

HOUSE WARMING BY THE BOOSTERS

Permanent Exhibit of Utah Resources Soon to be Thrown Open.

ON WEST THIRD SOUTH ST.

Three Societies in Combination to Work for Greater Opportunities in Western Commercial Field.

The people of Salt Lake will soon have an opportunity to see in what manner of way their town is being boosted by the combined societies live for that purpose.

Ever since the M. and M. association launched itself into existence it has been seeking to prepare a splendid exhibit of what Utah can do, to show to admiring strangers from any part of the world. From present indications, the exhibit will be thrown open in the very near future to the inspection of Salt Lake.

The designs on the front of the building are unique. Across the side walk, and flashing its message far into the night hangs the ancient real estate motto, "Salt Lake, the City of Opportunity." On the windows are the "Buy the State" button reproduced and the state fair association's design, while within there are well appointed offices for each of the societies. The M. and M. association, the D. A. C. society, and the M. and M. association. Their combined exhibit has been in process of preparation for several months, and is now almost completed. One feature of it is most completely centered about the state an art exhibit, which are being hung in a specially lighted portion of the building.

ANNIE M. BRADLEY CASE.

Will be Some Time Ere the Grand Jury Reaches It.

(Special to the "News.")

Washington, D. C., Jan. 8.—It is not probable that the case of Mrs. Annie M. Bradley will receive the attention of the grand jury for some time to come. The jury has been completed, but there are many cases to be taken up that will doubtless have precedence as they are of longer standing than the shooting of ex-Senator Brown.

A plan affecting the grazing of cattle upon public lands of the state, and the proposed by Senator Burkett, of Nebraska. A bill has been introduced by him by which, under the authority of the president, bona fide homesteaders reading adjacent to vacant lands are to be permitted to graze their cattle thereon, paying for the privilege reasonable prices. Prosecution is to follow those who would make use of the lands without the necessary government permission. The contracts are to be of no longer than 10 years' duration.

At a reception given last evening by Mr. and Mrs. James W. Pincin and Forester Gifford Pincin, who is their son, Senator and Mrs. Reed Smoot were among the guests. The reception was held at the residence of Mr. Pincin, and was very largely attended, there being present, in addition to the ones named, Secy. of Agriculture Wilson, Senator and Mrs. Clark of Wyoming, and Senator and Mrs. W. A. Clark of Montana and many other persons of note.

WIDOWER WANTS JOB.

He Has Never Been Drunk and Can Speak Three Languages.

Postmaster: Thomas is in receipt of a peculiar letter from Erie, Pa., which reads as follows: "Erie, Pa., 12-31-06: Please let me know by return mail if there could be a job for me. If so I will be there as an answer. Hope not to be refused. My age 40. High 5 1/2. Weight, 15 lbs. Never been drunk or in jail. I speak Polish—German—English. Humble Servant, Martin Mazay, Widower."

VITAL STATISTICS.

Report of the City Board of Health For December.

The report of the city board of health for the month of December shows that the death rate was 11.2-3 per thousand and the annual death rate for the year 1906 was 14.24 per thousand, as compared to only 10.04 per thousand for the year 1905. During the month there were 59 deaths while in December, 1905, there were 69. There were 177 births for the month, of which 92 were males and 85 females. A total of 61 contagious and infectious diseases were reported during the month.

TRAIN MISSES BUGGY.

Narrow Escape of Stanley Taylor and Two Sons in O. S. L. Yards.

What might have been a terrible accident was averted by the presence of Stanley Taylor, Monday evening. Mr. Taylor, who resides at 704 West Third South street, and two sons were driving across the Oregon Short Line yard on Third North street after dark Monday, when a freight train came suddenly from the darkness and ran over the buggy. The Taylor family was pulled up quickly and the horses by a few inches. Just missing the train was Stanley Taylor, his two sons and a few inches. The Taylor family was pulled up quickly and the horses by a few inches. The Taylor family was pulled up quickly and the horses by a few inches.

LIEUTENANT BOWMAN.

IN FORTY-EIGHT HOURS PE-RU-NA CURED HIM.

Cold Affected Head and Throat—Attack was Severe.

Chas. W. Bowman, 1st Lieut. and Adjt. 4th M. S. M. Cav. Vols., writes from Lanham, Md., as follows:

"Though somewhat averse to patent medicines, and still more averse to becoming a professional affidavit man, it seems only a plain duty in the present instance to add my experience to the columns already written concerning the curative powers of Peru-na."

