FIFTY-THIRD YEAR.

## THE VAN WORMERS BROTHERS EXECUTED

Their Crime was the Cruel Murder  
Of Their Uncle Peter  
Hallenbeck.

KILLED HIM CHRISTMAS EVE.

Went to His House, With Masks On  
Their Faces, and Riddled Him  
With Bullets.

WERE ARRESTED AND CONVICTED

Harvey Bruce, Their Fellow in Crime,  
Turned State's Evidence—Twice  
Respected by Gov. Odell.

Danemora, N. Y., Oct. 1.—Cloudy  
skies and a drizzling rain darkened  
the cell room at the awakening of the  
three Van Wormer brothers to their last  
day on earth. The condemned men did not  
sleep last night until nearly 3 o'clock  
this morning but tossed uneasily upon  
their beds. The last thing any of them  
thought of last night to Assistant Chief  
Keener was from the lips of Burton.  
Said he: "I have no more fear of the  
electric chair than of the last meal which  
we are about to eat. I would just as  
lie be the last one to go, for I know  
that I can stand the ordeal. I am not  
afraid."

PREPARED FOR DEATH.

Keener Murphy, who was in the cell  
room from midnight until 3 a. m., said  
when he came off duty this morning  
that he never had seen men better  
prepared for death or more fully in  
control of their "nerves."  
"Tell you," said he to the Associated  
Press representative, "they were  
self-controlled, that I. Leaving  
my question of their guilt or  
whether or not they ought to die, I  
have come to like those three fellows  
and it made me feel bad to say good  
bye to them."

WANTED SIMULTANEOUS EXECUTION.

Willis Van Wormer said this morning  
to Keener Murphy: "I only wish  
there were three chairs instead of one,  
so that we could all go together. The  
hardest part of it all is the suspense,  
but we are ready. We are grateful for  
the kindness which everybody about the  
prison has shown to us."

Keener Murphy awakened the young  
men shortly after 9 o'clock this morning  
by saying: "You are ready, aren't you?"  
They were a little dazed at first,  
but after a few minutes they had  
followed the restless after mid-  
night, but almost immediately they were  
able to talk calmly and with a  
little less than their last day on earth.  
They were all dressed in their  
own clothes and ready for their  
last journey. They were all dressed  
in their own clothes and ready for  
their last journey. They were all  
dressed in their own clothes and  
ready for their last journey.

THE YOUNGEST JESTS.

Frederick, the youngest, who has  
all along been the least impressed of  
the three, and at all times has shown  
more bravado than the others, said  
to Keener Murphy at the moment  
of his departure: "Well, I suppose this  
time tomorrow we shall be in Kinderhook,"  
evidently intimating that the brothers  
should be taken for burial to their  
home in Kinderhook.

It would be difficult to imagine any-  
thing more impressive than the solemn  
service in the room of the steel cages,  
where Father Belanger and Charbonneau  
administered to them later. They said,  
however, that they would not eat  
again, so that their meal at midnight  
was the last.

THE YOUNGEST JESTS.

A few feet away in his cell under  
condemnation of death sat Allen  
Keener Murphy, the youngest of the  
three. He was looking at the clock  
and listening to the clock. He was  
standing convicted of the murder of  
two women at Saranac Lake.

THE YOUNGEST JESTS.

Dr. Kinnison, the prison physician,  
visited the condemned men in their  
cells this morning, and closely noted  
their physical condition. In the mean-  
while Warden Devo had decided upon  
the order in which the men will go to  
the chair, as follows:  
First, Willis, the oldest and most  
impressible of the three; second,  
Harvey, the youngest, who has shown  
to be the most hardened; third,  
Burton, the second in point of age.  
At 5:30 it was reported by the warden  
that the men were in the best possible  
condition, and well served for their  
ordeal.

EXECUTED.

Willis Van Wormer entered the  
death chamber at 11:34:30, the current  
time was turned into the body one minute  
later. At 11:35:30 he was declared dead.  
At 11:36:30 Frederick entered the  
death chamber, at 11:42:00 the current  
time was turned on and he was declared  
dead at 11:43:30.  
Burton entered the death chamber at  
11:47:30 and he was declared dead at  
11:48:30. The entire proceedings from  
the start of the first man from his cell  
to the last consumed but 154 minutes,  
and no untoward incidents marred the  
execution of the law.

