# MINING, BUSINESS AND STOCKS

## GOLD SPRINGS IS **BIG GOLD COUNTRY**

Local Crowd Has Two Miles of Rich Yellow Metal Rock.

NEW STRIKES MADE DAILY.

Ledge Runs Northwest and Southeast For Miles-Two Hundred Feet Wide in Places.

A few more "Charley Shorts" in this state would work wonders. There is only one, but he's working day and night to make this state a big gold producer. Others have run its lead and silver and iron records up to points where the whole world has sat up and taken notice and C. A. Short of Gold Springs, Iron county, Utah, is going to Springs, Iron county, Utah, is going to have another record for the world to talk about—and it will be Utah's gold production. Mr. Short is in this city to-day completing incorporation details of the Wild Irish Gold Mining company. This is to be incorporated under the laws of Nevada for 750,006 shares with a par value of St. each. E. J. Kearns is president: F. R. Davis, vice president: H. R. Elliott, secretary and treasurer, and these with C. A. Short. H. A. Kearns, S. P. Moore an's W. W. Barton will constitute the directorate of ton will constitute the directorate of the new company.

WONDERFLU SHOWING.

WONDERFLU SHOWING.

This crowd has taken over the Amethyst and Wild Irish groups consisting of five claims and as soon as details are completed work will be started upon the properties and a mill erected. Mr. Elliott is just back from California and it will be probably 30 days before actual development can be started, although the men whose names are mentioned do things without delay or hesitation. They are heavily interested in Gold Springs and their past performances leave nothing to be said on this point. The Intermountain Mining, Milling and Reduction company were the owners of the Wild Irish group but invernal troubles were a handicap to the property although it is a good one: good from the very grass roots. The five claims in the group cover 6,000 feet of ledge and three shafts are to be sunk upon the ledge running through the property. Two shafts will be sunk at the north end and the third shaft in the south end. Through 6,000 feet the ledge can be traced and in places it is 200 feet wide samples have been taken that show average values of \$5 per ton.

TWO MILES OF MINES.

Mr. Short says Gold Springs is go-TWO MILES OF MINES.

Mr. Short says Gold Springs is going to be one of the best gold camps in the United States, and from the eagerness with which he and associates the United States, and from the eager ness with which he and associates are gobbling everything up show this confidence to he real. Those acquainted with Gold Springs have found that an immense ledge carrying all sorts of gold rock runs through the entire district. Mr. Short and associates have taken up ground until they now have 23 claims on this ledge, or in other words they have covered 10,500 feet of the ledge. The Uvada group, consiting of four claims, with two to be added in a short time, represents 2,100 feet; the Jennile, with nine claims, has 2,000 feet of the ledge; the Jennile Extension, five claims, has 2,500 feet; and the Wild Irish group of five claims adds 6,000 feet to the total length. This 10,500 feet is not the total length of the claims as they lie north and of the claims as they lie north and south of each other; it is the length of the ledge covered by them. Large numbers of excellent ledges are scattered throughout the properties; all held by Mr. Short and other plucky Utahus.

BIG STRIKES COMMON. While development has been on for a year at various points along this ledge, the Short-Davis-Elliott crowd did not make any hurrah over what they found, preferring to keep quiet and take in more of the good things lying around on all sides of their constantly growing holdings. The Jenstantly growing holdings. The Jenstantly growing holdings. and take in more of the good things lying around on all sides of their constantly growing holdings. The Jennie has a shaft with numerous drifts and in every point where work is being conducted rich ore is found and being extracted. In Gold Springs gulch, Il feet of ore was opened at grass roots just a few days ago. As assays have not been obtained, the values contained in this rock are not known, but as they are identical with the \$5 and \$5 ore just found at the Jennie Extension's surface, it is certain good values are to be received from the rock sticking out in the air. The Jennie mill is proving it has a 40-ton per day capacity, aithough it was not expected it would run over 30 tons. Amalgamation is going ahead in good shape and by the last of the month bullion making will have been started. Furnaces and other equipment are away behind time now, but it is expected all needed machinery will reach the mine within a few days. machinery will reach the mine within

TOWN IS GROWING.

