There have been many remarkable 100-yard men be-fore Duffey's time, but none have ever remained at the top so long and ben so consistent in their performances. There is no doubt among athletes that Duffey, on the day that he put he world's rec-ord to 9% seconds, could have given Lon Myers, John Owen of Barney Wefers two yards' start, had they been present in their very best form. Duffey is undoubtedly the most highly specialized athlete in the annals of the track and field sport. He rarely ran any other distance than 100 yards, and, in fact, this is the only distance at which he tried to lower the record of 60 and 75 yards, but the best he could do was to equal existing figures. He can run 120 yards in record time, but never attempted to carry wonderful speed for a furiong. He is the only champion sprinter that we have ever had who could not run 220 yards in even time. Chicago, Sept. 20.-President Roore-velt today was voted by the Chicago Federation of Labor a 9.000-word letter of advice on the question of open shops. The letter was prompted by the decl-sion of President Roosevelt in the Miller ease, in which the president said that Miller or any other man must not be discharged from the government print-ing office on account of non-member-ship in a union.

Its opening paragraphs contained a definite disclaimer of any wish to at-tack Mr. Rooseyelt, the blame for the chief executive's attitude in the Miller affair being placed on a "coterie of cer-tain well known interests which are tain well known interests which are constantly on guard around the White House." The president was told that he fell into the error in his view of the question, "because of that impetuosity for which we love you."
