TUESDAY JULY 7 1908 SALT LAKE CITY UTAH

FIFTY-EIGHTH YEAR

## GATHERING OF DEMOCRATIC CLANS

Delegates from Every State Assembled in Denver to Name Presidential Ticket.

KEYNOTE IS CONSERVATIVE.

Temporary Chairman Bell Outlined What Will be the Party's Policy.

Was Greeted With Tremendous Applause—Adjourned for Day Out of Respect to Cleveland's Memory.

Convention Hall, July 7, 11:10 a. m.—Doors of convention hall opened and people beginning to enter. Cowboy band installed in gallery.

Convention Hall, Denver, July 7.—11:43 a. m.—Band playing "Dixie." Great cheering.

Taggart goes to platform.

Convention Hall, Denver, July 7.—12 noon—Convention called to order.

Convention Hall, Denver, July 7.—12:06 p. m.—While Chairman Taggart was striving to bring convention to order, a party bearing a banner with Bryan's portrait, was brought in, causing loud cheering.

Convention Hall, Denver, July 7.—12:45 p. m.—Temporary Chairman Bell begins delivery of his address.

Convention Hall, 1:53 p. m.—Chairman Bell closed his speech. Great cheering.

Convention Hall, 2 p. m.—Roll of states called and members of committees on permanent organization, rules and platform named.

2:02 p. m.—Dunn of Nebraska offered resolution on services of Grover Cleveland and for adjournment out of respect to his memory.

Convention Hall, Denver, July 7.—2:21 p. m.—Parker seconded Dunn's resolution and it was adopted by a rising vote.

THE CONVENTION.

Convention Hall, July 7.—The day's session was looked forward to as one of preliminary formalities, the address of temporary Chairman Theodore A. Bell being the feature. The announcement of committees and an early adjournment out of respect to the memory of the late Mr. Cleveland completed the announced program.

Judge Alton B. Parker of New York came to the hall with a sharply revised Cleveland resolution to be offered in case he should secure recognition by the chair. As the session began, however, it was understood that closer friends to Mr. Bryan would introduce a resolution that was to be adopted. No contest of any sort was to be made. That much was settled.

A NEW FEATURE.

A new feature of the convention arrangements was a battery of four automatic adding machines such as are used in banking and large business establishments. They were provided for use by the tally clerks and a speedy and accurate announcement of ballot results.

An oil painting of Mr. Cleveland faced the rostrum, having a position of honor second only to that of Thomas Jefferson.

SEATING ARRANGEMENTS.

A feature of the seating arrangements, new in political conventions, was the labeling of all seats. Every chair carried on its back a small, white placard bearing the name of the state, in large, black capital letters, with the word "Delegate" beneath it. This small detail did away with much of the confusion incident to former conventions, as it saved the time and trouble of every state and of every delegate.

At 11:30 o'clock, when the hall was less than one-third filled, the first music of the convention crashed from the upper balcony. A splendid band of some 60 odd pieces, uniformed in costume of the western plains—blue tannish shirts, peaked hats, and blue breeches—played a fine array of patriotic selections to the applause of the incoming crowd.

CALLED TO ORDER.

At 12 o'clock promptly, Chairman Theodore A. Bell, of the national committee, brought down his kavel with a resounding whack, and called the convention to order. Cheers followed the blow of the speaker's platform, and as soon as they had subsided, spoke as follows:

TAGGART'S ADDRESS.

"As chairman of the Democratic national committee, it becomes my duty to call this convention to order, and in so doing I cannot refrain from the suggestion that in numbers, in the personnel of the delegates, in enthusiasm and in the determination of victory, it is the greatest political convention ever assembled in the United States.

"It is certainly appropriate that such a convention should meet in this great western city, whose citizens have shown their generous hospitality on every hand, and whose enterprise and energy are attested by the erection of this magnificent Auditorium.

"In this connection I desire to express the thanks of the members of the national committee to the people of Denver and especially to the members of the Denver Convention league, whose unselfish and untiring work has contributed so much to this successful and happy opening of the campaign of 1908."

