CHINESE METHODS.

Officials Refuse to Permit Foreign Consuls to Interfere

IN THE KU CHENG INVESTIGATION.

Incendiary Placards Posted at Canton—Further Trouble Feared in the Interior.

SHANGHAI, Aug. 19.—A dispatch to the Mercury from Foo Chow says it is reported on good authority there that the Chinese government has refused to allow the American and British consuls, Mr. J. C. Hixson and Mr. R. T. Mansfield, who accompanied the commission appointed to investigate the recent massacres of missionaries and their families at Ku Cheng, to make any investigation into the circumstances of the massacre.

LONDON, Aug. 20.—The Times has a dispatch from Hong Kong confirming the Shanghai dispatch containing the report that the Chinese government has refused to allow the American and British consuls to make any investigation into the Ku Cheng massacre. The Times dispatch adds that the soldiers are engaged in plundering the people, who feel that the foreigners are the cause of their sufferings, and therefore the latter should be punished. Further incendiary placards have been posted at Canton. The object sent with the commission to Ku Cheng, together with the Chinese officials at Ku Cheng, have refused to allow the presence of the consuls during the examination of the prisoners. The matter has been referred to the viceroy. Serious trouble is feared.

NEW YORK, Aug. 19.—Cable advices to the Herald corroborate the Chinese news of the Associated Press. The Herald dispatch is as follows:

FOO CHOW, China, Aug. 18.—The Chinese officials at Ku Cheng have positively refused to allow the American consul, J. C. Hixson, and the British consul, R. W. Mansfield, opportunity to investigate the massacre of missionaries there. They will not be permitted to attend the trial of the rebels before the local authorities. Many people who deprecate the massacres are desirous of a full investigation. They talk in a threatening manner. The situation is serious.

WASHINGTON, Aug. 19.—The officials of the Chinese legation have no information throwing any light on the reported refusal of the home government to permit the members of the mixed British and American commission to investigate the Ku Cheng massacre. In fact the legation has not yet been applied officially of the appointment of the commission. The only reason given for the reported refusal is that the action reported to have been taken was by the Chinese local officials, who possibly have not had time to get a dispatch of such importance through the central government. Minister Yang Yu has been instructed by the central government to assist the investigations, the local officials acting merely on their own initiations in the premises. If the reported action of the Chinese be correct, it is apparently no matter of great surprise to the state department officials here. They attribute any refusal of the local authorities to permit the commission to investigate the matter to the well known desires of the Chinese to conduct such inquiries by their own people, the shocks of having any interference by outsiders, and to the general suspicion with which they look upon foreigners.

It is not feared here in official circles that any complications that may have arisen in the premises will be allowed a dangerous magnitude before the lives that were lost in the Ku Cheng massacre.

Home Seekers' Excursion.

OMAHA, Neb., Aug. 19.—The Sun will not be a disturbing element in the home seekers' excursion. It is now stated that it was all the time the intention of that road to set off the plan which a majority of the passenger agents favored at the meeting in Chicago, and after the failure to agree, St. Louis, the general passenger agent of the Burlington in Chicago, went to the offices in this city to put in effect a one-fare rate on the dates August 29-30, September 10th and 24th. The telegram was taken in the various cases, and was not supposed to mean a one-fare plus the $2 rate. The business this morning gave every indication of a rush.

CHICAGO, Aug. 19.—The Union Pacific having agreed to the arrangements made by the Western roads for harvest excursions, they will be run on the plan previously announced. The rate will be one fare going, with a certificate attached to the return ticket, entitling the purchaser to a return ticket on the payment of $2. The going rates will be August 29-30, September 10th and 24th, and the returning rates will be September 11th, 20th and 27th, and October 4 and 11th.

GIFTS TO FOOL THE PUBLIC.

The condemning of alum as an unwholesome ingredient in baking powders by the government as well as by physicians generally, and the detailed announcements of the evils resulting from feeding them to the unsuspecting public, Following is a partial list of the alum powders found in the stores:

"Calumet," "Chicago Yeast," "Enterprise," "Iron Mountain," "Gem," "Magic Leaf," "Monarch," "Mountain Queen," "Mountain Rock," "Nature," "Nickel," "Oriental," "Pioneer," "Queen," "Queen Flake," "Queen O. K.," "Rocket," "Rough Rock," "Royal," "Silver Star," "Standard," "Stillman," "Union," "Vanilla," "Victor," "White Rose," etc.

It is safe to reject all brands sold with a prize. All powders sold at twenty-five cents or less a pound are sure to be made of alum. Dr. Wiley, the Government Chemist, in the official examination of baking powders at the World's Fair, threw out all "alum powders," classing them as unwholesome.

Ex-Justice Strong Dead.

