

TWENTY INCHES OF SOLID ICE. What the Cold Spell Has Done in Ogden Canyon.

ABOVE POWER CO'S DAM.

Something of the Proposed New Dam And What It Will Do for Irrigation.

The continued cold weather has put over 20 inches of solid ice in the water above the Utah Light & Power company's dam in Ogden canyon...

IN BEHALF OF CHILDREN.

Proposed Bill to Rescue Children from Baneful Surroundings.

Within the next week or two a bill will be introduced in the legislature, that will engage the interest of humane men and women.

Applications for Pardon.

The state board of pardons met today in regular session and considered seven applications for pardons and commutations.

President Young's Condition.

The many friends of President Brigham Young will be grieved to learn that his condition is still precarious.

Coal and Iron Deal.

Second Payment of \$50,000 Will be Made On the 23rd.

A second payment of \$50,000 is to be made on the 23rd inst. by the Buhl-Kimberly syndicate to the syndicate including Col. S. B. Milner, M. H. Walker, the Campbell estate, J. C. Culler, Jr., and others on the coal and iron lands in Iron county.

School for Lemhi Indians.

Senator Dubois Gets an Appropriation For Another Building.

Washington, D. C., Jan. 17.—Senator Dubois called on the commissioner of Indian affairs today and asked that an appropriation of \$12,500 be allowed for an additional school building on the Lemhi Indian reservation.

Hood's Sarsaparilla.

Has won success far beyond the effect of advertising only.

Hood's Sarsaparilla.

Unites the best-known vegetable remedies, by such a combination, proportion and process as to have curative power peculiar to itself.

Hood's Sarsaparilla.

Is a thoroughly good medicine. Begin to take it TODAY. Get HOOD'S.

REACHES SEAT OF TROUBLE.

Don't Try to Cure Hemorrhoids With External Application.

When it is such a well known fact that hemorrhoids or piles is a disease originating in the morbid dilatation of the veins of the lower part of the rectum, it seems incredible that people afflicted with this painful trouble should go on doctoring with external salves and washes, when the diseased parts can only be reached by an inward application.

The suppositories used in Pyramid Pile Cure are composed of the most soothing and healing oils and are known to Materia Medica, and act on the diseased veins and surrounding tissues like magic, giving almost instant relief.

The predisposing causes of piles are such as produce fever of the hemorrhoidal veins and impede the return of blood from them, such as constipation, sedentary habits, city life, pregnancy, corsets, etc.

The general principles of treatment are, according to the evident causes, active habits, attention to diet, and other hygienic rules, etc.

For twelve long years I suffered terrible torture from piles. I had been under two surgical operations in Cleveland, Ohio, in the year 1895, and once in Toledo, Ohio, in 1899, and also tried a number of salves and ointments from different doctors.

MISSIONARY ENTERTAINMENT.

On Monday evening next a farewell reception will be tendered in the Eighteenth ward schoolhouse to Elder Joseph Myrum Parry, Jr., who leaves Tuesday on a mission to Mexico.

APPLICATIONS FOR PARDON.

The state board of pardons met today in regular session and considered seven applications for pardons and commutations. The entire board was present. The application of Charles Botha, known as "Dutch Charley," who was convicted of murder in the first degree for the killing of his wife and William Tibbetts in San Juan county, was withdrawn for the reason that his case is now pending in the supreme court.

August Nelson, who was convicted of murder in the first degree for the killing of his wife and William Tibbetts in San Juan county, was withdrawn for the reason that his case is now pending in the supreme court.

Ed Allen, convicted of burglary; Clifford Draper, convicted of burglary; John R. Master, having burglarious tools in his possession.

The pardons denied by the board are: Ed Allen, convicted of burglary; Clifford Draper, convicted of burglary; John R. Master, having burglarious tools in his possession.

The cases continued by the board are: L. Maxwell, robbery; Thomas Williams, murder; George Sessing, burglary; John R. Master, having burglarious tools in his possession.