"I have been particularly benefited by its use for colds in the head and throat. I have been able to fully cure myself of a most severe attack in forty-eight hours by its use according to directions. I use it as a preventive whenever threatened with an attack. Members of my family also use it for like ailments. We are recommending it to our friends."

—Chas. W. Bowman.
Ask Your Druggist for Free Peru-na Almanac for 1907.

AMUSEMENTS.

Theater—Florence Roberts and her company presented "The Strength of the Weak" before a second large audience last night. The final performance will be this afternoon, and tonight will be seen the entirely new play, "Maria Rosa."

The sale of seats for McIntyre and Heath is now going on at the theater box office. A big reception is expected for these old-time favorites.

Orpheum—The Orpheum last night played to standing room only, following an off night on Monday, and the bill as a whole made even a better impression than at its opening.

Grand—The last performance of "Railroad Jack" will be given this evening. It will be followed by "A Man of Mystery" tomorrow night.

Lyric—"The Detective" is going to good business at the Lyric. Next week's attraction will be "Faust."

RHODES SCHOLARSHIP.

Examination for Oxford University Open to Young Men of Utah.

The Oxford University examination for the Rhodes scholarship will be held in the University of Utah library building on Jan. 17 and 18, commencing each day at 9 a. m. J. T. Kingsbury, chairman of the examining board for the State of Utah, announces that the examination will be open to all young men of this state and will take in the following subjects:

Translation from Latin into English. Latin prose, arithmetic, translation from Greek into English, Latin grammar, Greek and algebra or geometry.

REALTY DEAL CALLED OFF.

M. B. Lichtenstein Files Suit to Recover Payment on Property.

One of the big real estate deals recently consummated in this city has been called off because of the failure of the seller to furnish a good deed to the property.

M. B. Lichtenstein has filed suit in the district court against Adolf Fleishman to recover the sum of \$2,500 which he paid down on the purchase price of the property at Fourth South and East Temple streets. It is alleged in the complaint that the price agreed upon was \$33,000, and that the plaintiff was to have until Jan. 3, 1907, to examine the title and pay the remainder of the purchase price, and that on that date the defendant could not deliver a warranty deed to the property. Hence plaintiff asks for the return of his \$2,500. Fleishman claims that the title to the property was insured by a title company and he still insists on plaintiff carrying out his end of the contract.

NEW REALTY COMPANY.

Organized to Plat Tract of Land on Northeast Bench.

Articles of incorporation of the Telluride Realty company of this city have been filed with the county clerk. The capitalization of the company is \$150,000, divided into shares of the par value of \$1 each. The directors of the company are A. M. Winch, Telluride, Colo.; B. Fuller, Provo; W. L. Biersach, Provo; W. A. D. Smith, Provo; Frederick Stelmeyer, Telluride, Colo. The company has purchased from L. L. Nunn a tract of land containing 42.3 acres just north of the University of Utah and east of Popperston Place which will be platted into city lots and improved and sold. The purchase price was \$30,000 for which Mr. Nunn accepts 30,000 shares of the company's stock. The realty purchase by L. L. Nunn from the young of the tract of land east of Popperston for \$30,000, was filed for record yesterday afternoon.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure any case of itching, bleeding, protruding Piles in 6 to 14 days or money refunded.

TABERNACLE CHOIR.

Tabernacle choir members are requested to bring copies of the "Messiah" with them to rehearsal tomorrow night. The Juvenile singing classes will meet in Barratt hall next Saturday at half past 11 o'clock.

WILL GIVE PROGRAM.

Butchers and Grocers' Association to Have an Entertainment.

Thursday evening, at their hall, 21 West First South street, an entertainment will be given by the Butchers and Grocers' association. The admission will be free, tickets being obtainable from the butchers and grocers, and the following program will be rendered:

Quartet.....J. D. Bowers, W. A. Sperry, Alma Ellis, F. H. Wright
Tenor solo.....J. D. Bowers
Soprano solo.....Alma Ellis
Recitation.....Little Miss Clara Callister
Duet.....Teasie Arthur and Susie Steadman
Piano solo.....Miss Edith Burns
Vocal solo.....Miss Branning
Quartet.....J. D. Bowers, W. A. Sperry, Alma Ellis, F. H. Wright
Vocal solo.....E. Larsen, B. Borne, H. Bush
Vocal solo.....Little Miss Jensen, four years old.

NEW CATALOGUE OF CHURCH WORKS.

Just issued. Send to Deseret News Book Store, Salt Lake City, Utah, for a free copy. Special terms to dealers.

CHURCH NOTICES.

