NOW THE FIREMAN DIES OF INJURIES

George Wiseman Follows His Engineer to the Beyond.

VAIN EFFORTS FOR LIFE.

Burns and Scalds Received on the Unh Central End in Mis Undoing.

George Wiseman, the unfortunate fireman who was so severely burned and scalded incident to the toppling over of a runaway engine on the Park City branch, July 24th, breathed his last at 1:30 o'clock this morning at St. Mark's hospital.

In consequence of the demise of the young man, Justice Sommer this morning concluded to discharge the jury in the case of J. E. Ferguson who was killed in the accident on account of there being no witnesses to testify in the case. The justice further concluded that in the case of Wiseman that no inquest would be necessary.

Wiseman was a young unmarried man of the city, who lived with his mother and has been in the employ of the Western for two years past.

The accident occurred at the 14 mile post in Parley's canyon where the runaway engine, without any cars at-tached, jumped the track at a curve on the grade, pinning both the engineer, J. C. Ferguson and fireman beneath a mass of coal and debris. Ferguson was practically instantly killed and subsequently scalded in a horrible manner; Wiseman, less severely injured. was taken into town to the hospital with the result that he never rallied from the shock and succumbed as above

NOW STANDARD GUAGE. Park City Branch Thrown Open to Heavy Traffic Today.

The first standard guage passenger train was run over the Park City branch this morning without any hitch or delay. It did not take the 250 men who were distributed along the track yesterday afternoon many hours to pull up the extra rail and make the neces-sary connections at the point where the

new grade Joins the old.

When the morning train pulled out in the forenoon it carried a big force of men which was distributed along the line from Gogorza to Park City. At noon the narrow guage engines at Park City pulled out all the rolling stock of the old pattern that was at that end of the line to bring the equipment down to Sugar house where it was sidetracked. Just as soon as the regular passenger train left Park City in the afternoon the men commenced to take up the third rail with the result that by midnight the work was completed and the old narrow guage road was a thing of the past. The tunnel is in good shape and everything is now in reudiness to accommodate the rapidly increasing business of the branch road.

FEEDER FOR SHORT LINE. Extension Said to be Scheduled Into Salmon and Custer.

It is stated on authority that is unquestionable, says the Pocatello Trib-une, that the Short Line company has for some time past had an agent in the Custer and Salmon river countries investigating the business that could be developed by a branch railroad into that section. This agent has just made his report and upon it will depend the decision of the company to build or not decision of the company to build or not

It is known that the company has made two surveys with Arco as their objective point—one from Duhols and another from Minidoka. There is, however, known to be a strong senti-ment among Short Line officials in favor of starting the proposed branch from Pocatello. While the latter plan would necessitate the bridging of the Snake it is thought that the extra business from the Danielson Springs settle. ment would more than pay for the ex-

Heir to the Italian Throne-Officia News of the Assassination Sent to United States.

London, July 30 .- Perhaps in no country was the news of King Humberts as. sassination received with deeper sympathy and greater horror than in Great Britain. For the last few years, and more especially for the last few months during the South African war, the Italian ministers, reflecting the attitude of the throne, have shown an undying friendship for Great Britain even when the rest of Europe was inveighing

against England and her policy. Queen Victoria, naturally, was horrified at the news. She immediately telegraphed her condolences to Queen Mar-

gherita. It is stated in official circles that the recent release of Sipido, the assailant of the Prince of Wales, as he was passing through Belgium, has been followed y an enormous increase in the circulation of anarchistic literature advocating regicide. It is thought exceedingly likely that the assassination of King Humbert is directly traceable to misplaced leniency,
