SEVIER COUNTY TAX LEVY MADE BY COMMISSIONERS

(Special Correspondence.)
RICHFIELD, Sevier Co., Aug. 3.—At the regular session of the county commissioners which convened yesterday, the following business was transacted: Dr. Joseph F. McGregor's resignation as county quarantine physician was accepted and the appointment of his successor deferred till next meeting of the board.

Contracts for bridge timber for the county was let. The amount to be furnished in the south end of the county was estimated at \$10,000, while that to be furnished for the north end of the county was let to W. B. Humphrey and M. L. Burr.

The county levy was fixed as follows: Five mills for county expenses; 1 mill for poor fund; 3-10 mill for sinking fund; 1-10 mill for bond fund; 2 mills for county school fund, and a special tax of 4 mills on sheep and 2 mills on horses and cattle outside of incorporated cities and towns.

The county assessor was instructed to assess all sheep and cattle in the county where grazing certificates had not been filed.

A committee of sheepmen met with the board to protest against the 40 percent raise in assessments made by the state board of equalization. A resolution was drawn by the board protesting against said raise, and A. K. Hansen of Richfield was appointed to represent the board and the sheepmen in presenting it.

The resignation of deputy county clerk Fern Magleby was presented and accepted.

KAYSVILLE VOTES FOR WATERWORKS BONDS

KAYSVILLE, Davis Co., Aug. 4.—At the city election here yesterday, the proposition to bond the city for \$25,000 to install a waterworks system was carried by a large majority, 80 voting "yes" and 10 "no." The vote was very high despite the fact that the movement is a popular one. The city council will, it is thought, proceed at once with the much needed improvement.

DAMAGE FROM BRUSH FIRES.

KAYSVILLE, Aug. 4.—Brush fires on the east of town did considerable damage yesterday afternoon through the burning down of miles of fencing belonging to Morgan Brothers' Land company, Robert Ward and others. The fire is said to have been started by a party of lumbermen of the Telluride Power company. A number of residences and other buildings were threatened and a call was made for help. Scores of men and boys responded and after several hours' work had the flames under control by 9 o'clock last night.

PHENOMENAL CROP OUTLOOK AT TABER, ALBERTA

(Special Correspondence.)
TABER, Alberta, Canada, July 31.—Recent authentic reports from the farming districts surrounding Taber, indicate the spring crop conditions today as being equal if not superior to those of any previous year. The entire district is thickly dotted with immense fields of waving grain, 95 per cent of which is headed out and stands waist high. A yield of 30 bushels of wheat per acre is expected from sod ground turned one year ago, while 40 to 45 bushels per acre is looked for on well prepared stubble lands. Oats planted as late as June 1 are fully headed out, while those drilled at an earlier date are waist high; many fields will undoubtedly yield from 45 to 60 bushels per acre.

From early spring this entire district has had an abundance of moisture and growing sunshine. The temperature of the past week has been quite warm, registering at times from 88 to 94 degrees. Last night a delightful rain set in, increasing this morning to a heavy downpour lasting until noon. Today all nature is smiling. Farmers and business men alike are elated. Enough moisture has now fallen to carry the crops to maturity.

It is expected that the Indians will be in operation as early as Aug. 10, and by the 15th harvesting will be general throughout the district.

DISASTROUS FIRE.

TABER, Can., July 31.—On the 23rd inst. at 12 a. m. fire was discovered coming from a building on the corner of Main and 10th streets, owned by Bishop R. A. Van Orman. Before the arrival of the fire department, the flames had eaten their way into every part of the buildings and nothing could be saved. The barn contained a large quantity of oats and baled hay, all of which were destroyed. Mr. Van Orman estimates his loss at \$1,000, with no insurance. Children belonging to a neighbor, who took advantage of the absence from home of the Van Ormans, and while loitering mischievously upon the premises, ignited the match, which resulted in the disastrous blaze.

RECENT DEATHS

ROGERS, SMITH D.—At Snowflake, Arizona, on July 20, Patriarch Smith D. Rogers, died at his home after an illness of several months duration. Smith D. Rogers was familiarly called) was truly one of God's noblemen, if God has such here on earth. He was an obedient son in his youth and grew up to be an honest God-fearing man, willing to work where he was put by those in authority, whether it was in the "lead, on wheel, or in the swing" as one of his associates put it. He had no time or inclination to sow wild oats while in youth, and at the early age of less than 21 was chosen second counselor to President William H. Darrin of the Parowan Stake. He was called to Arizona in 1879, and in 1880 was appointed superintendent of the Y. M. M. T. A. of eastern Arizona stake. He was a member of the High Council in 1883 and again in 1891. He served as a missionary in the interest of the Sabbath schools, in 1892, and labored in Maricopa stake, and soon after his return he was chosen second assistant superintendent of the Snowflake stake Sunday schools, laboring faithfully for two years and upon his return was chosen first counselor to President Jesse N. Smith, which position he held for seven years. He was ordained a patriarch in 1907 and was again chosen to fill a vacancy in the high council, later he was chosen first counselor in the stake Sunday schools.

RAYMOND, GRANDISON.—At Kayville, Davis county, Aug. 1, Grandison Raymond, an old time and highly respected citizen of Kayville, died at his home after an illness of over two years. Besides nine children, by a former wife, he leaves a wife and infant child. The funeral was held today in the meetinghouse and was largely attended. Many speakers eulogized the life and worth of the deceased; the ward clerk furnished appropriate selections.

WEEKLY MARKET LETTER.

(Special Correspondence.)
Kansas City Stock Yards, Aug. 2.—Last week was more satisfactory to cattle sellers than the previous week, as receipts were very much smaller. Substantial gains were secured the first of the week, and while most of these were dissipated before the close, the average for the week was 10 to 20 cents above average for the previous week. The run today is 14,000 head, including 2,000 calves, which is below the estimate for today, and is light for this period. The market is strongest, and unless unusual runs come in later in the week, the market is likely to be pretty good balance of this week. The run of quarantines is only about half as heavy as it was a month ago, and shippers from native territory this month will be relieved of the burden of competition from cheap grass cattle from the south to a considerable extent. week ago, top veals \$6.75, stock steers, \$2.25 to \$4.75, feeders \$4 to \$5, stock cows and heifers \$2.25 to \$3.75.

Sheep and lambs had an unprofitable week of it, and closed 25 to 50 cents off, account of glutted meat markets in the east. Dealers figure that the bottom has been reached, as the conditions that have hurt the market, namely, big runs of southern stuff at Louisville and Jersey City, will change within a week or two, affording some relief. Another strong prospect is the scarcity of an unprecedented call for stock and feeding grades this fall. Top lambs are quotable at \$7 or a little more, wethers and yearlings up to \$5.25, ewes \$5. Utah feeding wethers are selling at \$4.50 to \$4.75, a big string at the former figure. Thursday, feeding lambs around \$5.75, breeding ewes most any price up to \$5.75, according to age and quality. Arizona is still furnishing fair quota, and Utah is starting a small number marketward, but bulk of the supply is still small mixed lots of natives, which buyers abominate.