The regular monthly ward and stake officers' meeting of the Salt Lake stake Y. M. M. I. A. and Y. L. M. I. A. will be held in the Fourteenth ward hall Friday, Jan. 11, at 7:30 p. m. A full attendance is requested.

GEORGE Q. MORRIS, Supt. LUCY W. SMITH, President.

The regular monthly meeting for January of the Young Men's and Young Ladies' Mutual Improvement associations for Salt Lake stake will be held Friday evening next in the Fourteenth ward hall. This is a change in the regular date, as it is planned in future to hold the meeting on the second Friday of each month instead of on the first Monday, as was previously the custom.

The priesthood of Ensign stake will convene in regular monthly meeting Friday next, the 11th inst., at 7:30 p. m., at the Twentieth ward meetinghouse.

RICHARD W. YOUNG, JOSEPH S. WELLS, JOHN M. KNIGHT.

The regular monthly meeting of the Liberty stake Primary officers will be held in the Second ward meetinghouse, Saturday, Jan. 12, 1907, at 3 p. m. Secretaries will please bring their minute books for inspection.

JOSEPHINE WOOLLEY, Pres. EFFIE SPIERS, Secy.

The high priests' quorum of the Ensign stake will hold its monthly meeting in room 21, Lighthouse Young Men's building, next Sunday morning, Jan. 13, at 10 o'clock.

HAMILTON G. PARK, JOSEPH H. FELT, LEVI W. RICHARDS, Presidency.

UTAH SCHOOLS ARE SEVENTH ON LIST

Only Six States in Union Which Spend More Per Capita On Children.

SMALL TEACHERS' SALARIES.

State Superintendent Nelson in His Report Recommends a Number of Changes for the Better.

State Supt. of Schools Nelson has filed his biennial report for two years, ending June 30, 1906, with Governor Cutler. It contains much interesting information concerning the schools of the state and shows that there are only six states in the Union which spend more per capita on their school children than does Utah. The report also states that Utah has more school children in proportion to its entire population than any other state in the Union. A number of important recommendations as to the school system of the state are also embodied in the report. Among them are the establishment of a school for feeble-minded children; providing a fixed salary for the maintenance of the University of Utah and the Agricultural college, and the appointment of a commission on course of study to serve without salary.

INCOME UNSATISFACTORY.

It is stated that the income for the maintenance of the schools is not increasing as fast as the school population or the expenses. During the year 1905 the expense of the schools of the state amounted to \$1,784,354.75, with a school population of 51,682 pupils. This was a cost of \$34.49 per capita. In 1906 the expenses of the schools were \$1,757,111.75, with a school population of 52,877, which was \$33.25 per capita.

The following comparative table shows the growth of the schools in the past 10 years:

	1906.	1905.
Money expended.....	\$ 900,955.35	\$1,976,121.42
School population.....	79,393	82,484
School attendance.....	69,950	\$1,050
Valuation school property.....	\$1,356,851.45	\$4,671,798.23

The six states in the Union which expend more money per capita on their school children than Utah are New York, North Dakota, Colorado, Nevada, Washington and California.

HIGH SCHOOLS.

Supt. Nelson reports that there are now 33 high schools in the state, and that the work in that respect has been very pleasing during the past two years. Only a few years ago Utah country had only 40 high school pupils, while now it has between 400 and 500. A number of the high school buildings have been constructed in the state during the year of which was March, costing \$21,000. He recommends that the legislature set aside a portion of the state school fund for high school purposes in accordance with the constitution. The amendment passed at the last election. The teachers of the state do not receive large enough salaries, as the average salary paid to male teachers outside of the cities of the first and second class is only \$69.17 for a term of only 7½ months.

UNIFORM SYSTEM OF EXAMS.

The uniform system of examinations throughout the state has done much to increase the standard of efficiency among the teachers and has been the means of eliminating incompetent teachers. The county teachers' institutes held in the various counties have also been of great benefit to the teachers.

As to the higher educational institutions of the state, the report says that they are ably conducted and that some of the best educators in the country are to be found in Utah. Mr. Nelson again recommends, as he did in 1902, that the University of Utah and the Agricultural college be given a fixed portion of the school fund for their maintenance, then they will know what to work to. Had this been done when first recommended the superintendent says that a great deal of trouble and friction in those institutions could have been avoided.

COURSE OF STUDY.

Mr. Nelson recommends that the course of study throughout the state be made absolutely uniform and to that end urges that a commission on course of study be created to control that matter. The free text book system has worked very satisfactorily according to the report and the cost of text books has been greatly decreased through that medium, and higher class records have been made also.

SCHOOL CENSUS.

