A Great Battle Raging!

Communists Dispirited!

Rocheport Arrested While Attempting to Escape!

NEW YORK.

The Pennsylvania strike ended.

New York, 20.—The Pennsylvania strike is now bringing in an average of six hundred car loads of coal daily, or about the same as last year, and will run a thousand car loads daily by the middle of next week. The Jersey Central road is now delivering five hundred car loads daily. It is expected the price will be down to five dollars in a week.

Seriousness, dated last night, say cannons are firing and bells ringing over the special resumption of work in all the collieries of the Delaware, Lackawanna and Western Co., for which arrangements were finally completed at 10 o'clock last night.

ILLINOIS.

Presbyterian Assembly.

CHICAGO, 20.—In the Presbyterian Assembly yesterday, the committee on union with the United Presbyterian church reported through their chairman, they had met at Pittsburgh in March, 1871, and there was a most delightful spirit pervading the whole assembly. They had presented a basis of the union, as also had the United Presbyterian church. After some discussion, the following resolution was adopted: Resolved, that the Assembly, without expressing its opinion on the basis of the union, as presented, continue the committee, with instructions to seek a basis on which both parties may perfectly and harmoniously unite.

After the standing committee were announced, the question of the adoption of a plan for the next general assembly was taken up. The Rev. Dr. Poor, of San Francisco, made an earnest appeal for the next meeting of the assembly to be held in that city. It was very important that the Presbyterian church should get a more powerful influence on the Pacific coast.

Mr. Brown, of Colorado, proposed, in a very earnest speech, the delegates, that San Francisco be selected by acclamation.

Rev. Dr. Edwards hoped that the matter would be postponed, and moved that it be made the special order of the day for next Friday. He made a strong speech in favor of Baltimore being selected.

Rev. Ben Edmund, of Stockton, alluded to the Chinese question. He thought came to his mind that one out of every four of the inhabitants of the world was a Chinaman. Through the missionary field was west of the Mississippi river, especially west of the Rocky mountains. He urged the selection of San Francisco with great eloquence, and seemed to make quite an impression on the assembly. Without disposing of the question the assembly adjourned till to-day.

CALIFORNIA.

New railroad to Utah—Billings—Killing news—Attempted suicide—Road-stomach.

SAN FRANCISCO, 20.—Rodolphe having returned from the north with his more match game with Dion before going out.

The Germans are pushing on their club organizations in each ward. Last night they organized a large club in the second ward.

Attorney-General, John Hamilton addressed the Young Democrats at length last evening, making one of his peculiarly characteristic speeches.

The Young Men's Republican Club elected three new members on the executive committee, Chas. M. Leary, N. A. Sawyer, J. J. McMillan.

The weather is warm and dry. It is noticed that there is a much greater percentage of visitors from the east to this coast preparing to remain here.

during the greater part of the season, than last year. A large number are engaging board for the summer at San Rafael, Santa Cruz, Pescadero, Calistoga and other public resorts.

The friends of the rival candidates for the nomination of the governorship are working actively to-day to secure an organization of the Republican ward clubs this evening. The friends of Mayor Kelly are very active, as are those of Newton Booth, the whole contest being between these two candidates.

Mining news from Arizona is of a most encouraging character. The Elmer company near Phoenix, have shafted down nearly thirty-five feet in solid sulphurated limestone to yield \$3,000 a ton. The Bradshaw and Flagstaff districts are developing splendidly.

The California Central eastern extension railroad, to form part of a through line from San Francisco to New York, will be incorporated on Monday.

The weather continues unusually pleasant. All lines to Yosemite are crowded to their utmost capacity. Over two hundred will take the trip next week.

The news of the railroad combination for building a through line from San Francisco to Salt Lake, has created quite a sensation in New York, and Jay Cook is out with Mr. DeLasky, agent for the European capitalists, as stated, and may be fully relied on. The incorporation would have been filed to-day, but for the absence of Mr. Roelinson, who is out with Mr. DeLasky, agent for the European capitalists, inspecting the road.

This morning John P. Black, an eastern man, stopped at the Occidental hotel, 20, Washington street, where, shot himself in the breast with a deringer, and then jumped into the bay. He was rescued by a party of Italian fishermen and taken to the hotel. On the way he had two fits, and is now lying in a very precarious condition. The bullet hit the rib and glanced off, failing to inflict a mortal wound. He says he had lost everything in stocks.

Several hundred persons witnessed the trial of Col. Hyde's steam road wagon to-day. It drew a truck with two iron columns, weighing 50,000 pounds, at a smart trot up the hill from the Miners' foundry on First St., over Second street hill to South Beach, and was pronounced an immense and perfect success by all who witnessed the trial.

FOREIGN NEWS.

FRANCE.

Rocheport arrested—Spies shot—A battle raging.

HAVRE, 20.—The American steamship Relief is here.

The Prussians have evacuated Yvetot. Versailles, 20.—Rocheport was arrested attempting to escape from the Commune and brought to Versailles to-day.

The steamship William, and was burned near Ventour. It is supposed all on board were saved.

PARIS, 20.—Two spies were shot yesterday. Four individuals are condemned to death on account of the explosion.

The central committee is again the principal power.

The Commune journals declare the federal position solid everywhere. The organization is improved and the positions are strengthened.

The Prussians are at Auberville and Comby strongly entrenched.

St. Cloud, 19, 20.—A battle is raging at St. Cloud. Twenty thousand are engaged. At two o'clock the line of battle extended from the Bois de Bonlogne to Cliehygate. No decisive result yet.

The first hostage selected for execution are the Archbishop and Abbé de Guerry and Coeur.

VERSAILLES, 20.—The federalists have planned for the next general assembly. The commission orders the inhabitants occupying corner houses to leave, as such were to be occupied for loopholes.

GREAT BRITAIN.

LONDON, 20.—The Daily News says the reports of the Prussians going to attack Paris are unfounded. Several engagements have occurred at Neuilly. The Prussians say it is reported that Paris will have the military. Letters have been intercepted implicating Gambetta. A flag of truce arrived at Versailles from Paris. Dispatches from Paris say wounded are constantly arriving. The Commune is dispirited and preparing to explode the ramparts.

A New Industry.—The sweet potato, used in various forms as a substitute for coffee, in the brewing of beer, as well as for fattening farm animals, is now beginning to be used in making syrup. For sweetening that of the sugar, even of the sorghum in delacy of flavor, while the yield is much more abundant. The average product of a bushel of sweet potatoes is the raw material being preferred, is alleged to be over two gallons, and as the average yield per acre on poor sandy soil, is from 100 to 200 bushels, the product must necessarily be from 200 to 300 gallons of syrup. This must open to the view of the potato growers agriculturists a new and most profitable industry, one man, with a mule, being able to cultivate at least fifteen acres in potatoes. The seedman, after the juice for syrup has been extracted, is pronounced a valuable edible either for man or beast.
