

MINING, BUSINESS AND STOCKS

LOCAL EXCHANGE
HAS QUIET DAY.

No Special Activity in Any Case
But Trading is of Average
Volume.

WHAT THE FIGURES SHOW.

What Was Bid and Asked and What
Was Sold at Forenoon Call of
Various Mining Stocks.

Today on the local exchange opened quiet, and at no time during the day was there any special activity in any stock. Little Bell went from 4 1/2 Saturday to 7 1/2 on the open board, and May Day, following its policy of last week, remained fairly active. New York Bonanza opened at 32, went to 35 and closed at 32 1/2 on the open board. Columbus Con. fell off a little, odd lots selling as low as \$7. No particular reason is advanced for this, conditions both under and above ground being normal so far as known.

BUTTE IS BUSY.

Howard S. Stowe Says One of the Liveliest Camps in Country.

Mr. Howard S. Stowe returned from Butte, Mont., yesterday and expresses himself to the effect that never in the history of the camp have general conditions in his opinion been so good. In mining circles especially the activity is intense, old mines are increasing their output by every means in their power and new companies are working over time to produce more. New organizations of capital are being effected daily and new incorporations of interests are going forward all the time. Every one is interested in mining, rich and poor alike from the newsboy and bootblack to the millionaire investor and all share in the general excitement. Mr. Stowe states that there is plenty of money in the country to develop all its resources and that the necessity of going abroad for capital is becoming daily less marked.

NORTH BUTTE REPORT.

Company's Annual Showing Highly Gratifying to Shareholders.

A Boston telegram to Pollock & Co. of this city yesterday afternoon gave the following concerning North Butte: "The annual report of the North Butte Mining company submitted at the annual meeting in Duluth today states that the company is employing 600 men and hoisting 900 tons of ore daily. With new equipment 1,500 tons will be hoisted daily. For the first fiscal year the company produced 39,945,788 pounds of copper, which was sold at 16.47 cents a pound. Three directors whose term expired were re-elected. Discussion at the meeting brought out the statement that ore reserves blocked out were sufficient to supply 1,500 tons daily from four to five years. The company's entire indebtedness for land in Butte is \$48,000."

ACTION FOR DAMAGES.

Utah Con. Made Defendant in Suit to Recover \$20,000 for Personal Injuries.

A suit was filed in the United States district court today by Joseph Churns against the Utah Consolidated Mining company, in which the plaintiff asks for damages in the sum of \$20,000, with costs of suit. The case arose from injuries to the plaintiff while employed in the company's mine in tunnel No. 3, on the 25th day of July, 1905. The case was originally brought against the Highland Boy Mining company, which has since changed its name to the Utah Consolidated Mining company. The suit against the first named company was dismissed, without prejudice to plaintiff, yesterday in the Federal court, and today similar papers were filed against the Utah Consolidated.

BLACKMAIL ALLEGED.

Miners Claim to Have Paid \$5 a Month for Privilege of Working.

A peculiar story is current in mining circles this morning having to do with a number of Italian employees of the Mercier mine at Mercier, Frank Buff and two fellow countrymen claim that they have been discharged from work because they declined to submit to blackmail imposed upon them by a shift boss by the name of Louis Rich. Buff claims that in order to hold his position he was forced to pay \$5 per month out of his wages to Rich, and that he has done so for some months past until about two months ago, when he and his companions mustered up enough courage to stand out against the hold-up. Buff claims that various means were employed by the shift boss to enforce payment, such as giving them work in unsafe and unhealthy parts of the workings and in other ways rendering their lives miserable. Buff also claims that there are other men now in the employ of the company holding their jobs by virtue of a monthly payment of \$5 and he does not hesitate to give names. At the offices of the company it was learned that the matter had been laid before the management and a full and complete investigation was being made. The company is inclined to doubt the truth of the miner's statements as they hesitate to believe that any shift boss or any other man holding any sort of a position in their employ could be guilty of any such thing as alleged.

RHEUMATIC PAINS RELIEVED.

