MINING, BUSINESS AND STOCKS

SILVER DIPPER ADVERTISEMENT

Its Wording and Publicity Again The Talk of Broker's Row Today.

THE CENSURE RESOLUTION.

J. J. Bamberger, Representative of the O. F. Jonnason Company, Makes A Statement,

The resolution passed at the morning session of the Sait Lake Stock & Mining exchange yesterday, criticising a New York brokerage firm, O. F. Jonnason & company, for the manner in which a certain advertisement relating to the West Columbus Copper company, about to be launched to develop the Silver Dipper and other lode mining claims at Aita, was worded, was again the talk of Second South street today. Some brokers who were not present at the time the resolution was presented, took exceptions to the action of Presi dent Pollock and expressed the belief that he had used undue haste in the matter; some even going so far as to say that the resolution did not come up in the proper form and therefore an injustice had been done J. J. Ham-berger, the representative of the Jonnason firm who is now in the city. ers, however contend strongly that the executive official of the exchange had not gone beyond the bounds of discre-

MR, BAMBERGER'S STATEMENT. Mr Bamberger this afternoon handed the "News" the following statement concerning his side of the controversy:

"I was very much surprised at the action taken by the president and members of the board and members of the Salt Lake Mining exchange at a meet ing held yesterday, as I cannot under-stand at this time why any such action was necessary. As I understand the situation, the exchange is an incorpor ated body. That being so, it was to be regarded as a whole. It seems that considerable criticism has been aroused regarding an advertisement of my firm which appeared in yesterday's pa-pers. The line which called forth this protest from a minority of the members

of the exchange reads as follows: 'We especially call the investing public's attention to the fact that any member of the Salt Lake Stock & Mining exchange will be glad to execute your orders for the purchase of this security, namely, West Columbus Cop-per company, and will undoubtedly recimend and advise the purchase of this stock.

'It appears to me that in this line I particularly state and mention that any member will be giad to execute a buying order in this security. I do not speak of the exchange as an incorporated body, or as a collective whole, but simply say that any member, which must be construed as any individual member, will be pleased to execute a buying order in the stock of the West Columbus Copper company. It has been my experience in the past that a le-gitlmate commission stockbroker is in business for the purpose of executing legitimate commission orders, and I do not believe that any member of this exchange would refuse to execute an open order either for the purchase or sale of West Columbus Copper company stock, although this stock is not listed upon the Salt Lake Stock and Mining

"It is a well known fact that any member of the New York Stock or change will execute an order upon the New York curb, or in Boston, Pittsburg. Philadelphia or the Chicago markets at regular commissions, although the order may not be in a security that is quoted upon the New York Stock ex change. Therefore, I cannot see why members of the Salt Lake Stock and Mining exchange, a much smaller or ganization, should object to execute ganization, should object to execute a commission order in the security we are advertising. In justification of the last portion of the line of my advertising I will say that I have never yet ught a share of stock for a custome unless I could consistently advise Its purchase, and necessarily any broker who received a buying order in the stock of the West Columbus Copper company and was asked as to what h thought of this stock at its present sell. ing price of 15 cents a share must answer, in order to be true to his own and his customer's interests, that as long as he was executing buying orders in the security he could not do other-wise than recommend and advise the purchase of this stock

Now as to the relative position of this property I will say, that the map published in the morning papers in my advertisement was furnished to us by a competent engineer, who stated that the location of this ground is about 1,800 feet from the end liens of the Columbus Consolldated mine and not a mile and a half away, as reported in your issue of last evening. However, the location matters little, as the fact that it is located either near or away from any big property would not affect

"Your story of host evening makes a great point on the fact that this company's articles of incorporation were not on file in the county clerk's office. There are 44 states where companies can be incorporated, besides several forelan countries. We are incorporating under the laws of Arlzena and this incorporation is being done through our New York office, as at the present time we are simply issuing these receipts for subscriptions, as the company is having sized engraved certificates prepared, such as are required to be a good delivery upon the various eastern ex-changes. The firm of O. F. Jonasson & past and present methods of doing busi-

ELECTRIC LIGHTS FOR CAMP.