It is also recommended that the time of taking the school census be changed from July to the first and second weeks in October each year. In support of that recommendation it is stated that during the summer months so many of the school children are away from their homes and hence the census is very inaccurate. It should be taken when the children are attending school. The total value of all the school buildings in the state is estimated at \$3,000,000 and during the period covered by the report the value to the value of \$256,702 have been constructed in the state.

INTERESTING STATISTICS.

The report closes with the following statistics which are very interesting:	
School districts in state.....	338
Common schools in state.....	668
High schools in state.....	34
Graded schools in state.....	417
Mixed schools in state.....	251
Superintendent employed.....	24
Supervisors employed.....	13
Teachers employed, (male, 567; female, 1,825).....	1,392
Trustees and members school boards.....	1,000
Average monthly salary for male teachers.....	\$6.40
Average monthly salary for female teachers.....	\$5.41
Total amount paid for teachers' salaries.....	\$61,780.21
Total amount of \$-mill state school fund.....	\$30,020.51
Total amount of county school taxes.....	\$60,961.41
Total amount of special taxes.....	\$14,761.26
Whole amount for common schools of state.....	\$145,742.15

BACK FROM MEXICO.

Jesse N. Smith, Jr., W. G. Sears and B. H. Alfred Tell of Conditions.

Jesse N. Smith, Jr., W. G. Sears and Byron H. Alfred, Jr., of Mexico, are here combining business with a visit to relatives and friends in Salt Lake and various parts of the state. They report the Mormon colonies in the sister republic to be in a flourishing condition. The Mexican states are fast filling up with progressive homeseekers and capitalists, mostly from the United States. The country is rapidly being developed into a great industrial, agricultural, horticultural and other lines. Rich mines are being opened up that will provide ample and profitable markets for the products of the soil. The state of Sinaloa, bordering on the Gulf of California, is one of the youngest,

Why Vinol Is Better Than Any Other Remedy to Restore Health and Strength

Because Vinol is a real Cod Liver Preparation and does not contain a single disagreeable or harmful ingredient and is not a secret formula.

Because Vinol contains all the medicinal elements—the soothing, healing, strengthening and flesh creative properties of Cod Liver Oil—but without oil or grease.

Because everything in Vinol,—except the tonic iron and a fine old wine,—is actually extracted from fresh cods' livers and their oil.

Because Vinol is deliciously palatable and agreeable under all conditions. Everybody likes it.

Because Vinol tones up the system, strengthens every organ, nerve, muscle and fibre of the whole body and thus overcomes weakness by thoroughly eradicating the cause of disease.

That's Why Vinol is altogether different and better than any other remedy for Coughs, Colds, Bronchitis, and all Throat, Lung and Wasting Diseases.

That's Why Vinol Restores Health and Strength to Delicate Children, Feeble Old People, Weak and Sickly Persons, Nursing Mothers, and Convalescents.

WE RETURN MONEY IF IT FAILS TO GIVE SATISFACTION

DRUEHL AND FRANKEN, ALSO SMITH DRUG CO.

but most vigorous portions of the republic. It is called "The California of Mexico," and is equal in climate and productivity to the southern portion of the Golden State. In the raising of oranges it even has an advantage over the northern sister, as the fruit is available for the market at Thanksgiving time, a thing almost unheard of elsewhere.

The coldest day of last winter in Sinaloa, say the visitors, was 77 degrees, seven points above freezing, and although the thermometer sometimes reaches 60 degrees in summer, ocean breezes moderate the effect of the heat, until the condition is altogether quite comfortable.

Chihuahua borders on the United States, and the climate there is about midway between that of Utah and of Sinaloa. Cereals, vegetables and the harder fruits thrive abundantly there, as all tropical fruits do. Similar results are obtained in both provinces, products bring good prices and the tariff is sufficient to enhance the value of manufactured articles.

In Chihuahua are 22,000 acres of desirable land for homesteaders for which colonists are being sought, while in Sinaloa there are 100,000 acres, also available just now. The companies owning these lands are represented by Messrs. Smith, Sears and Alfred.

in every state in the union and then some.

Favors Consolidation.—Dr. Sanford Bell, head of the department of education in the University of Colorado, favors the idea of consolidating the University of Utah and Agricultural college. He says Colorado is sorry her state educational institutions are separate. Dr. Bell says the consolidation of the two schools in this state would be more economical and would have other advantages, such as the effect of broadening the young farmer-student in being brought into contact with young men from the city and vice versa. The visitor from Colorado says locality should not play in the matter of consolidation at all; the state should be considered and not a city, town or country. After visiting schools in this neighborhood Dr. Bell will return to Colorado.

