

SOME NEW STATE LAWS.

Symposium of the Most Important Measures Passed

BY THE LAST LEGISLATURE

Cover a vast variety of subjects and including those in hands of the Governor, exceed 100.

Wise bodies of law-framers may have met in state or national assemblies, and both the quantity and quality of the laws passed within sixty days may have surpassed the work of the Utah solons, but the Bee Hive State, the members aver, has no reason to blush for the work of her legislators during the session just closed by which she has added to her statutes almost a "century" of new acts, and will probably exceed that number when the Governor has fully and finally weighed all the measures that he has still before him.

Among the new acts are laws affecting individual and corporate rights, laws granting increased privileges to railroad companies, laws dealing with education, with the law courts, with the public health, public morals and public affairs generally, a miscellany of subjects too diverse to catalogue.

INCORPORATION FEE ACT.

Of the acts which will help replenish the depleted State coffers none will cut so wide a swath as the measure introduced by Senator Howell of Cache, and whose only material change from the old statute is that it fixes no limit to the size of incorporation fees. The new and old law demand a fee to be paid to the State, when articles of incorporation are filed, of 25 cents per \$1,000 of capital stock, but the new law fixes the maximum fee at \$2,500, whatever the amount of the capital stock. Before the bill was passed in the House Secretary of State Hammond, who had been asked to explain the measure to representatives, made the statement that this \$2,500 limit had been the means of having over \$32,000 to incorporate within the last four years, which sum ought to have gone into the treasury of the State.

STATE WILL SAVE \$32,500.

This is an emergency law, and became effective immediately it received the Governor's stamp of approval. On the fees of three companies, which will be articles of incorporation very shortly, a saving to the State of \$32,500 will be effected. These companies are the Union Pacific Railway company, which has increased its capital stock by \$100,000,000, and will have to pay to the State treasury \$25,000; the Salt Lake, Los Angeles & San Pedro, with a capital of \$25,000,000, which will cost \$6,250 to incorporate in Utah; the American Smelting company, \$5,750 for its \$23,000,000 increase in capital stock. These three companies will by the new law pay to the State treasury an aggregate sum of \$36,500, where under the old law they would have been let off for \$7,500. Smoot's bill to tax insurance companies (other than life) on business written in the State that is effected outside of the State, agents, will also save money for the State.

PUBLIC PROTECTION.

The public health it is expected, will be guarded by such laws as Murdoch's dairy inspection law, and the measure forbidding the use of formaldehyde in milk and cream. The Hamilton act compelling street car companies to vestibule all of their winter cars within three years will also be for the public good and for the motormen in particular.

The moral tone will be improved by the passage of such measures as Barnes' bill to exclude minors from saloons; Allison's bill to exterminate slot machines which have been gambling feature connected with the late slot machine bill, which is not so prohibitive as the existing law on garnishment, and allows married men or those with families to gamble on them an exemption of half their wages for the thirty days preceding the establishment where the wages amount to \$2 a day or over, and \$30 a month where their wages are under that amount.

The bill prohibiting the sale of liquor within ten miles of Indian reservation, except in incorporated towns or cities, will also have a good effect; as also Hamilton's 8-hour law for work on public buildings, and Smith's act to prohibit docking horses' tails is simply an act of humanity.

Mr. McFarland's bill for an appropriation to exterminate the San Jose snake; Kiesel's bill for the importation of the German beetle, the Kohlmeisen, which is said to be a deadly foe to the codling moth, and Lambert's bill for an appropriation for poison for gophers and ground squirrels must be ranked among the public protection acts and Astor's explosive and infernal machine acts will probably result in increased public safety.

RAILROAD MEASURES.

A number of important railroad bills, both Senate and House, were boiled down into Tanner's railroad codification bill. The railroad companies will have little cause to grumble at the way they have been treated by the Fourth Legislature. The Central Pacific has been granted permission to construct the long-talked-of Lucin cut-off; the Los Angeles company was provided for by the passage of a bill allowing companies occupying property entirely without the State to incorporate in Utah, permission to extend franchisees from 50 to 100 years has been granted, and city councils have been empowered to give away municipal lands for depot sites and other railroad purposes, subject to the vote of the people. The fellow servant bill, making railroad companies liable for the death or injury of their employees through fellow employees, except where the contributing negligence could be shown, came to an untimely end, and the only thing at all approaching a hardship on the railroad companies is the act compelling them to fence in their tracks, where they run through private lands.