LAKE MINNEWASKA, N. Y., Aug. 19.—Ex-Associate Justice Strong of the United States supreme court died here this afternoon. Ex-Justice Strong was brought to Lake Minnewaska several weeks ago, suffering from a catarrhal affection of long standing. His system was also greatly weakened by a fall he had a short of years in his home in Washington about two months ago. Since his arrival here Judge Strong has lain in a semi-unconscious, from which he rallied only at intervals. Yesterday he had a stroke of paralysis, which affected the left side. He also suffered a recurrence of the catarrhal fever, and again became unconscious until death released his sufferings. He was about 87 years old.

TURKS AND CHRISTIANS.

Further Outrages Reported from the Eastern Countries.

TIFLIS, Aug. 19.—Special advices from Erzeroum say that the Turkish officials have driven the Christians out of their homes in all the country between Harsoun and Moush, and have given the houses to the members of the Kurdish tribes. The victims are starving.

Government in Arrears.

WASHINGTON, Aug. 19.—The war department is in receipt of daily receipt of complaints from the disbursing officers of the various river and harbor districts concerning the delay in forwarding money from the treasury department in response to their requisitions. These complaints represent that in many cases contractors and laborers are clamorous for money which in some cases has been due for three or four months.

The war department officials admit that complaints are made, and that instead of being confined to any one or two districts they are quite general. Orders have been issued from the Detroit and St. Louis districts, in each of which the government is in arrears to the extent of about $150,000.

Rumor places the amount of requisitions withheld at from $2,000,000 to $3,000,000, but the chief of the warrant division of the treasury when seen said this report was an exaggeration, and that his books showed that only a little over $500,000 in requisitions stood unpaid.

Collapse of the Ireland Building.

NEW YORK, Aug. 19.—The inquiry into the causes of the collapse of the Ireland building developed an interesting point today. The police spent the day in looking for John B. Ireland, the owner of the building, for whom the coroner has issued a warrant, but was unable to find him.

Architect Hebrun, on the witness stand today, said that Mr. Ireland had told him that he was going to put up the building as cheaply as possible, that Building Inspector Buckley had never spoken to the architect about the substitution of inferior materials for those demanded by the specifications, and that Buckley was a member of the firm of Donnelly & Co., which had been an unsuccessful bidder for the mason work on the building.

Hundreds Killed in an Explosion.

LONDON, Aug. 20.—The Daily News has a dispatch from Odessa which says information throwing any light on the reported refusal of the home government to permit the members of the mixed British and American commission to investigate the Ku Cheng massacre. In fact the legation has not yet been applied officially of the appointment of the commission. The only reason given for the reported refusal is that the action reported to have been taken was by the Chinese local officials, who possibly have not had time to get a dispatch of such importance through the central government. Minister Yang Yu has been instructed by the central government to assist the investigations, the local officials acting merely on their own initiations in the premises. THE BURNHAM CASE.

New Motion for a Change of Venue to be Made.

SAN FRANCISCO, Aug. 19.—Superior Judge Murphy was too ill today to proceed with the trial of Theodore Durrant for the murder of Blanche Lamont. A recess was declared until Thursday.

It is said that counsel for the defense are preparing affidavits in support of a new motion for a change of venue, on the ground of the impracticability of securing an impartial jury in San Francisco. If the motion is granted it is said that they will endeavor to have Santa Rosa selected as the scene of the trial.

Death Notices.

DENVER, Aug. 19.—By the death of Daniel Park a conspicuous figure is removed from the social and business life of Denver. He was born in Shelby county, Ky., in 1815. He was one of the Park family, who settled in Maryland two centuries ago, and who afterward settled over Kentucky and the Southern states. As a prominent Republican, during the days of the slavery agitation, he achieved considerable prominence and risked no little danger in battling for freedom for the slaves.

JOHN MILLER WILSON.

WATERTOWN, N. Y., Aug. 19.—John Miller Wilson, editor of the Cleveland Penny Press, died suddenly yesterday afternoon at the summer home of his friend, ex-Mayor W. A. Rose of Clayton, at Rose Island, St. Lawrence river, aged 52 years. The cause of his death was heart disease, resulting from an attack of grip two years ago.

Illegally Holding Office.

WASHINGTON, Aug. 19.—The recent decision of the acting attorney general that ex-Senator Bassett's appointment as minister to Mexico was unconstitutional, because he was appointed while serving as senator in Congress, which raised the salary of the American minister, has started reports that various other officials are illegally holding office for the same reason. Among the cases mentioned is that of Judge McKenna, who, while serving as a member of the Fifty-second Congress was appointed circuit judge of northern California. But as the nine additional circuit judges were created by the preceding Congress, although Mr. McKenna was a member of that Congress, the constitutional prohibition, it is said, does not apply to him.

A single trial of Piso's Cure for Consumption shows it superiority to others.

NARROW ESCAPE.

Train Passes Through a Burning Fire Zone of Burning Forests.