HISTORY OF THE CRIME.

Danemora, N. Y., Oct. 1.—In most  
pects the tragedy which closed to-  
day at Clinton prison with the death  
of the three Van Wormer brothers in  
modern criminal history. Only once  
before in this state is it recalled that

three brothers have gone to their death  
together for a murder in which they  
were jointly concerned.

On Christmas eve, 1901, with their  
cousin, Harvey Bruce, the three broth-  
ers drove from their home in Kinder-  
hook, some 14 miles to the hamlet of  
Greendale, in Columbia county, where  
lived Peter A. Hallenbeck, the uncle  
of the Van Wormers. On the way they  
stopped at the Greendale church, where  
they stole three vehicles of the  
farmers, a number of robes and whips.

SHOT THEIR UNCLE.

Thence they went on to the Hallen-  
beck house where Mr. Hallenbeck, his  
wife and aged mother were sitting in  
the lamp light in their living room.  
Both the women saw them drive past.  
A few moments later there was a knock  
at the door, and Mr. Hallenbeck an-  
swered it to find masked men before  
him armed with revolvers. Burton Van  
Wormer led the way and with him  
the old man knapped. At once all four  
began a fusillade of pistol shots, which  
fairly riddled the body of Mr. Hallen-  
beck. Mrs. Hallenbeck, the wife, ran  
into the kitchen and the brothers shot  
at her but missed. Her husband or-  
dered her to flee and she ran upstairs  
whether the older woman had preceded  
her and the two barricaded themselves  
in the attic.

ALL FOUR ARRESTED.

The four young men were soon after  
arrested, betrayed by their footprints  
in the snow and because they were  
known to have harbored bitter feelings  
and to have made threats against the  
uncle. The assaults saw him get the  
gun and fled. The old man fell to the  
floor and died.

TURNED STATE'S EVIDENCE.

Harvey Bruce turned state's evidence,  
and it is a large extent upon his  
testimony that the conviction of the  
three Van Wormer brothers was secured.  
He swore that on their way back from the  
scene of the crime each of the brothers  
boasted of having shot the uncle.  
It was shown that the bitterness  
which the brothers felt toward their  
uncle was due chiefly to his having fore-  
closed a mortgage upon the property in  
Greendale owned by their step-mother,  
the loss of which compelled their removal.

FOUND GUILTY.

On April 8 all three were found guilty  
and sentenced to the electric chair. The  
week ending May 30, 1902, their  
appeal to the court of appeals acted  
as a stay and the case went over until  
the present year.

RESPECTED.

The court fixed upon the week of July  
6 for the carrying out of the death sen-  
tence, but the Van Wormers have been  
twice resented by Gov. Odell.  
Except for the fact that Judge Cady  
in their behalf and for the futile at-  
tempt by Mrs. Van Wormer, the step-  
mother of the condemned men, by her  
appeal to Gov. Odell, no voice has  
been heard in their behalf.

BRUCE'S SENTENCE.

Harvey Bruce, their fellow in the  
crime, for the crime, as also did the  
trial and sentenced to imprisonment  
for eighteen years.

A PARALLEL CASE.

The simultaneous execution of three  
brothers is an unprecedented in the  
history of New York state, although it  
finds a parallel one must go back to  
June 7, 1825, when three brothers, Nel-  
son, Israel, Jr., and Isaac Thayer of  
the town of Boston, Erie county, were  
hanged simultaneously on a triple gal-  
low erected in the west side of Niagara  
square in the city of Buffalo. The  
crime for which the Thayers died was  
the butchery of a peddler named John  
Love.

LEWISTON NAT'L BANK.

National Bank of Commerce, New York,  
Made Reserve Agent.

(Special to the "News.")

Washington, D. C., Oct. 1.—The na-  
tional bank of commerce, New York,  
has been approved as reserve agent for  
First National bank of Lewiston, Ida.

HOLD-UPS IDENTIFIED.

Clayton Boys Say the Saloon Suspects  
Are the Men Who Robbed Them.

The Clayton brothers who were held  
up and robbed by two masked men on  
Monday night, this afternoon positively  
identified the two men arrested last  
night on suspicion of being the men  
who robbed the Coriander saloon, as  
the pair who held them up. The police  
also learned that the man Burns is an  
ex-convict and has quite a criminal  
record. The fellows were arraigned this  
afternoon on the charge of highway  
robbery and held in default of \$500  
bonds each. They entered pleas of not  
guilty.