One Dose

Tells the story. When your head aches, and you feel bilious, constipated, and out of tune, with your stomach sour and no appetite, just buy a package of

Hood's Pills

And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do their work, cure your headache and biliousness, rouse the liver and give you a happy, healthy life. 50 cents. Sold by all medicine dealers.

BUY THE BEST.

Three Crown flavoring extracts are made direct from the fruit, thereby retaining their natural perfect flavor. Three Crown spices are pure and fresh, right from our own mills. Three Crown baking powder is pure, strong, and economical. Price 25 cents per pound. Ask for these brands and refuse all others.

Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

BANKRUPTCY CASES.

Effort to Compel Ex-State Senator to Assign.

Involuntary bankruptcy proceedings were begun yesterday against ex-Senator I. K. Wright, Emerson C. Wright and L. L. Wright of Richfield, doing business under the firm name of I. K. Wright and Sons. The complainants are four creditors, whose claims aggregate \$668.77 and interest. Deputy United States Marshal Smyth left this morning for Richfield to serve the papers summoning the members of the firm to appear to show cause why they should not be adjudged bankrupts.

Papers were filed yesterday in the Federal court by Assistant District Attorney Cherrington, against the Provo Commercial and Savings Bank. The complainant is the United States, and suit is brought to recover \$300, the value of 40,000 pounds of granite alleged by the plaintiff to have been owned by them and unlawfully taken and disposed of by the defendants.

CITY PRISONERS RELEASED.

Old Jail Will Soon be Ready to Receive Prisoners.

The old rookery behind the police station, dignified by the title of "The City Jail," will soon be in a condition to receive prisoners. Severe offenders, whose terms of imprisonment have expired, were released today by the order of City Physician King. Following are the names of the men released: Frank Foster, John Martin, Chas. Lund, Pat Doyle, Henry Rose, Alex. Murphy and Tom Welch. Dr. King says that there are no signs of any new cases of smallpox in the jail and that the danger will soon be over with.

TO PREVENT PNEUMONIA AND GRIP

Laxative Bromo-Quinine removes the cause.

THANKS FROM WYOMING.

Engrossed Joint Resolution Mailed to Mayor Thompson.

Mayor Thompson today received a letter from Hon. Fennimore Chatterton, secretary of the State of Wyoming, with which was enclosed an engrossed joint resolution of the legislature of the sister State, thanking "the State of Utah and the citizens of Salt Lake for so kindly entertaining and feeding us on the best of viands," while on their recent visit here.

The document is signed by Governor Richards and Edward W. Stoneham, president of the senate, of that State. The other cities along the route, the railway lines, telegraph and telephone companies also receive the thanks of Wyoming lawmakers in the same document.

LATE LOCALS.

The three county commissioners were out all day today on a road inspection tour through the Big Cottonwood road district. They propose to fence up some roads and throw others open. The result of their trip could not be learned before the closing of the "News" report.

In the case of John P. Johnson vs Emma Hanson, the defense today before Judge Hall in the district court, had their inning. Introducing testimony to prove that the plaintiff was competent and in his right mind when he executed the deeds to defendant, which the action seeks to have cancelled and set aside.

Dun's Review has this to say of business in Salt Lake for the past week: "Jobbing lines show some improvement and trade is fairly good in drugs, groceries and hardware. Heavy snow strengthens the situation and gives greater assurance to the future in agricultural lines. The wheat demand is good, but road conditions render it difficult to move sufficient grain to fill orders. Little change is noted in the situation in the sugar and woolen industries. Collections are slow, and the call for funds is not heavy. Mining stocks are active, and the ore and bullion movement is of fair volume. Retail trade improves slightly."

Bernard Graham Webb, aged 24, and Clara Roche, 22, both of Lehi, were granted a wedding permit by the county clerk this afternoon.