OFFICIAL CALL READ.

Following Mr. Taggart's remarks, the

## ACCIDENT REVEALS REVOLVING SIGHTS

Sheriff's Office Finds Nest of Vice While On Official Errand.

WOMAN AND TWO MEN IN JAIL

Soldiers Were Living in Squalid Quarters With Girls of Tender Age—Prosecution to Follow.

One of the most deplorable cases of moral depravity brought to light in this city in a long time was unearthed last evening by the sheriff's office. As a result two men and a woman are now in the county jail, a girl is within the walls of the industrial school, with others likely to follow. The men are soldiers, giving the names of Bayless and White, the woman is Mrs. Florence Johnson Howcroft, and the girl is Nellie Johnson.

The unearthing of the den of iniquity and crime was made quite unexpected by the officers. The place, 154 north Third West, is the residence of Mrs. Alice Johnson, a widow. She has six children, ranging in ages from 19 to 4 years, and all live in two or three small rooms that are a horrible sight because of dirt and squalor. Temporarily residing at the place was a young girl named Maggie Dunlop, and it was while Joe Sharp was searching for her that the terrible conditions existing at the Johnson home were revealed.

Officers Find Place.

Maggie Dunlop was accused by Harry Bowen, who lives opposite to Wandamere and conducts a fish hatchery there, of having stolen \$40 from his residence, while she was employed as a domestic. It was learned that the girl was at the Johnson place, and the officers went thither. The scene that met the eye was of the most revolting kind. The inmates were having a drinking contest, and the place was a mass of filth. The other fellow seemed perfectly at home.

Stern inquiry on the part of the officers revealed the fact that the two girls had been making the Johnson home an almost constant place of abode for some time, and that they had occupied a bed with Mrs. Howcroft, who is less than 19 years old, and her young sister, Nellie Johnson, aged 15, and that in the same room had slept Mrs. Johnson and her other children. The Dunlop girl was a "boarder," and there was still another girl there of tender years.

MANY ARRESTS MADE.

Not only was the Dunlop girl placed under arrest, but White, Bayless, the colored woman and the younger girls. Complaints charging serious offenses will be filed against the men and Mrs. Howcroft. The case of Nellie Johnson was disposed of today in the juvenile court, when she was sentenced to the industrial school, to be taken there at once, and thither will go also Maggie Dunlop. It is most probable that the strenuous action will be taken against Mrs. Johnson, who, in the opinion of the officers, is the most reprehensible of the whole unsavory set. Her younger children are being taken care of by a three-year-old nursing baby.

The Dunlop girl says she gave Mrs. Johnson \$5 of the money stolen from the Bowen home, telling her where she got it, and that the remainder was spent by herself and the Johnson girls, all knowing from whence it came.

HE COMMITS SUICIDE

Carey, Idaho, Young Man Kills Himself in His Father's Home With a Rifle.

(Special to the "News.")

Carey, Ida., July 7.—Lying in a pool of blood, a rifle by his side and a gaping wound in his forehead, James A. Powell was found dead in his own home by his father yesterday morning. On a table near the man's body was a letter addressed to his father, stating that the son was tired of life, disappointed and asking forgiveness for the deed. He had an affectionate farewell to his relatives and many friends. The coroner's investigation has brought out no additional information and relatives of the youth say that they are at a loss to account for the act. At the time the suicide was committed, the youth's father was watching the home of an old friend, who was with his family in the mountains for the Fourth of July and a week-end holiday.

The rifle found near the body was found to be equipped with a strap fastened at one end to the trigger and at the other end to the trigger of the rifle. Powell was 25 years of age and has relatives in Carey, Twin Falls and Springville, Utah.

W. J. HALLORAN HOST.

President of Great Salt Lake Association Entertains Charter Members.

W. J. Halloran, president of the Great Salt Lake association, which was organized a week ago today on board the launch "Irene," was host, this afternoon at luncheon at the Commercial club to the charter members of the association. Lunch was served in the private dining room and the invited guests for an hour discussed the menu and told stories and all of the guests save one were among those who took the trip over the lake last week, the exception being Alfred Lambourn, who for years with pen and brush, has justly laid credit to being the original explorer of the lake in pleasure boats and yachts.