DENVER, Aug. 19.—A special to the News from Spokane, Wash., says: Passengers on the westbound Great Northern train had a narrow escape from death last night. The train had passed through a fiery furnace of burning forests for a distance of ten miles, and when it reached the Little Spokane river, about twenty miles west of this city, a blazing tree fell across the track from the mountain above just as the train was passing. The engineer struck it, causing the train to stop so suddenly as to throw the passengers violently from their seats. The burning tree was dragged partially under the car, and for a moment the train toppled to one side until it almost went into a 150-foot chasm on the other side.

The intense was the heat from the forest fire that the coaches blistered and almost took fire. The passengers for a time were panic-stricken, and but for the coolness of the train crew, they would have rushed out into certain death. The burning trees set fire to the mail and baggage cars, but the flames were extinguished with water from the tender. With each minute the air cleared, and the train succeeded in reaching here badly damaged.

The forest fires have now reached south along the line of the great Northern, and continue with unabated vigor. Millions of feet of timber have already been destroyed. In the section where the fires are now burning are several small settlements, and a good many settlers are scattered through all the timbers, and grave fears are entertained that some may perish in the flames. In the northern Panhandle of Idaho, a wild and unbroken wilderness, the fire is rapidly licking up the vast heritage of timber. Never before in the history of the Northwest have the forest fires caused so much havoc.

W. McCreary, superintendent of bridges for the Northern Pacific, arrived from the Coeur d'Alene district. He reported the death of four men. They were bridge carpenters and had gone out on a long bridge to extinguish the fire, and failing to drive they sought to return, only to find their retreat cut off by the flames. They were compelled to stay on the burning bridge until the flames reached them, when they leaped into the chasm 150 feet below and were dashed to death.

Zeigler the Winner.

BALTIMORE, Aug. 19.—The International bout between Stanton Abbott, champion welter-weight of England, and Owen Zeigler, of Philadelphia, who fought Jack McAuliffe to a draw, occurred tonight at the Eureka Athletic club in the presence of 1,500 spectators.

Abbott and Zeigler entered the ring at 10 o'clock. The twentieth and last round was a savage one. The American fought the Englishman against the ropes. As the gong sounded the referee declared Zeigler the winner. He will be matched against Young Griffo.

The Valkyrie Arrives.

NEW YORK, Aug. 19.—"Valkyrie III," the American cup challenger, arrived at Sandy Hook today near Bell's Island, where she is the object of much interest to yachtsmen and people generally who in crossing the bay come within view of the British yacht. Capt. Churchill admitted no one to the vessel's deck today. He will not know when the yacht will be docked but was making ready for the work as fast as possible.

A delegation from the New York stock exchange visited the Clifton today and announced that they had any part of $25,000 to bet that the "Valkyrie" would not win the cup.

The Running Investigation.

CHICAGO, Aug. 20.—Investigation into the management of the Cook county institutions at Dunning, covering charges of murder, bonding and appointment of criminals to office was decided upon by a majority of the commissioners at the special meeting last evening. The investigating committee is to consist of the county commissioners and the medical examiners employed by the county civil service board.

It was a lively meeting and at its conclusion President Healy's plan had been adopted. Eight of the fourteen commissioners who attended stuck to the president on disputed points and five opposed him. The committee will begin their investigations at 10 o'clock this morning.

One of Coroner Maltbie's deputies, accompanied by Dr. Ritchell, will go to St. Boniface cemetery today to exhume the body of Mrs. Hoeta, who was an insane patient and died at Dunning. Her relatives fear her life was brought to a sudden end by the cruelty of attendants. Two physicians representing the family will also accompany Dr. Mitchell and the coroner's deputy and will make an examination of the body.

All expert tests show the superiority of Dr. Price's Baking Powder.

Minister Thurston's Successor.

CHICAGO, Aug. 20.—William R. Castle, newly appointed and minister plenipotentiary from the Hawaiian republic to the United States arrived in Chicago this morning enroute to Washington. He was appointed to succeed Minister Thurston and arrived at Vancouver a week ago on the steamship Warrimoo.

To Drive the Wires Underground.

INDIANAPOLIS, Aug. 20.—The city council last night passed a sweeping ordinance requiring all companies to overhead telephone lines within the business district of the city, including territory a mile square and ordering all telephone and telegraph wires removed within a reasonable time. This is considered stand by the council looking to the placing of all wires underground.

LEAVES ITS MARK

MRS. ZERGA.

Mrs. Anna Zerga, of the Oak Hotel, Oak Hill, Ohio, says: "I was troubled with a bad cough, which settled on my lungs. I was induced to try Piso's Cure for Consumption. It relieved me at once. I have used it in my family ever since, and have found it the best medicine for coughs, colds and lung troubles. I recommend it to everyone who has a cough, and every one that has tried it will say the same." Piso's Cure for Consumption is sold by druggists everywhere, and costs only 25 cents.

A book of 32 pages on "Women and Her Diseases" mailed, on receipt of 4c. in stamps to cover postage. Address Dr. Brooks's Invisible Nerve Restorer, Specialist, 663 Main Street, Buffalo, N. Y.
