Answers.—This depends on a fair construction of our statutes on this subject.

Sec. 14, of the February 19, 1884 Act, Chapter 305, Sec. 14, provides that at the general election for 1877, and biennially thereafter, there shall be elected for each county of this Territory a superintendent of district courts of the county; and no office shall be held for more than two years and no person shall be elected or re-elected. The act of February 20, 1880 says, 31—2 Sec. 14, provides for an election of Territorial and County superintendents of districts and counties at the August general election in 1881, and biennially thereafter. By section 22 of this act, found on page 36, the Territorial and County superintendents to then be elected were to continue to discharge the duties of the offices until offices filled superseded by election under this act. By the act of February 19, 1880, it is provided that in the absence of any competent person to fill the County Court, the County Judge, the County Court Clerk or Probate Judge, shall fill the vacancy until he judges the County Court ready to fill such vacancy by appointment. But this act is silent as to the term of office of the person so appointed, and the question is, does he hold office until the election in 1880 or until the election in 1881.

If we examine carefully our acts in the subject of District Schools, we shall find the policy to be to elect

have a good demand for wagons over the next year, not having much stock of good, seasoned material on hand, they are obliged to partially seasoned timber, hence their wagons are poor.

Thirteenth.—This can never occur, the next year, as they have stock enough for four or five years' run at all times, and each can cut enough stock to make up for what is used the preceding year.