The quick relief from rheumatic pains afforded by Chamberlain's Pain Balm has surprised and delighted thousands of sufferers. It makes rest and sleep possible. A great many have been permanently cured of rheumatism by the use of this liniment. For sale by all druggists.

NEW NEVADA
MINING CAMP.

Attention Called to Hiko, Nev.,
Located in Center of Rich
Mining Field.

APPLICATION FOR POSTOFFICE

H. L. Berkey, With Large Interests,
Says Possibilities in That Section
Are Practically Unbounded.

Mr. H. L. Berkey of Hiko, Nev., is registered at the Wilson. Mr. Berkey makes his headquarters for the most part at Salt Lake City, where he has resided off and on for a number of years, but he is best known as a mining man of Hiko, where he is heavily interested together with a number of St. Paul, Minn., capitalists, in mining. Mr. Berkey's company is known as the Timpahute Mining company, organized a year or so ago, with a total capitalization of 75,000 shares of a par value of \$10 each, about 40,000 shares have been issued. The company's property consists of 14 claims, six of which are patented, and already they claim to have taken out ore running 993 ounces silver and 15 per cent lead. Mr. Berkey exhibits samples rich in metal, and says they have mined so far about 60,000 to 65,000 tons. The reason they have not shipped before or two cars thus far is because of the absence of railroad facilities, the property being located about 26 miles southeast of Goldfield, and about 15 miles from Caliente, the nearest logical shipping point. It is hinted that negotiations are already under way looking to the running of a branch line from the last-named point, but Mr. Berkey declines to discuss this. That ore in this region is phenomenally rich cannot be doubted, and those familiar with the district are inclined to believe that Mr. Berkey and associates have undoubtedly struck it rich. They now have a total force of 22 men engaged in installing an air compressor and other machinery. Application has been made for the establishment of a postoffice and a populous and thriving mining camp will likely shortly be in evidence.

NEW ORGANIZATION.

Montana Exploration Co. Enters Field to Engage in Active Operations.

Harry Joseph, general manager of the Carls and Silver Shield properties, and other machinery. Application has been made for the establishment of a postoffice and a populous and thriving mining camp will likely shortly be in evidence.

SIERRA MADRE DISTRICT.

J. J. Burnham of Southern Pacific Property Highly Gratified.

Mr. J. J. Burnham, one of the principal owners of the Southern Pacific property in the Sierra Madre district, not far from the Mexican border, is in a discussion of that region. He exhibits ore rich in copper, silver and gold and investigation has further shown the presence of nickel and cobalt in large quantities. This district is conceded to be one of the most thoroughly mineralized in the state and will undoubtedly some day pay large dividends to the fortunate owners.

BOSTON COPPER.

Pollock & Co. give out the following copper price from Boston, received over their private wire: "The Boston market opened active and strong, especially for Amalgamated, North Butte, Bingham, Copper Range, Utah, Isle

Luther Burbank can improve upon most of Nature's products, but he'd have a hard time improving

HUSLER'S
FLOUR

Royal, Nevada and Trinity also shared in the activity and strength. A sharp reaction followed the decline in the market in the forenoon, although declines were only fractional, outside of high priced shares, closing regular."

BACK FROM CALIFORNIA

A. J. Davis Returns With Encouraging News of Inyo County.

A. J. Davis returned to Salt Lake Monday evening from a visit to Inyo county, California, made for the purpose of looking over some properties there. Mr. Davis states that a 100 foot ledge has been opened for a distance of 400 feet and can be traced for several hundred feet further, and excellent showings of silver and copper have been obtained. Lead in excellent values exists in large quantities within a few miles, and already the country is swarming with prospectors and others attracted by the phenomenal richness of the district.

Mr. Davis also visited one or two points in Nevada and says the reports of strikes near Churchill and Buena Vista are encouraging.

CONCENTRATES

Mr. Thomas F. Ashworth, mining lawyer, with offices in the Dooley building, spent Monday in Provo on a matter of business.

Capt. Tibbitts of Yerrington is at present in town. Capt. Tibbitts is one of the principally interested parties in the Mason Valley Copper company of Yerrington.

