This is the information telephoned to Sunflower State. "News" by its Ogden correspondent afternoon. The announcement rached the Junction city in the form d a letter from Mrs. Nation to Mr. Baker, an Ogden ticket broker to has the distinction of being Mrs. tion cousin. The lady will deliver see pire lecture in Ogden and then one of to Salt Lake is satisfactory mangements can be made, and it is of unlikely that they can. If not, Mrs. Nation will give this city the goby and the saloon men of Salt Lake will miss the opportunity of seeing the woman who has advertized their busi-

ness more than any person living. The Ogden police have already been tified of Mrs. Nation's coming but laugh at the thought that she will go on demolishing expedition on this side of the Rocky mountains. They are decidedly of the opinion that Carrie will leave her hatchet and more warlike iencies at home.

The news of the possible invasion of Salt Lake by the energetic temperance reformer from Kansas spread among the sportive element in a very short space of time. One well known saloon keeper rashly said, on the spur of the

The news was broken gently to James Hogle by a "News" representative, who found that gentleman complacently eating an apple. Mr. Hogle apparently did not want any more fruit when he grasped the full purport of the infor-mation, for he promptly placed it on the show case. After considerable thought he said: "Well; if she does come I guess it will be in the nature

G. P. Barber and family, of Melbourne, Australia, are guests at the Walker House. They are now on their way to the coast and sail from San Francisco on the steamship Sierra for Sidney on the 6th of next month. Mr. Barber and his family left Melbourne a year ago and are just completing a trip around the world. They crossed the Indian ocean, the Red sea and passed through the Suez canal into the Mediteranean to Naples and spent about two months on the continent visiting the Paris exposition. After visiting the principal countries of Europe they came to America and have been in the principal cities of this

country and Canada. When interviewed by the "News" representative today Mr. Barber said: 'I have lived in Australia for forty-one ears, going there from England. When landed I had just five pounds sterling in my pocket. This is my fourth trip around the world and I have found the that after such a trip I feel several years younger. I left England in 1860 and for the first few years worked for some sheep men who owned \$00,000 sheep grazing over 2,000,000 acres. The stock can graze the year round in Aus tralla; we have no winter and in forty-one years I have never seen ice or snow in the places where I have lived in different parts of Australia. A detachment of the Fourth infantry has captured Gen. Vinegra near Cavit Viejo.

Gen. Cailles has issued a proclamation offering ten Mexican dollars a piece for the heads of Amenicans.

Commissioner Worcester is preparing a bill for submission to the commission, permitting the leasing of land until a government shall have been established which shall have authority to alienate the lands for mining claims. Many squatters have settled in the province of Benguet and Lepanto and are mining gold and other metals, which abound. The leases authorized by the proposed bill will not permit the carrying out of mining operations or the cutting of timber but will give the lessees other advantages in the direc-

tion of ownership. Thousands of men are working upon the government wagon road between Daigupan and Baguio, the capital of the Banguet province, which is being con-

structed at a fractional part of the cost estimated by army engineers. The record of temperature at Baguio for December and January shows the weather to have been remarkably cool and salubrious. A health resort for soldiers and civilians is soon to be estallished there.

The Twenty-third infantry will sail on the transport Logan March 1st, stopping at Vigan to take companies C. E. and M, which have been de-tained at llocos by smallpox, provided the quarantine is raised.

When seen at his home in Ogden by a "News" man this afternoon Mr. Anderson said he had received no notification of his appointment but had reason to believe that the information was correct. Mr. Anderson, it is understood, received his appointment through the indorsement of Senator Kearns whom he ardently supported during the senatorial fight in the Legislature.

Other candidates for the position were A. F. Doremus former city engineer of Salt Lake; R. C. Gemmel, State engineer; F. M. Lyman Jr.; Former Chief Clerk Knight, of the land office; Ed Duncan, formerly of the National Bank of the Republic, and a number of others.

MOTHERS' CONGRESS.

Preliminary Work Already Being Done for Spring Meeting.

The Mothers' congress has already commenced to plan for its annual spring meeting. Last year the congress was held in May. This year it is proposed to have it just before the spring conference, and the two days of the con. gress will probably be somewhere between April 3rd and 6th. By this arrangement mothers will be able to take advantage of the special railroad rates made for conference, and the congress will thus, it is hoped, have a much larger attendance than last year.

