THE CHANGE OF LIFE

Is the most important period in a wo man's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sending

the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dan-gerous, nervous trouble. Those hos flashes are just so many calls from nature for help. The nerves are cry-

ing out for assistance. The cryshould be beeded in time Lydia E. Pinkham's Vegetable Compound was propared to meet the needs of woman's system at this trying period of her life. It builds up the weakened nervous system, and enables a woman to pass

that grand change triumphantly. "I was a very sick woman, caused by Change of Life. THE MAYBRICK CASE.

Medical and Legal Aid Society Will Take It Up at Once.

New York, Jan. 24 .- Clark Bell, presi-

dent of the Medical and Legal Aid soclety, has announced that his society has determined to take up the Maybrick case at once, and that the chances are now more favorable than ever for the pardon or acquittal, after fair trial, of the American woman under sentence of life imprisonment in England, charged with murdering her husband by

The taking up of the case is due to the attitude which the new king of England is known to have assumed loward Mrs. Maybrick. It is said that England he has made it no secret that he favors her pardon.

more than ten years the Medical and Legal Aid society has been active in its endeavors to secure the release of Mrs. Maybrick, believing that she was unjustly sentenced. The mem of the society have never thought that Mrs. Maybrick would be released as long as Queen Victoria lived. However, the society has continued to gather evidence to prove that Mrs. Maybrick was not fairly tried and that the judge who sentenced her, Sir Fitzjames Stephens, was of unsound mind when he tried her case. The most important evidence in favor

of a re-opening of the case for the par-don of Mrs. Maybrick is a letter to Mrs. Maybrick dated June 27, 1895, from Lord Russell, of Killowen. In it Lord Russell declares that Mrs. Maybrick was never proved guilty.

It is understood that Ambassador Choate favors the release of Mrs. Maybrick and has only awalted an opportunity to present her case to the new ome secretary.

San Diego, Cal., Jan. 24.—The battle-ship Iowa, which has been on a cruise to the south as far as Central America, has arrived here with Admiral Kautz. New York, Jan. 24 .- A dispatch to the

World from London says: Prime Minister Salisbury's absence from Osborne house during the queen's last moments has not been publicly explained and causes widespread spe culation, especially in court and political circles.

According to information that has reached your correspondent through a sure channel, Lord Salisbury remained away owing to the strained personal relations between him and the present

king. The Times, in an editorial on the new king partly affords a clue to the mystery where it says: "We shall not pretend that there is

nothing in his lengthy career which those who respect and admire him could not wish otherwise."

These warning words are said to re-fer not to the Mordaunt case of thirty years ago, nor even to the Tranby Croft scandal, but to a more recent episode concerning which the Marquis of Salisbury, on behalf of the queen, read the Prince of Walos a severe lec-ture, which accounts for their now reported unfriendly relations. The serious aspect of this matter is that under such a condition of things Lord Salisbury's tenure of the premier

ship cannot endure long and then the unionist government will go to pieces. PATRONAGE OF THE NEW KING