A year ago Messrs. Short and Elliott had two cabins on the present site of the town of Gold Springs. Today there are 27 frame buildings and tents and 40 men, with their families are living on the district. are 27 frame buildings and tents and 46 men, with their families are living on the town site. Three cars of lumber are on their way to Gold Springs and they will be followed by more. The surrounding country offers every requisite for an ideal camp. Timber is thick and while Nevada stocks are selling high, the mines are hauling the most common timbers are far as far inst common timbers pr far as files. The mines in Gold springs need nly to send a couple of men and teams ut and in a day hundreds of feet of es, from one toot to two feet in diam-or can be brought into the mine build-res. To the east of the mines and wastic are located three big springs wastic are located three big springs the nn Inexhaustible supply of clear nee. One spring is already supply the mine and arrangements are begin made to pipe water for domestic use if the town from a second spring. The whole district is now absolutely clear of itigation or trouble of any kind and those acquainted with conditions there are confident that the camp will soon back up everything they have said about it or premised for it. Gold Springs is 14 miles from Modena on the Sait Lake Route.

FORENOON SALES LIGHT.

New Low Record Reached-\$5,000 Total is Unusual Mark.

"Ooh!" This sufficed to express the feelings of local brokers this morning as they watched stock after stock called

BROWN PALACE STRIKE.

Ledge of \$200 Stuff Uncovered in Trench Four Feet Deep.

White local talent is not heavily interested in the Brown Palace property in Rosebud the close proximity of other mines owned and being operated by Salt Lakers makes any development in the Brown Palace 4 most vital bit of news in this state. Hence the news of a big strike in the Brown Palace will be halled with delight throughout Utah, and especially in this city. On the apex of the ridge of Brown Palace No. I, a ledge has just been uncovered in a trench four feet deep. The trench has been run for a distance of 20 feet. A sample taken across six feet returned values of \$200 per ton with silver predominating. Captain Case, who has charge of development, intends to have dominating. Captain Case, who has charge of development, intends to have a ton of the rock sampled to get a good average value of the stuff constituting

The ledge is to be tapped at a depth ridge. A 120-feet tunnel is new in close proximity to the gold vein paralleling the mammoth silver ledge of the apex. The latter will be cut when the tunnel is advanced 125 feet further. Besides the cross-cut tunnel another tunnel is being driven into the hill from the west side and a shaft sunk on the gold vein. A gang of 12 men is performing this work at the present time. L. A. Park, hurst, one of the principal owners of the Brown Palace is conferring with Capmain Case, and mapping out further plans for development of the newly discovered ore bodies of the property.

CASTORIA For Infants and Children. The Kind You Have Always Bought Bears the Chart Helitaker. SALT LAKERS' MINES O. K.

Luding and Bluestone Properties Promise to Add to Local Wealth.

Key Pett, a Yerington mine-maker, Key Peit, a Yerington mine-maker, has the following to say of two well known properties in that district. "The famous Ludwig mine is situated three quarters of a mile northwest of the Nevada Douglas and on a parallel vein formation. The vein is indicated, as on most of the other mines, by the heavy iron outcrep. The shaft is down 600 feet, and on the 500 level the ore body shows a width of 40 feet and carries values ranging from 5 to 9 per cent copper. The Ludwig was recently taken over by McCornick and associates of Salt Luke, who are to pay \$1,000,000 for it.

About one mile south of the Bluestone is situated the Spragg mine, re-cently taken over by Samuel Newhouse, the Salt Lake mining man. The shaft is now down about 400 feet and a large body of high-grade copper ore has been

RE-ELECTED OLD DIRECTORS.

Famous Copper Company of Lake Superior District Holds Annual Meeting. James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire, this afternoon: Boston wires: At the annual meeting of stockholders of the Franklin Mining Co, held today, the retiring directors were re-elected by 62,268 shares.