Well Known Engineer on a Secret Mis-

sion to El Dorado Canyon

Searchlight, Nev., June 22.-The man-

ner in which the management of the Cyrus Noble mine has overcome the

disastrous effects of the late San Fran-

cisco harror is very commendable, to

say the least. Shortly before the "quake," orders were given for an elec-

tric plant, pumping outfit and a lot of

expensive machinery, necessary to

facilitate development work. The

money to pay for these necessities was

to come out of the sale of treasury stock. With the advent of the trem-

blor, the San Francisco Stock exchange went out of commission, and the stock

market was ruined.
The officers of the company redou-

bled their energies and began to ex-tricate themselves from their dilemma.

24 hours daily, pounding the preclous metal out of the ore, with the result

that the indebtedness has been paid, the mine put on an active working and paying basis, and it now ranks as one of the best mines in the Search-

The Capitol group of mines in El Doado canyon have been bonded from Menoghan and Murphy. These mines lave produced many thousands of dolars in the early days when mining was conducted under the most primitive-methods. Active work will be started at once upon these holdings to ascertain the amount of ore new expessed in President A. J. Peak of the Sphinx

belonging to that company. A tunnel will be started at once on the south size of the nill to intercept the tunnel now run from the north. It is expected that both tunnels will meet near the contact of the ledges crosswise.

Speculation has been rife in Search-light and El Dorado for the past few days as to the mission of Thomas E. Gahagan, the celebrated mining engi-

neer, who has been for several days secretly engaged in El Dorado. thority, that a marvelous strike of exceedingly rich sulphide ore has been made in the Eagle group in El Dorado canyon, and is the cause of Mr. Gahagan's visit. It is understood that this property has been thoroughly experted by Mr. Gahagan and has been found to be in fact a real bonanza, and that the capitalists in whose employ this engineer is working have succeeded in onsummating the purchase of the entire group, and will at once proceed with thorough active development. Notwith-standing the efforts to keep the matter quiet, it is definitely known through reliable sources that the assays from the sampling made by Mr. Gabagan show enormous values, and the ledges are strong, well defined fissures. Backed by the heavy financial interests represented by Walter C. Cox of Los Angeles and associates, this property will be opened up in a thorough manner, and the operations will mark a new era in the preductions of El Dorado canyou, which has long been known and recognized as one of the great mining districts of southern Nevada. Forming the east extension of the Pompeli mine, lie the three claims that

comprise the holdings of the Le Roy Mining company, designated as Black Hawk Nos. 1, 2 and 3. During the past year a considerable amount of work as been done on the property with very satisfactory results. During the month the original bond has been taken up by Messrs, C. H. White and W Wilson, and the sum of \$15,000 paid. he main shaft now down to water 275 feet, is to be straightened, enrged and timbered from top to bot-an. The present 15-horsepower helst ill be supplanted by one of 25-horse

stalled at once to facilitate sinking. MILL FOR JUPITER.

Park City Property is to be Equipped With One at Once.

The Jupiter, in Thayne's canyon, is at Stock Broker. Tel. Bell 182. 161 S. Main St. present, without exaggeration in a fair way to become a big mine. Ore of a high grade, and lots of it, says the Park Record, is being taken out right along, and there is a shipment of sevhauling to the samplers. Ore has been opened up in several places, and in fact it seems to be all ore. The main question now is to get the mine it such shape that the material already is Leave Sait Lake 8.a. m. Returning leave Upper Falls 3:10 p. m. and 7:20. p. m. Trout and chicken dinner at Upper Falls. Good fishing, Everybody. sight can be readily removed and ship-

So great is the faith of the management in the property that they have gone to the expense of buying a mili for the property, and the machinery from the old Loring mill, formerly in | CITY TICKET OFFICE 201 Main St.

operation in Woodside canyon just be low the King, is being taken out and prepared for removal to the Jupiter as fast as possible.

