Corrected Daily by BANK OF DESERET.

SALT LAKE CITY, September 5, 1871.

Buying at $1.10; Selling at $1.12.

WEATHER ITEM.—The highest point reached by the thermometer to-day was 90.

DIED.—With deep regret we announce the death, in this city, this morning, at minutes past 4 o'clock, in childbirth, Mary E., wife of Mr. Mark Croxall. The Funeral services will take place in President Young's School House, to-morrow morning at 10 o'clock. Friends are invited to attend.

CALLED.—Mr. Berry, of the firm of James T. Berry & Co., diamond brokers and dealers in jewelry, 575, Broadway, New York, called upon us this morning. Mr. Berry comes recommended by an old acquaintance and designs to open up business in this city.

POLICE.—A domesticated Indian, known as "Indian Bill," was, yesterday, fined $25 for being drunk and threatening to shoot some boys. He snapped his pistol several times, but fortunately it did not go off. A boy was fined $10, this morning, for stealing articles from the Museum.

(Special to the NEWS, per Des. Tel.)

LOGAN, 4, 7:50 p.m.

Bishop Preston has just arrived from Soda Springs. He is doing as well as could be expected. His arm is badly fractured. He was placed under chloroform for two hours, and Dr. Anderson extracted twenty-one pieces of bone, besides shot, wadding and clothing, out of the wound. He starts for Salt Lake City at 8:30, this p.m., under Dr. Anderson's care.

SWITCH EXTENDED.—Mr. Hardy, assistant engineer of the Utah Central Railroad, with a party went to Farmington yesterday and extended the switch, at that place, 500 feet, it being now 1000 feet, instead of 500, as stated.

LIVELY.—The part of First South St., lying west of Main St., between the Eagle, Emporium and the Townsend House is assuming very lively and business-like appearance. At least six new stores and offices of various kinds are in course of erection, besides quite a number which are entirely or nearly finished and ready for occupancy.

INFORMATION WANTED.—Sarah Hemingway wishes to know the whereabouts of Thomas Hemingway, who emigrated to Utah in 1853 or 1854. Address in care of J. R. Fairbanks, 61, Great Freeman street Nottingham.—*Mill. Star, Aug.* 15.

MARSHALS AND WARDENS AND THINGS.—Warden Rockwood and city Marshal McAllister were summoned to appear for trial yesterday, at the offices of Messrs. McCurdy and Morgan, on a charge of resisting the U. S. Marshal in the discharge of his duty, or rather for refusing to deliver to him the prisoner Kilfoyle without an order of court. The court was opened at half past three in the afternoon, Judge Hawley presiding, Mr. Morgan appearing in behalf of the Prosecuting Attorney for the prosecution, and Honorables Z. Snow and S. A. Mann, for the defense.

Mr. Morgan essayed in a few words to explain the nature of the case. The explanation however was so ambiguous and jumbled that it was difficult to catch his meaning.

Both parties wished for time to enable them to make thorough preparation, which was granted, Wednesday (to-morrow) morning, at ten o'clock, being the time chosen for proceeding with the case.

The court said it would be necessary for the defendants to give bonds for their appearance at that time. Marshal McAllister said that Marshal Patrick would, he had no doubt, be bondsman for him.

It was agreed that the defendants give their own recognizances for one thousand dollars each. Z. Snow inquired of the court whether the recognizances should be made out in favor of the people of the United States or the people of Utah Territory, whereupon he (the court) turned his eyes towards the ceiling, where they remained fixed for some moments, his face assuming at the same time, a somewhat puzzled expression. After a little reflection he said: "Well, I suppose it is immaterial which;" however, he would leave it with the counsel for the prosecution to say.

We could not help sympathizing with the judge in his unpleasant predicament. He evidently wished he knew whether the alleged offense with which the defendants were charged, was one against the laws of the United States or the laws of the Territory. If an offense be committed against the laws of the U. S., what reason would there be for the persons charged giving bonds in favor or in the name of the people of the Territory, and *vice versa*? Yet Judge Hawley says, he supposes "it is immaterial."

On the matter being referred to the counsel for the prosecution (Mr. Morgan), it was arranged that the papers be made out in the names of the people of the United States.

COMPLIMENTARY AND LIBERAL.—We have received a complimentary invitation to the First Industrial Exposition of Kansas City, Mo., which is to open on the 16th of October, and continue one week or longer. The invitation is addressed "To Editor DESERET NEWS (or his representative) and ten or fifteen ladies;" and the Managers promise to exert their utmost endeavors to make our visit one of pleasure and profit.

