BREVITIES.

In Oregon there has not been a fall-

ure of crops in the memory of the old-

est pioneer of that State.

A correspondent of the London

Times is trying to prove that the world

was created twenty thousand years

ago.

One cannot learn anything, the

objects of knowledge have multiplied

because the power of the strongest

mind to keep pace with them all.

"Grains of paradise" (ammonium)

is the English article for adulterating

beer. Several beer manufacturers have

been fined \$300 and \$400 for each adul-

teration.

No street air is so impure as that of

a close bedroom, as careful tests have

shown. Sowerden and laborers in the

sewers are healthier than factory

girls shut up in their close working-

rooms.

The geologists are intensely disgusted

with a vein of coal five feet thick, lat-

ely discovered near Corning, New York.

According to all geological rules and

theories the coal has no business there,

and the savans resent its unwarrantable

intrusion with becoming indignation.

About three months ago, a young

man went into a Lowell factory, and

offered to marry the girl who could

jump the highest. The girl, who had

been employed at once before, she had

boarded exercise, and they have been

jumping ever since.

England is not only a little worried

about her supply of bread for the com-

ing year, but is actually frightened at

the prospect of no better. She has

repeated for some years on a French

supply, via Rouen, but France will need

every bit of it this winter, and England

must eat dry bread.—*Ex.*

The San Francisco *Alto* says:

"The great progress that has been

made in labor-saving machinery is well

illustrated by the fact that no less than

twenty farmers have been out to pieces

by mowing machines this season in

Illinois. It would have taken the

most expert workmen a long time to

have done this with the old fashioned

scythes.

A clergyman who had been staying

for some time at the house of a friend,

was going away called on his little

Yacht Race—Run for the Distressed—

Trial of Rosenbergs.

New York, 23.—In the yacht race

the *Sappho* jibbed to pay off and lost

seven minutes start, *Albatross* being

ahead half a mile, *Sappho* how-

ever gaining. There was lively

breast and pleasant weather. The bet-

ting was in favor of the *Sappho*. On

the way home the *Sappho* was half a

mile ahead.

A subscription has been opened for

the Wisconsin and Michigan sufferers.

One half of the \$50,000 contributed by

a number of merchants for the relief of

the Wisconsin and Michigan sufferers.

The trial of Rosenbergs, the abortion-

ist, has been postponed till Wednesday.

Prosecution of Defendants.

Judge Hilton has addressed a letter to

Connolly, stating that the present park

commission is expending \$188,000 less

per year than the old board.

Chas. O'Connor said to-day the work

of prosecuting the defendants of the city

is going on well. Many with the belief

that they are secure will be rudely

aroused by finding themselves in the

grasp of the law.

Shipwreck.

The bark *Naske*, from Glasgow, ar-

rived to-day and reports that on Sep-

tember 18th, lat. 39, lon. 47, she picked

up a boat containing the second mate

and four seamen of the English bark

Lord Lindsay, from Liverpool. They

left the ship in a sinking condition

twenty hours previous. The captain,

first mate and nine men refused to leave,

and she probably foundered with all on

board.

Tray, 23.—The woods near the Sha-

ker settlement, about six miles from

here, are on fire and it is feared consid-

erable damage will be done.

New York, 23.—In the yacht race

the *Sappho* reached the home boat at

4 o'clock; the *Albatross* twenty-five min-

utes later, about five miles behind.

More Fires.

AUBURN, 23.—About three acres of

the forest known as Chestnut Ridge,

near this city, were burned yesterday.

The flames were finally subdued by

laborers and the people of the neighbor-

hood.

The Montezuma marshes have been

burning for several days. These marsh-

es are three miles wide and twelve long.

ROCHESTER, 23.—There are fires in

the hwy and woods in Genoa, Gen-

ese and Wayne counties. The wind

has been blowing a perfect gale since

yesterday, felt throughout the State.

The smoke has obscured the sun.

ILLINOIS.

Building Up.

CHICAGO, 23.—The Chamber of Com-

merce has decided to rebuild with stone

a building superior in every respect to

the old one. At a meeting of the con-

gregation of the 4th Presbyterian

church yesterday, it was ascertained

that over eight hundred members lost
