

LINEVITCH PRESSING JAPANESE CENTER

May be Feeling Oyama's Strength
Or Assuming a Genuine
Offensive.

RENEWAL OF FIGHTING NEAR.

Russian Sick and Wounded at Harbin
And Places South, Transported
Westward.

St. Petersburg, May 22.—The news from the front continues to point to the imminence of a renewal of fighting on a large scale. Gen. Linevitch is pressing the Japanese center both on the line of the railway and on the Mandarin road, but whether he is simply feeling out Field Marshal Oyama's strength or has assumed a genuine offensive is not yet clear. There is no doubt, however, that Linevitch has made complete preparation for a big battle.

All of the Russian sick and wounded who were at Harbin and places south of there have been transported westward to Irkutsk, and orders have been given to wear the intervening hospitals. The sick and wounded have also been ordered to the front.

Gen. Linevitch, in a dispatch from the front, dated May 21, announces that the Russian detachment east of the railroad, which on May 18 approached the village of Shashot and was attacked by a strong force of Japanese from the coal mines south of that place, occupied Shashot May 9, and continued southward May 20.

Prince Troubetzkoy's detachment met the Japanese artillery fire May 17 near Chantui station, but the Japanese were forced to evacuate the position and retreat to the northern prince May 18, advanced further southward, and another detachment on the same day exchanged rifle fire with a strong Japanese force, occupying the villages of Armanag, about four miles west of Kinchuan.

The Associated Press was informed of the arrival of the reinforcements, which have been received from Vice Admiral Rojestvensky for 10 days, when he became set out on his long voyage. The report of Rojestvensky's death was ridiculed at the admiralty.

The sending of Vice Admiral Birrell to Vladivostok, it is now explained, is a natural consequence of the purpose of having an energetic commander at Vladivostok to replace Rojestvensky in the event that the latter is killed or disabled during the coming sea fight, no doubt being entertained that if the fleets come together Admiral Togo's vessels will concentrate their fire on the Russian flagship.

With the Russian forces out of the fight victorious and enjoying health, it is considered a foregone conclusion that he will be rewarded by appointment to the supreme command. Fortunately, the best relations prevail between Rojestvensky and Birrell, and the latter is said to give much to his vice-treasurer colleague.

Hemirovich Danchenko, the well-known Russian newspaper correspondent, has written a spirited defense of the Russian soldiers against the reproach of drunkenness, comparing his observations in the Russo-Turkish war and the present conflict to show the increased subtlety of the Russian troops.

AMBASSADOR REID ON AMBASSADOR'S DUTIES.

New York, May 22.—Whitelaw Reid, who will soon go to London as ambassador to the court of St. James, was the guest of honor at a farewell dinner given by the Republican club.

In attendance were more than three hundred guests, Mr. Reid spoke in part as follows:

"I do not enter upon the discharge of my duties as a partisan. No politics will or can be known in the embassy. When William J. Bryan expressed his thanks for the treatment at our embassy, which was plainly due to a man who was nearly blind, he was told people had more than once approved for their highest office, and when the president responded that if any ambassador had failed to extend such treatment in such a case, his shift would have been short, there was a flat recognition of what had been the uniformity of the country in this regard, and what it should always remain."

"Would it be trespassing on too delicate ground if I ventured to suggest that the converse ought to be true; that there ought to be no politics at home in dealing with the embassy's work?"

Mr. Reid referred humorously to the efforts made by the ambassador to Great Britain with regard to public speeches and added:

"Really, gentlemen, however much appearances may sometimes tend to a contrary view, the work of speechmaking is not the chief duty for which the country sends out its ambassadors. Good news is to be told of clearing roads across the sea. We know that Great Britain and the United States, in the nature of things, do inevitably sustain peculiar relations to each other, not held by either with any other nation."

There is a duty of an ambassador more important even than promoting good-will. An ambassador is sent to look after the interests of his own country. Happy is his lot if the interests of the country that sends him abroad and those of the country to which he is sent are not conflicting. If unhappy, the consequences are most disastrous; an ambassador can commit is to sacrifice the interests of his own country in the deliberate and scordid hope of remaining persona grata in the country in which he temporarily resides.

"It is a happy and illuminating phrase of our great secretary of state

Rob You.

Work, Worry, Trou-
ble Waste Your Life
Force, and Rob
Your Heart.

Anything that uses up nervous vitality too fast in any one part of the body, robs and weakens the heart.

Thus overwork, worry, grief, Za-
Gripe, fevers and all sickness, tobacco, alcohol and other stimulants decrease the vitality of the heart and rob you of just so much of your life.

The best remedy is Dr. Miles' New Heart Cure. This restores to the nerves of the heart the vital strength of which they have been robbed, thus strengthen-
ing this vital organ.

By taking Dr. Miles' New Heart Cure before the heart is permanently af-
fected, possibly dangerous disease is ward off. Even after the disease is upon you, Dr. Miles' New Heart Cure will yet be nearly sure to effect a per-
manent cure.

When eminent physicians have been unable to relieve heart trouble, Dr. Miles' New Heart Cure has restored the patient to perfect health.

