CINCINNATI, 28.—At Rogersville, Ohio, on Saturday night, during the trial of a man calling himself Jeff Davis, for raping a nine year old girl, the lights in the room were put out and the prisoner was dragged out of doors, and shot twice with revolvers, and dragged by the heels two squares and hung to a tree till he was dead.

A band of Ku Klux raided the farm of Mrs. Mason Brown, the mother of B. Gratz Brown, Owne Co., Ky., on Friday night, and killed Louis Wilson, colored, burned his house down and damaged other farm property. The farm contained large growing crops of corn and tobacco, which it will be difficult to harvest in the absence of the labor driven off by the Ku Klux. Other farms were visited by them, and the owners warned against employing negroes.

WASHINGTON, D. C., 28.—The July agricultural report, just sent to press, represents improvement in winter wheat, but a decline in prospects of spring wheat on account of unseasonable weather in some quarters and insect enemies in others. The average in corn is increased in West Virginia and Minnesota, and decreased in all other States except Florida and Arkansas, where it remains the same as last year. Corn planting was everywhere retarded by the weather, and in many cases corn has been several times replanted. An unusual complaint of decayed seed is made in all parts of the country.

MOUNT HOLLY, N. J., 28.—J. J. Early, of Lancaster, Pa., was found this morning about two miles from this place, with his throat cut almost from ear to ear, but not dead; he stated that he had been waylaid and robbed by three colored men. There are slight hopes of his recovery.

NEW YORK, 28.—London papers of the 18th give the reply of the Shah to an address sent him on the subject of religious liberty in Persia. He says, in substance, that toleration is already universal in Persia, no one, whether Christian, Jew or Parsee, being subject to persecution on account of his religion. He will give the subject his best attention on his return to Persia, and take care that justice shall be shown all without distinction of class or creed.

The London Times of the 16th says that Mrs. Cline, an authoress, was writing in her bed on the evening of the 14th instant, when a spark flew from the fire and ignited her dress, and before assistance arrived the lady, who for years had been a confirmed invalid, was burnt most fearfully, and died the following morning.

NEW YORK, 28.—The Vienna correspondent of the Tribune says the trial of mowers and reapers, which took place on the 9th inst., was a complete triumph for America. At the last moment the English and French backed out, and there were only four European machines on the ground to fourteen reapers and fifteen American mowers. All the American machines did their work well except one, which broke down at the start through no fault of the machine, but through the stupidity of the driver. The arrangements were stupidly defective. There was no programme and no system. Most of the teams were unused to the work, and gave a good deal of trouble. Some were immense, powerful stallions, others wretched, raw-boned beasts, that could scarcely pull the machines. Then the grain differed greatly in different parts of the field, so the trial with such unequal conditions was no test as far as speed was concerned. Doctor Warder, who was entitled to sit as one of the jurors, declined. The exhibition protested against him on the ground that he was interested in one of the machines, so America went unrepresented, and the jury was composed entirely of foreigners. It is reported that all the American mowers and reapers that took part in the trial will get medals, some for progress, others for merit. The awards won't be made until next month.

TOPEKA, Ks.—John G. Page, who began an action in the district court of this county to recover \$7,000 paid into the Kansas legislature by A. M. York, dismissed the case to-day by paying all the costs. The suit was to recover the money

now in the hands of the State treasurer on the ground set forth by Pomeroy, in his defence, that the money was given by Pomeroy to York to be given to Page to aid in the establishment of a bank at Independence. It was set for the 11th of August, and it was thought that a continuance would be asked, as all the testimony involved in the criminal action against Pomeroy would naturally be adduced. It is now a very puzzling question whom the money belongs to, as it is positively understood that Pomeroy will set up no claim to it on his own account.

The Japan brings Yokohama dates to July 7th. The Japan Gazette defends minister De Long, and says there is universal sympathy for him and indignation at the charges preferred against him. It says the United States was never better served in the empire than by him. The inspector of consulates sent from Washington was overhauling the consulate. Political affairs generally were quiet. An insurrection had broken out on the island of Kinsin and troops had been sent to quell it. It was reported that as soon as the mission to Europe returns all Japan will be thrown open to foreigners. In the province of Fie Kawoken twenty thousand farmers had rebelled on account on the land tax; they had destroyed the officials' houses and raided generally through their section. A man of war and troops had been sent against the rebels. Yeddo is to have a new post office. The Japanese mania for rabbits was dying out, but had produced some tragic results. A few days since a young man killed his father on account of a rabbit trade, and was crucified for the crime. Another man spent a fortune for two rabbits, which died the next day. He then sold his young daughter to the keeper of a brothel, and with the price of her virtue bought more rabbits. The Hakodadi rebellion had ended and quiet was restored.