HAS APPENDICITIS.

Prof. Will Ray, an instructor at the  
University of Utah, was operated on  
at the Holy Cross hospital this morning  
for appendicitis. While his case is a  
severe one it is believed he will pull  
through all right.

WINCHESTER POSTOFFICE.

Fred E. Winchester is Appointed Post-  
master.

(Special to the "News.")

Washington, D. C., Oct. 1.—Fred E.  
Winchester has been appointed post-  
master at Winchester, Highgate county,  
Wyo., vice Russell A. Winchester, re-  
signed.

## JAPAN SENDS TROOPS TO COREA

Move is Regarded as Relating to  
Russia's Proposition to Vacate  
Manchuria Oct. 8.

MAY ACCENTUATE SITUATION.

In View of All the Conditions it is  
Looked Upon as a Most Sig-  
nificant Step.

Paris, Oct. 1.—According to reliable  
information received here Japan has  
decided to send two regiments of in-  
fantry to Korea. This is regarded in  
authoritative quarters as being a most  
important step as affecting Russo-  
Japanese relations and as likely to ac-  
centuate the possibilities of a war  
crisis. Japan's decision is considered  
to be directly related to Russia's propo-  
sition to evacuate Manchuria Oct. 8.

It is now accepted in the highest quar-  
ters that this evacuation is impossible  
of accomplishment as China has not  
signed the terms on which Russia con-  
ditioned her evacuation in view of the  
fact that Japan's decision is considered  
to be directly related to Russia's propo-  
sition to evacuate Manchuria Oct. 8.

The advice received show that China  
declines to continue the present Russo  
status quo in Manchuria rather than  
commit herself to finally signing the  
proposed agreement in view of the  
conditions. Japan's decision to send  
troops to Korea is regarded as being a  
most significant step.

The advice further show that the war  
spirit in Japan has materially aug-  
mented during the last fortnight.

## KILLED WHILE DUCK HUNTING.

(Special to the "News.")

Ogden, Oct. 1.—Daniel Ogden, one of  
Ogden's most prominent young men,  
merchant, and a member of the firm of  
Ogden Brothers, grocers, was accident-  
ally shot and killed this morning near  
the mouth of the Weber river, while  
out hunting. Mr. Ogden, with about 15  
others, went out yesterday to take ad-  
vantage of the opening of the duck sea-  
son. He arose at daybreak this morn-  
ing and started out with some of his  
companions in quest of ducks. The  
party had not been out long when Mr.  
Ogden was seen to assume a kneeling  
posture, as if going to shoot. As some  
of his companions approached, it was  
noticed that he was bleeding from the  
head and a moment later, before he  
could be spoken to, the young man re-  
ceived a fatal wound in the chest.

His friends were horror  
stricken when this discovery was made.  
The body was brought to Ogden by  
Dr. Snedaker and Thomas Wiggins  
and when the news of the sad affair  
was noised abroad it created a profound  
sensation in this city, where Mr. Ogden  
was well known and highly respected  
for his many sterling qualities. The  
deceased leaves a wife and several chil-  
dren who are prostrated because of the  
affliction that has come upon them.

CHILD FATALLY CRUSHED.

The little eight-year-old daughter of  
Henry Child fell from a wagon loaded  
with tomatoes this morning, with the  
result that the rear wheel passed over  
her shoulder and across her body, bad-  
ly crushing her. The child was instant-  
ly conveyed home and Dr. Forbes called  
in to attend her, but her injuries are so  
severe that it is feared they will prove  
fatal.

SAMUEL ROSENBLUTH DEAD.

Samuel Rosenbluth of the firm of  
Rosenbluth & Oppman, well known  
merchants of this city, died at 12:30 this  
morning after a few days' illness. Mr.  
Rosenbluth was afflicted with heart  
disease and this is supposed to have  
been the cause of death. The deceased  
was about 40 years of age and leaves  
a wife and several children. The fu-  
neral has not yet been arranged.

DIED SUDDENLY.

John Moore of Richfield Stricken While  
On His Way to Kanosh.

(Special to the "News.")