The pardons denied by the board are: Ed Allen, convicted of burglary; Clifford Draper, convicted of burglary; John R. Master, having burglarious tools in his possession.

The cases continued by the board are: L. Maxwell, robbery; Thomas Williams, murder; George Sessing, burglary; John R. Master, having burglarious tools in his possession.

FATAL EXPLOSION ON THE MASSACHUSETTS

Washington, Jan. 17.—Admiral Higginson cables from San Juan, P. R., under today's date that by an explosion of powder in the eight-inch turret of the battleship Massachusetts five men were killed and four injured. None were commissioned officers.

The text of Admiral Higginson's dispatch is as follows: "San Juan, P. R., Jan. 17, 1903. Secretary of the Navy, Washington.—Powder charge exploded accidentally in 8-inch turret of the Massachusetts. Cause is being investigated by board. Dead: A. Hendrickson, boatswain mate; E. L. Lyster, apprentice; S. E. Malinowski, landsman; K. J. Platt, ordinary seaman; Robert Kule, ordinary seaman."

"Injured—W. W. A. Schert, apprentice; A. S. Trake, coxswain; J. S. Patterson, ordinary seaman; A. T. Dossett, ordinary seaman."

San Juan, P. R., Jan. 17.—Five men were killed and four others were wounded, two of them probably fatally, by the explosion of a powder charge of an 8-inch gun on board the United States battleship Massachusetts yesterday morning, while at target practice off Culebra Island.

Details of the explosion were obtained when the Massachusetts arrived here today. The explosion occurred in the forward 8-inch turret shortly after the noon yesterday and was due to the accidental discharge of a percussion primer while the breech of the gun was open. The full charge exploded in the turret and killed or injured all the crew there, including the gunner, Ensign Ward K. Wortman, who was in charge of the turret, escaped injury, though he was standing near the turret at the time of the explosion.

Magnificent discipline was immediately shown by the officers and crew of the battleship. Capt. Barry Lee, commanding the marine guard of the vessel, and Ensign Clarence Able immediately flooded the turret with water and Lieut. Charles F. Hughes and Gunner Kuhlwein went below to the magazine, picking up powder charges and preventing further explosions, while Lieut. William C. Cole and Gunner Someman entered the turret and withdrew the charge from the other gun, whose breech was open. The survivors of the gun's crew, when rescued, were burned, mutilated and nearly dead.

One man whose clothing was on fire jumped overboard. In less than a minute after the explosion three streams of water were pouring into the turret, preventing the charge in the other 8-inch gun from exploding.

Postmaster A. L. Thomas and Inspector M. M. Steele of the rural free delivery system of the U. S. postoffice, took a trip yesterday over the section of country east of Murray, where it is proposed to establish a new rural delivery route starting from Murray. This route, if established, will accommodate many people who are getting their mail from Big Cottonwood. The necessity for the establishment of this route was suggested by the discontinuance of the Argentine office, since which time mail for many people has been sent to Brim-

NEW RURAL DELIVERY ROUTE \$600,000 MORE FOR POCATELLO

What the Oregon Short Line Will Do This Year.

MORE EXTENSIVE PLANT. Large Car Shop, Foundry, New Storerooms and Other Buildings To be Erected.

Residents of Salt Lake have heard a great deal regarding the Pocatello shops, but it is safe to say that they have but a faint conception of their magnitude and up-to-date-ness. When it comes to all the latest labor-saving contrivances in the handling of heavy work there is not another set of shops under one roof in the West that can compare with them.

Connected with the motive power department at Pocatello 603 men are earning good wages. This force will be increased when the new buildings are completed, all of which goes to make the merchants of Pocatello rub their hands complacently.

Master Mechanic D. T. Malone of the Idaho and Montana divisions, stated yesterday that if the present plans were carried out for this year there would be 600,000 locomotives in Pocatello this summer in the matter of the erection of additional shops adjacent to the big structure now completed and occupied by an army of mechanics. The plans are to erect a large car shop, foundry, new stove houses, paint and machine shops, and a number of minor buildings are in the line of the latest machinery.