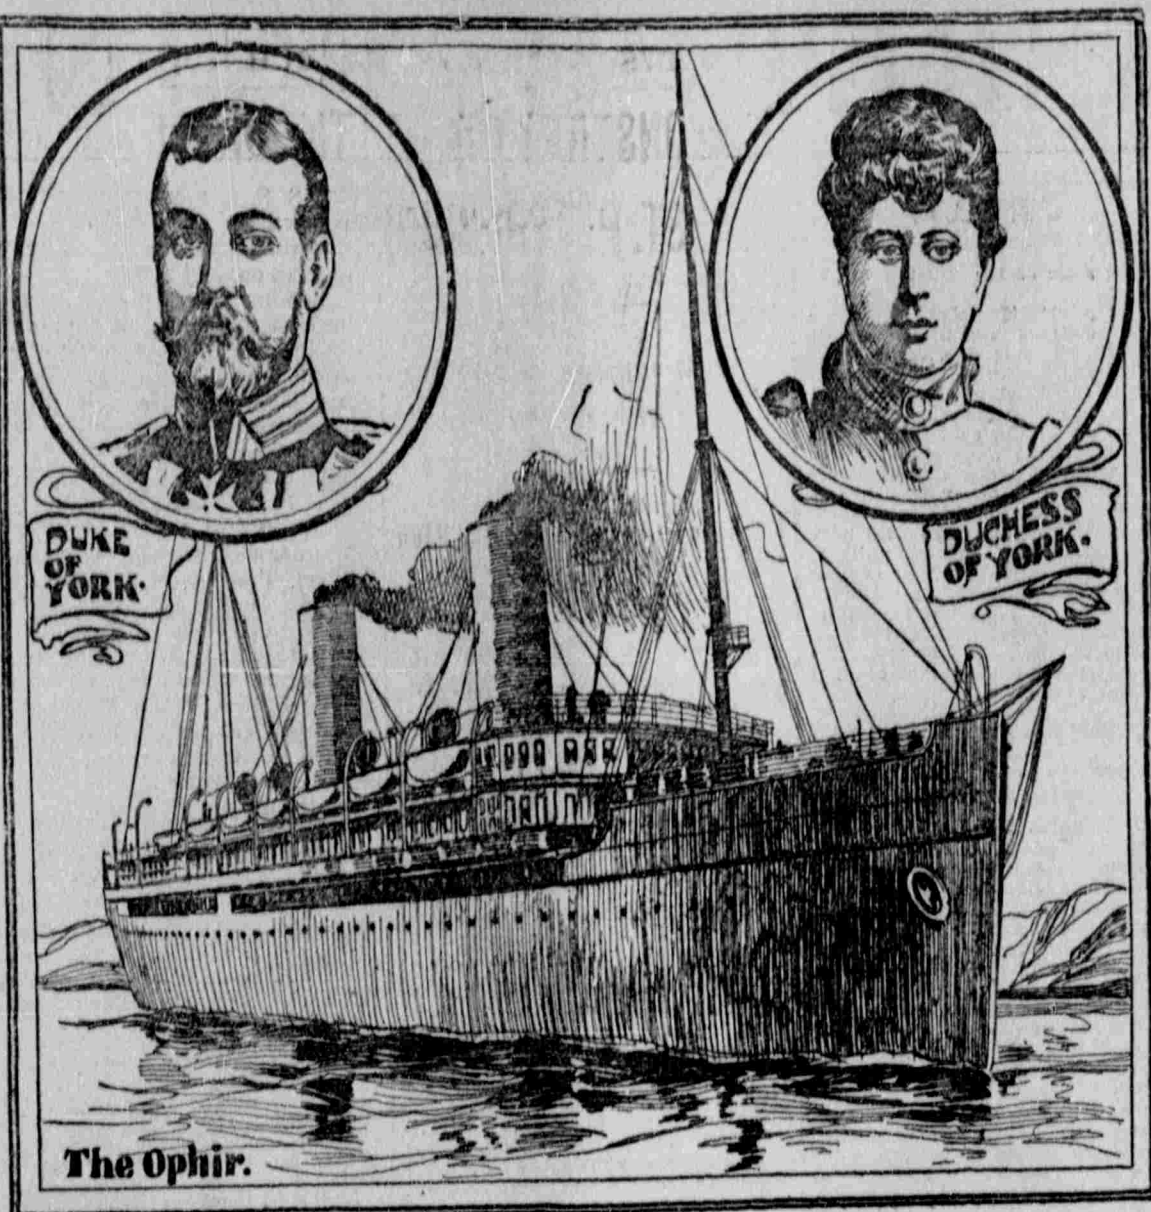

The dead was consumed yesterday where J. R. Smith and sons, the owners of the Queen of the Valley roller mill, came into the possession of the Corinne roller mill. The consideration is stated to be \$10,000. The new owners expect to largely increase the output, and to put in more machinery.

PEOPLE WHO ARE PASSING

H. G. Williams, superintendent of the Castle Gate mine, is registered at the Kenyon.

Senator Larsen left for his home in Brigham City last evening.

Mrs. Ferdinand Alder and daughter left today for their home in Mantoloking. They have been in Salt Lake with Sen-

DUKE AND DUCHESS OF YORK AND THE STEAMER ON WHICH THEY WILL MAKE THE GRAND TOUR.