General Manager Raddatz of the Stockton Honoria property spent Monday in Salt Lake. Manager Shippton of the Cyclone mine of Stockton also spent the day here.

M. H. Lipman will leave Salt Lake for Idaho to look over certain interests in the Lipman Tunnel & Mines company. Reports from the property received up to this time are favorable.

A message has been received in Salt Lake to the effect that P. Posey of Los Angeles, Cal., and W. E. Mitchell have recently spent something like \$100,000 in buying up properties in the vicinity of Bullfrog, and are still buying.

Mr. George K. Kimball of Idaho Springs, Colorado, spent Sunday and Monday in Salt Lake City. The Taylor & Brunton Ore Sampling company acknowledges three from Bingham, five from Tintic and ten from Nevada.

E. H. Mead, the well known mining man of Salt Lake, is being heartily congratulated by his many friends on the success of his recent Nevada operations. Word was received Monday of the strikes on two of their three properties, and prospects are particularly good.

The Carls mine management announces that from now on they will ship 50 tons of ore a day and expect to continue this some time. Steady improvement is being made in the property, and a daily shipment of 50 tons even at this time is said to be easily possible.

Considerable activity was recorded Monday in the movements of the stock of the Montgomery Mountain company, on the Goldfield Exchange. A large number of shares changed hands, the price mark being reached during the morning.

Manager R. H. Channing of the Utah Con. left last evening for the eastern headquarters of the company. Mr. Channing did not care to say anything as to the nature of his mission, but the impression exists that the journey may have some bearing on a possible increase in the regular mid-summer distribution of profits.

A copy of the articles of incorporation of the Utah Treasure Hill Mining company was filed in the office of the secretary of state today. The company was originally incorporated under the name of the Treasure Hill Mining company, but as there was one company by that name in the state it was compelled to change its name as above given.

Nick Day of Fillmore gives it as his opinion that the bulk of the supplies for certain parts of Nevada come from Salt Lake City. He states that one has only to spend a few minutes on the platform at Ogden and take the amount of freight piled up for shipment to Nevada points, to become convinced of the fact that Salt Lake City is highly benefited by the mining activity of that state.

TODAY'S REALTY DEALS.

MARKET WAS
QUITE UNSETTLED

First Quotations Unchanged or
Little Higher, Dealings
Being Small.

NO RESPONSE TO U. P. RISE.

Aggressive Pushing up of Several
Stocks Did Not Impart Any
Strength.

New York, April 17.—Opening dealings in the stock market today caused a very small change from last night's prices. As a rule first quotations were unchanged or 1/4 to 1/2 higher and dealings were small. Pennsylvania was an exception, large purchasing carrying it up 1/2. American Locomotive and American Smelting were a large fraction higher.

Advantage was taken of the diversion created by the bidding up of selected stocks to sell at other points so that the general response to the rise in Union Pacific and the eastern trunk lines was slight. The movement upwards was not prolonged and the advances of 1 to 1 1/2 in Union Pacific, Pennsylvania and New York Central were not fully retained. Great Northern preferred, Northwestern, Colorado & Southern second preferred fell 1.

The tone was unsettled by a reaction of 1/4 in Amalgamated Copper, a drop of 1/2 in Consolidated and weakness in a number of minor specialties. Previous gains were largely reduced or wiped out. Dealings contracted and prices fluctuated uncertainly around the low level.

Bonds were steady at noon. Several stocks were pushed upward aggressively but the market did not impart sympathetic strength to arrest the advance. A pause in the afternoon selling did not result in any important rebound, the market holding only steady and becoming quite active.

LIVESTOCK.

CHICAGO.

Chicago, April 17.—Cattle—Receipts, 3,500; market steady. Hogs—Receipts, 10,000; market 5 cents higher, estimated tomorrow, 24,000. Mixed and butchers' steers, 3,500; heavy, 5.75; 6.25; rough heavy, 6.40; 6.50; lights, 6.50; 6.75; pigs, 6.50; 6.75; bulk of sales, 6.70; 6.80.