Considerable money has been expended on this property in years gone by, and it now looks as though those interested were going to get their capi-tal back, many times manifolded. Man-ager Lawrence is at present devoting most of his time to getting things in readiness for the mill, looking after the removal of the machinery, etc., but at the same time work at the mine goes steadily on, and ore is being extracted

The boilers for the new steam plant t the Nelson property in the Elkhorn istrict have been taken over, and with ne remainder of the plant's machinery e installed in the near future. Work at the Uintah-Treasure Hill property is going on steadily, and the

ground is opening up in a very en-couraging manner. Six men are em-ployed and in the near future interest-ing news is expected from this section of country.

It is a little early to be looking for startling news from the St. Louis-Magnolia, but work is going steadily ahead and the management is not saying

much. Every one in camp, however, is nore or less acquainted with the section of country in which this property is lo-cated, and no one doubts that another big bonanza is to be added to the camp's ever-growing list, when the development work has been carried on for a few months.

Ore shipments: Daly West, 1,140,000; Daly Judge, 1,078,000; Daly Judge middlings, 575,000; Kearns Keith, 219,000; Silver King, 1,148,460; Little Bell, 458,000; Jupiter, 49,000, Total, 4,667,460 rounds.

BOOSTS FOR ELY.

State Engineer of Nevada Greatly Impressed With Copper Camp.

State Engineer Henry Thurtell, state engineer of Nevada, has been in Ely for the past two weeks arranging water aproportations for power plants, syamding plants and for other mining purposes in the great copper district. He says that the town of Ely is one of the livelest in the state and that great preparations for the develop-ment of the copper mines are being nade. He also states that the stories that have been given out regarding the immense deposits of copper have not been over estimated and that the camp will undoubtedly become one of the greatest copper producing districts in the entire world.

INVOLVES MINING PROPERTY. Decision Handed Down by New York Supreme Court.

Seattle, Wash., June 28.—Frederick W. Wilman's, one of the best known ning men in the Pacific northwest. vesterday received telegraphic advices from New York to the effect that the supreme court of that state has handed down a decision in the famous case involving the mining property known as the Pride of the Mountains, located in the Monte Cristo district, Snohomish county, which has been before the courts for 14 years. The decision of court finds for the plaintiffs, of which Mr. Wilmans is one, in the sum of \$175,000. The Pride of the Mountains ne was sold by the late Hiram G. Bond, Wilman's brothers and Edward Blewett, to Colgate Hoyt and Charles L. Colby, who were the agents of John . Rockefeller, and the suit was cought against Colby as such agent. The consideration was to be \$350,000, of which \$175,000 was paid in cash and the balance was to be paid out of the proceeds of the mine or by the purchasers: in the event of the \$175,000 remaining unpaid, a certain period, the property was to revert to the original owners,

intiffs in the suit, More than 150,000 tons of ore, which yielded returns of from \$10 to \$20 per ton, in gold, silver, copper and arsenic, were taken out.

The Rockefeller interests were sented by W. I. Guthrie, the eminent corporation lawyer, while the plaintiffs were represented by Andrew F. Burleigh, formerly of Seattle, George H. Harriman, a cousin of E. H. Harriman, and J. Markham Marshall.

WILL CLOSE SMELTER.

Butte, Mont., June 28.—Announcement is made by the company operating the properties controlled by the Butte Coaltion company, that the Montana Ore Purchasing company's smelter will be closed down early in July and the ores from the mines now treated there will be sent to the Washoe works at Ana-

The Montana Ore Purchasing company's smelter, in conjunction with the Basin concentrator operated by F. Augustus Heinze under lease, about 1,200 tons a day and employes at the Montana Purchasing company's El Dorado has ordered machinery to begin work on the Silver Sphinx mine company.

BEARS UNABLE TO CONTROL STOCKS

Were Under Pressure at the First But Support Soon Came Out.

READING OBJECT OF ATTACK.