The steamer Japan, which arrived this evening from Hong Kong and Yokohama, brought 1,200 Chinese passengers, all of whom landed.

Robert Butler, formerly of Oregon, was sent to the insane asylum to-day. He thinks that swarms of insects are holding anti-Chinese meetings in his stomach, and that enemies are constantly pursuing him.

GRASS VALLEY, 28.—The Colfax and Grass Valley stage was stopped last night at 7:30 o'clock, while on the way here, by four men, about five miles from here. They unhitched the horses, ordered the passengers out, and blew open Wells, Fargo's safe. The robbers got about \$7,000 or \$8,000 in coin. None of the passengers were molested.

LOS ANGELES, 28.—An army correspondent at Wickenburg, Arizona, writing July 20, says that the supplies for the Indians on several of their reservations are about exhausted and grave apprehensions are entertained of trouble in consequence. It is said that the appropriations have all been used up in ruinous contracts. The agent at Date Creek absolutely refused to receive certain supplies furnished for the Indians under his charge, claiming that besides being of the poorest quality, the price paid was double that paid for the best quality of the same kind of articles for the troops.

YOSEMITE, 27.—The Yosemite Turnpike Co., during the past week, have had a corps of surveyors at work between Gentry's Station and Yosemite Valley, for the purpose of ascertaining the practicability of the construction of a trail or wagon road into the valley. Levels have been taken and the distance measured, and the fact ascertained that an excellent road can be made at a grade of eight feet in a hundred. They are now permanently locating the line, preparatory to commencing operations, and it is expected that the road will be completed in time for tourists next season.

The notorious Wes Allen, a Sing Sing convict, refused yesterday to join a party of fellow convicts, who were being sent to Auburn State Prison. He retreated into his cell and armed himself with a knife, and when the prison authorities were about to attack him there, he pointed to a can of nitro-glycerine which he had with him in his cell, and threatened to blow up the prison if molested. The officers then retreated.

BALTIMORE, 29.—The number of buildings destroyed by the fire on Friday last was 113, of which sixty-

four were three-story brick houses, 23 two-story brick houses, eighteen four-story brick houses, two churches, three school houses, four restaurants, three boarding houses and four stables.

KANSAS CITY, Mo., 29.—It is reported that the Iowa railroad robbers crossed the Missouri river, some twenty or thirty miles below here, and they are now at their rendezvous, in Jackson county.

PHILADELPHIA, 29.—The rains yesterday extinguished the fires raging in the woods along the line of the Camden and Atlantic City R. R. For a distance of twenty miles the ravages of the fire can be seen in the blackened trunks of trees, and burned corn fields and orchards. Farm houses escaped through the exertions of the people.

SARATOGA, N. Y., 29.—The race for the Saratoga cup, two miles and a quarter, was won by Joe Daniels. The selling race, all ages, mile and a quarter, was won by Chickabiddy, Artist second. Time 2:13.

WASHINGTON, 29.—A board of officers is considering the plan submitted by Captain Howell for a ship canal to connect the Mississippi river with the gulf of Mexico.

Correspondence between the post office department and Great Britain, with a view to establish exchange of postal cards at a low rate of postage has closed. The British authorities declined the proposition on the ground that they are opposed to any lower rate of postage than that now paid on letters. The proposition of the U. S. was to have exchange postal cards by addition of one cent postage, same as we now have with Canada.

"Way down in Maine," among the mountains, lives a rough farmer who seldom goes to church. A new minister coming into the place, called upon him, as it happened, just at dinner time. He was invited to "hitch up his chair." When he had done so, in that quiet moment which precedes the battle of knives and forks, "Uncle Luther," as he was called, nudged him under the table, saying: "Now touch her off, parson," and the parson comprehended, and said "grace."