Richfield, Oct. 1.—John Moore, a  
prominent mining man of this city, died  
suddenly at 5 o'clock this morning at the  
Robinson ranch in Clear Creek can-  
yon. While on his way to Kanosh he  
was taken with severe cramps in the  
stomach and bowels and died within  
three hours. The body is now on its  
way here for burial. The deceased was  
about 45 years of age and leaves a wife  
but no family.

TOMORROW'S ORGAN RECITAL.

THE SENSATIONAL DISBARMENT PROCEEDINGS

The sensational disbarment proceed-  
ings against Attys. Alviras E. Snow,  
J. M. Bowman and J. W. Wilkins did  
not come up in the supreme court to-  
day owing to the inability of Dist.  
Judge Marioneaux, who sat in the  
case over which the disbarment pro-  
ceedings arose, to be present. The  
matter was continued by the court un-  
til Nov. 3. The case out of which the  
disbarment proceedings arose is that  
of Morrison vs. Alviras E. Snow and  
the Morrison Mining company.

## FAIR GATES ARE SWUNG WIDE OPEN.

And Many There Are Who Want  
In Thereat During First Day  
Of the Big Display.

EXHIBITS NOT ALL PLACED.

Task Will be Completed This Evening  
And Then Patrons Can See All  
There is to See.

WEATHER CONDITIONS WERE BAD

Products of Farm, Orchard, Factory,  
Mines, Schools and Handi-  
craft on Every Hand.

SHOWERS TONIGHT;  
DITTO TOMORROW.

Observer Lodholz, who is tem-  
porarily in charge of the local  
office of the weather bureau, has  
nothing but cold comfort for the  
managers and patrons of the  
State Fair. Asked concerning the  
weather this afternoon, he stated  
that he expected showers tonight  
and something of the same sort  
tomorrow.

Huge pumpkins, mammoth squashes,  
gigantic potatoes, fruit galore, fat  
stock, crowing roosters, splendid horses  
and Utah's home industries tastefully  
arranged are not the least of the at-  
tractions which were thrown open to  
the public at 1 o'clock this afternoon  
on the occasion of the Twenty-sixth  
annual exhibition of the Deseret Agricultural  
and Manufacturing society. From now  
on for a solid week the show will un-  
doubtedly be patronized by thousands.

The opening ceremony was very  
brief. President Empey simply walk-  
ing into the manufacturers' building  
at the time indicated, and declaring  
the fair to be opened.

Despite the threatening weather the  
crowds began to arrive shortly after  
1:30 with indications that there will  
be close upon 5,000 visit the grounds  
today. Most of those who came  
this afternoon had the horse  
races in view, with a whirl around the  
Midway to follow. While there is still  
a lot of work to be done in putting  
finishing touches to the exhibits every-  
thing will undoubtedly be in place by  
6 p. m.

As it is, the fair this year is a good  
one aside from the attractions that  
have been furnished by the manage-  
ment for the entertainment of the vis-  
itors. Owing to the rain the grounds  
are free from dust and everything looks  
green and fresh. The exhibits, too,  
show marked improvement over those  
of last year and they are displayed  
with taste and in some cases in a novel  
manner.

The erection of a building for the  
fruit and vegetable displays also is a  
step in the right direction, while words  
of praise are heard from the poultry,  
sheep and swine owners for the manner  
in which the accommodation of the  
stock is this year provided.

There is plenty of room in which to  
show off the points of the animals,  
while the stock, owing to the new  
buildings erected, are kept out of the  
heretofore risky draughts and generally  
protected from any cold breezes that  
may come up.

THE MAIN BUILDING.

Exhibits Present a Dazzling Array  
Of Color and Effect.

Although all the exhibits are not yet  
in place in the main building every-  
one is working hard so that everything  
will be in order by this evening. While  
there are a number of the usual exhib-  
its to be seen, this year is productive of  
a new variety of displays which is  
decidedly interesting. The educational  
department this year surpasses pre-  
vious efforts in the direction of dis-  
play, especially does this hold good in  
the manual training department. Dis-  
played for the first time to the general  
public are samples of the work that  
has been done by pupils in the city  
schools. The evolution of a piece of  
rough wood into a finished ruler, bread  
platter, envelope holder, penholder and  
other articles of domestic use is set  
forth in a manner which redounds to  
the credit of the superintendent and his  
corps of assistants. Some marvelous  
samples of invisible patching and  
needlework are also to be seen that  
were performed by girls of 12 and 13  
years of age. In this connection plain  
sewing is finely shown, the various

grades, including buttonholing and  
other work until the finished garments are  
produced. In this department the  
Fremont school is well to the front  
with a case of fancy dress collars and  
below that would discount the work of  
many adult seamstresses. The wood-  
work of the eighth grade is also very  
good, the pupils starting in with me-  
chanical drawings of the work to be  
done and following up with plans of  
every detail. It is stated that the cost  
per pupil throughout the school system  
for material used in this work in the  
city only amounts to 11½ cents per  
capita.