The sailing of the Duke and Duchess of York on Saturday for Australia is the beginning of a grand tour of the British colonies which the heir apparent and his wife are to make during the next few months. After opening the new federal parliament in Melbourne on May 9, they will visit South Africa, the West Indies and Canada. It is possible that they may also visit the United States. The entire trip will be made on the steamer Ophir, a fast, stanch ship, which has been fitted especially for the convenience of the royal pair and their suit.

ator Alder during the past few weeks. The senator will return home in a day or so.

H. R. Eastman, vice president of the First National bank of Boise, is in Salt Lake on important business. He is staying at the Knutsford.

Dudley Perkins of New York is a guest at the Knutsford. He is the inspector of agencies of the Mutual Life Insurance company. When seen last evening Mr. Perkins said that he liked Salt Lake very much and had been here several times. He thinks the city will grow much more rapidly when another railroad builds in and affords more competition and other connections. He stated that his company is extremely pleased with the amount of business done the past year by their agency in Utah.

"Salt Lake and Los Angeles are simply built for each other in that they furnish to each other what they lack themselves," said I. E. Gibson at the Knutsford last evening. Salt Lake has a dry climate, high altitude, and cooling and invigorating breezes at the very time when the people of Southern California most need them—the summer. Los Angeles furnishes lower altitudes, a tropical climate, the sea side and flowers and fruit at the time when Utah is most dreary—in winter. It is certainly to be hoped that Salt Lake and Los Angeles will before many months have direct connection and putting aside the wonderful commercial advantages that will be derived therefrom, the social health considerations certainly justify the building of such a road."

PERSONALS.

Tom Matthews, the manager of the American Steam Laundry, left for the East last evening. He has gone East to buy some new and modern machinery for the laundry.

Sergeant A. H. Brown of the Eleventh cavalry, a resident of Salt Lake, returned from the Philippines. He stated that it is generally believed that General Lawton was killed by a deserter. The Utah batteries are remembered all over the islands and are well thought of.

Byron Gros, secretary to the Land Board, is still confined to his home with erysipelas. However he hopes soon to be around again.

Bishop W. J. Reagle of the Seventeenth ward and family returned last evening from California, after a visit of four months. The Bishop is feeling better now than he has in years past.

Dr. Henry La Motte was, yesterday, elected to membership in the University club of Salt Lake. The doctor is a graduate of the School of Medicine, University of Pennsylvania, and graduated with the class of 1893.

James A. Meville, of Fillmore, P. A. Poulson, of Mantoloking, and C. H. Howard, of Park City, are guests at the White House.

Don Macquire is in the city on a business trip and is staying at the Culien, registered on Ogden.

Wyoming Press, Evanston: Miss Maude Smith, of Salt Lake, is visiting friends in this city.

Boise Statesman: Hugh S. Thomas, of Salt Lake City, of the Rocky Mountain Bell Telephone company, is in the city.

FAT TRAVELERS

Live on Grape-Nuts.

When one looks at commercial travelers, round, smooth, and well kept, it is hard to believe that any of them have to be particular about the selection of food, but many of them do nevertheless, and their care in this respect is one cause of their healthy appearance.

Frank W. Clarke, who travels for Arbuckle Bros., says that he began using Grape-Nuts Food when he found it in a hotel menu, and ever since that time has eaten Grape-Nuts from one to three times a day, carrying a package in his grip, so he could have it whenever the hotels did not serve it.

He says: "About eight years ago dyspepsia got a hold of me and gradually weakened my stomach so that it would not take all kinds of food. I had to drop a number of articles which is a hard thing for a traveling man to do. Then the question was 'what could I get to eat that would not distress me?' When I found Grape-Nuts Food it solved the problem, and since taking on this food my stomach has gradually gotten well so that I feel in fine shape."

"The proof of the pudding is in the eating." Grape-Nuts is pre-digested in its manufacture, and can be easily assimilated by the weakest kind of a stomach, while at the same time it contains the most powerful elements of nourishment, strong in the elements of phosphate of potash, which, united with albumen go to make the gray matter in the nerve cells and brain. People that are not properly nourished can solve the problem by using Grape-Nuts Food.

WHO IS WHO AND WHAT IS WHAT?

That is What Judge Timmony Wants to Find Out.

THE POLICE SAY HE IS NOT.

Trouble All on Account of Permitting a "Drunk" to Go Away on His Own Recognition.