With the erection of these buildings the future of Pocatello is assured, for the big plant is here to stay.

EIGHTEEN ENGINES. Mammoth Locomotives to be Delivered at Pocatello Next Month.

Another big consignment of the heaviest type of freight locomotives is to be received at Pocatello from the works in the east. In all 18 engines are to be delivered next month. These big compounds are what is known as the 810 class and will be the biggest yet in use on the Oregon Short Line. They will for the most part be used in the coal traffic out of Diamondville, Kemmerer and Cumberland.

THE LAKE HAS RISEN ONE INCH.

The great lake has risen one inch in the last two weeks, after having remained practically stationary for a month; and the local hope is that with the amount of snow there is now on the mountains in the watershed, there will be a substantial rise in the spring. Usually the lake continues to rise, after once having started, until June 1 when the increasing evaporation prevents further rise, and the level steadily falls until late in the winter. The lake level reading is now 3 ft. 5 in. below the zero mark at Gardfield, and the reading of 3 ft. 6 in. of two weeks ago will mark the lowest level reached by the lake since records were established. Section Director Murdoch says: "This rapid rise should come during the month of February if conditions of previous years repeat themselves. In 1891 the lake rose two feet and two inches between the 15th of February

and the 1st of March. A reference to the records show that almost every year during the month of February there is a decided rise in the lake. For several years past, though dry winters have followed these rises, and the temporary gain was overbalanced by the continued deficiency in precipitation, the lake was reduced to the level which it attained. The deficiency in precipitation is at present only 62 of an inch. If February, as it has done in the past, proves to be a wet month, this deficiency may be made up, and with the melting of the heavy snows that have fallen in the mountains during the winter, the lake may be expected to rise rapidly and to a good height. As it is believed, the dry cycle is over, the necessary increase in precipitation may be expected. In view of its importance in relation to the lake, the weather of next month will be watched with no little interest."

southeast from the same location. The paintings are much admired by the many friends of the artist, and will be disposed of at a drawing to take place on the 31st inst.

Miss M. Noble gave an elegant luncheon on this noon at the Commercial club to nine of her friends.

Rev. Mr. Moore, the returned Korean missionary, will preach tomorrow morning in Westminster Presbyterian church, and in the evening will lecture on missionary work in Korea. He lived and labored for nine years in that country, which is now becoming a land of electric lights, trolley tramsways and Prince Albert coats.

On Wednesday evening next, commencing at 8 p. m. (Jan. 21), a grand social will be given in the Thirtieth ward meetinghouse in the interest of the organization of German speaking immigrants. All returned elders from German speaking countries are invited, and the various wards are respectfully invited to be present.

A feature of the local money market for the week has been a stiffening of the interest rate, due, it is stated, to the conditions prevailing in New York city.

Adjt.-Gen. C. S. Burton and family leave tomorrow for a three weeks' pleasure trip to the Pacific coast. Brig.-Gen. Cannon will be in command during Gen. Burton's absence.

William D. Silvery, a farmer of Huntsville, today filed a petition in bankruptcy in the federal court. His assets are \$488 in household goods and

"77" Breaks up Grip and COLDS

farming machinery, with liabilities amounting to \$1,750.75.

Today's weather map shows a low barometric area dropping down from the northwest, and the hopes are that it will drop down into Utah and leave some moisture here. Moderately low temperatures have characterized the country west of the eighty-fifth meridian during the last 24 hours.

Fred Harris has recovered his \$75 overcoat. He found out the man who had helped himself and gave him just so much time to return the missing garment or take the consequences. The fellow concluded to "refund" and within the time specified brought back the coat.

Owing to a slight oversight in the secretary's office, the name of William Kadeker, Salt Lake, was overlooked in making out of the premium lists. He took second prize on drakes, third and fourth on ducks, and second on pen. The association comes out ahead financially.