The kindergarten work also is very  
good, showing intelligence on the part  
of the tots engaged and a conception  
beyond that of the average child of  
every detail. It is stated that the cost  
per pupil throughout the school system  
for material used in this work in the  
city only amounts to 11½ cents per  
capita.

When it comes down to maps the  
Oquirrh school comes out strong. These  
maps are not the stereotyped affairs  
usually associated with geography for  
they indicate products, industries, civi-  
lization and historical subjects associ-  
ated with the territory. For instance,  
there is a map of Europe made out en-  
tirely of pictures culled from maga-  
zines and illustrated papers; the head  
of Napoleon is stuck on to represent  
the island of Corsica, and so on until a  
perfect outline of Europe is arrived at.

There are charts showing the devel-  
opment of wool and sugar beets from  
the raw material to the finished prod-  
uct, and a hundred and one other  
things that the previous generation  
recked not of in the way of education.  
The Venetian iron scroll work of room  
16 of the Oquirrh school is also one of  
the features.

While the Salt Lake schools have a  
good display when it comes to basket-  
and woodwork Utah county schools  
have distinctly a display that will  
eclipse the Salt Lake county efforts.

The other educational exhibits in the  
big building are not yet complete.  
The University of Utah has a display  
but choice display that is comprised  
of photographs and samples of manual  
training work. The Agricultural Col-  
lege and Utah Experiment station, at  
Provo, also will have a fine display  
when complete, in fact the finest, per-  
haps, of them all in that particular line.

SUGAR COMPANY'S DISPLAY.

One of the finest and most creditable  
displays in the whole fair is that of the  
Utah Sugar company from the Bear  
River valley. It occupies an entire  
corner of the main building and is  
like a band stand within. This stand  
is covered with dark purple cloth, in  
graceful festoons, hanging the pillars  
around the various distances from the  
roof in tall stalks of grain, while the  
ground is "shaded" with neat, oats,  
speltz, millet and barley artistically  
bunched. On the apex is placed a reg-  
ular straw beehive with bees flying  
around it. The exhibit is a unique and  
tasteful grouping of sheafs of selected  
grains grown in the Bear River valley,  
sheafs ideal in texture, quality and gen-  
eral appearance. Under the stand or  
canopy are arranged on shelves or  
benches selected varieties of apples,  
pears, grapes, plums, crab apples and  
other products which grow with such  
luxuriant growth in northern Utah.

The pumpkins are something immense,  
running in weight from 76 to 102  
pounds; and some of the potatoes weigh  
two and a half pounds. Some of the  
corn stalks are 12 feet high, and a dis-  
play of pumpkins just upon the legs, con-  
tains 100 specimens. Sugar beets there  
are which weigh from six to 20 pounds  
each, also mangel beets weighing 18  
pounds each. The exhibit is a unique  
and tasteful grouping of sheafs of selected  
grains grown in the Bear River valley,  
sheafs ideal in texture, quality and gen-  
eral appearance. Under the stand or

each, also mangel beets weighing 18  
pounds each. The exhibit is a unique  
and tasteful grouping of sheafs of selected  
grains grown in the Bear River valley,  
sheafs ideal in texture, quality and gen-  
eral appearance. Under the stand or  
canopy are arranged on shelves or  
benches selected varieties of apples,  
pears, grapes, plums, crab apples and  
other products which grow with such  
luxuriant growth in northern Utah.

The pumpkins are something immense,  
running in weight from 76 to 102  
pounds; and some of the potatoes weigh  
two and a half pounds. Some of the  
corn stalks are 12 feet high, and a dis-  
play of pumpkins just upon the legs, con-  
tains 100 specimens. Sugar beets there  
are which weigh from six to 20 pounds  
each, also mangel beets weighing 18  
pounds each. The exhibit is a unique
