

GOOD WEATHER BUT BAD BUSINESS

It is Good for the Farmers But
Trade is Very Dull in Heavy
Wearing Apparel.

New York, Nov. 6.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

"Unseasonably mild weather is making it possible for farmers to secure much late grain and cotton that seemed doomed by early frost, but, on the other hand, the trade is dull in heavy wearing apparel, fuel and many lines that should now be vigorous. While in the long run this business may be made up and the nation will be benefited by the

increased crops, the immediate effect is unfavorable.

"Manufacturing activities have increased at cotton mills and several minor industries, but in iron and steel there are more furnaces and mills idle. Building permits are decreasing and structural work is not prosecuted with the vigor that was seen last year. The lumber trade is firm despite the moderate demand. The railways continue prosperous, earnings for October surpassing last year by 6.2 per cent.

"Disappointment has been experienced by those who believed that quotations for iron and steel would go no lower. Hides have declined in a few cases, but the general impression is that the market has reached bottom.

"There were 24 failures this week in the United States, against 235 last week, 279 the preceding week and 183 the corresponding week last year. Failures in Canada this week number 22, against 15 last week, 26 the preceding week and 21 last year."

A WOMAN MURDERED.

Margaret Mirot, of Reno, Has Her
Head Bitten to a Jelly.

Reno, Nev., Nov. 6.—With her head battered to a jelly, Margaret Mirot, a young French resident of the half-world here, was found at an early

hour this morning unconscious and died at noon without naming her assailant. Residents of the district heard her quarreling last night with some unknown person, but thought nothing of it. When her room was visited about 2 o'clock in the morning by another woman her body was found on the bed, where she had undoubtedly crawled after the murderous assault.

The weapon used was a five pound stone tied in a handkerchief, with which she was struck again and again. The fact that she crawled to the washstand and tied a towel about her head, instead of giving any alarm, gives color to the theory that the crime was committed by some one whom she wished, in spite of all, to shield.

Funeral of Bp. Brendel.

Helena, Nov. 6.—The funeral of the late Rt. Rev. Bishop John B. Brendel, of the diocese of Montana, took place at 11 o'clock this morning from the cathedral of the Sacred Heart. Several hundred people were present, including prominent people from all parts of Montana and the west. The funeral sermon was preached by Bishop Odley of Seattle, while Archbishop Alexander Christie of Portland celebrated pontifical high mass. The services were most impressive. Shortly before 10 o'clock the funeral

procession proceeded from the late residence of Bishop Brendel to the cathedral. First came the carriers of the banners and the clergy, after which followed the cross bearers and candle bearers, and last came the casket carried by the pallbearers. The cathedral was crowded to its utmost capacity. After the services the body was placed in a vault beneath the cathedral.

All Quiet at Pine Ridge.

Washington, Nov. 6.—Indian Agent Brown, in charge of the Pine Ridge agency, South Dakota, in reporting on the conditions there in connection with the recent Indian troubles, today telegraphed the Indian bureau as follows: "Everything quiet on the reservation. No excitement, nor is there likely to be any among the Indians."

GERMANS IN PURSUIT.

Of Betsdzwart Tribe that Mas-
sacred Their Garrison.

Berlin, Nov. 6.—A dispatch from the government of German South Africa, dated Windhoek, Nov. 5, says: "The majority of the colonial troops, including a mounted battery, together with 300 men, has started for Warmbad. No further news has been received from the scene of the fighting."

It is said that the Betsdzwart tribe, which massacred the garrison of the fort at Warmbad and the German inhabitants of a neighboring village and took the English families prisoners, numbers about 500 fighting men.

Horse Thieves Caught.

Portland, Ore., Nov. 6.—A special to the Oregonian from Grants Pass, Ore., says: Bert Rice, who with his brother Dan stole four horses at Myrtle point, were overhauled and Dan Rice captured. The next day Bert Rice was overtaken again near Glendale and three shots were fired at him. This afternoon he was captured at Merlin. No fight occurred.

Goschen Answers Chamberlain.

Liverpool, Nov. 6.—Lord Goschen, formerly chancellor of the exchequer, speaking here today, said he favored retaliation under extraordinary circumstances requiring heroic legislation, but he was opposed to giving the government a mandate authorizing retaliatory tariffs. The speaker added that Joseph Chamberlain's policy was dangerous, and that it was unstatesmanlike to characterize those who were not prepared to accept it as being unfriendly to the colonies. He denied that there was any sign of the decay of the industries of the United King-

dom, and he supported his statement by statistics. The speaker further asserted that "foreign communities are fleeing by the trusts," and declared that the system of "dumping" could not continue. He believed Mr. Chamberlain's policy would hamper trade and reduce shipping.

British War Board.

London, Nov. 6.—It was officially announced tonight that Premier Balfour, with King Edward's approval, has, after consultation with the secretary of war, appointed a committee to advise concerning the creation of a board for the administrative business of the war office and the consequent changes involved. The committee named are Viscount Esher, Admiral Sir John A. Fisher and Col. Sir George S. Clarke.

Postoffice Robbers on Trial.

Topeka, Kan., Nov. 6.—Frank Martin, alias "Dutch," and Robert Mann, alias "Nebraska Doc," were brought to Topeka today from St. Joseph and will be placed on trial in the federal court on the charge of robbing the postoffice at Morrill, Kan. They are said to be members of the organized gang of robbers who have been operating in Kansas and Nebraska. The United States authorities learned

Husler's Flour
because it places the respon-
sibility for a poor baking
where it belongs—
on the cook.

more today of the practices of the robbers. A large part of the spoils secured on their marauding trips was sold in Oxford, Neb. It is understood that the officers of the Burlington road were interested in the capture of the men, as they are charged with giving the road much trouble during recent years by robbing. At Oxford they have been supplying the railroad men with clothing for two years past at about one-third the retail rate.

Price Savings For Careful Shoppers!

Our Bargains For One Week, Commencing Monday, November 9th, and Ending Saturday, November 14th. The goods we are offering are not "seconds" or "thirds," but first quality; Goods Guaranteed.

SPECIALS FOR THE HOME.
