A COLLEGE professor once said that "he who expects to rate high in his class, must not expectorate on the floor." Much of the bawking and spitting was, no doubt, caused by catarrh, which the professor knew could be readily cured by the use of a few bottles of Dr. Sage's Catarrh Remedy.

An Important Geological Fact.

Geology has shown us that nature accomplishes her greatest revelutions in the earth's surface conformation slowly. Every year the are requested to state when advertised. river makes its channel deeper, the glacier wears a deeper gorge in the Alpine rock, and the ocean tide deposits the saud it has crumbled from the rocks upon which it breaks. We note the earthquake and the devastating hurricane; but son. Mother and babe doing remarkably these changes are so gradual man seldom observes them until the channel has become overhanging cliffs, or a mountain has disappeared before the icy stream, or the ocean has given us a Florida. Thus it is in disease. Our attention is attracted by acute diseases, as fevers, cholera, etc, while chronic diseases (often the most dangerous in result), being slow in their development, are seldom noticed until they have made an almost ineffaceable impression upon the system. Persons believing themselves comparatively healthy are often times the victims of these diseases, the Mormon Battalian when the call was and only become aware of their presence when relief is almost impossible. Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Pellets are neverfailing remedies for these diseases. They produce a bealthful ters. secretion of the bile, prevent indigestion by regulating the bowels, and impart a vigorous tone to the eod & W whole system.
