

RUSSIA MAKES MORE DEMANDS.

She Wants the Kulja Frontier Rectified.

ASKS STRIP OF TERRITORY.

This in Western Tibet—Concession for Working Gold Mines South of the Amur.

London, May 4.—"It is reported that Russia has made the following demands," says the Shanghai correspondent of the Standard, "as compensation for China's refusal to sign the Manchurian convention:—

"First, a rectification of the frontier between Kulja and Russian territory; second, the cession of a strip of territory in western Tibet; and, third, a concession for working the gold mines south of the Amur."

MINISTERS LEAVE PEKIN.

Pekin, May 3.—A majority of the foreign ministers will leave Peking next week for the western frontiers to spend the summer, taking with them their military headquarters for their protection, their intentions being to come to Peking for the purpose of holding meetings and attending to necessary business.

Missionary Owen of London Missionary Society says the reports received by his agents from the provinces show a disposition to be in a deplorable state. Discontent and intense hatred of foreigners are rampant and the situation is threatening.

The departure of the troops, he presumes, will be signalled by a massacre of the native Christians. "Those unable to recognize the facts and report to their governments," says Mr. Owen, "are as willfully blind as before."

Frozen Sealing Steamer Freed.

St. Johns, N. B., May 4.—The sealing steamer "Virginia" Lake with 270 men on board, that has been frozen in the ice at White Bay for the past six weeks has been freed by a furious hurricane driving the ice back into the North Atlantic where the waves broke the floes and the steamer. The "Virginia" has been harbored at Bonavista for the night, being short of coal.

A hurricane is now sweeping Newfoundland's coast, and many of the fishing craft are seeking safety.

NO COALING STATION ACQUIRED

Germany Does Not Get One Off Coast of Venezuela.

Berlin, May 4.—After careful inquiries the German foreign office empowers the Associated Press to assert that Germany has not acquired a coaling station on the island of Margarita, off the coast of Venezuela, through the agency of the German cruiser Vineta.

Argentine Congress.

Buenos Ayres, May 4.—President Busto of his message opening the Argentine congress, says that the international relations of Argentina are cordial and that peace is assured at home and abroad. He alludes with satisfaction to the references of the boundary dispute between Argentina and Chile to Great Britain for arbitration; he refers similarly to the visit of the president of Brazil, Mr. Campos Sales, in November of last year.

After announcing a renewal of the service of the external debt in July, after a decade of suspension, he proceeds to review the financial situation, noting with satisfaction the great improvement of Argentina's credit abroad that has resulted from the government's policy of asserting that the government will shortly present a bill for the unification of the external debt with the object of reducing the present heavy service and having the floating debt in Europe.

Finally the message declares that the government will encourage immigration and colonization and adding that immigrants arrived last year.

Yon Buelow Celebrates Birthday.

Berlin, May 4.—Count von Buelow yesterday celebrated his fifty-second birthday. No one seems to have heard that Emperor William sent the imperial chancellor a gift of a message of congratulations.

FAVOR THE COLONIES.

English Conservatives Don't Like Salisbury's Neglect of Them.

New York, May 4.—Conservative members of the British parliament, a London dispatch to the Tribune says, who have threatened to raise a debate over the neglect of the Salisbury government to discriminate in favor of the colonies against bounty-free sugars are receiving assurances from the ministers that the diplomatic negotiations are in a satisfactory state for securing the abrogation of foreign bounties. This has been so long a cuckoo song that some of them are incredulous, but there is strong ground for the belief that the Lansdowne has been in active correspondence with the continental foreign offices on the subject and that favorable results are confidently expected.

One of the strongest advocates of discriminating sugar duties in the interest of the colonies now predicts that the service will be held during the summer and that no bounties will be discontinued.

This, he asserts, will render discriminating duties unnecessary for the protection of the British West Indies.

CUBAN MUNICIPAL ELECTIONS.

Last Day for Registration Was Friday.

Santiago de Cuba, May 4.—Yesterday was the last day for registration for the municipal elections in June. Gov. Gen. Wood's order yesterday that at each registrar office throughout the entire day to receive protests caused much excitement, the politicians claiming that it was another case of American interference.

There seems to be no doubt of the success of the whole Republican party, notwithstanding the overwhelming majority of the Nationalists.