An effort will be made to secure the Assembly hall again this year, although Prof. Paul is very anxious that the mothers use the L. D. S. college build-ing for one of the days of the congress. Mrs. Sarah V. Stewart president of the mother's congress held a meeting at her house 200 H street. this streamont her house, 228 H street, this afternoon and some advance work for the apcongress was done mmittee was elected as follows Mrs. Alice Merrill Horne, Salt Lake, chairman; Miss Anna Peterson, Manti; Mrs. Ovanda Kearns, Gunnison; Mrs. Bird, Robison, Fillmore; Mrs. Lucy Bird, Robison, Fulmore, Mrs. Lucy Jones, Provo: Miss Mary L. Gowans, Logan; Mirs Mary M. Allen, Park City; Mrs, Jennie Nelson, Ogden; Mrs. D. S. Cook, Heber; Mrs. Mabel Tate, Tooele; Mrs. George C. Whitmore, Nephi; Mrs. Julia Ivins, St. George. The ladles of this committee will have the work of adding together wealtrain. the work of calling together prelimin-ary meetings in their various cities and keeping the local ladies posted as to what questions will be likely to be dis-cussed at the coming congress. President Paul is also desirous that a preliminary meeting be held in the ollege building next Friday at which the college girls may attend and interest themselves in the proceedings, A preliminary meeting is to be held on Tuesday evening and, as many of the ladies wish to attend the joint meeting of the board of education and the kin dergarten committee that evening it has been arranged to have the mothers meet in the board of education rooms in the city and county building at 6:30 so they may afterwards attend the joint meeting at the same place.

It is indeed the irony of fate that this old vessel that has ridden "Old Ocean's Grey and melancholy waste," for years in tempest and in sunshine, should go down almost within hailing distance of the shore, and where at low tide the water is not more than twenty feet deep.

REPORTERS' FEES.

Bill Pending Before the Legislature to Adjust Court Expenses.

There is a bill pending before the Legislature to change the present law relative to payment of fees to court reporters. As the law stand the counties pay the various reporters \$8 per day, or fraction thereof, when anything is done in the courts, while all the countles can charge the different litigants for the reporter's services in each case is \$3 per day, thus losing \$5, but when more than one case is tried in one day, the county gains, and hence the discrepancy is partially made up. An examination of the records of this county shows that during 1900 litigants have paid the clerk of the courts \$1,854 as reporter's fees, while the county treasurer has paid out on this account \$2,747, an excess over receipts of \$893. which the county is compelled to suffer because of the present law,

Captain of the Port Albert Tells of a Mysterious One in Mid Ocean.

Port Townsend, Wash., Feb. 22 .- An account of what may turn out to be another marine disaster and mysteriot disappearance of a big steamship while crossing the Pacific is given by Capt. Morris, of the transport Port Albert, which arrived from quarantine today Capt. Morris says that while in midocean his mate sighted a two-masted steamship abeam of the Port Albert, about two miles distant. The weather was hazy but it could be seen that the steamer was in the trough of the sea and laboring fearfully. The sea was running high at the time and it was all that could be done to keep the Port Albert head on. The mate went below to get his glasses so he could see the vessel but when he returned the weather set in thick. In less than half an hour the less than half an hour the weather cleared but no vessel could be seen. Both steamers were traveling in the same direction and Capt. Morris expresses the opinion that the unfor-tunate vessel must have foundered. The Port Albert expects to be re-

the Pacific Mall company at the time of her building.

In 1877 the late John Roach conceived the idea that a fleet of first class American ships running to South American ports would build up American trade in that section and prove a profitable investment and he organized a company among his friends and built and equipped two fine ships for the trade as his share of the capitalization. It was

believed that Congress would aid the enterprise by giving the line a subsidy for carrying the mail, and the new ships, City of Rio de Janeiro and City of Para, were built for the service. The City of Rio de Janeiro was launched on March 6, 1878, and just one month later, on April 6, the City of Para was launched. This was a great occasion in Chester, and President Hayes and several members of his cab inet were present as the guests of the veteran ship builder. President Hayes stood on the deck of the City of Ric de Janeiro and from this point of van. tage saw the Para slide down the ways In speaking of the loss of the City of

Rio de Janeiro, John B. Roach, president of the ship building company said "The rapid sinking of the ship was

due to the fact that she was not built as modern ships are, with water tight bulkheads dividing the vessel up into comparatively small compartments. At the time the Rio was built this practice of insuring the safety of vessels had not been developed as it is today The Rio was a staunch and steally ship splendidly constructed and had proved er seaworthiness in a dozen typhoons but the lack of water tight bulkheads was a fatal defect in case the ship struck a reef.'

Nothing New About Rio de Janeiro

San Francisco, Feb. 23 .- The situation with regard to the wrecked Rio Janeiro remains unchanged at noon. So far today not a body has been taken to the morgue, although reporters have heard indirectly that several bodies were taken from the water by small boats. Rumors of all kinds are rife and it is a difficult matter to obtain reliable information. The steamship companies, the pilot office, the life saving stations and other maritime offices are at a loss to furnish new details of the disaster.