Shorts Routed and They Bid Up Market Over Yesterday's

New York, June 28.-Stocks continued nder pressure in the opening dealings eday. First sales of Amalgamated Copper were of 3,200 shares at 95%, and 96 ompared with 96% last night and 7,000 shares of United States Steel changed hands at a decline of 1/4 while the preferred ran off easily a point. Anaconda broke 4%, Northern Pacific lost 2%, Missouri Pacific P4, Reading and Smelting a point and American Car and Interborough Metropolitan large fractions. Feverish fluctuations prevailed until

Feverish fluctuations prevailed until the substantial support that the market was receiving began to make itself felt. This having orought the recognized leaders up to yesterday's closing or beyond. St. Paul. Amalgamated Copper. Smelling and Lead rose a point care. Bear operators made another effort to break the market by attacking Reading, which after recovering to 125, was forced down to 1234. Reading then recovered fully and the market at 11 o'clock was quiet but nervous, Great Northern preferred decilied 3, Interborough Metropolitan preferred 24, Interborough Metropolitan preferred 25, Interborough Metropolitan gained 1. Chicago, St. Paul. Minneapolis & Omaha prefered dropped 13.

The early raily carried Anaconda 14, over last night. With the establishment of the higher level there was a pouring out of stocks. On the break Great Northern preferred lost 4. Northern Pacific 36, Reading, 24, and Missouri Pacific and

of stecks, on the break Great Northern preferred lost 4. Northern Pacific 3%, Reading, 2%, and Missouri Pacific 3%, Reading, 2%, and Missouri Pacific and Delaware & Hudson 2. United States Steel preferred fell 1%, to par, St. Paul 1%, Colorado Fuel 1%, and New York Central 1½, Many stocks lost a point, Chicago & St. Paul, Minneapolis & Omaha fell h. Rallies on short covering reached 2½ in Great Northern preferred and 1%, to 2 in St. Paul, Reading and Northern Pacific. The recovery placed a few leaders above last night again, but the demand ran down again to nothing.

night again, but the demand ran down again to nothing.

Boulds were irregular at noon.

Something of a rout occurred among the shorts and they bid prices up one after another until the market had risen substantially over yesterday's closing. The merning losses of i to 3 points were made up and the recovery was extended in several stocks—that have recently been favorites for bear attacks. The market again became dull when the urgent demand had been satisfied. Smelling improved 2, Anaconda 14, St. Paul. Amalgamated Copper and Interborough Metropolitan 14, Union Pacific 15, and Illinois Central and Brooklyn Transit 1. Nashville, Chattanooga & St. Louis fell off 3 and lowa Central 33.

Moderate realizing was indulged in at intervals at noon causing a good deal of irregularity but the market invariably went higher when the pressure relaxed. The list of advances was extensive but lacked uniformity, some being up a fraction and others several points. Anaconda rose 45, Interborough Metropolitan 2, Union Pacific 24, St. Paul. Amalgamated Copper and Central of New Jersey 2, Northern Pacific 11, and L. & N. and Colorado Fuel 1.

BUSINESS NOTES.

The passage of the bill removing th internal revenue tax from denaturized alcohol, mention of which was made by the "News" sometime ago, promises have a healthy effect on the sugar in-dustry. The utilization of molasses, which has hitherto been wasted, is receiving the attention of sugar people everywhere. Manager Cutler of the Utah, Idaho, and Western Idaho companies says the question is being care fully looked into and whether each company will undertake the process of manufacturing alcohol, or whether ar independent company will be formed at some central place, so that all fac-tories can ship their molasses to it, for the first matter which will be decided Vast quantities of molasses are accumulated in the factories of Utah, Idah and Colorado, and without doubt the manufacture of alcohol in the west will in the near future rise into an import-

The local sugar situation remains as it has done for sometime past. The Western refinery and the Hawailan planters' association are still cutting prices on the coast, but the freight ratserves as a protection for the loc

CHERRY CREEK NEVADA NORTHERN RAILWAY