THINK SO?

The Minister's Wife Was Right.

When a baby's life can be saved by food it is worth while knowing something of that food.

A minister's wife, named given below, writes: "I am a mother of three children. When I say that I have never yet seen a picture of the starving babies of India that looked as bad as our baby did. The skin was drawn as tightly as possible over her little frame, and was almost black. Her little form was so shrunken that it was pitiable to look at. Her bright eyes only showed that she was alive."

"She was starving to death, for every time she ate was immediately thrown off from her stomach. We tried every kind of food we could think of, and only kept her alive by rubbing olive and cod liver oil into the pores of the skin. The doctor was doing all he could, but finally we sent for an uncle, an old physician, to come and see her. The doctors agreed to provide me with a spoonful in some boiling water. This was allowed to simmer until the food became perfectly soft. A little rich milk was added, and just enough sugar was put in. It made a delicious food, and it was astonishing how perfectly it agreed with our baby and how she did 'lick it down.'"

"She would not drink milk unless it had Grape-Nuts Food in it thereafter. After a few days she began to show marked improvement, then she improved very rapidly. When we began feeding her Grape-Nuts Food she weighed about 10 pounds, now she weighs over 20, and is almost as broad as she is long."

"Our friends all think it a miracle that she recovered. While I am writing this letter, one of my girls has just taken to bed, begging for some Grape-Nuts Food."

"We naturally believe in Grape-Nuts Food for it has saved the life of our baby. Mrs. S. W. Hardin, Spring Hill, Tenn."

FOUGHT LIKE BIG BULLYING BABIES

Sharkey Defeats Russell After a Close Call for Himself.

Denver, Colo., May 3.—Sailor Tom Sharkey put out "Big Fred" Russell, the California heavyweight, in the fourth round of what was scheduled to be a ten-round go before the Colorado Athletic association here tonight. It was characterized by rough and tumble tactics, engaged in by both, science playing but little part. There was much clinching and rough work throughout and it seemed that each had a chance to win by landing a wind swing at any time.

RIOT IN BARCELONA.

Revolvers and Knives Used and Many People Wounded.

New York, May 4.—Some fifty cases of Gen. Frey's loot from China, including the bronze lions confiscated by the French government, have reached Peking, addressed to the French minister, says a Herald dispatch.

The returned loot was paraded through the streets and stored at headquarters. This preliminary to the formal act of restitution caused an immense sensation among the Chinese, but they entertain small hope that the example of France will be followed.

The trial races between the Shamrocks will take place in the middle of next week. Shamrock II will have her first trial under canvas today.

It has been rumored that the "fans" of Salt Lake and Ogden were much disappointed that the Pocatello team was barred from the Utah league this year, and have to numerous parties expressed themselves in favor of making room for a number of games with the ball team of this city. It must be remembered that Pocatello was always a drawing card in Salt Lake and Ogden, and it is barely possible that the team now organized will accept of the opportunity to play in Utah one or more times during this season. This will depend, however, on the support given the O. S. L. team by the people of Pocatello. If they show their interest in a nine by coming out to the games, it will simply mean that better ball will be the result, and it is the desire of the manager to pick such men for the nine as are demanded by the ball public, and this can only be determined by the patronage of the Pocatello team.

The doctor who was presented at the first game and from that time on, and if the receipts warrant picking up good talent from time to time, it certainly will be done, and the proper time arrangements will undoubtedly be made for games with the Utah league.—Pocatello Tribune.

HORSE RACING.

New York's Season Opens Today at Morris Park.

The real opening of the racing season in New York will begin today with the first day of the racing at Morris Park. The horses have been running at Aqueduct for three weeks, but the real high class horse racing does not lend its favor until the hills and plants at Westchester are ready for use. The prospects for a fine meeting are better than ever before. A dispatch says the weights, fight five very fast rounds to a draw. It was a give and a take affair throughout, Dooley receiving the severest punishment of the two.

Sixteen are carded to go in the big event which will be worth \$5,700, the richest Metropolitan yet run for, and some of the best horses in training will be in the race. The top weight choice is the Britiger, and that if he does not go the post favorite, it will be because the others appear to have more courage, a thing in which he