When the name of Charles Danforth, charged with being drunk, was called in the police court yesterday afternoon, echo only answered. Charles was elsewhere. Judge Timmony demanded the reason for the man's non-appearance and was informed that after sobering up he had been released by the desk sergeant for the reason that he could not be locked up in jail on account of the old battle being under quarantine.

"Well, some other than the present arrangement will have to be made," said Judge Timmony in an angry tone.

"When men are arrested for drunkenness and allowed to go upon their own recognizance after they have sobered up, the desk sergeants ought to know if they know anything about the man is not fool enough to come back."

"Hereafter some bill must be required for I am getting tired of this sort of business and I don't propose to stand it any longer."

This utterance caused the police to feel very indignant for they think that an injustice has been done them. Chief Hilton called attention to the fact that since the jail has been under quarantine for smallpox the drunks brought in have been locked in the "black hole" under the station until they sobered up, but it was not a fit place to keep a man imprisoned in and to send him to the county jail until his trial came off would entail an expense of at least \$5. In view of the fact that for the first time the drunks are discharged, the police considered it folly to send a man to the county jail under the circumstances. Chief Hilton also denies the authority of the police judges to interfere with or criticise the action of the desk sergeants who, as bail commissioners, are under \$2,500 bonds, and they say that the court has no jurisdiction over prisoners until a complaint has been filed.

DIRECTORS' MEETING.

Utah Salt Palace Association to Select a Manager.

The directors of the Utah Salt Palace association held a meeting at 4 o'clock this afternoon to consider the policy of the company for the ensuing season. It is also on the cards that a manager will be named at the meeting, but upon this matter the directors who were approached this afternoon were silent and stated that if any appointment was made, that the name of the gentleman selected would not be made public until after he had signed a contract with the company.

ELOPERS CAUGHT.

Joe Tittlebaum and Leah Robinson Arrested in Ogden This Morning.

As soon as the story of the elopement of Joe Tittlebaum and Leah Robinson became known this morning, Sheriff Naylor dispatched one of his deputies out to the home of the girl's father to get a description of the runaway pair; and at the same time had Rabbi Robinson come up town and swear to a complaint, charging Tittlebaum with petit larceny, as it was remembered that \$25 was taken by the couple. As soon as the officers obtained the necessary description the Ogden chief of police was called up and told to keep a lookout for the parties and arrest them if possible. A short time afterwards a message was received at the sheriff's office to the effect that the lovers had been taken in by Ogden officers. Sheriff Naylor, who went to Provo this morning with an insane patient, came back on the noon train, and was met at the depot by one of his deputies, who handed him the warrant of arrest for

Tittlebaum, whereupon Mr. Naylor proceeded on to the Junction City to bring back the elopers.

He had not arrived up to the time of the "News" going to press, but the Ogden police feel sure they have the right parties and it is reasonably certain that they will be brought back to this city tonight.

NEW UNIVERSITY BUILDINGS

Board of Regents Meet This Afternoon to Take Steps.

The board of regents of the University held a special meeting at the Deseret National Bank at 2 o'clock this afternoon. It was for the purpose of considering the steps necessary for the immediate erection of the two new buildings which were provided for by the Legislature just adjourned. A bill was passed granting to the University \$57,000 for the erection of a school of mines building, and \$10,000 for the erection and equipment of a machine shop. The two new buildings will be erected to once and ready for occupancy next September. The mines building will occupy the position next to the library building, leaving the same relation to it as the library building does to the physical. The machine shops will be erected near the physical building. The question was referred to the building committee and a report with recommendation will be made at a meeting to be called in the near future.

The work done by the committee in charge of the making of a road on the western boundary line was approved, and a letter to the city council asking from the wreck of the old road under the same conditions as other city roads are taken, was drafted.

EVENT CELEBRATED.

Pleasant Time in the Eleventh Ward Hall Last Evening.

The Eleventh ward Relief Society celebrated the fifty-ninth anniversary of the Relief Society in the ward hall Monday evening, the 15th, when the following program was rendered:

Selection Choir
Prayer Chas. Livingston
Solo Laura Madsen
Reading Alexander McMaster
Duet Olive Cushing and Alice Wickens
Recitation Emma Felt
Solo Ethel Allen
Soprano solo Nellie Penrose
Sketch of Society work Maria Hildgood
Recitation John Knight
Solo Sperry Lawson
Recitation Josie Morris
Song Harry Hulbert
Remarks Bishop Morris
Benediction Isaac Stairs

WHEELS IN THE ARMY.

