LOCAL AND OTHER MATTERS.

THEATRE.—This evening will be presented, with new music, and carefully arranged scenes, situations and effects, J. S. Jones' nautical drama of Captain Kyd, or, the Wizard of the Sea.

AFRAID OF DEPORTMENT.—The New York Tribune, commenting upon the rumored proposition to give Utah a state organization, on condition of the abolishment of polygamy in future, thinks it would be bad policy, as the "Mormons" would not be crushed thereby, but would be in the majority, and would materially color State policy. The Tribune very foolishly remarks, "He who has the power of the United States to abdicate its authority over a Territory where nothing but the Federal protection saves the people from an odious form of despotism, and who is simply means that the United States prefer to exercise unconstitutional control over a Territory, and keep the people in bondage, lest they should erect a despotism under a State government. A ridiculous thing to suppose of Utah, which has been more self-sustaining, self-governing, peaceable and orderly, and more free from crime than any other Territory which the United States ever had."

VINDICATING "OUR VIRTUE."—The New York World says that if the "Mormons" are punished, the burden of their punishment will fall upon the wives and children; that if the husbands are looked upon the wives and children will certainly suffer, if they do not starve; that their misery will be chargeable upon the government which has prosecuted them; that "of course our virtue ought to be vindicated, but ought we to vindicate it at the expense of a whole community?" "O certainly, go ahead and vindicate your virtue—it really needs vindication," which nobody will deny. Never mind what becomes of the "whole community"—what is it compared with the necessity of vindicating your precious virtue?

A DIFFICULT PROBLEM.—The Washington correspondent of the Cincinnati Times says—

The President and his Cabinet have acknowledged the Mormon question to be one of the most difficult problems they have been called upon to solve since the close of the war. A policy of moderation will be adopted; while crime will be punished, wherever proved, in the United States Courts of Utah, and a plurality of wives in the future will be strictly forbidden and suppressed, and punished wherever attempted.

If they had asked us, we could have told the President and his Cabinet that the "Mormon question" was one of the most difficult problems that they could ever presume to solve. And more than that, we can tell them some of the reasons why it is such a difficult problem. "Mormonism" is truth, the gospel of Jesus Christ, the work of God; and when President Grant and his Cabinet essay to regard and construe this work of error, wickedness, and crime and to cast about for a way to punish it as such, whether by legislation or by disregarding the law, or by enacting special laws or decrees to fit the case, they begin to fight against God and truth and righteousness, to harass and oppress and persecute conscientious, God-fearing, innocent men and women, and no men ever did enter upon that course without sooner or later finding out that they had engaged in the solution of the most difficult of all problems, and one at which they would ultimately make neither head nor tail. That's where the mystery lies.

NORTH CAROLINA.—A letter from Mr. Wm. Hill, of Toms Creek, Surry Co., North Carolina, informs us that there are a number of Latter-day Saints in that vicinity, organized as the "Fruit Mountain Branch," who are anxious to have a visit from any Elders who may be traveling anywhere in that vicinity. Since Elders Church and Owen Dix left there they have had no visit from Valley Elders, and they greatly feel the need of visits and teaching. Will not some of the Elders who have recently been called on missions to the States, take this address and make it their business to visit that region? Bro. Hill is clerk of the Branch, but he represents it as a remnant, and since the emigration, in rather a scattered condition and the members poor. An energetic Elder or Elders can without doubt do good there.

COURTS.—The Third District Court met to-day, and adjourned until Monday. In the Second District Court, the examination of the last witness for the defense in the Eureka case commenced this afternoon.

RETURNED.—Col. T. F. Akers is once more in town, having returned from New York with his family. The Colonel's health is not quite so good as when he left here, but he hopes that the mountain air will have a restorative effect upon it. We trust his hopes will be fully realized, and that himself and family will find their residence in every respect profitable.

