He Again Announces That Branch Will Go to Tenopah

Senator W. A. Clark, his brother J. Ross Clark, and the other members of the party, left Goldfield for Bullfrog and Las Vegas yesterday afternoon in a big touring automobile. During his stay in Goldfield the president of the Salt Lake Route was dined and wined the Monteguma club. In an inter view given prior to his leaving Goldfield Senator Clark again announced that he would extend the road now being built from Las Vegas to Tonopan

I have not bought the Goldfield and Bullfrog railroad survey and from what Mr. Brock told me I believe that his road will be built. It is now under construction, but that will not deter me rom the south. I will positively build road from Bullfrog to Goldfield and Tonopah. My surveying corps is now 31 miles out of Bullfrog on the survey and the next time I come into Goldfield I expect it will be over my refee that will deter me from building this road."

## GEO. F. M'GANN WANTED.

City Salesman for Produce Company Is Short in His Accounts.

Geo. F. McGann, city salesman for the C. J. Crabtree Produce company, is now badly wanted in this city. Although a complaint has not been issued against him there may be one charging him with imborgiement as Mr. Crabtee claims that McCann collected various soms of money from customers of the firm between April 1 and July II and appropriated the same to his own use. It seems that McCann got into trouble down at Eureka recently and was charged with obtaining money by false pretenses there. Shern Whitehead of Juab county came after McGann on hast Wednesday, but the latter secured the money somewhere and paid up so was not taken to Juab county for trial.

It now appears that he got the money to square the matter from some of the Crabtree customers and failed to account for it with the firm. Not only that but it is claimed that he has collected various sums from customers and failed to account for it. He disappeared on last Thursday and on Saturday Mr. Crabtree received a letter in McGann's handwriting without any signature which stated that the man was short in his 2 counts and would pay up as each as he secured a statement clowing the amounts collected from the various customers coverhim there may be one charging him with another position. The letter also contained a statement showing the amounts cellected from the various customers covering the entire period of the shortage. The total amount, according to the statement, and also to the books of the company, is 220. The letter was written from Ogden and a detective went up there yeaterday to look for MeGann, but could not locate him. It seems that McGain had got into trouble with a woman and bad used the money to settle that matter. Whether or not a criminal complaint will

# UTAH COLOR IN LOVE AND ROMANCE

Too Eusy With Wedding to Go After Man Who Jumped His Claim.

WILL LIVE IN SALT LAKE.

Story of Hardship, Work, Privation And Faith in "Just One Girl."

The New York World prints the following love and romance story that is hued by Utah color and which will be read with interest here:

When Louis D. Gordon, who "struck it rich" on Round Mountain, Nev., last March, was packing trunks at the Hotel Imperial for his wedding trip yesterday, a telegram came with this laconlc message;

"Dave Waddell has jumped your townsite with a placer claim. Better come back quick." Mr. Gordon, who is only 23 years old and whose marriage to Miss Cornella M. Windsor is to be solemnized in Holy tross Episcopal church. Plainfield, N. J., today, by Dean Redman, sent back

this brief telegram:
Too busy to return immediately, Tell Dave I'll attend to him in three weeks. Then Mr. Gordon resumed his pack ng and passed the booming town of Gordon to the back of his mind tem-perarily. He went to Plainfield last where his bride-to-be lives with Mr. and Mrs. Charles H. Smith at 128

After the wedding today there will be a honeymoon trip of two weeks in Maine and then Mr. Gordon will es-tablish his bride at Salt Lake City and assume charge again of Gordontown, which has increased in size from two tents to a place of 600 population since gold was discovered three months ago such paying quantities that Mr. Gordon's claim was capitalized at \$1,-

Around the wedding today hangs as pretty a romance as ever surrounded a pair of young lovers. It dates back to the summer of 1904, when young Gor-don, whose father before him had always spent his summers at Pleasant Point, N. J., went there to get the alkali dust of the Nevada desert country out of him.

