of it, and one box of your Liver Pills. done wonders for me. #### HOUSE BURGLARIZED.

The home of O. H. Randall was entered on Friday night by two men while the whole family were away at a dance in honor of their son's wedding. Two men were seen around by a young man going to the dance, but he supposed it was some of the family, About 11 o'clock Albert Randall of Centerville went to the house to go to bed, but could not obtain admittance. Some one was holding the door by which they entered. He saw a dim light in the house and returned to the hall to inform his uncle. Three or four started for the house, but the men being disturbed, decamped without obtaining any plunder so far as has been discovered.

EVOLVING A GENTLEMAN.

Prof. Karl Pearsons, F. R. S., who has taken a leading part in founding the doctrine of evolution on a statistibasis, explained to an av-e at the Royal institute dience at some of the results which have been arrived at. Two of these are of special mportance. It is shown by examin ation of large numbers of persons that mental and moral as well as physical qualities are inherited, and to the same extent.

Taking school children and examining them minutely with respect to curliness and color of hair, length, breadth and height of the head, color of the eyes, the cephalic index, and health on the one hand; and on the other testing them for intelligence, vivacity, conscientiousness, popularity, temper, self-consciousness, shyness and handwriting, the degree of inheriance in the two categories came numrieally as close at 521 to 522. Second-y. H has proved that two or three genlons will suffice to create a new

tatistics of large numbers show that ere is more than is often supposed in a saying. "It takes three generations o make a gentleman," and in the ex-ression, "Visiting the sins of the fathpression, "Visiting the sins of the fath-ors upon the children to the third and fourth generation." Pedigree in hu-manity, as in the lower animals is a vital factor. Thus a family or a na-tion will certainly progress or degen-crate as the issue of heredity. It needs

but to repress the numbers of the bet ter and higher and to multiply the number of the lower and the less fit for two or three generations to make national degeneration teiribly real.