"I was taken with a very severe pain in and around my heart, accompanied by shortness of breath. I took Dr. Miles' New Heart Cure and received no permanent relief. I then commenced taking Dr. Miles' New Heart Cure, which soon cured me. I have since had an examination for old life insurance, and was recom-
mended for all I wanted. I have had no relapse for a long time."

J. W. BOYER, Newman, Ga.

when, in a humorous vein, he told us that our foreign policy consists chiefly of the golden rule and the Monroe doctrine. "Neither that nor the Monroe doctrine is international law, but both are used to restrain us from going to war with other nations," he said.

The report of the board of home missions shows the board is out of debt. It received \$667,000 last year and expended \$666,000, and on April 1 had over \$40,000 in the treasury. The report said the relations between the church and labor organizations are growing closer.

A resolution was adopted that sub-
committees be appointed to make a
complete study of the entire inter-
national problem at their respective la-
calities. These committees are to co-
operate with the newly-organized working-
men's department, and Presbyterian
churches in every city are to establish
close relationships with organized labor.

Rev. Charles Steizle, later repre-
sented the Presbyterian church, dis-
cussing the report of the home mis-
sions board, said Socialism and trades
unionism are questions which the Pres-
byterian church must consider in deal-
ing with union workers. Socialism, he said,
is becoming a substitute for the
church for thousands of workingmen,
and labor unionism, "he said, "has
come to stay, and that fact had better be
recognized."

Rev. John Dixon of New York, as-
sistant secretary of the home mis-
sions board, said the board cannot get the
right kind of men for mission work in
Alaska, Dakota and Porto Rico. The
western United States, he said, is the
hardest mission field to work in in the
world.

A commissioner offered a resolution
denouncing the "Mormon" Church as
a menace to the United States govern-
ment and to the people and churches of
the nation. He urged that the United
States senate to expel Reed Smoot from
membership in that body. A half-dozen
commissioners tried to speak to the
resolution, but were greeted by shouts of
"Question."

The resolution was adopted by the
heartiest "aye" yet given by the
assembly, although there were a few de-
nies.

The resolutions adopted were as fol-
lows:

"Whereas, The hierarchy of the Mor-
mon Church claims to be the only legal
government that can exist in any part
of the universe, and that all other gov-
ernments are illegal and unauthorized;
Therefore, be it resolved, that we dis-
avow the Mormon Church by confirming
at their annual conference in April their
polygamous prophets, seers and reve-
lators; and

"Whereas, They have already gained
political control of two states, with the
concurrent help of the other states;

"Whereas, The hierarchy, which is

lying in violation of the laws and con-
stitution of the State of Utah, has an-
nounced its purpose to continue in dis-
obedience to the civil authority and has
proclaimed the Mormon Church a
theological community; by confirming
at their annual conference in April their
polygamous prophets, seers and reve-
lators; and

"Whereas, Apostle Reed Smoot, now
a member of the United States senate, has,
by his public vote in the Mormon
conference, voted again and again against
the responsible organization; therefore,

"Resolved, That this general as-
sembly unite with other Christian and
patriotic bodies in requesting the sen-
ate of the United States to purge itself
of all complicity with the crimes of the
Mormon hierarchy by expelling the
member, Apostle Reed Smoot, from the
United States senate."

The plan for the erection of a central
Presbyterian cathedral at the national
capital, as proposed by Justice John M.
Harlan of the supreme court of the
United States, and upon which a divided
report was submitted today by the
sixty-one commissioners of the assembly
under consideration, when taken
up tomorrow will, it appears, encounter
serious opposition. The majority report
received today advised that the report
be referred to the Washington presby-
terery through a committee to be ap-
pointed by the general assembly. The
minority report opposes the erection
of the central church.

The chief reason advanced by the
opposition is that they can conceive no
particular reason why such a church
should be erected. It is expected that
Justice Harlan will explain his project
in detail before the assembly tomor-
row, asking that the committee make
a report to the next general assembly.

The assembly voted down the pro-
posed consolidation of the college board
and the board of education. The plan
for raising \$500,000 during the coming
year to be applied to the church college
fund was approved.

Frank Clifton, a bartender, was ar-
raigned today charged with attacking
a woman in the street, which had been
raised from \$110.50 to \$2,500.

The police are convinced that even
if Clifton had any knowledge regarding
the check he was only a tool for the real criminal.

Two Lookers Raised from \$110.50 to
\$2,500.

New York, May 22.—So cleverly had
a check, which made its appearance in
the Tomba court today, been altered
that detectives say there are only five
known men in the country, if not in
the world, capable of doing the work.
These men are in receipt of regular
pensions from the American Legion,
and the names of the persons for whom
they have agreed to refrain from exercising
their unlawful and dangerous talents.
All of them have been kept under con-
stant surveillance for years, and the
police say it would have been next to
impossible for any of them to have al-
tered the check with such a skillful hand.
They are known. They are convinced, how-
ever, either that this has been done or
that a new and unknown person equal
in every way to the most accomplished
forgers of the past, has begun work in
this city.
