CITY CREEK WATERSHED. Land Forming it is Withdrawn from Entry.

It seems that Mr. John E. Dooley, who went to Washington to prevail on the authorities to withdraw from public entry the lands forming the watershed of City creek, has been successful. The following telegram, received by the register of the land office, indicates that such is the case. It is surmised now that the land will be held as a forest reserve, and thus precluded permanently from public entry. This news will be received gladly by the citizens of Salt Lake, who were fearful that the water which they must use would become contaminated. The following is the telegram which authorizes the local land office to rescind its order regarding the opening of the lands in question;

TO REFUND BONDS.

A resolution was received from the finance committee regarding the refunding of the \$500,000 5-per-cent bonds 1890

The resolution recited that it is possible now to refund the bonds at a low-er rate of interest. The proposed new issue is to be of a series of 500 coupor bonds of the denomination of \$1,000, the principal payable at the office of the city treasurer twenty years after date (January 1, 1901), with interest thereon at the rate of 3% per cent per annum payable semi-annually. TO ESTABLISH BOUNDARIES.

A resolution introduced by Hewlett stated it was impossible for owners of and near the boundaries of Salt Lake ounty to determine in which county all or a part of their lands are situated; also that the title to lands was continually being placed in jeopardy by sales for taxes demanded by two counties on the same property. It was reto determine the exact boundary lines between this and adjoining counties and to establish permanent monuments as provided for by the statutes of the State. Adopted.