The Franklin Mining company was incorporated under the laws of Michigan in 1857 and is the oldest copper company operating in Lake Superior mining district. It owns a big property at Hancock, Houghton county, Michigan, and has the lodes of the Calumet & Hecla and Quincy mines. Its officers and directors are: Francis H. Raymond, president and director; Daniel I, Demmon, secretary, treasurer and director; J. B. Bennett, director; George H. Flint, director, and J. D. Hosling, director. Its principal place of business and backing are in Boston.

PARK CITY IS WONDERING.

Recent Developments Tend to Support Old "One-Mine-Camp" Prediction.

With the ease that imaginative, copy-shy scribes build railroads on paper; laying the tracks and furnishing immense tonnage in one bold tatto of their type-writers, they are now consolidating mines, while groups of mines. Park City is the proclaimed scene of action. There has been a prediction handed down from generation to generation for the last and only three generations in that camp which runs; "Some day this will be a one-mine camp." The old timers who have spant their lives in the district; finding mines and for lack of funds with which to develop them, selling them to richer concerns at a song are now saying, "Didn't I tell you so?"

These old-timers, gathered in their favorite haunts, point to the northwest saying, "Up yonder is the Silver King and the McGregor holdings—that is they were McGregor's—but now the whole territory is held by the Amalgamated Silver King Mines company." Then they point to the south saying, "Up there's the Daly-West, Daly and to the left the Ontario. The Bambergers hold all that. Right in between is the Daly-Judge. That may go into the last group and there you have just two groups!" They then proceed to tell you that the Keith-Kearns-Heinze syndicate can call a truce with the Bamberger crowd and thus a few men will control every mine of any importance in the district.

President David Keith and Thomas With the ease that imaginative,

the district. President David Keith and Thomas President David Keith and Thomas Kearns have left for the east and it is rumored they will meet with Heinze-Breen representatives to talk over matters relative to taking the latter into the Amalgamated Silver King Following this announcement is that J. E. Bamberger is coming west from New York about the first of next month. All this has set the gossip going. Time alone can tell what is on but that there are changes coming for Park City is believed by the most doubting.

CONCENTRATES.

Ernest L. Godbe has left for Pioche. He will be gone some time.

Fred. A. Flindt, a former Utahn now

operating in Yerington, left this city yesterday after a short visit here. J. P. Turner, superintendent of the Star Con., has left for Humboldt coun-ty, Nev., in obedience to a message re-ceived from men he set to prospecting several districts in that part of the

Chester L. Proebstel of Portland has been visiting Pioche. He says Pioche is attracting the attention of Portland capital. Mr. Proebstel journeyed to Pioche to Inspect the properties of the California-Pioche Con. company, a Portland concern.

George H. Dern, manager of the Con. Mercur, came back from camp Monday, and yesterday pulled out for King's River, north of Rosebud. Mr. Dern is figuring upon purchasing some proper-ty in that neck of the woods and took A. H. Brown with him to size up the country's offerings.

The annual meeting of the Pioche-Nevada Consolidated Mining company was held in this city last evening and the following board of directors and of-ficers was elected for the ensuing year: Frank L. Gardner, president: W. A. Wight, secretary and treasurer; B. M. Cornish, J. W. Burton, M. J. O'Meara and C. D. Rooklidge. and C. D. Rooklidge.

David Evans, formerly a Salt Lake David Evans, formerly a Salt Lake but now residing in Los Angeles, was in this city for the past several days. He visited mines, in which he is interested in the Newhouse and Timic regions, "Dave," as he is known around town, says he gets home-sick at times and the boys here hope he gets so home-sick some time he will hurry home, this time for good.

COLONIAL PREMIERS.

Presented With Freedom of City of London at the Guildhall.

London, April 16 .- The colonial prem iers were presented with the freedom of the city at the Guildhall this afternoon

the city at the Guildhall this afternoon and subsequently were entertained at luncheon by the lord mayor and the city corporation, Each of the visitors received letters-parent as a freeman, enclosed in a gold casket. The premiers drove to the Guildhall, Gen. Botha, the Transvan premier, as "The Henjamin of the Brotherhood," riding with Sir Wilfrid Laurier, the Canadian premier.