Lieutenant Hobson, Captain Sigbsy and General Grant are Riders.

Perhaps no class of people value the modern bicycle to a greater degree than do the officers (and their wives and daughters) of Uncle Sam's army. At every army post where the roads in the surrounding county are rideable, the bi-

FOR CHILDREN

Nothing that comes in a bottle, is more important for children than Scott's emulsion of cod-liver oil.

And "important" means that it keeps them in even health. Whenever they show the least disturbance of even balance of health, it promptly restores them.

It is to be used as a food, whenever their usual food does not quite answer the purpose of food.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

GARDNER DAILY STORE NEWS.

Of all the things for man and boy that are going out of this store for spring wear, Probably Shirts are going the fastest— That's because you know this shirt store so well— And want to get first choice of the new things— There was another new lot since a couple of days ago— \$1.00 \$1.25 and \$1.50 grades, And we assure you some very swell things in the lots—

The colors run pinks, blues and lavenders— Of course they are all for white collars and cuffs to match— Boys' shirts run same styles, 50c—75c—\$1.00

ONE PRICE J. P. GARDNER, 136 and 138 Main.

cycle is an important adjunct to the pleasure and utility of both men and women. The prairies of Nebraska and Dakota, and over the more mountainous districts of Montana and Idaho, afford excellent opportunities for wheeling, and the average wearer of brass buttons, as well as the ladies of the post, are skilled and accomplished riders. Long before the bicycle was considered as a probable factor in warfare, it had become a popular vehicle as a means of relieving the monotony of army post life, and today in our new dependencies—the Philippine Islands, Cuba, Porto Rico, and even in Guam, the wheel is looked upon as a well-nigh indispensable companion by officers. Lieut. Hobson is a clever and enthusiastic wheelman, although in the navy his opportunities for riding are not as frequent as those enjoyed by the army officer. General Wood is also a wheelman, and resorts to his bicycle frequently, both in the transaction of official business and for recreative purposes. General Fred Grant is also a rider, and it will be recalled that one of the first objects of interest in receiving from the wreck of the Maine was the Columbia bicycle of Captain Sigbsy. In fact, about the only distinguished wearer of Uncle Sam's blue and gold who has not mastered the trick of balancing a wheel is Admiral Dewey, and the hero of Manila Bay says the only reason he does not ride is because he fears that it is a bit too late in life to teach his sea legs new stunts.

When children have earache, stuff a piece of cotton with BALLARD'S SNOW LINIMENT, and place it in the ear. It will stop the pain quickly. Price, 25 and 50 cents. Z. C. M. I. Drug Dept.

BOHN. MERRILL.—March 19th. To Mr. and Mrs. Edward Merrill, 1171 First St., a girl.

DIED. KIMBALL.—At Grouse Creek, March 11th, 1901, Martha Isadora Kimball, wife of Samuel H. Kimball, and daughter of Joseph S. Scofield and Clara Terry. Deceased was born in Salt Lake, June 2nd, 1852. Salt Lake Herald, please copy.

THOMSON.—In Salt Lake City, March 18th, of paralysis, Ann H. Thomson in the seventy-sixth year of her age. Funeral from Sixth ward mortuary house tomorrow (Wednesday), 2nd, 2 p. m. Friends are kindly invited.

ALMY, WYOMING. Terrific Explosion of Gas in Mine No. 7—No Casualties.

Almy, Wyoming, March 16.—A terrific explosion of gas occurred at mine No. 7, at Red Canyon about seven miles north of this city at eleven o'clock on Thursday night. The force of the shock blew all the stoppings out, leaving the entire coal deposit in that vicinity exposed to the ravages of fire, which, if not checked may soon get entirely beyond control.

For the benefit of those not familiar with mine working, it may be stated that "stoppings" are walls of masonry built in certain passages to seal up a portion of the mine where there is fire, in order to smother the fire and keep it from spreading. These barriers being removed by the explosion last night, the fire gained rapidly, and another explosion occurred at 7 o'clock this morning which shook the hills.

As the accumulation of gas is very rapid, other explosions are likely to follow. People should be warned to keep at a long distance from the openings of that mine. It is also dangerous to walk over portions of the ground in that locality, where in places the crust of earth is very thin, and fire beneath. A short time ago a cow, walking along, broke through one of those thin places and was roasted alive in a cavern of fire forty feet below.

This mine has not been working the past year, and so far as known at present no lives were lost.—Wyoming Press, Evanston.