Were it in anywise convenient for us to attend, personally or by representative, which we fear it will not be, we should be happy to accept the invitation in so much of its fullness as our humble domestic establishment would permit, and we must return our sincere thanks for the liberality manifested in the invitation. It is an evidence of progress in a right direction, progress which we expect to see continue and increase until a resident of this Territory can travel in any part of the Union, with his whole family, if he chooses, and be certain to receive as much civility and courtesy as any gentleman, with his entire family, large or small, from any other part of the Union or of the world, invariably receives when he visits Salt Lake City or Utah Territory. We must again thank the Managers of the Kansas Industrial Exposition for their courtesy and kindness and commend them for setting so marked an example of liberality, which deserves to be followed by other public bodies in the various States and Territories of the Union.

VACCINATION AGAIN.—Dr. J. J. Murphy late of Augusta, Ga., but now of this city, has had a very large experience in the treatment of small pox, and has had, probably as many opportunities as most men of testing the efficacy of vaccination. He called in recently, and gave us a few of his ideas on the subject, the publication of which, we think, may prove useful to the people, the Dr's. conclusions being founded upon and drawn from his practice and experience.

In the first place he says he is positive that vaccination is a safe-guard against the attacks of small pox, if the vaccination be done properly, and often enough. Care should be taken that the matter used is from a healthy animal, or subject; and to be rendered completely small-pox proof the operation of vaccination should be repeated until it produces no effect whatever upon the patient. The number of times required will vary according to the physical condition of the latter when it is commenced; but when this point is reached, whether it be the first time, or a dozen times, a person need have no fear, he says, of being attacked by small pox.

When the vaccine matter is taken from a person who has been vaccinated more than once, the Doctor says experience has demonstrated to him that it will never have any effect if used on others; and this is also sometimes the case when taken from the scab of parties vaccinated for the first time. Dr. Murphy says that on the seventh day after vaccination the pustule which forms, if the operation has been effective, will contain a colorless fluid, and if this be used on others there is not the least fear in the world of the operation being ineffectual; it is a sure thing every time. In vaccinating, or in taking this lymph from another, there is no need to cause the least pain; all that is necessary is to insert the point of a needle, just sufficient to make the smallest puncture imaginable in the side of the pustule containing the lymph; and the same in the outer skin of the person vaccinated. The needle need not be inserted far enough to draw blood in either case.

Dr. Murphy says he has resided where small-pox was epidemic, and when parties have attended to the above suggestions he never knew one of them fall a victim to, nor even attacked by it.

NEW REFORM.—The introduction of Soda Water and Sarsaparilla, by Day & Co., has done more in the way of a Temperance Reform than all the lectures that have been delivered in the country. The natural condition of man is a thirsty one, and it has long been an established fact that water will not quench thirst. The question then arises, can we find a substitute as harmless in its effects, and more delicious in taste than anything yet discovered? We find it in Day & Co's Soda and Sarsaparilla. If every one would sign the Pledge and drink nothing but this Celebrated Beverage, much degradation, misery, shame and crime would be prevented in the world. If any one doubts the truth of our remarks let them step into the first place they come to and try it. It will vouch for itself. en 170 tf

Challenge the Profession

To produce any instrument equal to them. The cause of their

LOW RATES

Is easily explained: They have no local agents whom they

PAY TO PUFF

their wares; and besides this they have resolved to place these beautiful instruments within the reach of all, and will do so by doing what no other House in Utah pretends to do, namely,

Sharing With Their Patrons

The commission allowed by the Manufacturers Acting on this principle they offer their instruments at

Twenty Per Cent Less

Than eastern retail figures, besides

PAYING THE FREIGHT

To the railway terminus in this city, guaranteeing every instrument sold sound and free of damage. They will sell a Parlor Organ, with elegant Black Walnut Case, Five Stops, Tremulo, and Knee Swell for

$180

The eastern price for the same instrument being $235.

In proof that the American Organ is all they represent, they refer purchasers to the following well-known gentlemen:—C. Sansom, D. L. Davis, A. Miner, John Sharp, S. W. Sears, W. S. Godbe, also Mrs. S. Kimball, all of this city. G. Henrotin, of Salt Creek, Juab County; T. Stayner, Ogden; the Fishburn Choir, Brigham City.

Daynes & Co will also sell every other description of first-class Musical Merchandise, from a Piano forte to a violin string at the same ratio; and to prove that the preceding statements contain not a particle of exaggeration they invite all.—Musicians and the Public, to call and prove their truth by personal examination and investigation.