Miner From New Orleans.—J. Weinberger of New Orleans has registered at the Wilson. Mr. Weinberger with several New Yorkers own mining property in Gold Canyon, a few miles from Cherry Creek. The Gold Canyon Mining company was organized and has acquired 24 claims and is preparing to push development ahead as rapidly as possible.

A. E. Howes of Morgan.—A. E. Howes of Morgan, Utah, is in Salt Lake. He is secretary and treasurer of the Chicago-Utah Copper Mining company which holds a number of claims within a few miles of Morgan City. Mr. Howes says the mine now under active development is improving steadily; good milling ore being piled up for future shipping. The property has a 100 foot tunnel and a 90 foot shaft. Both show ore. While here he is located at the Cullen.

HOTEL GOSSIP.

Not a Nightmare: the Real Thing—Ray D. Harris, journalist, newspaper man, mining promoter, sporting general and globe trotter is in Salt Lake. He registers from Seven Troughs, Nevada. While listening to the orchestra in the Wilson hotel lobby yesterday afternoon Harris told of a life of wandering. Harris is not old but he has lived a long while and seen a good portion of the old globe. "Say did you ever wake up in the night and find yourself looking down the barrel of a gun?" he asked suddenly. His companion confessed that such a pleasure had never been "hisn." "I did," continued Harris thoughtfully. "I woke up one night and looked down several. Quite a little surprise party had been arranged for me. I gazed first down the yawning, black depth of one barrel into another. I asked the men behind the guns not to get nervous for if one of them had pulled a trigger—well I would not be now getting so wealthy in the Rosebud district. The leader of the gang told me to get up. did this and suggested that I should call and suggest. They lead me to a nice, muddy, creek outside and then suggested that I sit down in the water. I did."

"After suggesting more fool and unpleasant acts, which I performed in the dark frostiness of the winter night, the gang suggested that I 'vamoose', which in polite English means 'skidoo'. I did. You see this was in Montana I did. The miners of this certain little town were laboring under the impression that I was surveying their township for claims. Hence I did a knowledge of mine, accompanied by the music from a dozen healthy revolvers." Mr. Harris is visiting Salt Lake to transact business pertaining to his holdings in the Seven Troughs and Nevada districts. He was working on a Salt Lake daily before leaving for Nevada the last time. He has been

KEITH O'BRIEN

Reductions in Boys' Clothing!

The section for Boys' Clothing is crowded for room.

It is necessary, therefore, to greatly reduce stock before early spring shipments begin arriving.

Every line is to be pushed, which means lowered prices.

Better values were never offered than right now

Children's apparel is bought by mothers. They know our stock; know values; the excellence of the apparel appeals to them. When a suit is bought it is found to be well made. The quality of the material is such that the suit holds the shape. It wears longer than the ordinary suit because we pay the manufacturer a little more to make the suits a little better, a little different.

The suits have style—cut and made along tailored lines; the buttons are sewed on tight; reinforced where it's necessary.

Regardless of price each suit is better than similar priced suits elsewhere.

Boys' suits in mixtures—with straight pants—reduced from \$2.50 upward to \$2.95 to—

\$1.95

\$3.50 upward to \$4.50 suits are reduced to—

\$2.95

Sizes 8 to 16 years.

White bear skin coats in broken sizes are offered at

Half-Prices

Boys' overcoats are being sold at a reduction of ONE FOURTH

Other tempting features.

The Virtue of Mastication.

(From "The Tribune" Correspondent.)

New York, Oct. 5th. Professor Irving Fisher, of Yale University, has been conducting experiments upon nine Yale students since last January in order to determine the effects of the thorough mastication of food. He has found that their endurance is increased 50 per cent, although they took no more exercise than before the experiments, and although they diminished their consumption of flesh foods to one-sixth the original quantity.

These experiments emphasize the advantages of the scientific food, GRAPE-NUTS, which, when eaten properly—that is, crisp and dry, direct from the package, with a little cream or milk—requires thorough "chewing."

Grape-Nuts comes in delicate crisp granules, intended to be ground up by the teeth. The work not only preserves the teeth but brings down the saliva from the gums so necessary in the primary work of digestion.

If your teeth are fit, chew, chew, until the food is liquid and insists on being swallowed.

If teeth are faulty, soften Grape-Nuts with cream or hot or cold milk and allow to stand a minute soaking, but even then don't forget to chew.

Many people say (and it is true) that when they eat Grape-Nuts they seem able to digest not only that food but other kinds which formerly seemed indigestible.

There's a Reason for

Grape-Nuts.
