SITUATION AT THE COAL CAMPS.

Alarming State of Affairs Reported to Be Prevailing on Properties of Utah Fuel Company.

Every man in the entire national guard of Utah today is under orders to proceed to Carbon county and take a hand in protecting the property of the Utah Fuel company and the lives and persons of the miners who have de-clined to join the strike. It is probable that within the next few days there that within the next few days there will be a call for a special session of the Legislature to provide funds for the maintenance of the troops during the time they will be in the field.

This action was taken late last night when Governor Wells issued a proclamation ordering out the militia. Simultaneously General Burton issued a call to the various organizations to prepare to take the field for an indefinite periođ.

Prior to these orders being issued Governor Wells had been closeted with General John Q. Cannon and a number of state officers, almost throughout the entire day. Those members of the Legislature who could be reached were called in during the evening after the report of General Cannon and State Mine Inspector Thomas had been thor. oughly canvassed. It was unanimously conceded that something ought to be speedily done to stamp out any attempt at lawlessness among the strikers. The calls for troops accordingly followed.

MARTIAL LAW.

Prior to the assembly of the members of the Legislature available at such short notice Gen. Cannon communicated a verbal report to the governor of the result of his trip through the coal camps. Every phase of the situation was carefully gone over. After the meeting Gov. Wells said:

"It is my intention to deal firmly with the situation. My desire is to settle the strike as quickly as possible. If it is deemed advisable to proclaim martial law to enable the troops to better cope with the situation I want to do it. I want the troops to be masters of the situation. If martial law is not neces-

GENERAL CONFERENCE. Following these consultations came the general conference of the military, legislative and railroad representatives. those being present in addition to the governor were:

The conference was productive of The conference was productive of bringing out the existing state of af-fairs in the camps of the Utah Fuel company. It was demonstrated that the situation was getting serious and that it was becoming worse every day. Despite the fact that there were over 120 armed guards around the camps the strikers were becoming bolder over the strikers were becoming bolder ev-ery hour. The union agents have been successful in getting almost all our men out at Castle Gate and a great many at Sunnyside. They are using force, intimidation and every other weapon that they can bring to are using force, intimidation and every other weapon that they can bring to bear on the miners who are really de-strous of remaining at work. The situation is such that the local ruthorities cannot maintain order and protect those who resource protection.

The attacks and attempts at violence are made mainly at night. Men have been called to their doors at midnight and assaulted brutally; the wives of and assaulted brutally; the wives of miners who desire to work have been told that their husbands would be mal-treated if they did not remain with those on strike. The conditions are really serious, and are becoming more serious each hour,

FORCED OUT.

"Aside from those who have left work, a large number of men form-erly employed about the mines in ca-pacities other than mining, are forced out of work by the strike. There are many more men involuntarily idle than striking miners on this account. "As to violence and threats, here is a telegram which we have just re ceived from Sunnyside: "Miner Du-bols, when starting to work this morn-ing, was assaulted in his tent by strikers, whom he had told he was go-ing to work."

"And here is another: 'Clear Creek, Nov. 23.—The miners who attended a meeting here formed a crowd and marched up in a body at 5:30 a.m., and tried to prevent others from going to work, by dragging them back, cheer-ing and talking to the men."

"Still another message says: 'A Fin-lander who has taken a prominent part in urging that there be no strike, this morning received a letter saying: "Don't be a scab, or you will pretty soon get hanged."