The luncheon at the Guildhall was attended also by Premier Campbell-Bannerman, the archivishop of Canterbury and other cabinet ministers. Felid Marshal Lord Roberts, who joked with Gen. Botha about their experiences on the veidt; many peets and members of the house of commons, and milliary and haval mon in uniforms were present besides a large number of prominent women.

The Boer flag, captured by the City Special Volunteers at Jacobsdal, which usually ornaments the banqueting hull, was removed on this occasion to as to not offend Gen. Botha and his party.

HOMESTAKE MINE FIRE.

Deadwood, S. D., April 15.—The fire in the Homestake mine, which has been raging for two weeks, is reported to-day to be quite beyond control. The rocks surrounding the flames are now so hot that it is almost impossible for men to get through the cave to fight the fire.

SUGAR STOCKS.

Have been growing in market value for the past six months. In that time the selling price of stock in both The Idaho Sugar Company and the Western Idaho Sugar Company has stendily advanced, and both companies have been put on a dividend paying basis. In our judgment the rise in value will continue. For this reason all who oan keep their stock should do so. If you cannot well hold your stock let us sell it for you. To those who wish to buy now is the best time to invest your money. A little Western Idaho Sugar stock can be bought at par; and some Idaho today at \$8.50 per share. The former pays 7 per cent and the latter 6 per cent per annum dividends on par (\$10 per share).

### STOCKS UNABLE TO HOLD GAINS

At Opening There Was a Good Demand for Union Pacific And Smelting.

MARKET NARROW AND SPOTTY

This Made it Vulnerable and Advances Were Soon Lost, Weakness Following Rally.

New York, April 17.—The opening deal-ings in stocks were quiet and prices were generally higher. There were a few scattering losses, however, and the high level of the first prices was not well held. Prices wavered somewhat before a sturdy rise began under the influence of a de mand for Union Pacific and Smelting. When the rest of the list began to respond notably the leaders were let down a trifle and the general advance haited. After wards the inquiry for stocks became persistent again and prices recovered. The market was narrow and spotty. Smelling recovered 2%, Union Pacific, Reading, Northern Pacific, Anaconda, Pactific Mall, Lead 1½ to 1½, Atchison, Great Northern preferred and Amalgamated L. A few minor stocks were heavy.

The narrowness of the market made it readily vulnerable to a very light selling movement. Gains faded away and prices feil below last night's level. Canadian Pacific lost 2, Missouri Pacific and North American I.

Bonds were dull and firm.

Although the usual midday dullness amounted to an aimost complete suspension of business, it did not prevent a further decline in spots, notably Union Pacific and Reading, which fell a point.

Renewed weakness followed the rally and the market fell to a lower level than before. Reading and the western stocks were the weakest. St. Paul, the Hill and Harriman stocks and Sugar fell from 1 to 1%. mand for Union Pacific and Smelting

LOUIS GOURDAIN ARRESTED BY FEDERAL AUTHORITIES.

New York, April 18.—Louis Gourdain, a wealthy resident of Chicago, was arrested by a United States marshal today and arraigned before United States Commissioner Shields upon a warrant issued by the federal courts of Chicago. He was locked up for examination to-He was locked up for examination tomorrow. He was arrested in Chicago
recently, charged with complicity in a
green goods swindle. He was convicted, but appealed, and the appeal is still
pending. The convicted man wished to
serve his sentence pending the appeal,
and demanded that the warden of Joliet
prison lock him up. This the latter refused to do, and Gourdain threatened
to build a prison in Joliet and imprison
himself, but his lawyers and relatives
dissuaded him from so doing.

The federal authorities in Chicago
later decided to take Gourdain into custody. He said after his arrest that if
all the papers in the case were regular
he would waive examination tomorrow
and start for Chicago with a federal
official.

We can fill orders promptly.