GENERAL AUGUR.—The merging of the Department of the Platte into that of the Missouri, which seemed to mean the complete reabsorption into the Kansas mail-storm, was not a matter to which either Nebraska, Omaha or Council Bluffs could be indifferent, and it is not surprising that it produced in the minds of speculation as to the scope and consequence of such a change. The thing, bad as it is, is not as bad as it looked, and, at the worst, can do us no great harm. The fact that it is to remove Gen. Augur from among us has caused universal expressions of regret. This capable and genial officer has been with us so long, and has borne himself so admirably, not only in the discharge of his public duties, but also in every other relation, that there is but one feeling over his departure. In every way in which it was possible for him to lead co-operation, he must have been born under a propitious star. The first three months, he must have been born under a propitious star. The would-be seducer in this country is a marked man, as the villain ought to be in every country. No sooner does he step into this city or any other Mormon settlement than the police are upon his track, watching his every move with the stealth of bloodhounds. If he is once caught violating the chastity of a Mormon woman, or is known to have done so, there is no mercy for him. Mormon public opinion, which is the common law, thinks no more of killing a man under such circumstances than it does in killing a snake. The marked victim is shot down or assassinated at sight, no cry for mercy ever escaping from his lips. His lifeless form lies mangled on the roadside until

A BAD COUNTRY FOR GAY DECEIVERS.

Utah is not a healthy country for gay deceivers, and if any man from the outside world, priding himself upon his conquests with women, wants to have his skill in this line tested, he will find a splendid opening among the fair maids of Zion. If somebody doesn't make it very tropical for him within the first three months, he must have been born under a propitious star. The would-be seducer in this country is a marked man, as the villain ought to be in every country. No sooner does he step into this city or any other Mormon settlement than the police are upon his track, watching his every move with the stealth of bloodhounds. the authorities carry it away, pass a sort of an inquest and consign it to the morgue. Correspondent of San Francisco Chronicle.

This correspondent is rather sensational. He must have a vivid imagination. It is to be hoped that he does not speak from experience. Highly colored descriptions of Utah matters seem to be the rage just now.

Special Notices.

TOWNSEND HOUSE.—The improvements made lately in this popular Hotel multiply its convenience and add greatly to the comfort of the guests. Travelers who have visited the City before speak highly of the change. There is a communication established between every room of the house and the office by means of the electric system which has been introduced. The introduction of gas also is a new and gratifying feature of the establishment. The new spacious office, with the reading room adjoining, which is being fitted up, will make the Townsend House a convenient Exchange for business men, and in the absence of exciting political discussions, for the discussion of raising projects.

CHANGE OF FIRM.—Messrs A. Hopper & R. E. Zabriskie, under the title of A. Hopper & Co., have acquired considerable reputation for their Wagon and Carriage work, not only building vehicles, but repairing them in all their parts, and making the trimming and painting a specialty. Captain Zabriskie has now transferred his share of the business to Mr. Hopper, and the latter will conduct the business as heretofore, on the old premises and under the firm's old title, with the exception of the Co. Mr. Hopper's title in this business is so widely known and thoroughly established, that it would be no flattery to use the strongest words of praise of his merits.

THOSE MONITOR COOKING STOVES are used by every body who uses the stove. No higher encomium can be bestowed upon a Cooking Stove than to say that every housewife who uses it speaks in its praise and recommends it to her neighbors and friends. This is the case with the MONITOR. Those who use it are delighted with it and would not exchange it for any other. It is no small credit to a Stove to obtain the First Premium—Gold Medal—in a city like Cincinnati, no famous for its Stoves. This was awarded to the MONITOR.

Sudden Changes in the Weather are productive of Thoracic Diseases, Coughs and Colds. There is no more effective relief to be found, than in the use of "Brown's Bronchial Troch.".

A GREAT MEDICAL DISCOVERY! MILLIONS BEAR TESTIMONY TO THE WONDERFUL CURATIVE EFFECTS OF **WALKER'S PINEAPPLE BITTERS.**

Which are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER, and a LIVER-REGULATOR. A perfect Blood-purifier, and a powerful invigorator of the system, carrying off all poisons from the blood, and restoring it to a healthy condition. No person can take these Bitters according to directions and remain unwell, provided their system is not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing all the peculiar properties of the GREAT BLOOD PURIFIER, and a LIVER-REGULATOR. A perfect Blood-purifier, and a powerful invigorator of the system, carrying off all poisons from the blood, and restoring it to a healthy condition. No person can take these Bitters according to directions and remain unwell, provided their system is not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Bitters have no equal.

For Indigestion and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Biliousness, Hemorrhoids and Intermittent Fevers, Diseases of the Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the shoulders, Cough, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia.

They invigorate the Stomach and stimulate the morbid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

Cleanse the Vitiated Blood wherever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.