LOVE SENT HIM BACK AGAIN. His last previous year in Nevada had been spent as cashler of the bank in Austin, and when he came east it was with a firm resolve to get a position in some broker's office in Philadelphia or New York and wear laundered linen every day. But the little god Cupid

disposed otherwise.

At the Hotel Carrollton, where the lithe young westerner stayed, was a little woman with blue eyes and brown hair and gentle ways, who was unlike anything he had ever seen or dreamed of in the western country. Miss Windsor had been reared in the home of wealthy parents, surrounded by every luxury and every advantage that money and refinement could com-mand. He fell in love with her promptly and, to his surprise, she surrendered her heart to him

His proposal of marriage was about the this: "I love you, and I shall like this: never love and never marry any other woman but you; but I'm too much of a man to ask you to share the lot I can offer you now. I'll go back to Nevada, which is no fit country for a white man to live in, but where a man can make money if he has patience and pluck, and I'll stay there till I've made enough to support a wife in the way you have lived and ought to live. And if you'll wait long enough I'll come back with my fortune and offer you my heart and hand. And if you get tired of waiting I won't blame you but, please, dear, wait for me."

The answer must have been satisfactory, because for two years Gordon buttled with fate and hard luck and alkali dust and life in a tent, and always

FORTUNE AT LAST.

He took the management of a mine on Round Mountain for a Pittsburg syndicate and then it was decided to abandon operations. He owed \$2,000 and had not a cent. He had done some prospecting himself on the south side of the mountain and he had just about paid off his debts when a wonderful surface deposit turned up on his own claim and Round Mountain began o attract prospectors from all over the mining country. Then a rival claimant appeared and

for a time it was a toss-up whether the Round Mountain country was to see some sensational shooting or a tedious and bitterly contested lawsuit. "I wouldn't have been hanged or anything like that," said Mr. Gordon reyesterday, "and if it hadn't been for this little woman back east I

usually do in Nevada when they beclaims unlawfully. But I figured that after all, the eastest way's the best and so I compromised. Then I laid out the town and had it accepted by the county commissioners-and that's all. "But about the bride-to-be?" was

suggested. Well," said Mr. Gordon, modestly,

"I think she's the most wonderful wom-an in the world; but I suppose every man thinks that, doesn't he, about the woman he loves? She's had a wonderful influence on my life. But for her I'd probably be waiting trial out there

# TWO WARDS AMALGAMATED.

North Morgan and South Morgan Wards Made One.

The members of the South Morgan and of the North Morgan wards of the Morgan stake of Zion assembled in the stake meetinghouse on Sunday at 2 p. m, the place being well filled. After the opening exercises, Elder C.

Judge Morse at the time expressed the desire that the matter be taken before the supreme court and a decision secured from that court so as to settle the matter so far as the Utah courts are concerned. The supreme court issued an alternative writ of mandate against Judge Morse returnable Sept. 3, upon which date the matter will be heard.

Many precious stones show a remarkable change of color in the pres-ence of radium. In late German exeriments a colorless diamond from Borneo became pale yellow after an exposure of eight days to impure radium bromide, deeper yellow in eight days more, and was not wholly restored to its original colorlessness by heating to redness. The light blue of sapphire turned to green in two hours, then to yellow, reddish yellow, ind, after 14 days, to yellowish brown. The color disappeared on heating, a light yellow invariably reappearing, however, when the stone became cold. The rays did not affect the color of the amethyst, ruby, blue topaz or chrysoberyl; but a tourmaline with a green end became green at any other point on which the rays acted.

WORKMEN AND POLICE COLLIDE

St. Petersburg, July 16 .- Sunday night witnessed the usual collision be, tween workmen and police and gendarmes in the industrial quarter of the capital. The most serious affair occurred on the Schlusselburg road, where a crowd of 3,000 persons attacked a steam street car which ran over a drunken soldier. The crowd stopped the car with the intention of lynching the engineer and conductor but were finally dissuaded by the pa-cific counsels of a workman.
