clock to-day.

THEATRE .- Last evening the "Hunchback of Notre Dame" was very well presented. Mr. Bates as the "Hunchback"

there are generally of that class, but their number is not sufficiently large. There is an abundance of farming land, timber, water, etc., immediately adjacent to the settlement. Plenty of room and facilities for new settlers to "pich in and spread." The climate is healthy up there, and after the difficulties of a first settlement are overcome, the people generally get along pretty well. Good crops were raised there ine past season.

from the Omaha Heraid of Oct. 29-"An intelligent gentleman, who has come from Australia by the overland route, said in this city yesterday that many years ago the same disease prevailed to an alarming extent in Australia. It finally became so dangerous to the lives of the horses and so injurions to the lives of the horses and so injurions to the trade that the British Government offered a reward for the best method of treatment. This was found to be the following, viz Mix half an ounce of sulphur with half an once of gunpowder; stir this mix-ire with a small quantity of corn meal, and feed to the horse. Then keep the ani-mal warm and give it rest."