Among those who sat down to lunch, in addition to Mr. Halloran, were: E. P. Cannon, John Smith, R. A. Raybald, William Bowen, P. W. Madison, Richard P. Morris, S. H. Tuttle, Paul Johnson, Arthur C. White, C. A. Quigley, Glen Miller, Joseph Nelson, J. E. Alfred Lambourn, and George E. Carpenter.

(Continued on page two.)

## UTAH DELEGATES ENDORSE NEWHOUSE

Denver, July 7.—Samuel Newhouse was today formally endorsed for the vice presidential nomination by the Utah delegation, but declined to allow his name to be presented, on the ground that, with Bryan as the nominee, an eastern man ought to occupy second place on the ticket.

Judge Powers called a special meeting of the delegation today to take this action. He read a telegram, urging Mr. Newhouse's selection, from Mayor J. S. Bransford, of Salt Lake City, and Messrs. Harris, Quigley and Halloran.

TAFT HEADQUARTERS OPENED IN CHICAGO

Chicago, July 7.—Headquarters from which the personal interests of William H. Taft will be looked after during the coming presidential campaign, were opened here yesterday by Maj. Reecher R. Ray, who placed S. M. Fitch in charge. The offices are at 236 Dearborn street.

FIRE IN HOTEL.

Caused Guests to Flee, Many Carrying Pet Dogs.

New York, July 7.—Fire next door to the Hotel Albany, at Broadway and Forty-first street, early today caused the guests to flee to the street. Forty or 50 women in scanty attire hastily left the hotel and gathered on an opposite sidewalk.

COLONEL HOLMES HOME

With Mrs. Holmes He Returns from Two-Year Trip on Three Continents.

Col. and Mrs. E. F. Holmes arrived home Saturday night, from southern California, after an absence in Europe and Africa and in the eastern states of about two years. They have been for several months in California, where the rigorous weather that marked most of the spring in this section, was avoided. Previously Col. and Mrs. Holmes were for a time in Chicago.

Col. Holmes was successfully treated for gastric troubles, so she is now in very fair health. They are at the Guard House, enjoying the calls of friends who are congratulating them on their safe return to Salt Lake.

Col. and Mrs. Holmes toured Europe and Egypt in an automobile. The colonel remarked today that with the country living in this country, it is considerably cheaper to travel abroad in an auto than to remain in the United States. They toured up and down through the Balkan peninsula, as well as through other parts of Europe, thus, without experiencing any trouble because of state lines. When asked if the local customs officers did not annoy them in crossing from one country to another, the colonel said they didn't begin to have the trouble they had with American customs inspectors on returning from Europe to this land of the free and the home of the brave. The American officers were often overbearing and unnecessarily exacting in examination of luggage, but there was no escape from them. Foreign officers were at least polite.

Col. Holmes was particularly pleased with his trip up the Nile. He said, "The Nile is a magnificent river. People here can have no real idea of its magnitude. It is a river of water, which is now being utilized for irrigation more than ever before. A proposition is now being made to build a dam clear back to the source of the Nile, back to the great lakes, so as to store quantities of water in the spring of the year as will last all through the heated term until after harvest time. The scheme is being extended. The building of the Assuan dam has greatly broadened this belt, but with the completion of it, the water will be guaranteed from further up the Nile, back to the great lakes, so as to store quantities of water in the spring of the year as will last all through the heated term until after harvest time. The scheme is being extended. The building of the Assuan dam has greatly broadened this belt, but with the completion of it, the water will be guaranteed from further up the Nile, back to the great lakes, so as to store quantities of water in the spring of the year as will last all through the heated term until after harvest time. The scheme is being extended. The building of the Assuan dam has greatly broadened this belt, but with the completion of it, the water will be guaranteed from further up the Nile, back to the great lakes, so as to store quantities of water in the spring of the year as will last all through the heated term until after harvest time. The scheme is being extended.
